

Panasonic portable projectors a 'World's first'

PT-VW355N

LCD - 4000 lumens - WXGA - Intel® Pro WiDi

Portable LCD Projectors
PT-VW355N/VW350/VX425N/VX420

KEY FEATURES

- LCD, 4000 lumens, WXGA
- Flexible installation for wide range of applications
- Wireless functionality support for multi-platform and next generation wireless technology, WiDi compatible
- 4 years (7000 hours) replacement cycle for both lamp and air filter (when used for 8 hours per day)
- Superb performance in a compact and lightweight body (approx 3.4 kg)

The Panasonic compact PT-VW350 series is the industry's lightest and smallest 4000 lumen class LCD projector, with capability for wireless mirroring of PC and Android™ devices.

The portable projectors of this series feature an industry-beating 10,000:1 contrast ratio and, thanks to an innovative cooling system, they are the lightest in their class at just 3.3 kg and 3.4 kg for network models.

As well as superior brightness and contrast over legacy models, lamp replacement has also been extended to 5,000 hours (7,000 hours in Eco Mode), resulting in lower total cost of ownership.

Together with enhanced Miracast connection for Android devices and proprietary apps for iOS, Android™, and PC, these wireless solutions allow free

collaboration and communication in the office and classroom.

All models include an HDMI input, monitor out, and two D-sub inputs as well as an inbuilt 10W speaker. Network variants allow the addition of a memory viewer for easy media display via a USB memory stick.

The four model series comprises of the PT-VW355N (WXGA, 4,000 lm) and PT-VX425N (XGA, 4,500 lm) and two non-network variants, the PT-VW350 (WXGA, 4,000 lm) and PT-VX420 (XGA, 4,500 lm), both with similar base specification.
