Product Features

- Stylish and minimalist style, aluminum alloy with piano baking varnish, calm and luxurious, novel and durable.
- Replaceable nib design, no fear of wear and tear! New upgraded tilt and thickening function, the larger the pen tilt area, the thicker the line
- The tip of the pen is made of special conductive materials and finely ground. Artificially create a smooth pen tip to prevent damage to the screen
- Products compatible with iPad 2018 after model (specific model to see product parameters) can be written, painted, recorded
- Continuous use for up to 8-10 hours (for reference only), 5 minutes without using smart power off

Instructions for use

- iPad version is not lower than 12.2;
- Open Settings-Apple Pencil-Turn off only use Apple Pencil to doodle
- Turn on Settings-Bluetooth and close the connection of the original Apple Pen.
(After the above settings are completed, the product can be used normally.)

How to Use

- Double-click the top of the capacitance pen to turn it on, and the indicator lights up blue to start using. Touch the top of the capacitance pen again to turn it off, and the indicator lights out.

Tap the power on and off twice
- With magnetic adsorption function, it can be adsorbed by lightly putting it on, like Apple Pencil can be adsorbed on the tablet

- Detachable and replaceable nib design, no need to worry about wear and tear! (Lightly twist the nib for easy removal / installation)

(Disassembly) (install)

How to Charge

- Please use micro usb/Type-C charging cable to charge, and connect one end to the usb interface of stylus and the other end to the USB interface of computer or tablet. (FIG 1)

(FIG 1)
- Please connect one end of the data cable to the pen and the other end to the 5V DC power adapter.(FIG 2)

(FIG 2)
- Directly plug the 5V mobile power supply with usb interface into the stylus to charge. During the charging process, the indicator light will light up, and the whole charging time is about 90 minutes.(FIG 3)

(FIG 3)
