ENGINEERING APPRENTICESHIPS

Why choose Kohler Mira for your Engineering apprenticeship?

As a Kohler Mira apprentice, you will have the opportunity to experience working within a leading UK business, whilst being supported through your studies.

We offer you the chance to rotate through our engineering functions from manufacturing to Product Design. This gives you the opportunity to learn a wide range of skills along the way, and discover which business area excites you most.

You will have an Apprentice Manager who will support you through your apprenticeship, as well as the guidance of mentors across the business. We will work with you throughout your apprenticeship to explore your next career steps.

The Apprenticeship Schedule

At this stage an individual will have completed their Advanced Apprenticeship.
From this point, one of several routes can be chosen dependant on performance and business requirements.

Working at Kohler Mira

- We're market leaders in UK showering and commercial care
- We're part of KOHLER Co. a family owned global business
- Gain an understanding of product design, testing and assembly
- Experience state of the art manufacturing processes with dedicated teams supporting and ensuring quality throughout
- Find out how we design award-winning products and why we have 70 registered patents to date
- See our cutting edge technology: robotics, automation, 3D printing
- Be part of a creative culture where passionate individuals work together to make the everyday extraordinary
- Enjoy a wide range of development opportunities from global travel to university degrees

Apprenticeship Benefits

- ✓ **Starting salary of £11,500**
- ✓ **Bonus of £500 – £1000 upon starting and £500 upon successful completion of the first year**
- ✓ **3 or 4 year apprenticeship (length of apprenticeship tailored to the individual)**
- ✓ **Guaranteed job at the end of your apprenticeship (subject to performance)**
- ✓ **A line manager supports each apprenticeship through the whole programme**
