<p>FAQ</p> <ol style="list-style-type: none">Why the headphones cannot be turned on? Check if your headphones have enough battery life. If not, please charge them for at least 30 minutes.Why the headphones cannot connect to my cellphone, or take a long time to connect? 1) If the earbuds cannot pair to one another, and only one earbud will pair with your cellphone, then put both buds back into the charging case and quickly press the pairing button 3 times, click the device name, they should now pair correctly to the phone. 2) To pair the earbuds to a new cellphone, simply place them into the charging case and depress the pairing button for 2 seconds. Then click the new device name and pair with the new cellphone.Why the headphones cannot play music after successfully connecting to my Android device? After pairing successfully, on the Bluetooth menu of your device, tap the icon on the right of your device name and make sure the "Media Audio" option is on.Why there is no sound from the headphones while making phone calls after successfully connecting to my Android device? After pairing successfully, on the Bluetooth menu of your device, tap the icon on the right of your device name and make sure the "Phone Audio" option is on.Why the Bluetooth connection is not stable and causes some interruptions? 1) Try shortening the distance between your headphones and device. Avoid solid barriers in between. 2) Please keep away from strong interference sources, such as Wi-Fi and GPRS. 3) Please make sure the Bluetooth antenna of your device is not blocked.Why some control functions do not match those in the manual while using third party music/video player App? Your operating system and the third party music/video player apps may have different settings for the in-line remote control functions. We recommend that you use the music/video player apps that your device has originally provided.I turned the headphones up to the maximum volume, but why the actual volume still sounds low? In different operating systems, especially some Android systems, the headphones and your device have separate volume control systems. Please adjust the volume controls on both the device and the headphones according to your preference. <p>* For more detailed product FAQs, please visit the product support section under www.1more.com</p>	<p>WEEE</p> <p>Electrical and electronic equipment, parts and batteries marked with this symbol must not be disposed of with normal household waste; it must be collected and disposed of separately to protect the environment.</p> <p>Your 1MORE retailer will advise you of the correct way of disposal in your country.</p> <p>Safety Caution</p> <p>Do not expose batteries or battery packs to excessive heat such as sunshine, fire or the like.</p> <p>CE</p> <p>Declaration of Conformity Hereby, Tintlab Acoustic Technology Limited declares that the radio equipment type 1MORE ComfoBuds Pro True Wireless In-Ear Headphones ES901 is in compliance with Directive 2014/53/EU.
