

Laundry Solutions

2020

BOSCH

Invented for life

EUROPE'S
BRAND NO.1*

*For major domestic appliances. Source: Euromonitor, volume sales, 2019

Why choose Bosch?

Quality comes from experience

Before our washing machines leave our factory, we test every tiny detail and subject them to extensive stress tests. Only when every one of the 1,000 or so components in our washing machines meets our high standards of function, quality and reliability 100%, is a Bosch appliance ready to face its most important challenge: being used by you at home.

Carbon Neutral by 2020

Robert Bosch have committed to carbon neutrality by 2020. This covers all manufacturing, administrative and research facilities through prioritising efforts to improve both energy and resource efficiency. This will make Bosch the first major industrial enterprise to achieve complete carbon neutrality by 2020.

Sustainability

This signet denotes products that focus on energy and water efficiency while achieving top performance based on Bosch technologies – and, like all Bosch products, have been manufactured with the aim of minimising their impact on the environment. The signet stands for the resource-efficiency of our products – quite simply, for their 'Green Technology'.

10 Year EcoSilence Drive® motor warranty

The EcoSilence Drive® is Bosch's most powerful motor to date. Instead of supplying electricity to the rotating armature via carbon brushes, we equipped the armature itself with extremely strong permanent magnets. As a result, we are able to offer a 10-year motor warranty on washing machine models that feature the EcoSilence Drive®.

Bosch AllergyPlus program

Our Series 8 and HomeProfessional washing machines with Bosch AllergyPlus, wash with a 60°C program that ensures 99.99% of bacteria will be removed*. Making sure you get hygienically clean clothes after every wash.

*99.99% bacterial reduction as tested by TÜV SÜD PSB Singapore on 16 Oct 2019 on 'AllergyPlus' wash program at 60°C for a recommended load of 4kg.

Choose the right laundry appliance for your household needs.

All Bosch washing machines and HeatPump dryers offer advanced technologies across the ranges, with additional options to suit your lifestyle needs. To help you choose the right Bosch laundry appliance we have divided them into the ranges below.

HomeProfessional: Best in class.

Our **HomeProfessional** combination, with premium design, has all the programs to support your lifestyle and guarantee the best fabric care. The **HeatPump** dryer is known for its drying speed and quiet operation.

Fast dryer technology pumps in air at a higher operating temperature, drying your clothes up to 8 minutes per kilogram faster than other Bosch HeatPump dryers. Additionally, our HomeProfessional **i-DOS** self-dosing washing machine is equipped with **automatic stain removal programs**, to easily get rid of 16 of the most common household stains, including grass, coffee and red wine.

Washer

Dryer

Series 8: Innovations and extra features.

The appliances of **Series 8** not only fulfil all of the demands for perfection, but their clever sensors and functions also reduce your work. The **i-DOS** automatic, self-dosing system adds the optimum amount of liquid detergent for every load. Our dryers with **ActiveAir technology** reuse air efficiently during the entire drying process resulting in up to a 9 star energy rating. The **SelfCleaning Condenser™** saves you the trouble of cleaning, ensuring your dryer performs at its best, load after load, and leaving you with more time to spend with your family. In short, our Series 8 range achieves perfect results with ease.

Washer

Dryer

Series 6: For a little more.

Our **Series 6** range offers great value for money without compromising on our Bosch quality. Our washing machines with **ActiveWater™ Plus** technology have advanced pressure and water sensors to measure the washing load and adjust the water intake to up to 256 precise levels during each cycle. This helps protect our environment by saving water, plus you benefit from reduced costs. The matching Series 8 **HeatPump** dryers are also known for their **sensor technology**, which monitors the residual moisture and temperature during the drying process to ensure garments are protected and dried with high energy efficiency. Our Bosch **Washer/Dryer** combines the best of both worlds, allowing you to wash and dry your laundry in only 60 minutes.

Washer

Washer/Dryer

Wash+Dry

Series 4: The everyday performer.

The **Series 4** washing machines with the **EcoSilence Drive®** are not only user-friendly, durable and extremely quiet, but they always get your laundry perfectly clean using the least amount of energy. The **Series 4 HeatPump** dryer with the sensitive drying system provides gentle drying.

In everyday family life, entire mountains of laundry seem to build up. Sometimes you need them to be washed quickly, which is why we have developed **SpeedPerfect**, a wash option that operates up to 65% faster. Alternatively, if you prefer an economical wash, our **EcoPerfect** wash option allows you to save up to 50% energy.

WAW28620AU

"Simple to use, and the i-DOS system means we don't have to worry about detergents every time. Even the kids are using it now!"

Incentivised review.

*Average rating for WAW28620AU is 4.8 stars.

i-DOS: the automatic self-dosing system.

Protecting our clothes and the environment.

Using too much detergent can result in higher water and energy consumption, as well as visible accumulation of detergent residue on your clothes. On the other hand, too little detergent may lead to stains not being completely removed, discolourations and unpleasant odours. Bosch i-DOS solves this problem by carefully determining the exact wash conditions before dispensing the precise amount of detergent to deliver perfect wash results, all while maintaining the best fabric care.

Correct Dosing with i-DOS:

i-DOS, the integrated automatic dosing system, dispenses the correct amount of liquid detergent to the very millilitre. That means, less guess work and no more incorrect dosing – and a saving of up to 7,062* litres of water a year.

*Source: wfk, Institute for Applied Research, Survey Report WL5132/10 (Germany)

Manual dosing

If you prefer, you can of course continue to dose manually for all programs, except the automatic ones. This is ideal for when you wish to use a special detergent, powder or stain remover.

... i-DOS drawer 1

Add up to 1.3 litres of liquid detergent (e.g. universal or colour) to this drawer.

..... i-DOS drawer 2

Add up to 0.5 litres of liquid detergent or fabric softener to this drawer.

i-DOS programs

The unique i-DOS automatic dosing system doses liquid detergents and fabric softener with maximum precision. Special sensors determine the laundry's weight, type of textile and, in the automatic program, even the degree of soiling.

What could be more simple? Fill up once for up to 26 washes.*

You can rely on this convenience: fill up once and save every time you wash. Thanks to intelligent automatic dosing and automatic programs, the Bosch i-DOS always does everything exactly right.

This is how i-DOS works:

Sensors calculate three factors; the laundry's weight, fabric type and, in the automatic programs, even the degree of soiling.

Based on these factors, the optimum amount of detergent is dispensed.

Laundry weight

Fabric type

Soiling level

*Based on OMO Ultimate Liquid Detergent – average 50ml dose for a normal load.

Save more time, water and energy than ever before.

The latest Bosch laundry appliances give you peace of mind when washing your clothes. With a range of advanced technologies across our models, your clothes are washed perfectly and energy efficiently.

ActiveWater™ Plus: Technology that saves on running costs and the environment, thanks to the efficient water management system.

ActiveWater™ Plus technology takes this to the next level of intelligence, boasting up to 256 load levels which can detect the precise amount of water flowing into the machine. This means that 1kg of laundry can be washed just as efficiently as a full 10kg load.

VarioPerfect™: Wash faster or more energy efficiently.

VarioPerfect™ ensures top wash results for all types of fabrics and every load. With VarioPerfect™, you can set most programs to be quicker or more efficient with the SpeedPerfect and EcoPerfect functions. This reduces time by up to 65% or energy by up to 50%.

Features and functions for everyday use.

10 Year
Motor
Warranty

EcoSilence Drive®

Setting a new benchmark in energy efficiency, the EcoSilence Drive® motor works without brushes to eliminate mechanical stress, friction and wear – providing better washing performance. As there is no friction, there is also no excessive motor noise. That makes the EcoSilence Drive® one of the quietest motors in its class and the best example that 'less can indeed be more'.

ActiveWater™ technology

All Bosch washing machines feature an automatic load sensing function that adapts the water consumption to the relevant load size.

AntiVibration™ side walls

The design of the side walls is not only eye catching, the system also provides greater stability and reduces vibration. The enhanced insulation also regulates noise levels, making Bosch washing machines very quiet even during the spin cycle.

Asymmetrical porthole

The glass of the special asymmetrically curved porthole softly projects into the VarioDrum. It gently returns washing back into the centre of the drum on each rotation, ensuring even circulation.

Sensor technology

A network of intelligent sensors automatically controls the wash process, not only ensuring perfect wash results, but minimising water and energy consumption.

AquaStop™ anti-flood protection

The AquaStop™ system provides 100% anti-flood protection*.

Advanced AquaSecure™ anti-flood protection

The self-sealing hose minimises the risk of flooding.

User-friendly interface

Stylish, straightforward control panel with JogDial and LED display for easy selection of wash programs, spin speeds, temperature and other functions.

Child lock

For added safety, the door can be locked manually to prevent children from accidentally opening the door. The buttons can also be locked to prevent tampering during operation.

VarioDrum

The Bosch VarioDrum design is gentle on your clothes, offering the best in garment care.

EcoProjection

An LED bar displays five possible levels of water and energy consumption per kilogram, giving you an indicator of the resource efficiency of your chosen program/option combination. The less bars shown, the greater the resource efficiency of the wash cycle.

Features vary depending on model. Please check individual product specifications.

* Must be connected and switched on at the mains.

Your guide to our wash programs and options:

AllergyPlus

Our Series 8 and HomeProfessional washing machines with Bosch AllergyPlus, wash with a 60°C program that ensures 99.99% of bacteria will be removed*. Particularly suited for items that need to be hygienically clean such as towels, bed sheets or pillow cases.

Delicates/Silk

A wash program suitable for silks, delicate viscose and synthetic items. The standard wash temperature is preselected at 30°C, and depending on the fabric wash instructions, may be increased to 40°C or even reduced to a cold wash to provide a temperature-controlled wash.

Wool

The wool program is tailored to ensure optimum treatment of wool garments. It offers a gentle wash action at an optimum temperature of 30°C. The gentle spin at the end of the cycle extracts water gently, which helps garments retain their shape.

Temperature selection

Manually adjust the temperature of the wash cycle to suit the specific garments in the load.

Pre-wash

For stubborn stains or heavily soiled garments, a pre-wash loosens dirt and removes it prior to the main wash.

Quilts

This program uses higher water levels for washing and rinsing. Ideal for washing larger textiles such as quilts, duvets, blankets, bed covers and pillows filled with synthetic fibres up to 2.5kg.

Night Wash

The end sound is switched off in this program, making it suitable to be run at night. It washes at 40°C with a spin speed of 800rpm resulting in lower noise output. Suitable for cotton, synthetic fabrics or blended fabrics. Maximum load capacity 3.5kg.

SuperQuick 15/SuperQuick 30

A short wash program of approximately 15 minutes for up to 2kg of lightly soiled washing or a 30 minute wash program for up to 3.5kg. A wash with extra rinse cycles and improved rinse spinning, this is one of the shortest complete wash programs.

Easy Iron

Clothes are tumbled gently during the normal program spin cycle and then at the end of the spin phase. This keeps laundry fluffy and tangle-free for reduced creasing and easy ironing.

*99.99% bacterial reduction as tested by TÜV SÜD PSB Singapore on 16 Oct 2019 on 'AllergyPlus' wash program at 60°C for a recommended load of 4kg.

Sportswear

The Sportswear wash program is designed specifically for performance and sports fabrics with micro-fibre technology, like those used for gym, cycling or jogging. The program offers two rinse cycles with a gentle washing action for greater fabric protection.

Shirts/Blouses

This program is ideal for up to 2kg of shirts and blouses. The gentle spin cycle makes ironing effortless and for greater convenience, no-iron shirts can simply be hung to dry.

Start Delay

With the 24hr Start Delay, you can enjoy even more flexibility. Simply preset the required end time for the washing machine program to be completed by. That way, your washing will be finished exactly when you want.

Mixed Load/Mix

A program designed to wash mixed fabrics of up to 3.5kg in approximately 60 minutes. Ideal for garments that need to be washed urgently, without the need to wait for a full load.

Easy Care/Synthetics

Recommended for synthetic and blended fabrics up to 4kg, with a temperature of 60°C.

Cottons Eco

For even greater efficiency, Bosch has developed a program for the resource-savvy. On selected models, the Cottons Eco wash program offers an initial 60 minute wash cycle before the first rinse. Ideal for light-to-medium soiled garments, a longer wash reduces resource consumption, while still providing impressive wash results.

Dark Wash/Jeans

Dark clothes, particularly jeans, often need special treatment. The Dark Wash/Jeans program suitable for cotton and synthetic textiles, features low water temperatures, which provide better wash results for darker garments. The gentle washing action helps protect fibres against bleeding and keeps dark clothes looking new.

Drum Clean with reminder

To prevent odour build-up, a regular drum clean is recommended if you regularly wash at 40°C or lower. An LED reminder function will flash after more than 20 washes (of 40°C or lower) when a drum clean is required.

Bosch solutions for your laundry care.

Do you need to add an item during the wash cycle?

The 'reload' function on our washing machines allows you to add a forgotten garment after the wash cycle has started. You can add items of laundry immediately during up to 89% of the wash cycle, while it is within safe water and temperature levels.

QuickWash

Our current washing machine range also includes a 15/30 min SuperQuick wash cycle, which is suitable for up to 2kg (15 min program) and 3.5kg (30 min program) of lightly soiled laundry.

Night wash program

The Night wash program turns off the sound at the end of the cycle. This way you can easily run your washing machine at night.

Never miss an item again, with Reload.

Forgot a kid's sock, your t-shirt,...?
Nevermind.

The reload function in our washing machines lets you simply add or remove clothes even during a wash cycle*. Just press the ►|| button to pause the running cycle and open the door, then simply reload your forgotten items and continue the wash.

*Reloading is not possible when suds temperature is higher than 50°C or when water level is too high.

Bosch Washing Machines.

Standard features included across our range:

EcoSilence Drive®, AntiVibration™ side walls, Reload function, Automatic load adjustment, Time remaining indicator, End-of-cycle signal, Foam detection, Child lock.

WTW87564AU

"Looks after your clothes perfectly."

Incentivised review.

*Average rating for WTW87564AU is 4.9 stars.

Perfect programs for your favourite fabrics.

When it comes to caring for your favourite items Bosch has you covered. With specially targeted programs and our fabric-protecting drum structure, your clothes are in the best hands when it comes to washing and drying.

Suitable Bosch programs

Silk

Take extra care when it comes to your delicate items, simply wash with the **Delicates/Silk**. Then dry with the **Low Heat Delicates** program in our HeatPump dryer to ensure your sensitive textiles are always protected.

Cotton

Wash and dry with the Bosch **Cottons** program featuring a wide temperature range to achieve great results for your everyday clothes. Or try our **SuperQuick** programs for your smaller loads to get the laundry done from as little as 15 minutes.

Wool

With the Bosch **Wool** program, your favourite knits are washed at the perfect temperature paired with a gentle wash process. With the **Wool in basket program** your woolen items can be dried without any mechanical action.

Serie | 8

WTW87566AU

*"Outstanding performance,
no noise, best drying results
and easy on clothes"*

*Average rating for WTW87566AU is 4.6 stars.

Save up to 64% energy with a Bosch HeatPump dryer.*

Energy efficient and quiet in operation.

ActiveAir technology makes Bosch HeatPump dryers amongst the most economical dryers in Australia. Energy is saved by reusing existing heat efficiently during the entire drying process.

Fabric-friendly drying.

With the Sensitive Drying System, laundry is dried with great fabric care, by warm air coming from all sides for an even distribution of heat. Garments are also gently tumbled by the SoftFlow® paddles, instead of lying flat on the fabric-friendly drum structure. Simply put, no overheating.

No compromise on air quality.

Bosch HeatPump dryers recycle air during the drying process, resulting in less humidity and lint pollution in your home. Stored water from the condenser tank is used to perform a cleaning cycle to flush away lint and fluff gathered in the condenser.

Find the perfect pair for your laundry.

Now your laundry can be as stylish as your clothes with Bosch matching washing machines and dryers. Designed to allow for stacking with the Bosch stacking kit, these pairs provide flexible space saving solutions. With top fabric care and energy efficiency seen throughout our ranges, you won't only be saving space, but your clothes and the environment too.

*Comparison of WTW87566AU and WTG86400AU at www.energyrating.gov.au.

Drying options for all your needs.

SelfCleaning Condenser™

The patented SelfCleaning Condenser™ not only saves you the chore of manual cleaning, but also ensures the dryer performs economically with optimal energy efficiency.

AutoDry

Intelligent sensors monitor the temperature and residual moisture content throughout the drying process to ensure your garments are dried precisely to the desired setting without over or under heating. This ensures garments are treated with maximum care whether you select iron, cupboard or extra dry programs.

Timer

The time remaining display shows you how long is left in the program, while the delay function allows you to delay the start of drying for 60 minutes or up to 24 hours.

ActiveAir technology

Bosch HeatPump dryers are designed to work without conventional heating. Thanks to ActiveAir technology, existing heat is reused efficiently during the entire drying process, making them amongst the most economical dryers in Australia.

Sensitive drying system

A textile-friendly drum design and SoftFlow® paddles ensure soft and fluffy laundry. The large capacity drum (depending on model) additionally protects laundry and reduces creasing.

User-friendly interface

All functions are now easier and faster to access thanks to the new user logics and light guidance system.

Glass door

Bosch dryers have a clear glass door, which offers maximum visibility during the drying program.

AntiVibration™ side walls

Psst! The special AntiVibration™ design of the side walls makes Bosch washing machines and dryers extremely quiet. It also helps reduce vibrations and ensures greater stability... just in case you want to do the drying at night.

Fast Dryer technology

Pumps in air at a higher operating temperature, drying your clothes up to 8 minutes per kilogram *faster* than other Bosch HeatPump dryers without Fast Dryer technology.

Sportswear

A gentle drying program developed to handle performance and sports fabrics with micro-fibre technology that complements the Sportswear washing program in selected Bosch washers.

Down Wear

This special drying program is a moisture-controlled program with interval spinning. It dries up to 1.5kg of down clothing to soft and feather-light perfection without the addition of agitating aids (e.g. tennis balls).

Towels

Even heavy textiles are fully dried thanks to moisture-controlled programs in which the degree of moisture remaining in the garments is constantly measured. Terry towelling items like bath robes and hand towels come out soft and fluffy.

Wool/Shoes in basket program

A time based special program that allows your woollen clothing / favourite shoes to be dried using the woollen basket and therefore ideal for items that do not require mechanical action.

Dryer Basket (WMZ20600)

Purchase drying basket for drying shoes or woollen clothing to avoid tumble action.

Suits WTH85200AU and WTW87565AU. Note: WTY877W0AU includes the drying basket with appliance.

Easy Iron

The reduced ironing feature with 2 setting options helps tackle creasing and extends the anti-creasing phase once the program has ended.

Low Heat Delicates

Bosch dryers have an innovative low heat feature that protects temperature sensitive textiles by automatically reducing the heat and extending the drying time.

SuperQuick 40

The SuperQuick 40 minute option is designed for washing to be dried quickly – maximum 2kg load. Specifically for synthetic fabrics, cotton and blended fabrics.

Bosch Dryers.

Standard features included across our range:

Fully electronic single button control, Glass window door, Stainless steel drum, AntiVibration™ side walls, Time delay start, Time remain indicator, Condenser water indicator, Lint filter indicator, End-of-cycle signal, Child lock.

100% Washer. 100% Dryer.

The Bosch Series 6 Washer/Dryer provides flexibility while ensuring great washing and drying results, perfect for smaller spaces.

At the touch of a button, you can easily wash 8kg of laundry with 4.5 star water efficiency or effortlessly wash and dry 1kg of laundry in just 60 minutes.

Save space by stacking.

By stacking your dryer on top of your front load washing machine, the footprint in the laundry is only approx. 0.34m². Both can be stacked together with the aid of a stacking kit.

Stacking kits anchor the machines together to ensure stability and ease of use.

The stacking kit with pull out drawer can also hold up to 16kg for total in-laundry convenience.

Bosch stacking kits

WTZ20410 Stacking kit, suits all current Bosch Dryers with all washer types

WTZ11400 Stacking kit with pull out shelf, suits all current Bosch Dryers with all washer types

This much is for sure: you can trust our service.

Reliable, experienced, fast. We're here to help,
before and after purchase.

Quality service straight from the manufacturer. Original Bosch.

We are committed to quality even when it comes to after-sales service because no one knows Bosch appliances better than our highly trained service engineers. Working with the latest equipment for measuring, diagnostics and repairs, Bosch service engineers only use original Bosch spare parts.

Reliability guaranteed. No compromises.

All Bosch home appliances are produced with maximum care using high-quality materials. We promise it in our two year manufacturer's warranty on all appliances.

Original accessories. Effective care products.

Take a look at our extensive range of accessories for some inspiration: discover additional uses, replace old materials for optimum operation or simply give a trusty home appliance a good work-over. With the right care, you will be able to enjoy your high-quality appliance for many years to come. To help you do so, we offer a wide range of Bosch certified cleaning and care products.

**Extensive customer service network.
Just a call away.**

Customer Care

Our friendly Bosch Customer Care team is on-hand to provide competent, reliable assistance. Before or after purchase, the Bosch team will be happy to advise you on products, their use and special functions.

Service & Repairs

Our team is there to provide the right advice on faults, arranging a visit of a service engineer and ordering the right accessories or spare parts.
