

8th Gen Intel Core

Press Kit

October 18, 2018

[Contact Intel PR](#)

The 8th Gen Intel® Core™ processor family is designed for what's coming next. Experience exceptional performance, immersive entertainment and simple convenience with 8th Gen Intel Core processors.

The first processors available are the mobile processors for thin and light laptops and 2 in 1s. Starting October 5, the desktop processors will be available to purchase.

Software and workloads used in performance tests may have been optimized for performance only on Intel

microprocessors.

Performance tests, such as SYSmark and MobileMark, are measured using specific computer systems, components, software, operations and functions. Any change to any of those factors may cause the results to vary. You should consult other information and performance tests to assist you in fully evaluating your contemplated purchases, including the performance of that product when combined with other products. For more complete information visit www.intel.com/benchmarks.
