

Item Number: ST-MULC-BLK, ST-MULC8-BLK	Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
Rating: 13A / 125V / 1625W	
Outlets: 2	
Joule Rating: 450J	
USB Ports: 3	NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.
USB-C: PD 20W max	
USB-A1: QC 18W max	
USB-A2: QC 18W max	
3USB use together: 3.1A Max	
Wireless charging output: 10W (MAX)	However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
Product Size: 155*76.5*130.2mm	
Power cord diameter (mm²): 16#	
Cord Length: 1.5m/2.5m PVC cord	
Non-slip pads	
Ideal for general electronics, computer, audio/video, charging smartphones, eReaders, mobile devices ...	Reorient or relocate the receiving antenna.
ST-MULC-BLK, ST-MULC8-BLK Instructions 1. Set the power switch off. Plug the surge protector into a standard grounding wall receptacle by fully inserting the plug and ensure that there are no exposed conductors. 2. Make sure electronic equipment is turned off before plugging into the surge protector outlets. Do not use extension cords to connect equipment to the surge protector. 3. Set the power switch to the "ON" position. The surge protector will now be providing power and surge protection. 4. Connected equipment can now be turned on. USB Charging 3 USB port output allows you to charge up to 3 smartphones at the same time	Increase the separation between the equipment and receiver.
	Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
	Consult the dealer or an experienced radio/TV technician for help.
	This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
	This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator & your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
