## LED

LED uses tiny, energy-efficient light-emitting diodes to illuminate the picture. The new standard in HDTVs, LED is superior to older CCFL technology, making slimmer televisions possible, with amazing brightness, clarity and color detail.

## Full HD 1080p Resolution

This leap forward in picture quality is the reason you wanted HDTV in the first place. Full HD 1080p meets the highest standards for high definition, displaying 1,080 lines of resolution on screen for a clearer, more detailed image that is simply breathtaking.

## Smart TV

LG makes state-of-the-art Smart TV simple and fun to use, thanks to webOS 3.5. With the uniquely refined launcher bar, dive into a limitless world of premium content from all of the most popular entertainment providers.
