to:	from:
Federal Communications Commission Equipment Authorization Branch 7435 Oakland Mills Rd. Columbia MD 21046	Harman Becker Automotive Systems GmbH Becker-Görling Str. 16 76307 Karlsbad Germany

Ref: Class 2 Permissive Change request related to product:

Type of equipment:	Automotive Infotainment System
Brand name:	Mercedes-Benz
Model:	NTG7RSU
FCC ID:	T8GNTG7RSU

To whom it may concern,

We request a Class 2 Permissive Change action on this FCC ID to continue using it.

We hereby attest that we have updated the information related to the antennas distances, affected to the NTG7RSU. User Manual has been updated with this information.

There are 2 antennas that will be closer than 20cm to the end user (14.5 cm).

I would like to apply for a C2PC to update the FCC certification. An RF exposure assessment has been delivered to back up the positive performance of the unit.

Sincerely,

By:	Simon Voegele	PA
