Other innovative features

Extra Dry
Add to any cycle for better drying.

Knife Rack
Reduces risk of getting injured because sharp-edged cutlery can be safely loaded and offers more space because of an additional rack.

24/7 Overflow Protection
Automatically shuts down operation if a leak is sensed. It even works 24/7 and can turn itself on.

Self Latching Door
Holds firm at any position and automatically shuts at less than a 20 degree angle.

Condensation Drying

Condensation drying works by heating the dishes with hot water from the final rinse. The closed system does not draw outside air into the dishwasher, which makes it a sanitary way to dry dishes.

The use of a flow through water heater instead of an exposed heating element also prevents plastic items on the bottom rack from melting.

For best drying results: 1. Always use a liquid rinse aid. 2. Select the “Auto Cycle” option. 3. Press the “Sanitize” or “Extra Dry” button.

What’s new for Ascenta®

Quiet operation. Sleek, modern design. Quality, German engineering. We are delighted to share with you the new 2015 Bosch Ascenta dishwasher line.

RackMatic®
Adjustable upper rack. Lower to fit tall glasses above. Raise to fit tall pots below.

Speed60™
Dirty to Dry in about 60 minutes

InfoLight®
So quiet, we've added a light to let you know a cycle is running.

Knife Rack
Added flexibility to specially accommodate kitchen knives in the upper rack.

Quiet
Bosch looks at noise reduction from every angle, incorporating 18 unique sound reducing technologies. The new Ascenta range is now as low as 46 dBA.

Detergent Tray
Optimized for tablets, this tray holds detergent in place for a dedicated spray jet to directly dissolve tablet and minimize spraying the door. (Note: dishwasher also works with powder and gel.)

Ascenta® Dishwashers.

Quietest dishwasher brand in the U.S.*

As the quietest line of dishwashers in the U.S., all Bosch quiet levels are certified by an independent lab.

Multiple Insulation Layers
Multiple layers of sound-absorbing insulation: Coated stainless steel, baked on bitumen, and cotton fiber dampen noise.

EcoSilence™ Motor System
Two small brushless motors instead of a single large one reduce friction and work more efficiently. Motors are held by a rubber suspender to absorb vibration. Drain pump detects when water is drained and stops motor immediately to minimize snorkeling noise.

Triple-filtration System
Grindless system filters out food particles, eliminating the need for a loud food disposal.

Detergent Tray
Optimized for tablets, this tray holds detergent in place for a dedicated spray jet to directly dissolve tablet and minimize spraying the door. (Note: Dishwasher also works with powder and gel.)

Spray Arm
Spray arms project water directly towards dishes, reducing noise.

InfoLight®
So quiet, we've added a light to let you know a cycle is running.

Precisely designed.

New Scoop Handle
Our new scoop handle is a beautiful addition to any kitchen. Available in stainless steel, black and white.

Ergonomic Design
Control panels designed for perfect visibility without having to lean down.

Flexibility
Adjustable tines allow for more customized space based upon the size of awkward, bulky items.

Half Load Option
This option can be used when washing small, lightly soiled loads that fill half or less of the dishwasher's capacity.

German-engineered quality.

Dishwasher Filter
Our filter's corrugated shape, inspired by automotive filters, offers greater surface area for more complete filtration.

Testing
At our factories, assuring quality means a lot more than checking off a box.

Quality Checks
Not just good, but great. Every dishwasher must pass 485 rigorous quality checks before leaving our factory.

Water-Tested
As the brand that runs every dishwasher with water before shipping, we have to ensure that our units successfully run prior to getting to your home. Water spots in your brand new Bosch are proof that your unit passed the test!

*Based on an average of sound ratings of 24" Full Size Stainless Steel Tub dishwashers contained in major brands websites. Major brands defined as TraQline Top 5 Market Share December 2014.
