AOC Bracket
VESA- P1

Perfect solution for PC mounting on back of height adjustable base!
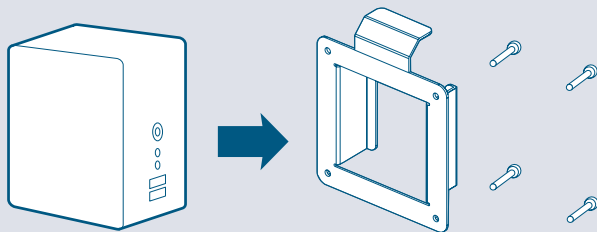

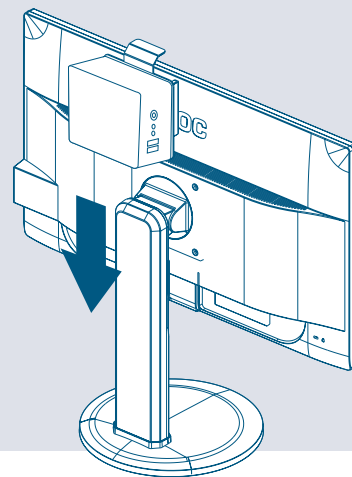

Efficient workspace

Ergonomic and healthy workspace is what most people desire in their office. Many like to keep it organized and minimalistic, but cables and big PCs are not helpful in organizing a clean workspace environment. Cable management in an office becomes easier when the cable distance becomes shorter.

With the AOC VESA-P1 bracket you can easily mount a mini-PC, zero- or thin-client directly on the back of the stand of any AOC monitor of the P1-series (and all 90-series produced after April 1st 2018), with height-adjustable base. This allows shorter cable management and therefore a clean workspace.

STEP 1

The device can be mounted directly to the bracket (as in the image).

STEP 2

Sliding VESA bracket with the mounted device into the top of the AOC height-adjustment stand.

Specifications

- VESA: 100 x 100
- Content of the package: Screws hardware (x4), Screws (x4), QSG (x1)
- Max. PC weight: 5 kg
- Net weight: 0.2kg
- Gross weight: 0.29kg
- Color: Black
- Packed with 10pcs in 1 outer carton box.
