Tested for superior quality and reliability.

To ensure high standards of reliability, Bosch vacuum cleaners undergo tests which are more stringent than the testing carried out by consumer protection organisations.

Reliability guaranteed. No compromises.

All Bosch home appliances are produced with maximum care with high-quality materials. We promise it in our 2-year manufacturer's warranty on all appliances.

The Hose Test:
Withstands at least 50,000 bends under 2kg of weight.

The Housing Test:
Withstands being dropped 35 times from carrying height.

The Switch Test:
Operates at least 50,000 times.

The Nozzle Test:
Vacuums 1,000km without a fault.

The Roller Test:
Rolls over door thresholds at least 6,000 times.

The Cord Retraction Test:
Rolls up at least 10,000 times.

Why choose Bosch?

We've been working for over 75 years, so that you can work less.
Bosch is Europe's largest manufacturer of Household Appliances. Producing high-quality, technologically advanced products, Bosch continues to play an active part in the Australian floorcare market. Bosch's factory in Germany is the largest in Europe and produces in excess of 1.8 million vacuum cleaners each year.

Bosch: German Engineered Quality
The term 'German Engineered' stands for high-class workmanship – and for the legendary quality of Bosch domestic appliances. At Bosch we never compromise, so we wouldn't expect you to either. That's why all of our cleaners have top of the range features as standard.

Silence
Noise is measured in numeric decibels or dB(A). It is important to note that a few decibels can make a huge difference. Our entire floorcare range is exceptionally quiet, and also features Australia's quietest bagged and bagless ProSilence vacuum cleaners. This is due to our latest Compressor Motor Technology, internal insulation and housing and unique floorhead design.

NAC Approved
Bosch Bagged and Bagless vacuums are approved by the National Asthma Council Australia's Sensitive Choice® Program.

Suction/Performance
A combination of quality design elements contribute to exceptional suction power and dust pick up. These include our powerful Bosch engineered motors; extra wide hose diameters, high grade filtration systems and specially designed floorheads which facilitate maximum cleaning performance.

SensorBagless™ Technology
Our bagless vacuum cleaners take out the guess work when it comes to cleaning and maintenance. The internal sensor continuously measures airflow rates to ensure that the vacuum cleaner operates at optimal performance throughout its lifetime. When the filters become dirty and block airflow, the system will automatically power down and activate its own self cleaning process (On models BGS5225AU, BGS5ZOOAU and BGS5SL66AU). On all other bagless and Athlet models, the SensorBagless™ Technology system will prompt the user to clean the filters by powering down and flashing the red LED.

Silence Technology for a quieter operation.

Listening to music, watching a film, making a phone call in peace or talking with your nearest and dearest: until now, that was hardly possible with a vacuum cleaner in the background.

SilenceSound System™: a diverse and comprehensive package of sound reducing measures

- 1 Sound controlled motor with CompressorTechnology**
Reduces transference of motor noise and vibration.

- 2 Sound controlled insulation**
Sophisticated materials with micro structure material absorb noise.

- 3 Silent airflow with sound reducer**
Aerodynamic airflow is supported by air guiding channels. The air flows smoothly with little twists and is therefore much quieter.

- 4 Silent accessories**
Silent nozzle and sealed tubes ensure the air flows smoothly and joints are sealed.

= The quietest bagless vacuum cleaner

Pure Power without the Roar.

Australia's quietest range of vacuum cleaners.

Did You Know?

A few decibels can make the difference between harmful, loud and pleasant. Operating at 59dB(A), our quietest vacuum means you can vacuum while listening to music, enjoying a conversation or while your baby rests.

Illustration only.

There's no waking the sleeping tiger with the Relaxx'x ProSilence, only 66 dB(A), the In'Genius ProSilence, only 59 dB(A), and the Runn'n ProSilence, only 71 dB(A)

Bosch Technology.

SensorBagless™ Technology self-activated filter cleaning system.

SensorBagless™ Technology: Intelligent solutions for low maintenance effort.

No disappointing performance losses thanks to SensorControl. Bosch SensorBagless™ Technology alerts you when the filter needs cleaning.

Fully automatic self cleaning.

Our bagless vacuum cleaners take out the guess work when it comes to cleaning and maintenance. The internal sensor continuously measures airflow rates to ensure that the vacuum cleaner operates at optimal performance throughout its lifetime. When the filters become dirty and block airflow, the system will automatically power down and activate its own self cleaning process (On models BGS5225AU, BGS5ZOOAU and BGS5SL66AU). On all other bagless and Athlet models, the SensorBagless™ Technology system will prompt the user to clean the filters by powering down and flashing the red LED.

Bagless and Athlet SensorBagless™ Technology

SensorBagless™ Technology: SensorControl
The SensorControl system sends an LED alert when the filter needs cleaning.

Zoo'o ProAnimal Range for 30% faster cleaning.*

Powerful performance and effortless cleaning, leaving you more time with your furry friend.

Zoo'o ProAnimal roller

Picks up pet hair 30% faster.* Specialised soft red bristles have been optimised for carpets to remove animal hair quickly and efficiently.

EasyClean™

Not only can you remove the roller in one movement, it's also easy to clean. This means the brush is easily cleaned and ready to remove hair time and time again.

Zoo'o Accessories

Specialised Zoo'o Accessories take the hassle out of removing unwanted pet hair from furniture and crevices. The extra-wide upholstery nozzle removes more hair than regular upholstery nozzles. It is ideally suited to any type of furniture with its flexibly stored 4x fluff removal pads.

*Fibre pick up on carpet in comparison to a 2400 watt vacuum cleaner from Bosch with turbo brush (BGL32400AU).

Which Bosch is for me?

- Relaxx'x**
- Full size bagless vacuum.
 - For a thorough clean of your whole home.
 - The bagless Relaxx'x range is ideal for a larger home, equipped with a larger 3L canister.
 - The range has been approved by National Asthma Council's Sensitive Choice® Program.
 - There's a suitable option for any floor type, please check spec sheets for included accessories.

- Runn'n**
- Compact size bagless vacuum.
 - Excellent performance for apartment living or a smaller home.
 - The bagless Runn'n range is ideal for a smaller home, equipped with a 1.9L canister.
 - The range has been approved by National Asthma Council's Sensitive Choice® Program.
 - There's a suitable option for any floor type, please check spec sheets for included accessories.

- In'Genius**
- Full size bagged vacuum.
 - For exceptional performance for your whole home.
 - The bagged In'Genius range is ideal for a larger home, equipped with an extra large 5L dust bag
 - Large 15m operation radius.
 - The range has been approved by National Asthma Council's Sensitive Choice® Program.
 - There's a suitable option for any floor type, please check spec sheets for included accessories.

- Athlet**
- Cordless vacuum with the performance of a barrel vacuum.
 - For exceptional performance for your whole home.
 - The cordless Athlet range is ideal for any type of home, from small apartment to larger homes there are no limits.
 - With a 0.9L canister and a 60 minute run time the Athlet range is suitable for cleaning the entire house.

Specialised range for pet: Zoo'o ProAnimal.

The Zoo'o ProAnimal range from Bosch removes animal hair up to 30% faster.*

The Zoo'o ProAnimal Range effortlessly picks up animal hair on all types of flooring and with handy accessories lets you tackle pet hair on furniture and in crevices as well.
Available in cordless, bagless and bagged

*Fibre pick up on carpet in comparison to a 2400 watt vacuum cleaner from Bosch with turbo brush (BGL32400AU).

Vacuums for asthma or allergy sufferers.

Bosch bagged and bagless vacuums are approved by the National Asthma Council Australia's Sensitive Choice® Program.

The HEPA filters used in all Bosch vacuums are at the highest level ranging from HEPA 12 – HEPA 14. All Bosch bagless and bagged vacuums are fitted with a HEPA filter to ensure at least 99.97% of airborne particles 0.3 micrometers (µm) in diameter are absorbed.

Bosch Bagless.

SensorBagless™ Technology:

Intelligent solutions for low maintenance effort.

No disappointing performance losses thanks to SensorControl. Bosch SensorBagless™ Technology alerts you when the filter needs cleaning.

Fully automatic self cleaning.

Our bagless vacuum cleaners take out the guess work when it comes to cleaning and maintenance. The internal sensor continuously measures airflow rates to ensure that the vacuum cleaner operates at optimal performance throughout its lifetime. When the filters become dirty and block airflow, the system will automatically power down and activate its own self cleaning process (On models BGS5225AU, BGS5ZOOAU and BGS5SL66AU). On all other bagless models, the SensorBagless™ Technology system will prompt the user to clean the filters by powering down and flashing the red LED.

No follow up costs...

In bagless vacuum cleaners, centrifugal forces separate the dust from the air flow and push it into a separator before it is fed into a dust container that can be emptied. The advantage: No follow up costs for bags and filters.

Ingenious high tech solution.

The large surface area of the CLEANSTREAM® filter with its unique GORE™ membrane technology ensures that dust cannot penetrate the filter and block it permanently. The result is a high level of performance, all year round.

Lifetime HEPA filter without follow up costs.

The lasting benefits offered by the robust special material used for the integrated HEPA filter include an impressive dust retention capability, clean exhaust air and the fact that the filter can be washed as required.

Super simple cleaning.

The dust container can easily be rinsed under running water once it has been emptied.

Bosch Bagged.

Bagged Range

In'Genius ProSilence
BGL8SI59AU

In'Genius Zoo'o
BGL8ZOOAU

Free'e 32
BGL32400AU

Australia's quietest bagged and bagless vacuum cleaners.

In'Genius ProSilence 59

The new In'Genius ProSilence 59 is ultra-quiet at 59 dB(A) and delivers powerful cleaning performance.

Exhaust system with optimised airways

The extra-large exhaust system with its special exhaust filter expels the air more slowly – and much more quietly.

New, high-performance nozzle

Larger, better-sealed airways and the extra-wide and deep suction channel ensure outstanding cleaning performance while keeping noise to a minimum.

Innovative damping materials

Multi-layered damping materials filter a wide range of noise frequencies out of the air.

Triple encapsulation

The triple encapsulation of the motor makes these vacuum cleaners much quieter than many others.

Silence motor

The new motor with its specially shaped impellers reduces noise at the point where it originates.

Convenience as far as the eye can see.

Less energy consumption

Less noise

Better cleaning performance

In developing the In’Genius, our engineers appear to have turned the laws of physics on their head. The In’Genius delivers impressive cleaning results despite low energy consumption.

The Bosch formula.

Less is more, certainly as far as the new In’Genius is concerned.

- New silent motor
- New high performance nozzle
- Airtight seals
- PowerProtect dust bags - preventing suction loss.

15-metre operating radius

Thanks to the extra-long cable, you will be able to reach even the remotest corners without having to plug the machine into a different socket. Not only is this more convenient, it also saves time.

Washable HEPA filter

The integrated HEPA filter is washable and doesn't have to be replaced. This saves unnecessary additional costs. The HEPA filter also allows allergy sufferers to breath easier with the In’Genius.

5-litre capacity

The dust bag of the In’Genius has an extra large capacity, which means it doesn't have to be changed very often.

Four soft wheels

Wherever you go, the In’Genius follows on its four soft wheels, which are kind to your flooring.

Bosch Cordless.

Athlet Zoo'o ProAnimal removes animal hair up to 30% faster.*

Cleaning animal hair is a chore, it spreads all round the home and is hard to get rid of. Conventional vacuum cleaners can perhaps keep up on parquet and tiles – but when it comes to textiles, carpets or crevices, they reach their limits.

Thanks to its SensorBagless™ Technology and the motorised HighPower Brush, the Athlet Zoo'o ProAnimal doesn't just deliver the cleaning results of a conventional vacuum cleaner, but also effortlessly picks up animal hair on all types of flooring.

Versatile accessories.

The Athlet Zoo'o ProAnimal kit includes an attachable adapter with a hose, shoulder strap, an upholstery nozzle, crevice nozzle and car seat nozzle. This means it is perfect for cleaning textiles, crevices and corners.

Extremely manoeuvrable.

The flexible nozzle joint makes the Athlet Zoo'o ProAnimal nimble and easy to manoeuvre. It therefore vacuums safely and reliably around furniture and even reaches remote corners under sofas, cupboards and chests of drawers. And as its freedom of movement is not restricted by a power cord, you can use the appliance in places where there is no power socket anywhere to be seen.

Athlet Zoo'o Included Accessories

New Small Handle reduces size and weight

XXL upholstery nozzle for efficient hair removal

XXL Crevice nozzle for deep crevices

Upholstery crevice nozzle for cleaning car seats

Adjustable strap

*Fibre pick up on carpet in comparison to a 2400 watt vacuum cleaner from Bosch with turbo brush (BGL32400AU).

Extra long run time: up to 60min.**

High-performance Lithium-Ion rechargeable batteries with an extra-long life.

Long-lasting high performance.

The tried and tested Bosch Lithium-Ion Technology used in Bosch Power Tools and E-Bikes is synonymous with high performance, short charging times and long battery life. When combined with the highly efficient and aerodynamic LongLife Motor, the cordless Athlet range is equipped for intensive use.

Long running time – short charging time.

The highly efficient system and Bosch's Lithium-Ion batteries with their outstanding capacity means that the Athlet range can operate for up to 60 minutes without interruption.** In addition, the battery is already 80% charged after just 3 hours. A three-stage electronic protection system reliably prevents overcharging, overheating and deep discharge of the batteries.

On all types of flooring the cleaning results are comparable with a cable-based conventional vacuum cleaner.**

Dust pick-up on carpet

Dust pick-up on hard floors

Asthma and Allergens.

Allergens, such as house dust mites, pollens, pet hairs and moulds, are one of the most common triggers for asthma. The best prevention of allergen triggers is reducing your exposure to them.

Where can allergens be found?

Dust Mites
Dust mites like moderate temperatures and high humidity. They are found in bedding, flooring and furniture. Proper and powerful suction of your vacuum cleaner is extremely important to ensure dust mites are controlled.

Pets
Our furry friends especially cats and dogs are the most common cause of pet allergies. They shed hair daily, a powerful vacuum and proper floor head are important to gather up pet hair around the house and avoid build up.

Pollen
Trees, grasses and other wind-pollinated plants are the source of the most troublesome pollens, these are especially prominent during spring. They are brought into the house on clothing and shoes, so regular cleaning is the best way to reduce your exposure to pollen in your house.

Mould
Mould can be mostly found in houses with rising damp and poor ventilation areas, such as bathrooms or built-in robes. Good ventilation and decreasing humidity are key to tackling mould issues.

Over 2 million Australians have asthma – and about one in three of them suffer from allergies.

Bosch Filtration

The HEPA filters used in all **Bosch vacuums** are **at the highest level ranging from HEPA 12 – HEPA 14**. All Bosch bagless and bagged vacuums are fitted with a HEPA filter to ensure **at least 99.97% of airborne particles 0.3 micrometers (µm) in diameter** are absorbed.

Due to this filtration level that the **HEPA** and motor filter within the Bosch vacuum achieves, combined with the high power motor, the air that is expelled from the vacuum is actually cleaner than the current air we breathe.

Bosch motors use **efficient air movement** within the vacuum to **maintain strong airflow** at all times. The vacuum’s air tight seals ensure that no air can escape nor is the air misguided throughout its movement within its filtration path before being expelled.

SensorBagless™ Technology – an included feature within the Bosch bagless range, maintains full dust separation to ensure the filtration level is maximised without clogging. It also alerts you when the airflow drops within 10% below optimal performance to remind you to clean the filters.

What is British Allergy Foundation Seal of Approval

In 1991, the British Allergy Foundation was formed, today it is the leading national charity dedicated to supporting allergy sufferers. The British Allergy 'Seal of Approval' provides guidance as a product with the British Allergy 'Seal of Approval' provides reassurance the product has been scientifically tested to prove it is efficient at reducing/removing allergens from the environment or the product have significantly reduced allergen/chemical content. All testing is carried out by an independent laboratory to protocols which have been created for the Seal of Approval by leading allergy specialists, specifically to benefit the sufferers of allergy, asthma, sensitivity and intolerance.

For more information see: www.allergyuk.org

What is the Sensitive Choice® Program

The Sensitive Choice® Program was formed by the National Asthma Council Australia in 2006 to help allergy suffers identify products that may be better suited to their health requirements.

The Sensitive Choice® Program helps identify asthma and allergy-aware products. The blue butterfly logo signifies that the product has been approved through testing to benefit asthma sufferers as it may reduce the impact of their asthma and allergies.

For more information see: www.nationalasthma.org.au

Bosch Bagged and Bagless vacuums are approved by the National Asthma Council Australia's Sensitive Choice® Program.

Optional accessories

- BBZ 102 TBB**
280mm Turbo-Duo
- Brushes and vacuums simultaneously
 - Lifts fluff, threads and hair with ease
 - Flattened piles are restored
 - Side air control for adapting roller speed to floor type
 - Also suitable for thick pile carpets due to brush roller mounted onto the floating bearings

- BBZ 42 TB**
165mm Mini Turbo-Duo
- Brushes and vacuums simultaneously
 - Lifts fluff, threads and hair with ease
 - Ideal for upholstery and mattresses

- BBZ 123 HD**
Hard floor tool
- Specially designed for hard floors
 - Extra soft bristles
 - Glides over floors effortlessly, picking up dust and dirt from cracks and crevices
 - Suction width: 300mm

Fabric dust bag
- Type GXXL
 - Suitable for BSGL5 models

- BBZ 41 FG**
Fabric dust bag
- Type G
 - Suitable for BSGL30 only

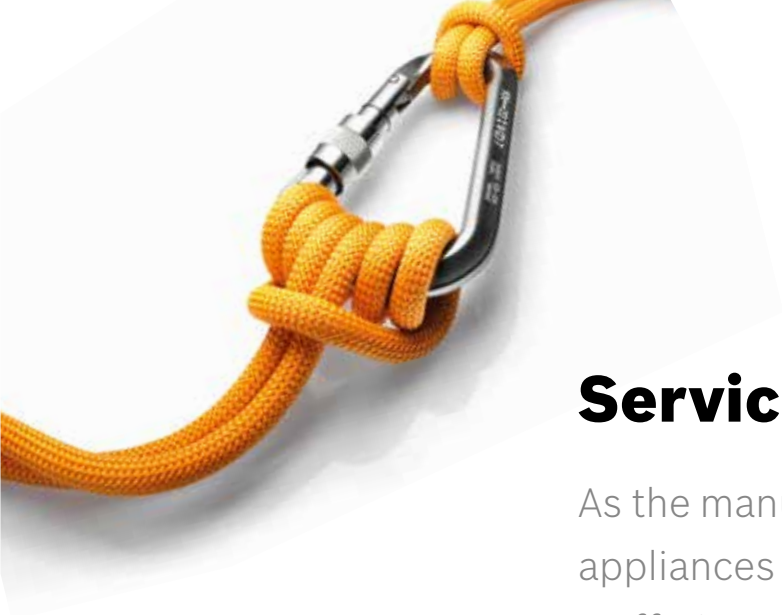

- BBZ 11 BF**
Bionic Filter
- Removes bad smells from vacuum cleaner's exhaust air by breaking down odour molecules in a natural/biological process.

- BBZ PRO KIT**
XXL Upholstery Brush and XXL Crevice Tool
Can only be purchased as a set

- BHZKIT1**
Athlet Accessory kit
- Adjustable strap
 - Flexible hose
 - XXL Upholstery mouthpiece (19cm)
 - Extra long crevice nozzle (36cm)

Service you can trust in.

As the manufacturer, we know Bosch appliances better than anyone else – offering unrivalled standards of repair and customer service.

Our service quality. Awarded!
Our Bosch customer service scores top marks around the world for its performance. In Great Britain, for instance, it was winner of the “Total Excellence & Quality Award”. In Poland, the Bosch customer service was awarded for the highest service quality in the “Home Appliances Customer Service” sector in 2010 – for the third time running.

Reliability guaranteed. No compromises.
All Bosch home appliances are produced with maximum care, in high quality materials. We promise it in our 2-year manufacturer's warranty on all appliances.

Quality service straight from the manufacturer. Original Bosch.
We are committed to quality – also when it comes to after sales service. For no one knows our appliances better than our highly trained service technician. They are working with the latest equipment for measuring, diagnostics and repairs, and use only original Bosch spare parts.

Extensive customer service network. Just a call away.
Immediate help in your home for large appliances such as washing machines or dishwashers need specialised technician who offer on-site diagnosis and repairs. We are just a phone call away!

Lifetime service. It goes without saying at Bosch.
Once your warranty manufacturer period is over, we are still there to assist you. You can rely on expert care and first-rate service throughout your appliance's life cycle. From missing instruction manuals to appliance repair – we take care of everything. A promise is a promise!

Original accessories. Effective care products.
Take a look at our extensive range of accessories for some inspiration: discover additional uses, replace old materials for optimum operation or simply give a trusty home appliance a good work-over. With the right care, you will be able to enjoy your high quality appliance for many years to come. To help you do so, we offer a wide range of Bosch certified cleaning and care products.

For service repair and spare parts replacement, please contact:
