Bosch Thermotechnology Expands Portfolio With Singular Boiler Series

Including Two New Boiler Options, the Singular Combi Units Deliver Endless Hot Water Without Sacrificing Comfort

WATERTOWN, MASS., (April 28, 2021) - Bosch Thermotechnology, a leading global source of high-quality heating and cooling systems, today announced its Singular Boiler series, delivering optimal comfort and hot water in one simple solution.

The Bosch Singular Boiler series includes the Singular 5200 and Singular 4000 solutions, delivering 5.2 and 4 gallons of hot water per minute, respectively, giving users the ability to operate multiple showers and other hot water applications simultaneously. Featuring a 95% AFUE rating and a turndown ratio of up to 10:1, the units include simple, four-digit displays and dual stainless steel heat exchangers.

In addition to optimal hot water output, the Singular 5200 unit offers 140,000 BTU input for space heating, while the 4000 unit offers 80,000 BTUs, delivering the ideal low-cost, high-value solution across a variety of residential needs based on home size. The units also feature an internal circulator and the capability for outdoor reset.

“We’ve received customer demand for a Bosch high output combi boiler for some time, and we’re incredibly excited to expand our portfolio with our Singular Boiler Series,” said Christopher Kyes, Product Manager at Bosch Thermotechnology. “The easy-to-install boilers deliver enough hot water for multiple applications simultaneously, meaning you don’t have to argue anymore over who gets to shower first.”

The Singular Boiler system was designed with simplicity in mind, making for easy installation and use. The Singular Boiler Series is ENERGY STAR® rated and California Proposition 65 and NOx compliant. The units carry Bosch’s unparalleled engineering and expertise, along with its Bosch boiler warranty.

About Bosch

Having established a regional presence in 1906 in North America, the Bosch Group employs 34,600 associates in more than 100 locations, as of December 31, 2019. In 2019 Bosch generated consolidated sales of \$14.4 billion in the U.S., Canada and Mexico. For more information, visit www.bosch.us, www.bosch.ca and www.bosch.mx.

The Bosch Group is a leading global supplier of technology and services. It employs roughly 400,000 associates worldwide (as of December 31, 2019). The company generated sales of 77.7 billion euros in 2019. Its operations are divided into four business sectors: Mobility Solutions, Industrial Technology, Consumer Goods, and Energy and Building Technology. As a leading IoT provider, Bosch offers innovative solutions for smart homes, Industry 4.0, and connected mobility. Bosch is pursuing a vision of mobility that is sustainable, safe, and exciting. It uses its expertise in sensor technology, software, and services, as well as its own IoT cloud, to offer its customers connected, cross-domain solutions from a single source. The Bosch Group's strategic objective is to facilitate connected living with products and solutions that either contain artificial intelligence (AI) or have been developed or manufactured with its help. Bosch improves quality of life worldwide with products and services that are innovative and spark enthusiasm. In short, Bosch creates technology that is "Invented for life." The Bosch Group comprises Robert Bosch GmbH and its roughly 440 subsidiary and regional companies in 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. The basis for the company's future growth is its innovative strength. Bosch employs some 72,600 associates in research and development at 126 locations across the globe, as well as roughly 30,000 software engineers.
