Short Term	Permanent*	User's Manual
Having the subject information easily available to "competition" would negate the advantage they have achieved by developing this product. Not protecting the details of the design will result in financial hardship. Permanent Confidentiality: The applicant requests the exhibits listed above as permanently confidential be permanently withheld from public review due to materials that contain trade secrets and proprietary information not customarily released to the public.		
period of <u>NA</u> days from the dat premature release of sensitive is aware that they are responsible	e of the Grant of Equipment of the Grant of Equipment of the Grant of the Even to notify FCC in the even	ent term confidential be withheld from public view for a ent Authorization and prior to marketing. This is to avoid ting or release of the product to the public. Applicant is also t information regarding the product or the product is made ents listed above for public disclosure pursuant to FCC
Confidentiality, either type of n	narked exhibit above will	ry Canada distinguishes between Short Term and Permanent simply be marked Confidential when submitted to IC.
Sincerely, Lead Standards & Regulatory Engineer		

Since

¹ - The asterisked items (*) require further justification before permanent confidentiality will be allowed. These also currently require review by the FCC under their Permit-But-Ask policy before the grant is issued and can delay completion of an application. Further justification should be added to the note above. One such example for a potted device would be: "The EUT is FULLY potted using a non-removable epoxy based material. Removal of potting material causes irreparable damage to internal circuitry. See photographs exhibits that outline the device before and after potting."
