Stories from the field are information and thought provoking success stories about our products and how they make a difference in "Real World" Applications. And the deals – Take advantage of special pricing for a limited time on products that range from every day must haves to new and exciting product introductions. For more than 55 years…. We do the light thing. We do the right thing.™

Inside this edition: Lamp expansions, The Retrofit Solution, Sales in NUVO Decorative, our growing LED utility fixture offering and, as always, there is more online at satco.com.

HIGH-END SOLUTIONS FOR FILM

Since the age of LEDs, incandescent and halogen bulbs have become more obsolete. However, in the film industry, these lights still play a strong role when it comes to illuminating scenes.

A Movie & Film Sector in greater Vancouver needed just this! High-end incandescent bulbs give off a true tungsten glow–for this particular film, color temperature was the highest priority.

SATCO® strives to provide a high level of lighting to meet every customers needs. "Tungsten lights give a real natural and warm feel to the set and to the story that is being told." Although LEDs lead the way in the industry, the traditional technology still hold true for certain lighting tricks in the film industry.

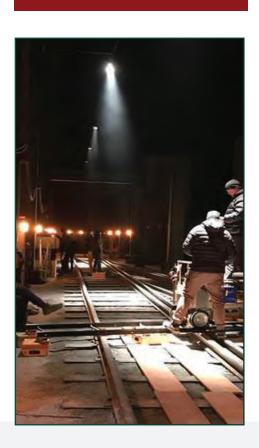

WHETHER PRODUCING A FEATURE FILM OR HOME MOVIE, SATCO® IS YOUR SOURCE FOR LEGACY PRODUCTS!

RELIABLE IN TIMES OF NEED

Therefore, time after time the director of photography and lighting departments resort to going back to using tungsten. The build quality of SATCO|NUVO fixtures encourage our customers to continually look for our reliability in times of need.

From our high standards in manufacturing to our solution-based ingenuity, SATCO® demonstrates a commitment to our customer delivering on product, promise, and partnership.
