WHO WE ARE

Founded in 2015 in Silicon Valley, Kasa Smart took a deep dive into the smart home market to create customer-centered, reliable, high-quality products. Assembling a multi-talented group with broad backgrounds, Kasa Smart's unique talent pool and TP-Link's 20+ years of networking and manufacturing experience combined to help Kasa Smart quickly become one of the leading consumer smart home brands in the world.

Kasa Smart's initial offerings were humble with just a single smart plug. But in the years since, we have expanded our product offerings to include plugs, light bulbs, switches, and cameras and continue to enter new product markets. Knowing that a truly connected home is a diverse smart home, we work with industry leaders including Amazon, Google, and Samsung to ensure Kasa users have the integration they expect.

Most important of all, Kasa has maintained an intense focus on customer satisfaction. We've earned a near-five-star rating for the Kasa Smart app and both PCMag Readers' and Editors' Choice Awards for Kasa products. There are now more than six million Kasa customers across the world—further proof of the Kasa Smart team's effort in delivering on our promise for better smart homes.

Home Security

Always keep an eye on what's important. From indoors to the outdoors, Kasa Smart home security products have your home fully covered. Stream sharp and clear live video from anywhere, anytime, and get instant notifications when a person or motion is detected. Recorded videos ensure everything can be traced back.

Kasa Care Plans

Cloud storage service and more advanced functions.

Full Color Night Vision

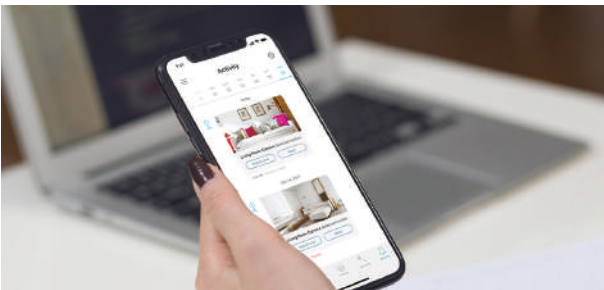

IP65 Weatherproof

Person Detection

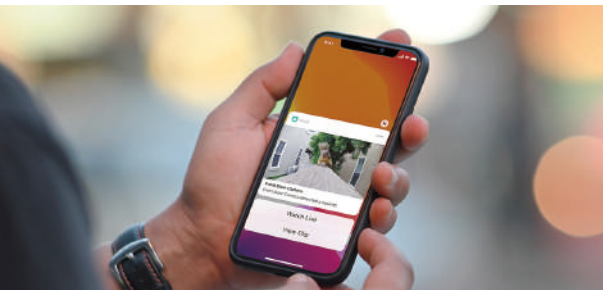

30-Day Cloud Storage

Store video clips to the Kasa cloud automatically whenever activity is detected over the past 30 days.

Rich Notifications

Get push notifications featuring a snapshot when a person or motion is detected. Decide at-a-glance whether to take action right away.

Manual Recording

Record pieces of precious memories manually during live view for later reviewing and sharing.

Single-Tap Sharing

With just a tap from the share button, post memorable clips to your preferred social media platform and let others gasp, laugh, or gawk.

2K HD Video

2K HD (2560×1440 px) delivers more image detail than 1080p Full HD (1920×1080 px). Better quality is better for bigger screen displays and seeing objects shot further in the distance.

Full Color Night Vision

See full-color videos rather than just black and white at night with an integrated spotlight, which can be turned on manually or automatically.

Starlight Night Vision

Capture sharper and clearer images than normal IR night vision. This provides colorful views even in low-light environments with its sensitive starlight sensor.
