

HP Elite c1030 Chromebook (1S1Q4AW)

Overview

Engaging, secure business-class cloud productivity

Keep your momentum moving with the HP Elite c1030 Chromebook. It has a durable, ultraportable design, enhanced wireless connectivity, and a built-in fingerprint sensor for fast logins for your work on the cloud and on the go.

Beautifully crafted for incredible Chrome OS experiences

The Chromebook of the future is here with a stunning micro-edge, 13.5" diagonal, 3:2 WUXGA+ screen optimized for the web, and an ultrathin aluminum 360° design with tablet mode.

Designed for always-on, powerful productivity and collaboration

Mastering cloud-based multi-tasking and meetings across a ton of tabs is simple with an Intel® processor.[4] Access data, collaborate in real-time, and connect from virtually anywhere with HP Extended Range Wireless LAN.[5]

Enterprise-grade security and durability

Easily control what you share with a built-in webcam privacy switch and inherently secure Chrome OS. Say goodbye to downtime from damage with a resilient design that undergoes MIL-STD 810H[3] testing.

[3] MIL STD 810H testing is not intended to demonstrate fitness for U.S. Department of Defense contract requirements or for military use. Test results are not a guarantee of future performance under these test conditions. Accidental damage requires an optional HP Accidental Damage Protection Care Pack.

[4] Multi-Core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering, branding and/or naming is not a measurement of higher performance.

[5] Based on internal testing vs. previous generation product with 802.11ac wireless LAN module.
