

Marking Method:

Markings appear on a CSA Certified adhesive label supplied by Brady Worldwide, label type B-434 accepted under CSA File LS41833 or on any CSA or UL Accepted adhesive name plate/silk-screened/moulded on the enclosure. As well electrical rating and the following “Warning – Do not disconnect circuits while live or use USB connectors unless area is known to be non-hazardous” are silk screened onto the metal faceplates used on the radios.
