TRIPP·LITE POWER PROTECTION
Extended Run UPS Sizing Guide

Standby UPS Systems:
Battery Backup and Surge Suppression

These economical UPS solutions carry a 2-year warranty and $25,000 Ultimate Lifetime Insurance. Select models include fax/modem protection and/or DB9 communications plus PowerAlert Software.

Line-Interactive UPS Systems:
Automatic Voltage Regulation, Battery Backup and Surge Suppression

These mid-range UPS solutions carry a 2-year warranty and $50,000 Ultimate Lifetime Insurance. All offer DB9 communications plus PowerAlert Software. Select models feature fax/modem surge protection, expanded battery capability and/or intelligent DB9 communications.

On-Line UPS Systems:
Pure Sine Wave Output, Zero Transfer Time, Battery Backup and Surge Suppression

These sophisticated UPS solutions carry a 2-year warranty and $100,000 Ultimate Lifetime Insurance. All include intelligent DB9 communications plus PowerAlert Software. Select models feature expanded battery capability.

Sizing a UPS:

Amps = Total draw of connected equipment
Volts = Voltage coming from wall outlet
Volts x Amps = VA Rating of UPS

Example: Customer needs to protect an alarm system that draws 5 amps. Voltage from wall outlet is 120V. **120V x 5A = 600 VA**

SALES AND SUPPORT INFORMATION

Customer Technical Support: (773) 869-1234
Order Desk (for Shipping Status): (773) 869-1976

See reverse for larger VA models and runtimes.
