# How to Identify the Model of Your iPad

To make sure you are choosing the right protective case for your iPad, you must identify the model number first.

✓ **Just turn your iPad over and look at the back. Underneath the iPad logo, beside the word "Model," you'll see a capital letter A followed by a few numbers (AXXXX).**

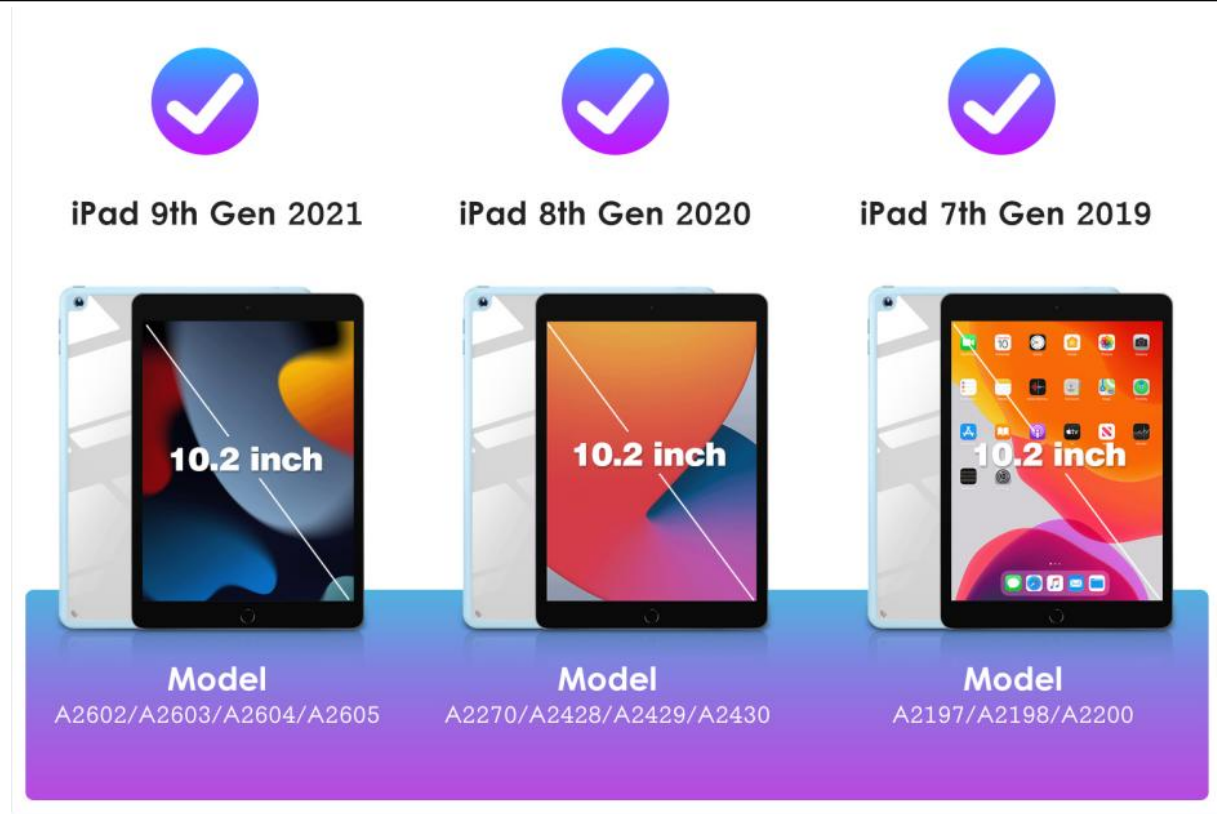

✓ **Settings＞General＞About＞Model Number. If the number you see has a slash "/", that's the part number (for example, MY3K2LL/A). Click on the part number and it will display your iPad model (for example, A2696).**

ATTENTION!!!
