Overview

TP-Link Deco M4 2-Pack, Up to 5,500 Sq.ft. Coverage, WiFi Router/Extender Replacement, Gigabit Ports, Seamless Roaming, Parental Controls, Works with Alexa

- * Deco uses a system of units to achieve seamless whole-home Wi-Fi coverage — eliminate weak signal areas once and for all!
- * With advanced Deco Mesh Technology, units work together to form a unified network with a single network name. Devices automatically switch between Decos as you move through your home for the fastest possible speeds.
- * A Deco M4 one-pack delivers Wi-Fi to an area of up to 2,000 square feet (EU version). And if that's not enough, simply add more Decos to the network anytime to increase coverage.
- * Deco M4 provides fast and stable connections with speeds of up to 1167 Mbps and works with major internet service provider (ISP) and modem.
- * Deco can handle traffic from even the busiest of networks, providing lag-free connections for up to 100 devices.
- * Parental Controls limits online time and block inappropriate websites according to unique profiles created for each family member.
- * Setup is easier than ever with the Deco app there to walk you through every step.

Experience Wi-Fi Like Never Before

Deco M4 uses TP-Link Mesh technology to cover your entire home in powerful Wi-Fi. Multiple units seamlessly work together to create a home network like nothing you've ever experienced.

Wi-Fi Dead-Zone Killer

Seamless Roaming

Connects up to 100 Devices

Three Modes in One

Easy Setup

Parental Controls

Works with All Deco Models

Wi-Fi Dead-Zone Killer

Deco M4 is the simplest way to guarantee a strong Wi-Fi signal in every corner of your home up to 5,500 square feet (3-pack). Wireless connections and optional Ethernet backhaul work together to link Deco units, providing even faster network speeds and truly seamless coverage.

Want more coverage? Simply add another Deco.

Ranch-Style Home

Multi-Story Home

L-Shaped Home

— 2.4 GHz wireless connection

— 5 GHz wireless connection

— Optional Gigabit Ethernet Backhaul

Smooth Operation for Multiple Applications

*Testing of multiple applications conducted by TP-Link in December 2018.

No More Buffering

Network speeds three times faster than previous generation routers, thanks to 802.11ac wireless technology, make Deco capable of providing a lag-free connection to up to 100 devices.

5 GHz 867 Mbps

2.4 GHz 300 Mbps

Single-application connections for up to

100 devices

2-in-1 Router and Access Point Modes

Flexible and multifunctional, the Deco M4 includes a variety of features allowing it to serve as a router or access point. Just choose the mode for your actual network demands and experience the maximum wireless flexibility.

Router (Default)

Instantly generate a private wireless network.

Access Point

Create Wi-Fi access for any existing wired network.

Wi-Fi Made Easy

App-Based Setup

Installing Deco M4 is fast and easy. Just unpack the system, download the Deco app and follow its onscreen directions.

Easy Management

Manage your Wi-Fi at home or away in the Deco app, including seeing the connected devices, prioritizing your devices, setting up a guest network and more.

Voice Control

Pair with Alexa to control Deco M4 with simple voice commands. Enjoy the convenient life.

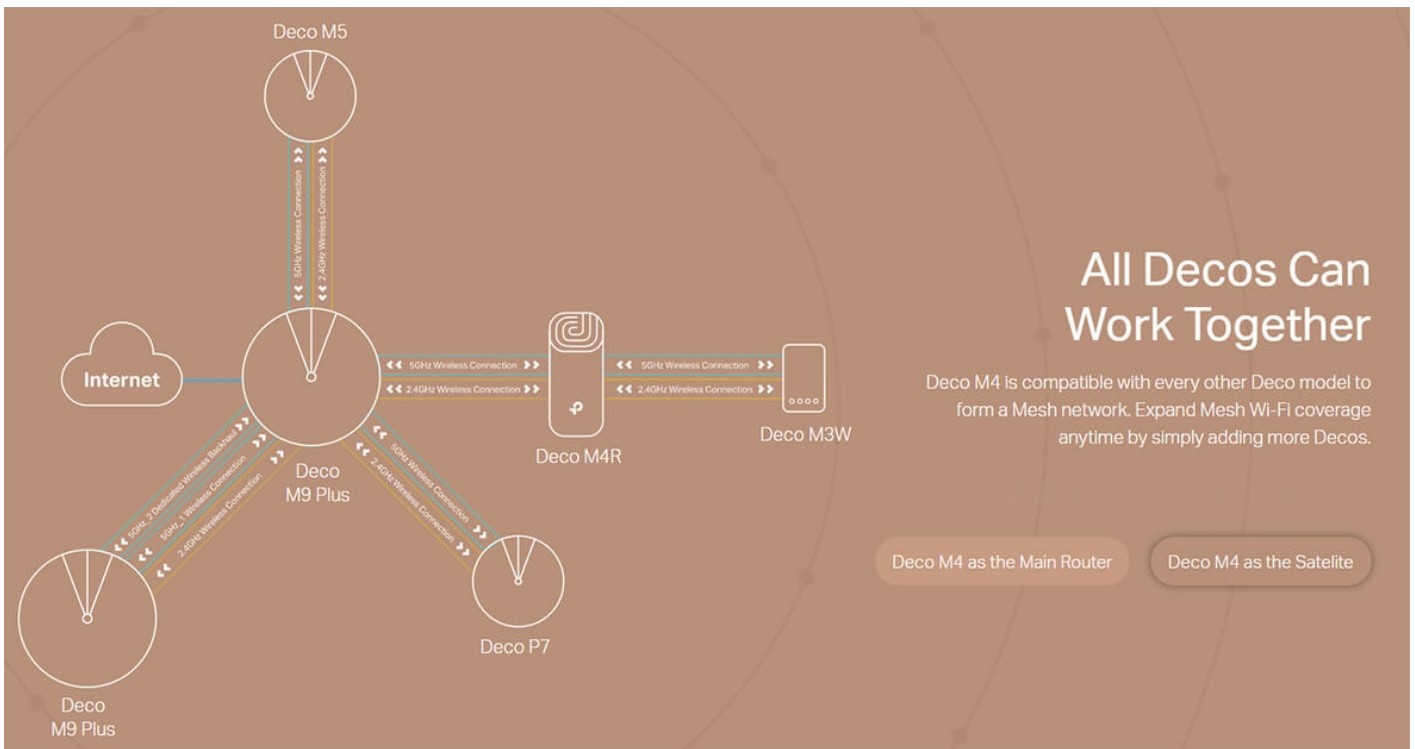

All Decos Can Work Together

Deco M4 is compatible with every other Deco model to form a Mesh network. Expand Mesh Wi-Fi coverage anytime by simply adding more Decos.

Deco M4 as the Main Router

Deco M4 as the Satellite
