Full Control.

works with the Google Assistant | Works with alexa | Kasa Exclusive Smart Actions | Readers' Choice

Kasa Smart Plug
HS103

Voice Control | Control from Anywhere | Grouping

"Alexa, Turn on the Kitchen Light."

"Alexa, Turn off the fan."

Voice Control

Free up your hands by using simple voice commands with Alexa and Google Assistant.

Smart Actions

Create interactions with your plug and other Kasa products. Connect a lamp to your plug so that when your camera detects motion, your light turns on.

ACTION
Motion detected by camera

TRIGGER
Lights turned on automatically with KASA smart plug

App Features

Scheduling
Schedule your connected devices to turn on and off automatically at specified times.

Count Down Timer
Set a timer for your connected appliance to automatically turn off when the time runs out.

Away Mode
Away Mode will automatically turn on and off connected appliances, like lamps, to make it appear as if you're home.

Run Time & Usage
View run times to track usage and cut down on energy consumption.

Simple Setup

1
Download and launch the Kasa app (Android, iOS)

2
Add the plug to your account using in-app instructions

3
Connect your appliance and enjoy.
