

Enterprise-class Server R320-D2

Barco certified server for networked visualization environment

The Enterprise-class Server R320-D2 is a powerful computing server handling multiple tasks in a networked visualization environment. It unleashes the extreme power of the latest Quad-Core Intel® Xeon® processors, and best-in-class media integration capabilities. The Enterprise-class Server D2 represents a fully qualified platform for Barco's CMS network-centric solution.

Extreme performance

- Latest generation Intel quad-core XEON processor for concurrent application and streaming media processing

Scalable, fully network centric integration

- Perfect choice as a platform for Barco TransForm N Management Server or Barco TransForm N Universal Streaming Input Node
- Supporting small up to very large multi-node and multi-source system setups

Robustness and reliability

- 19" rack mounted chassis
- Redundancy options
- Trouble-free, Barco-qualified system component
- Dell PowerEdge R320 based OEM model guarantees operational efficiency and server reliability
