The Complete Residential Solution

As Australia's leader in circuit protection equipment for over 30 years, you can be confident that Clipsal's new Resi MAX™ range sets the standard for performance and durability, and won't let you down when the going gets tough.

Clipsal Resi MAX™ range

From miniature circuit breakers and isolator switches, to RCDs and RCBOs, Clipsal's Resi MAX range offers unrivalled flexibility.

All Clipsal Resi MAX products fit easily into Clipsal's range of quality consumer switchboards, enclosures and meter boxes. Busbars and accessories are also available to simplify the installation.

New SLIM RCBO

Clipsal Resi MAX range also offers a new SLIM RCBO. Rated at 4.5kA, it achieves a 6kA rating when combined with the HRC service fuse every residence on the grid is provided with. This feature provides peace of mind when using the new SLIM RCBO on any residential application.

Clipsal Resi MAX™ symbol

To simplify the selection of suitable products for residential applications, Clipsal by Schneider Electric has marked every Clipsal Resi MAX product with the new symbol pictured below.

(as seen on packaging)

(as seen on product)

The Clipsal Resi MAX symbol is your guarantee that the product you are using is suitable for residential use. As the range has been designed and developed after site visits and discussions with practising electrical contractors, the Clipsal Resi MAX symbol provides absolute confidence that you have the right product for any residential application.

Safe as Houses.

Flexible Installation

Clipsal's Resi MAX RCBO range provides top and bottom line load compatibility - making installation and wiring a breeze.

Making Your Installation Easier

Key Features

Clipsal Resi MAX™ Symbol

The new identification symbol on all Clipsal Resi MAX products provides peace of mind. The Clipsal Resi MAX range is 100% suitable for residential applications.

RCBM220/30

Trip Indication

The two-module RCBO includes individual trip indication for both RCD and MCB faults.

Top and bottom line load compatible for easy installation.

Combination Residual Current Device SLIM (RCBO)

SLIM RCBO available to save valuable switchboard space.

RCBM220/30 Insulated busbar slot

Compatibility

Busbar compatibility has never been easier. An insulated neutral slot means that quick fit-off can be achieved as there is no need to cut the busbar.

Residual Current Device (RCD)

Tripping upon fault on RCDs is indicated by a red indicator on front panel.

L S A F E T Y F O R E V

Standards

The Clipsal Resi MAX range of MCBs, RCDs, RCBOs and isolators complies with the latest Standards - AS/NZS60898, AS/NZS61008, AS/NZS61009 and AS/NZS 60947-3 respectively.

Reliable Material

Housing for all devices is made of sturdy, self-extinguishing material in a white colour to suit most switchboard designs. Each circuit protection device has 'lift-up' terminals with combination head screws. Additional safety is provided with 'ON' and 'OFF' marking in contrasting colours on toggle mechanisms.

Time Saving

The new Clipsal Resi MAX range provides the complete solution for circuit protection. Busbar compatible RCBOs are equipped with insulated slots and deep bottom cog rail terminals, allowing for a quick fit-off. This, along with many other comprehensive features ensures Clipsal Resi MAX saves you time on installation.
