

Panasonic

COMMERCIAL FOOD SERVICE PRODUCTS

2019

WELCOME

to the range of Commercial Food Service Products from Panasonic.

Whilst you are probably aware of the Panasonic brand, what you probably didn't know is that Panasonic have been supplying commercial kitchens with products for over 50 years. We have been supplying international customers with a wide range of Commercial Food Service products, specifically design to meet the needs of the Hospitality industry.

Based on our success globally including Europe, North America, Japan, China and other parts of Asia. Panasonic is now bringing some of these ranges to Australia for the Food Service and Hospitality market.

Panasonic has a long history of producing quality products and in 2018 celebrated our 100 year anniversary since foundation. This longevity has been built on the back of long relationships with the market and working pro-actively with our customers to build a better future.

The new Commercial Food Services division has a dedicated B2B team that will manage the launch of an exciting new future for the Panasonic brand.

We will be talking to you, our customers on expanding the range in the future and hope you enjoy using our products.

WHY PANASONIC

Panasonic prides itself on producing premium products that are built to last, essential in a commercial kitchen environment. We build-in unique design features, conduct extensive testing and manage strict quality assessment procedures, that have resulted in a solid track record of performing in any conditions. We don't compromise on quality.

To ensure a dedicated B2B approach, we operate from within the Hussmann Australia Pty Ltd (a Panasonic company), a market leader in the manufacture and supply of supermarket fridge and freezer cabinets across Australia. In Sydney we have over 17,000 sq metres of factory/warehouse where we keep a vast range of parts and extensive stock to support fast turnaround orders and speedy repairs. It is this network and warehousing capacity that enables us to maximise our reach for service and support.

We are dedicated to the long term position of Panasonic Commercial Food Service products, so much so that we offer a 2 year warranty on parts for our commercial series refrigeration range, backed up with a nation-wide service team and a unique in-field warranty on our microwaves, where any issues or delays in repairing your microwave will be covered by a loan machine until the repairs can be completed!

So with this network and experience we promise to deliver: Quality, Innovation and Experience.

And we guarantee it!

MICROWAVES

Panasonic

**COMBINATION
MICROWAVE OVEN
NE-C1275**

**SPEED AND VERSATILITY
WITH A 2-YEAR WARRANTY**

The NE-C1275 Combination Oven features Microwave, Grill and Convection Oven - which is versatile enough to cook anything from hearty pies to delicious paninis - fast and to perfection. Downloaded cooking programs can be easily transferred via SD Card - making it an ideal choice for use in hotels, clubs and restaurants with set menus, where consistent results and ease of operation are essential.

NE-C1275

3 WAY COMBINATION OVEN

- 1800W Convection Oven, 1800W Grill, 1150W Microwave
- High speed Fan Grill and Grill Convection functions for faster browning results
- Combination Options include: Microwave + Grill; Microwave + Convection; Microwave + Fan Grill; and Microwave + Grill Convection
- Preset Combi keys offer 5 popular combination options which can be selected with one touch
- Microwave has 6 power levels. Dual emission bottom energy feed ensures even heating
- Convection oven settings range from 100°C – 250°C
- 4 element Quartz Grill with 2 power levels and recessed elements
- Three fast “Preheat” settings – up to 240°C on continuous standby (will maintain temperature for up to 4 hours of non use).
- 2 shelf positions
- Up to 99 programs available, each can be preset with up to 3 stages of combination or single cooking cycles
- Programmable manually or via SD Memory Card and your Personal Computer
- Fast cool feature to quickly reduce oven temperature for easy cleaning and low temperature cooking
- Beep tone option and clean air filter reminder
- Program lock

PLACEMENT OF YOUR OVEN

- Oven must be placed on a flat, stable surface.
- For proper operation, the oven must have sufficient air flow.
- A gap of at least 5cm (2”) must be available at the right and left hand sides and back wall of the oven.
- A minimum space of 20cm (8”) must be left above the oven and the 2 exhaust vents at the rear.
- Do not place the oven on a shelf directly above or beside a gas or electric hob or cooker. This may cause damage to the oven.
- It is dangerous to position this oven on a shelf which is so high that food and accessories cannot be safely removed by the user.
- Do NOT attempt to stack these ovens.

ACCESSORIES INCLUDED

Wire Rack Shelf and Ceramic Insulating Tray

Dual shelf positions enable food to achieve traditional browning from the oven or the grill.

eco ideas

The Panasonic Group takes the environment into full consideration when manufacturing products.

Saving Energy

We thoroughly pursue energy-saving efficiency in the products that we deliver to our customers, and aim to reduce the amount of CO₂ emitted during product use.

Saving Resources

We reduce the amount of new resources used in new products, and recycle resources from end-of-life products, to promote resource recycling.

Chemical Substances

Panasonic products comply globally with the standard values for using substances* designated by the RoHS Directive as impacting the environment.
* Lead, cadmium, mercury, hexavalent chromium, polybrominated biphenyls, and polybrominated diphenyl ethers.
