Flexible Self-Service Kiosk

C24

If you're interested in improving the customer experience while serving more customers, look no further than the C24 Flexible self-service kiosk. Made to suit all types of locations, the C24 is designed to deliver on maximum self-service capacity. Cash, card and mobile payment options mean your customers will benefit, however they choose to pay. With the Acrelec Transformation Platform software, take advantage of multi-function capabilities, allowing the kiosk to service more than one business function in the same unit.

More than just hardware, our ATP software provides a powerful platform for rapid and scaleable business application development. What is holding you back?
