

F-556 Built-In Fryer

Model F-556

DESCRIPTION

Wells F-556 built-in fryer is one of the most dependable, durable and easy-to-use fryers in the industry and comes with two rear hanging, 1/2-size fry baskets standard. Deep drawn fry pot is removable and made of stainless steel for strength, durability and long life. The fry pot is easily removable and holds 15 Lbs. of oil.

SPECIFICATIONS

CONSTRUCTION – features stainless steel top, flange, control housing and fry pot. WellsLok™ is standard for ease of installation.

ELEMENTS – F-556 fryers are equipped with swing-up, flat-blade, low-watt density elements for quick heating, fast recovery and long life. Elements are rated at 5,750 watts on 208V or 240V, single phase. Typical production is 300 each 2 ounce servings of French fries or 20 Lbs. of chicken per hour. Pre-heat time to 350°F is 4 1/2 minutes and 450 watts per hour to maintain 350°F. Elements are located below the basket for even heat distribution. Elements control housing has a spring-loaded, self-locking rod support to safely secure elements when is in the raised position.

CONTROLS – Oil temperature is operated by a positive off, adjustable, snap-action thermostat that ranges from 275° F to 375° F. A manual reset safety thermostat shuts the heating element power should an over temperature occur. A red signal light indicates an over temperature condition.

STANDARD FEATURES
