

ELITE FLEX

Technology for life's new rhythm

Say hello to a more sustainable product

IT products are associated with a wide range of sustainability risks throughout their life cycle. Human rights violations are common in the factories. Harmful substances are used both in products and their manufacture. Products can often have a short lifespan because of poor ergonomics, low quality and when they are not able to be repaired or upgraded.

This product is a better choice. It meets all the criteria in TCO Certified, the world's most comprehensive sustainability certification for IT products. Thank you for making a responsible product choice, that help drive progress towards a more sustainable future!

Criteria in TCO Certified have a life-cycle perspective and balance environmental and social responsibility. Conformity is verified by independent and approved verifiers that specialize in IT products, social responsibility or other sustainability issues. Verification is done both before and after the certificate is issued, covering the entire validity period. The process also includes ensuring that corrective actions are implemented in all cases of factory non-conformities. And last but not least, to make sure that the certification and independent verification is accurate, both TCO Certified and the verifiers are reviewed regularly.

Want to know more?

Read information about TCO Certified, full criteria documents, news and updates at tco-certified.com. On the website you'll also find our Product Finder, which presents a complete, searchable listing of certified products.

1. Welcome

Thank you for using the Jabra Elite Flex. We hope you will enjoy it!

Jabra Elite Flex features

- Unique fold-and-go design
- Jabra ClearVoice microphone technology
- Hybrid Active Noise Cancellation (ANC)
- Jabra Air Comfort technology
- Hideaway boom arm
- Wireless range of up to 30m/100ft

2. Overview

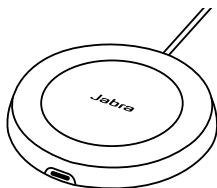

2.1 Included accessories

Carry pouch

2.2 Optional accessories

Wireless charging pad

Replacement ear cushions

3. How to wear

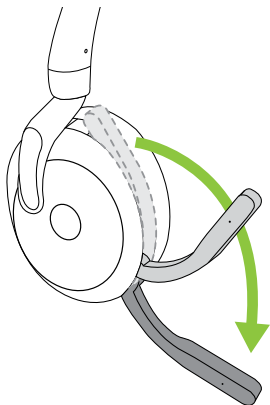

3.1 Adjusting the headset

Adjust the headband so that the headset fits your head comfortably.

3.2 Positioning the microphone boom arm

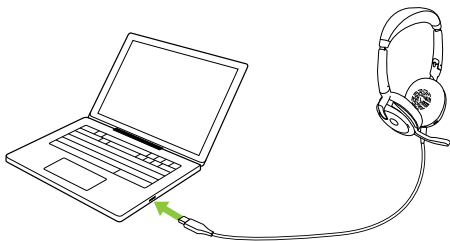

Pull the microphone boom arm down or up in one smooth motion.

When using the microphone, the tip of the boom arm should be positioned close to your mouth.

4. How to charge

The headset can be charged using the wireless charging pad, or via a USB charging cable plugged directly into the headset.

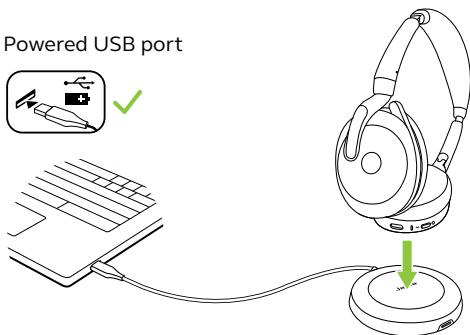

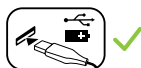

It takes approx. 2 hours to fully charge the battery. The headset battery life is up to 32 hours. If the headset is out of battery, it can be charged for 15 minutes to get 6 hours of battery life.

4.1 Charge using the wireless charging pad (optional accessory)

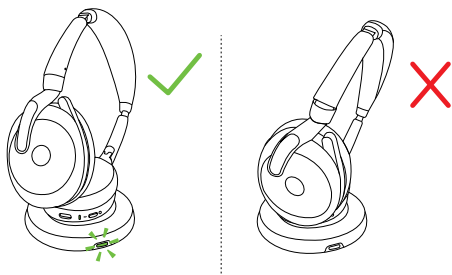

Connect the wireless charging pad to a powered USB port on your computer using the supplied USB charging cable, and then place the left earcup on the wireless charging pad.

The wireless charging pad is for charging only.

Powered USB port

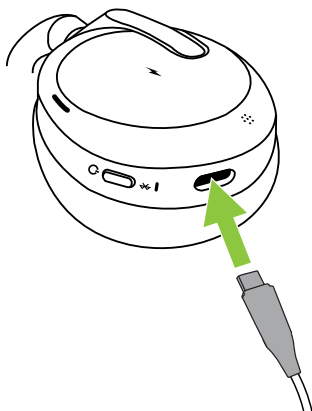

The LED on the wireless charging pad will light up to indicate the left earcup has been correctly placed on the wireless charging pad and headset the battery is charging.

The status LED on the headset will then briefly flash green, yellow or red to indicate the current battery charging status. When the status LED turns solid green, the headset is fully charged.

4.2 Charge using USB charging cable

Plug the USB charging cable into the USB-C charging port on the left earcup and any available USB port on your computer. It is recommended to charge the headset using the supplied Jabra charging cable, however it is possible to use a compatible charger.

4.3 Power saving modes

The headset has two levels of power saving modes: nap mode and sleep mode.

NAP MODE

When the headset is powered on, but not being worn, it will automatically enter nap mode to conserve battery. To exit nap mode, simply wear the headset.

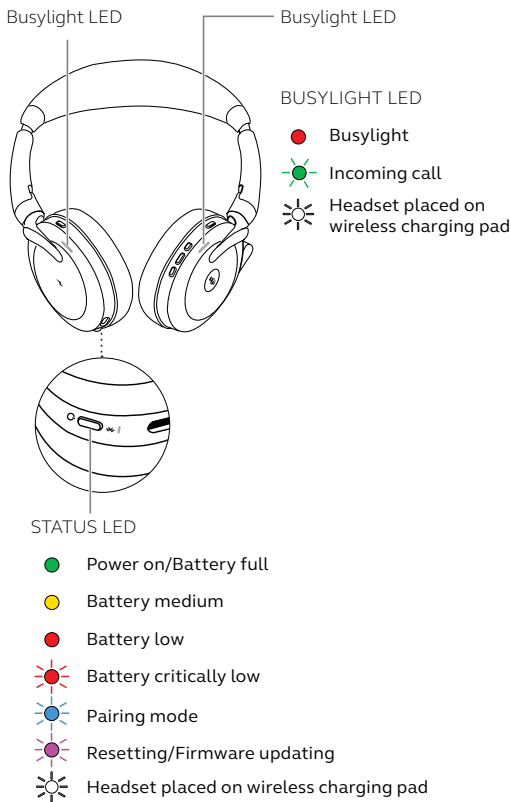

SLEEP MODE

When the headset has been in nap mode for 4 hours it will automatically enter sleep mode to further conserve battery. To exit sleep mode, simply press any button.

The length of time before the headset enters sleep mode can be adjusted using the Jabra Sound+ app on your smartphone.

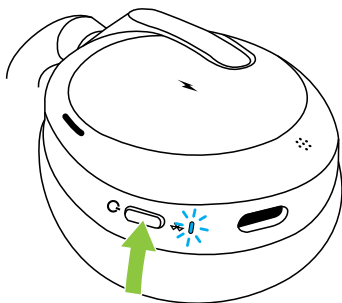

After 24 hours of sleep mode, the headset will power down completely. To power the headset on, slide the On/Off switch to Off and then On.

5. What the LEDs mean

6. How to pair with a smartphone

1. Press and hold the **Power** button for 4 seconds until the LED flashes blue and you hear a pairing announcement in the headset.

4 sec

2. Go to the Bluetooth menu on your smartphone and select the Jabra Elite Flex from the list of available devices.

When pairing with an Android device that has Google Fast Pair enabled, simply put the headset into pairing mode and you will be prompted on your nearby Android device if you wish to pair the headset.

Turn off Sound modes

Press and hold (1 sec) the **Sound modes** button

7.3 On-head detection

The Jabra Elite Flex has sensors that detect when the headset is lying flat on a table or is being worn.

The sensors enable the following controls:

AUTO-PAUSE MUSIC

When listening to music, taking off the headset will automatically pause the music.

Wearing the headset again within 60 seconds will automatically resume the music. To manually resume the music, press the Play/pause button on the headset.

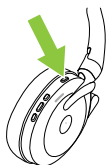

On-head detection can be configured using the Jabra Sound+ app on your smartphone.

7.4 Voice Assistant

The Jabra Elite Flex enables you to speak to Siri or Google Assistant on your smartphone using the **Voice** button.

Right earcup

Voice Assistant

Activate Voice Assistant

Press the **Voice** button, when not on a call

7.5 Busylights

The Busylights on the headset automatically light up red when you are on a call to indicate that you are busy.

To manually switch the Busylights on/off, press the Volume up and Volume down buttons at the same time.

Busylight settings can be configured using the Jabra Sound+ app on your smartphone.

7.6 Active Noise Cancellation (ANC)

Active Noise Cancellation (ANC) counters noise by detecting and analyzing the pattern of incoming sound and then generating an anti-noise signal to cancel noise out. As a result, you experience a reduced level of surrounding noise during music and calls.

| Left earcup | ANC |
|---|--|
|  | Cycle between ANC and HearThrough Press the Sound modes button |
| | Turn off Sound Modes Press and hold (1 sec) the Sound modes button |

The level of Active Noise Cancellation can be configured using the Jabra Sound+ app on your smartphone.

7.7 HearThrough™

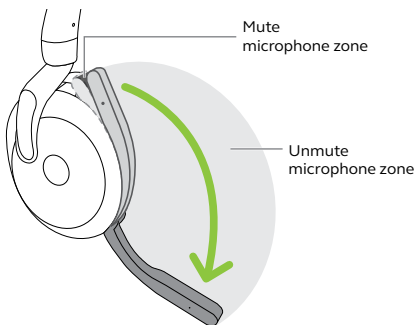

HearThrough utilizes the built-in microphones to enable you to pay attention to your surroundings and engage in conversation without needing to remove the headset.

| Left earcup | HearThrough |
|---|--|
|  | Cycle between ANC and HearThrough Press the Sound modes button |
| | Turn off Sound Modes Press and hold (1 sec) the Sound modes button |

The level of HearThrough can be configured using the Jabra Sound+ app on your smartphone.

7.8 Mute/unmute using the microphone boom arm

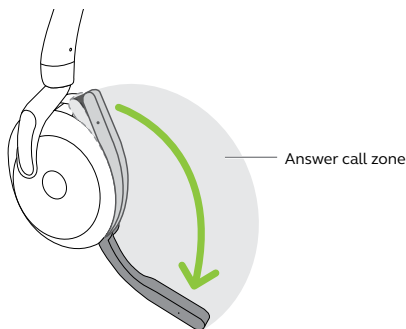

The headset microphone can be muted by moving the microphone boom arm up, or unmuted by moving it down.

This feature is on by default, and can be disabled using Jabra Sound+ on your smartphone.

7.9 Answer call using the microphone boom arm

An incoming call can be answered by moving the microphone boom arm down.

This feature is on by default, and can be disabled using Jabra Sound+ on your smartphone.

7.10 Multiuse

The headset can pair with up to eight Bluetooth devices and connect to two Bluetooth devices at once. The headset can accept multiple incoming calls from either device.

To pair with two Bluetooth devices, use the normal pairing process separately for each Bluetooth device (refer to section 6).

Note: Voice assistant will be activated on the last connected Bluetooth device.

7.11 Multiple call handling

The headset can accept and handle multiple calls at the same time.

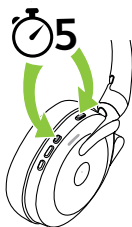

| Right earcup | Multiple call handling | |
|---|---|--------------------------------------|
|  | End current call and answer incoming call | Press the Call button |
| | Put current call on hold and answer incoming call | Hold (2 secs) the Call button |
| | Switch between held call and active call | Hold (2 secs) the Call button |
| | Reject incoming call, when on a call | Double-press the Call button |

7.12 Audio notifications

Audio notifications indicate connection and battery status and announce pairing instructions. Audio notifications are enabled by default.

Right ear-
cup

Voice guidance

Turn audio
notifications
on/off

Press and hold
(5 sec) the **Voice**
button and the
Volume up button
until you hear an
announcement in the
headset

Audio notifications can be configured using the Jabra Sound+ app on your smartphone.

For the latest list of supported languages, refer to the Jabra Sound+ app.

7.13 How to reset

Resetting the headset clears the list of paired devices and resets all settings.

Right
earcup

Reset headset

Reset pairing
list and
settings

Ensure the headset is powered on and you are not on a call. Then press and hold (3 sec) the **Call** button and the **Volume up** button simultaneously until the LED lights up pink and you hear an announcement in the headset

You will need to re-pair the headset with your Smartphone (see section 6)

8. Software and firmware

8.1 Jabra Sound+

Jabra Sound+ is a mobile application that allows you to configure the Jabra Elite Flex based on your needs.

8.2 Update firmware

Firmware updates improve performance or add new functionality to Jabra devices.

The headset firmware can be updated using Jabra Sound+ app on your smartphone.

9.2 How to care for your headset

- Always store the headset in the supplied pouch.
- To prevent the depletion of the battery lifetime or capacity, avoid storing the headset in hot or cold environments, such as a closed car in summer, or in winter conditions.
- It is recommended to keep the headset between -10°C and 55°C (14°F and 131°F).
- Do not store the headset for extended periods of time without recharging them (max. three months).
