

Description for ASF Universal Baliwala & Homi Trail Lense Set

The ASF Special Trial Lens Set is a cost-effective combination of spheres, cylinders and accessory lenses. These economical biconvex and biconcave lenses are mounted in metal rims that have the lens power engraved in both sides of the handle. The full diameter lens provides a wide field of view during refraction. These lenses can be used with instruments that require a patient's correction such as a visual field. The ASF Special Trial Lens Set is supplied with a handsome velvet lined Wooden carrying case.
