

Ventilation Fans

**When your
home breathes,
you breathe
easier, too.**

When your home breathes, you breathe easier too.

Exhaust Ventilation

removes excess moisture and odor from any room in the home, and can also provide continuous, whole-house ventilation.

Kitchen Ventilation

expels cooking effluents from food preparation to eliminate airborne pollutants from spreading through the entire house.

Fresh Air Systems

efficiently exchange inside air with fresh outside air, and remove airborne particulates with HEPA filtration.

Overture™ System

is a fully automated fresh air solution that monitors and manages indoor air quality to eliminate pollutants and bring in fresh, clean air from the outside. See page 9 to learn more.

Broan-NuTone® can improve indoor air quality in every room of the home.

From clearing humidity in the bathroom to removing steam and other airborne effluents in the kitchen, no company knows residential and light commercial ventilation like Broan-NuTone. After countless innovations and a commitment to indoor air quality, trust Broan-NuTone to clear up every concern.

Why indoor air quality is important to you.

Not all homeowners recognize what contributes to poor indoor air quality, the potential effects and harm, and how to address these problems. Broan-NuTone® is here to help. For 90 years, Broan-NuTone has led the industry with residential ventilation solutions that improve indoor air quality and provide healthier home environments.

Moisture

that is not properly ventilated can cause mildew and mold formation, potentially leading to structural and health problems. Exhaust ventilation solutions from Broan-NuTone remove humidity at the source to help maintain the optimal humidity balance of 40–60%.

Off-gassing

from construction materials, carpeting, adhesives and synthetic materials—as well as solvents from common household cleaners—can accumulate in tightly built homes. Look to Broan-NuTone for continuous ventilation solutions that meet ASHRAE 62.2.

Particulates

from dust, allergens, pet dander, and more can contribute to poor indoor air quality up to 100 times more polluted than outside air. A properly ventilated home creates a more enjoyable, comfortable and healthier environment.

Cooking byproducts

can infiltrate the whole house in minutes. Grease, oils and aromas settle permanently into carpets, furniture, clothing and other surfaces. Kitchen ventilation solutions help eliminate cooking effluents for a cleaner, more comfortable and healthier environment.

America's most used and trusted residential ventilation company.

Broan-NuTone® is proud to have our American-made ventilation and home comfort and convenience products installed in 90 million homes across the country.

Industry leadership can't be claimed. It's earned through innovation.

Nine decades ago, an engineer in Southeastern Wisconsin named Henry Broan had a revelation: wouldn't a built-in mechanical ventilation solution help to provide better indoor air quality in the kitchen? And so, Motordor® was conceived—the first kitchen ventilator—and a company was born. The invention of the bath fan soon followed, as the passion for improving indoor air quality continued.

Throughout the years, Broan-NuTone® has led the industry with countless innovations. From the first energy-efficient certified fans and range hoods, to quiet ventilation solutions that are easier than ever to install. It's because Mr. Broan knew leadership is earned and proven through a passion and commitment to finding novel solutions to real problems time and time again. This is why Broan-NuTone has taken the job of improving air quality in our homes very seriously for 90 years.

To build a code-compliant home, understand today's ventilation requirements.

The American Society of Heating, Refrigeration and Air Conditioning Engineers set the ventilation standard for low-rise residential buildings with ASHRAE 62.2. It established the minimum standard for spot ventilation of bathrooms at 50 CFM delivered airflow at 3.0 sones or less, and specifies requirements for whole-house ventilation at a max sound rating of 1.0 sone for ventilation fans.

Use these tables to find whole-house solutions that help meet ASHRAE 62.2.

Flex Series.™ Take the aggravation out of installation.

Flex Series™ is about time-saving, flexible solutions for new construction or roomside retrofit. Innovative features simplify roomside installation and improve building airtightness like never before. With fresh cover designs and a full range of fans, fan/lights and sensing models, there's a Flex Series™ solution for every installation.

Easy roomside installation. Airtight performance. LED lighting.

FoldAway® mounting ears simplify new construction and fold flat for roomside retrofits.

LED lighting offers energy efficiency and longevity. The 11-watt, 800 lumen integrated module lasts up to 25,000 hours.

TrueSeal® damper technology reduces air leakage up to 50%, and saves up to 1 HERS point and \$9 per year in operating costs.*

EzDuct™ connector enables roomside installation without attic access. Pull the 4" duct through, attach the EzDuct™ connector and set it with one screw.

*Compared to competitive fans; based on software calculations and analysis conducted by Broan. Testing reflects total fan housing air tightness.

Scan or tap the code to see how Flex Series™ fans simplify installation.

Flex DC Series™. We took Flex even further.

Flex DC Series ventilation fans provide three CFM settings accessible at the touch of a switch. You have the best solution for any installation. An energy-efficient DC motor makes it possible, all while running at less than 1.0 sone at all fan speeds.

Features

- 50% more airtight
- Select 50, 80 or 110 CFM with a switch
- Dimmable LED fan/lights
- Humidity sensing models
- Quiet operation as low as <0.3 sones
- Flange kit for a leak-free seal (sold separately)
- Enhanced energy efficiency—up to 14.7 CFM/watt

Available on select models
Hanger Bars | Humidity Sensing | LED Lighting

Flex DC Series™ Simplify installation with three-way selectable CFM.

The Flex DC Series™ was built to give you what matters most. With a selectable DC motor, you can switch between 50, 80 or 110 CFM to meet any room ventilation requirement as well as ASHRAE 62.2 for spot and dwelling unit ventilation. The brushless DC motor lasts longer than standard motors and achieves 90% efficiency, saving money long after installation.

General Features & Benefits

- Selectable DC motor enables right-sized ventilation for any room
- Quiet operation at less than 1.0 sone at all CFM speeds
- TrueSeal® damper technology creates an airtight seal from inside the housing
- 4" round duct connector compatible with any Broan duct increaser
- UL Listed for use over tub and shower when connected to a GFCI protected branch circuit
- Type IC, fits 2" x 6" and larger construction

Monitor, measure and manage your indoor air quality with Overture.™

Today's tightly built homes are models of energy efficiency. But sometimes, what you can't see requires the most attention. The Overture™ system monitors, measures and manages indoor air quality at the room level. When high levels of humidity, TVOCs, CO₂ and temperature are detected, Overture™ automatically starts ventilation devices to exhaust bad air and introduce fresh air.

Look for the Overture™ Badges throughout the catalog to find compatible products.

Better Life. For Our Veterans.

We believe that Veterans, particularly those who returned wounded, deserve a better life. So we're proud to support the Homes For Our Troops foundation by donating products to help Veterans breathe fresh, clean air at home.

Broan-NuTone.com

QT® Series. Peaceful moments can be enjoyed even more.

The very quiet Broan-NuTone QT® Series is the ideal solution for any room that benefits from ventilation. Most QT® models operate at less than one sone—the sound of a quiet running refrigerator. But quiet operation doesn't mean less power. Installed properly, the QT® Series maintains full-rated airflow in real-world installations.

General Features & Benefits

- Selectable DC motor enables right-sized ventilation for any room
- 30% tighter housing than competitive models*
- Flangeless housing facilitates a seamless installation
- Quiet operation at less than or equal to 0.7 sones at all CFM speeds
- TrueSeal® damper technology creates an airtight seal from inside the housing
- 6" round duct connector to reduce static pressure in ducting
- UL Listed for use over tub and shower when connected to a GFCI protected branch circuit
- Type IC, fits 2" x 8" and larger construction

*Compared to competitive fans; based on software calculations and analysis conducted by Broan. Testing reflects total fan housing air tightness.

QTXEDCH

Simplify Installation with Project Packs.

Project packs are ideal for contractors and builders who have yet to pick out the final product. With the housing for the fan sold separately from the cover and motor, contractors are able to continue with construction and not have to worry about damaging, losing or storing the product. Once all construction is complete, the purchase of a finish pack, 4 covers and 4 motor/blower wheels, can be made to add the finishing touches to the room.

General Features & Benefits

- Very quiet operation 0.3 to 1.4 sones
- 80 CFM to 150 CFM
- 6" ducting for superior performance
- Hanger bar system up to 24" for flexible installation in all types of construction
- Motor engineered for continuous operation
- UL Listed for use over tub and shower when connected to a GFCI protected branch circuit
- Fits 2x8 ceiling construction
- ENERGY STAR® certified
- HVI Certified
- Radiation damper RDFQF available separately

QTXE110S

- Fan cover-mounted humidity sensor for fast reaction time
- Sensaire™ Sense on Rise technology
- Hanger bar system up to 24" for flexible installation in all types of construction

QTXE080, QTXE110, QTXE150

RDFQF

Premium Radiation Damper.

When the air temperature passing through the damper exceeds 165°F the fusible link melts, triggering the thermal fabric to automatically close across the damper. Airflow is interrupted by a flame and heat barrier, preventing the rapid spread of fire to other areas. **Scan or tap the code to learn more.**

We didn't just change one thing to make installation faster. We changed everything.

For the fastest, easiest, most universal solution for any installation, think ULTRA® Series. With a unique telescoping mounting frame that installs roomside on retro-fits and an easy-to-insert housing and blower that snap into place, you'll never have another difficult installation—no matter what's behind the drywall.

ULTRA Green®. The perfect solution to meet today's continuous ventilation requirements.

Built for easy installation in either new construction or retrofit applications, the ULTRA Green® Series makes it simple to ventilate any room in the house. Exclusive ULTRA Smart™ DC Motor and Control Technology enables fans to maintain their powerful operation—even at high static pressures—and provide required air movement levels for whole-house ventilation, all while meeting spot ventilation needs on-demand. Continuous CFM levels can be precisely adjusted to meet the specific needs of each home.

General Features & Benefits

- HVI Certified at <0.3 sones, ULTRA Silent™ sound technology provides the quietest sound rating obtainable
- 80 or 110 CFM
- Intermittent and continuous ventilation
- ULTRA Smart™ DC Motor and Control Technology monitors CFM output and adjusts motor speed to ensure rated air movement ULTRAQuick® installation technology enables fast, easy, universal installation
- XB and ZB models feature 6" ducting 80 CFM models include an optional 6" to 4" duct reducer
- UL Listed for use over tub and shower when connected to a GFCI protected branch circuit
- Type IC
- Fits 2x8 ceiling construction
- Optional RDFU premium radiation damper kit available

ULTRAQUICK®
INSTALLATION TECHNOLOGY

ULTRA® Ventilation Fans are engineered to be the fastest, easiest, most universal installation in remodel, retrofit or new construction—in any type of joist or truss system. Exclusive features simplify installation to save valuable time and money.

Inside/outside wiring capability provides flexible new or retrofit installation

Pre-installed screws in the mounting frame enable quick installation

Vertical positioning tabs ensure the housing is in the right place

The expandable mounting frame adjusts from 14"–24" and fits any type of joist, I-Joist or truss construction

Everyday White LED Light

SurfaceShield™ with Vyv™ antimicrobial light technology is helping keep your spaces cleaner. SurfaceShield quietly removes excess humidity while killing* viruses and fighting bacteria, mold, and fungi growth in your bathroom or other humidity prone environments. With the flip of a switch you'll spend less time cleaning and more time with the ones you love.

Shower curtains, shower walls, toilet seats, door handles, faucets and sinks are all places viruses, odor and illness causing bacteria, mold, and mildew accumulate. By preventing microbes from lingering, Broan-NuTone's SurfaceShield™ technology works doubly hard by removing airborne pollutants from the room and reducing microbial buildup.

That technology is coupled with the powerful and quiet 110 CFM Roomside™ series bathroom ventilation fan to remove humidity and pollutants from the air in the room.

*Testing on a non-enveloped virus (MS2 bacteriophage) showed a 99.985% reduction in controlled laboratory testing in 6 hours on hard surfaces. MRSA and E. coli showed 90%+ reduction in controlled laboratory testing in 24 hours on hard surfaces. Results may vary depending on the amount of light that is reaching the surfaces in the space where the product is installed and the length of time of exposure. Use of Vyv antimicrobial light is not intended to replace manual cleaning. Get more info at vyv.tech/virus

SurfaceShield™ Anti-bacterial Fan/Light AR110LKVV, ARN110LKVV

- EzDuct™ connector enables easy roomside installation
- TrueSeal® damper technology reduces air leakage up to 50%
- SnapFit Flange Kit offers flexible installation for new construction or retrofit upgrades
- Foldable mounting ears allow for easy installation in both new construction and room-side replacement applications
- Powerful enough for rooms up to 105 sq. ft.
- Brighter white covers blend in to match most common ceiling paint
- Corrosion resistant galvanized steel housing stands up to moisture
- Permanently lubricated AC motor engineered for continuous operation

Virus

Gram Negative Bacteria

Fungi

Petri dish without and with SurfaceShield™ protection.

Turn your existing fan/light into a SurfaceShield™ anti-bacterial solution and virus-killing solution.

With an upgrade kit or LED module, many Broan-NuTone® fan/lights can be converted into a SurfaceShield™ solution in a matter of minutes. Both are compatible with certain legacy Broan® or NuTone InVent®, Flex Series™, or Roomside Series fan/light.

Upgrade Fan Cover FG1000VV

- CleanCover® stays cleaner longer with less louvers to trap dust and dirt
- Two lighting modes: an everyday LED white light perfect for task lighting and the SurfaceShield™ continuous antibacterial mode
- No drywall or additional wiring work required. Plugs directly into existing lighting connection
- Compatible with existing ventilation fan housing dimensions of 9¼" x 10" (lighted fans only)

LED Module VVLED

- Replace the LED lighting module in your existing fan/light
- Two lighting modes: an everyday LED white light perfect for task lighting and the SurfaceShield™ continuous antibacterial mode

ChromaComfort.[®] Color the way you live.

Experience greater ambience in your home. The ChromaComfort[®] fan combines colorful LED lighting options, superior ventilation, and quiet operation to create a colorful experience for any room of your house. Control light settings, brightness, timers, and fan speed all at the touch of a button.

Choose from 24 different hues to fit your aesthetic mood.

The uniquely-designed, multi-color LED chroma light features dimmable LEDs so you can create any color ambience and adjust brightness levels.

SPK110RGL, SPKN110RGL

- Enjoy crisp, bold sound with a built-in Sensonic™ Stereo Bluetooth® speaker
- Create your own personal experience with 24 selectable colors via the included wall control or over 16 million choices on the free smartphone app
- Brilliant lighting controlled with included wireless wall control or app
- Continuous color transitions
- Bluetooth® wireless technology for app connection
- Room-side installation means no attic access required

SENSONIC®
YOUR MUSIC OUT OF SIGHT

Your music, out of sight.

Ventilation for the music fan.

Unlike wireless speakers that require counter space, Sensonic® speakers with Bluetooth® wireless technology fill your room with rich sound from above. From hard rock to news talk, play any audio through the dual high-fidelity speakers and enjoy entertainment and privacy at the touch of a button.

SPK110

- Dual high-fidelity Sensonic® speakers
- Brilliant audio performance concealed behind your fan cover
- Play any audio through most Bluetooth® enabled devices
- Effective, extremely quiet ventilation clears humidity and odors quickly
- UL Listed for use over tub and shower when connected to a GFCI protected branch circuit
- Type IC for use in direct contact with thermal insulation
- Fits 2x8 ceiling construction
- Includes unique spacer for easy I-joint mounting
- ENERGY STAR® certified

SPK80L

- High-fidelity Sensonic® speaker
- 80 CFM
- 2.5 sones
- Bright, energy-efficient LED light
- Most common bath fan size—easy DIY project
- Tapered, polymeric 4 in. round duct fitting for easy, positive duct connection and no metallic clatter
- UL Listed for use over a bathtub or shower when connected to a GFCI-protected branch circuit to provide more direct ventilation (ceiling mount only)
- Bright white covers match most common ceiling paint
- Corrosion-resistant galvanized steel housing stands up to moisture
- Permanently lubricated AC motor engineered for continuous operation

Decorative ventilation. Draw fresh air into any room in the home—beautifully.

Imagine a fan/light combination fixture that unobtrusively blends into the ceiling. Or a statement fan/light with a stunning LED perimeter glow that showcases your unique décor. Our decorative series provides the necessary ventilation, all while meeting your decorating challenges without compromising your style.

General Features & Benefits

- High efficiency centrifugal fan
- 70 CFM or 50–80 CFM, see table below
- Trim matches designs of major recessed light manufacturers
- Put multiple units in larger rooms
- All models UL Listed for use over tub and shower when connected to a GFCI protected branch circuit
- 6 $\frac{7}{8}$ " high housing appropriate for new construction and 2" x 8" ceiling joists
- 4" round duct connector
- Wall control switches available, see pages 48–51
- Type IC, sealed housing
- Not for use over cooking surfaces

744, 744NT, 744LED

- 744LED includes 9.5 watt, GU24 based LED bulb
- 744 and 744NT require PAR30L or PAR30LN type bulbs (not included). Both products use a standard E26 base (R30 or BR30 for standard applications)

744RNL

- Selectable speeds of 50–80 CFM
- Quiet operation of 0.3 and 2.0 sones
- E26 LED bulb included
- Adjustable brackets to make installation easier
- ENERGY STAR® certified
- Choose bronze, nickel or white trim rings

744L

- White trim ring included
- Selectable CFM with speeds of 50 or 80 CFM
- Quiet operation of 0.3 sones and 2.0 sones
- Matches most recessed lights to blend in seamlessly
- Plug-in permanently lubricated motor
- Rugged galvanized steel construction
- Adjustable mounting brackets for ease of installation
- UL listed for use over bathtubs and showers when connected to a GFCI protected branch circuit
- UL listed for use in insulated ceilings (Type IC)

Ventilation can be beautiful, as well as functional.

It might look like an attractive lighting fixture, but a decorative solution from Broan-NuTone brings powerful ventilation into any room—beautifully. Choose from styles and finishes that complement fixtures, finishes and hardware while delivering the ventilation power you need. It really is a breath of fresh air.

General Features & Benefits

- Dimmable integrated LED module (except on 770RLTK/770RNLTk)
- Sturdy, easy, four-point mounting directly to the joist
- Motor engineered for continuous operation
- Rugged, galvanized steel construction

AER110SLW, AERN110SLW, AER80LWH, AERN80LWH

- Low-profile designer style fan cover
- AER110SLW and AERN110SLW have humidity sensing capabilities to rapidly remove moisture
- AER110SLW and AERN110SLW are UL listed for use in insulated ceilings (Type IC)
- All models except AR80LWH are ENERGY STAR® Certified

AER110LBN

- White fan covers complements any décor
- Fits in 2x6 ceiling construction
- 4" duct / E26 base lighting
- Designed to fit the space of a heater/fan/light
- UL listed for use over tub and shower when installed in a GFCI protected circuit

AR80MB

- Matte black decorative luminaire provides a distinctive accent
- Room-side retrofit install with EzDuct™ connector—no attic access required
- TrueSeal™ Damper reduces air leakage up to 50%
- Foldable mounting ears enable easy installation—new construction or retrofit
- AC motor engineered for continuous operation

ENERGY STAR® fans use 70% less energy, on average, than standard models and may qualify for local utility rebates

Whether wall or ceiling mount, LoProfile is the right fan for a tight fit.

For some installations, conventional ventilation simply won't fit. Where multi-family applications require it, the LoProfile fan is narrow enough to be installed in a wall between 2x4 studs. If plumbing or electrical obstructions are found behind the drywall in ceiling remodel applications, the fan still fits without having to move anything. That way, any room can have powerful, quiet, efficient ventilation.

Narrow enough to be installed in a wall between 2x4 studs

LP50100DC.
Selectable CFM with speeds of 50-80-100.

General Features (LP80, LP110, LP50100DC)

- Fits in 2x4 ceiling or wall construction
- >50 CFM at 0.25" static pressure meets ASHRAE 62.2 local ventilation requirements (with 4" oval duct or 3" round duct)
- Efficient operation lowers utility bills
- Ideal for multi-family applications
- Compatible with RDF1 Premium Radiation Damper (LP50100DC compatible with RDF2 Premium Radiation Damper)
- Project packs available
- 80 CFM with 4" duct ensures ample air movement; 70 CFM with 3" duct reducer
- 4" oval or 3" round duct connection for installation flexibility (LP110 and LP50100DC come with 4" duct only)

**LP50100DCF
Fan Finish Pack**
Broan® LoProfile series housing pack, 50-80-100 Selectable CFM, ENERGY STAR®

LP80, LP110, LP50100DC

- Selectable CFM (LP50100DC only)
- May be used in compliance with Title 24
- TrueSeal® damper technology creates an airtight seal from inside the housing
- Maintains constant CFM to higher static pressure over the competition (LP50100DC only)
- UL Listed for use over tub or shower when connected to a GFCI protected branch circuit
- May be used with a radiation damper in multi-family homes
- Fits 2x4 wall or ceiling installation

Broan® LoProfile Series Housing Pack, 50-80-100 Selectable CFM, ENERGY STAR®

Heater/Fan Solutions. Get instant heat, right when you need it. Exactly where you want it.

No matter where you live, there's certainly one room you never want to be chilly—the bathroom. Whether it's taking a morning shower, or relaxing in a whirlpool at the end of a long day, your family appreciates a warm, comfortable bathroom. Instead of waiting for the whole house to heat, get powerful heating, light and ventilation at the touch of a switch. Our heater fan/lights provide instant heat to quickly warm up the room, quiet ventilation to remove excess humidity, and convenient light. Operate each feature separately or simultaneously—no furnace required.

General Features & Benefits

- Dimmable LED lighting with adjustable color temperature on FLED models
- Bright white fan cover matches any decor
- Quiet operation
- Quick and flexible installation for all types of construction

PowerHeat™ Series BHFLED80, BHFLED110

- Heater/Fan/Light
Heater/Fan, 14-amp circuit acceptable
- Features integrated dimmable LED with color adjustable CCT lighting; warm (2700K), bright (3500K), and daylight (5000K)
- LED dimmable lighting may be used as a nightlight (dimmer switch is not included)

PowerHeat™ Series BHF80, BHF110

- Heater/Fan
14-amp circuit acceptable

BHFLED80F Finish Pack

- Features integrated dimmable LED with color adjustable CCT lighting; warm (2700K), bright (3500K), and daylight (5000K)
- LED dimmable lighting may be used as a nightlight (dimmer switch is not included)

BHFLED80H Housing Pack

- Broan PowerHeat Series Housing pack, 80 CFM

SURFACESHIELD™ FG1000VV

- SurfaceShield™ LED light powered by Vyv™ prevents bacteria, mold, and fungi growth within your room
- SurfaceShield™ technology combined with Broan's powerful ventilation is an effective one, two punch to kill* viruses and prevent the growth of bacteria, mold, and fungi within your room
- Bright white finish matches most white ceiling paint
- Quickly and easily installs in under 5 minutes
- No cutting required—covers existing drywall cuts
- No additional wiring needed, plugs directly into existing lighting connection
- Compatible with existing ventilation fan housing dimensions of 9¼" x 10" (lighted fans only)
- Works with certain legacy Broan or NuTone InVent® Flex Series™, or Roomside Series lighted exhaust fans
- NOTE: Due to certain State regulations this product is not available in Indiana and Hawaii.
- Fan cover dimensions: 12¼" x 12¼"

SURFACESHIELD™ LED MODULE VVLED

- The VVLED upgrade light module is compatible with the following fan models: AE80BL, AEN80BL, AEN80L, AE110L, AEN110L, AE80LK, AE110LK, AE50110DCL, AE50110DCSL
- SurfaceShield™ technology combined with Broan's powerful ventilation is an effective one, two punch to kill* viruses and prevent the growth of bacteria, mold, and fungi within your room
- Quickly and easily installs in under 5 minutes

For a full list of SurfaceShield™ compatible models scan or tap the code.

CHROMACOMFORT™ FG600RGB

- Quickly and easily installs in under 5 minutes
- Customizable, color changing LED lighting and Bluetooth® wireless speaker to play your favorite music, podcast or news
- No additional wiring needed. Quick-connect plug allows you to upgrade without new wiring, even if the existing cover doesn't have a light
- Fan cover dimensions: 10¼" x 9¾"

SENSONIC® FG800SPK

- Quickly and easily installs in under 5 minutes
- Brilliant LED lighting and Bluetooth® wireless speaker to play your favorite music, podcast or news
- No additional wiring needed. Quick-connect plug allows you to upgrade without new wiring, even if the existing cover doesn't have a light
- Soft LED lighting illuminates darker areas of the bathroom; 600 lumens; 3000K color temperature; rated life of 25,000 hours
- Fan cover dimensions: 10¼" x 9¾"

SENSONIC® FG800SPKN

While supplies last

- Includes 2 sets of fan cover springs for use with multiple ventilation fan models
- Compatible with existing ventilation fan housing dimensions of 7½" x 7¼" and 8¼" x 8"
- Fan cover dimensions: 11" x 9¾"

Upgrade your fan, and bring in some music.

Sensonic® speakers with Bluetooth® wireless technology fill your room with rich sound from above. Connect to your phone and bring music, talk or your favorite podcast through the dual high-fidelity speakers at the touch of a button.

CHROMACOMFORT™ SENSONIC® FG800RGB

- Quickly and easily installs in under 5 minutes
- Customizable, color changing LED lighting and Bluetooth® wireless speaker to play your favorite music, podcast or news
- No additional wiring needed. Quick-connect plug allows you to upgrade without new wiring, even if the existing cover doesn't have a light

**While supplies last

Quick and easy installation in five simple steps.

Step 1

Remove the old grille.

Step 2

Match the spring size to your current fan.

Step 3

Snap the springs into the corresponding clips.

Step 4

Squeeze and insert into the slots.

Step 5

Push it up tight and you're done.

No drywall cutting

No drywall patching

LED LIGHT FG600

- Quickly and easily installs in under 5 minutes
- Brilliant LED lighting illuminates darker areas of the bathroom; 750 lumens; 3000K color temperature; rated life of 25,000 hours
- No wiring needed; quick-connect plug allows you to easily connect the LED light
- No drywall cutting or patching required
- Bright white finish matches most white ceiling paint
- Compatible with existing fan housing dimensions 7¼" x 7½" and 8¼" x 8"
- Fan cover dimensions: 10¼" x 9¾"

LED LIGHT FG500N

- Quickly and easily installs in under 5 minutes
- Brilliant LED lighting illuminates darker areas of the bathroom; rated life of 25,000 hours
- No wiring needed; quick-connect plug allows you to easily connect the LED light
- No drywall cutting or patching required
- Bright white finish matches most white ceiling paint
- Compatible with existing fan housing dimensions 7¼" x 7½" and 8¼" x 8"
- Fan cover dimensions: 11" x 9¾"

Scan or tap the code to see the FG701 installation video.

QUICKIT® QK60, QKN60

- Reduces sound by up to 50% while improving air movement by up to 20%
- 60 CFM adequately ventilates smaller baths and powder rooms
- 2.5 sones provides quiet performance
- White fan cover blends well with any décor
- Fan cover stays cleaner longer with fewer vent slots to clean
- Motor plate accommodates a variety of economy fan models
- Air and sound ratings are HVI Certified
- UL Listed

UNIVERSAL CLEANCOVER™ FG701

- Fresh, stylish design to easily revitalize an existing fan cover
- Quickly installs in under 5 minutes
- No drywall cutting or patching required
- Universal Fit for compatibility with small, medium and large size Broan and NuTone ventilation fans
- Bright white finish matches most white ceiling paint
- Low profile seamlessly blends into the ceiling
- Fan cover dimensions: 13½" x 13½"

INVENT® FGR300

- Retrofits InVent® ventilation fan installations
- No drywall cutting or patching
- Hides existing dry wall cuts
- Instant upgrade blends with any décor
- Bright white finish matches most white ceiling paint
- Compatible with existing fan housing dimension of 9¼" x 10"
- Fan cover dimension: 11½" x 12"
- Fits Broan® and NuTone® Roomside, Flex Series™ and InVent® Series fans without a light

ECONOMY FGR101

- Retrofits Economy Series ventilation fan installations
- No drywall cutting or patching
- Hides existing dry wall cuts
- Instant upgrade blends with any décor
- Bright white finish coordinates with most white ceiling paint
- Compatible with existing fan housing dimension of 7½" x 7¼"
- Fan cover dimension: 9¼" x 9¾"
- Fits Broan® and NuTone® Economy Series fans

FG80HBS

- Heater exhaust fan light upgrade
- Features integrated dimmable LED with color adjustable CCT lighting; warm (2700K), bright (3500K), and daylight (5000K)
- LED dimmable lighting may be used as a nightlight (dimmer switch is not included)
- Bright white finish matches most white ceiling paint
- Compatible with: Broan 655 revision C (units manufactured after the year 2001), NuTone 665RP, Broan 656, Broan 659, Broan 657, Broan 696, NuTone 668RP, NuTone 765H80L, & Broan 765H80LB.
- Fan cover dimensions: 9¾" x 16¼"

FG110HBS

- Heater exhaust fan light upgrade
- Features integrated dimmable LED with color adjustable CCT lighting; warm (2700K), bright (3500K), and daylight (5000K)
- LED dimmable lighting may be used as a nightlight (dimmer switch is not included)
- Bright white finish matches most white ceiling paint
- Compatible with: Broan 100HL, Broan 100HFL, NuTone 765HL, Nutone 765HFL, NuTone 765H110L, and Broan 765H110LB
- Fan cover dimensions: 11¾" x 17¾"

The control your fan needs to ventilate smarter.

The perfect control switch is a beautiful finishing touch, and our attractive options provide the speed, sensing and control needed for any spot ventilation solution. Sleek styles in bright white complement all designs and color palettes. All you need is the faceplate to match your décor. Installation is simple, and the results will help you breathe easy.

Humidity Sensing Controls

Sensaire™ Humidity Sensing Switch

Models 82W*

- Turn any ventilation fan into a humidity-sensing solution
- Up to 4X faster humidity sensing than the competition
- Helps reduce mold and mildew to improve indoor air quality
- Three easy-to-program modes: Auto Sense Mode, Duty Cycle Mode & RH% Humidistat mode
- Rated 120V at 60Hz, max total of 9 amps/switch
- Available in Ivory (I) or White (W)

Digital Dehumidistat Model DD500W*

- Turn any ventilation fan into a humidity-sensing solution
- Reduce mold and mildew to improve indoor air quality
- Precision control enables desired humidity level to start the fan
- LED indicates fan on/off status
- Rated 120V at 60Hz, max total of 9 amps/switch
- Replaces obsolete model DH100W

Two-Function Control

Model P2RW*

- Two rocker switches control any two functions: fan, light, heater or nightlight
- Save space, conveniently fitting in a single gang box
- Simple installation saves time and money
- Rated 120V at 60Hz, max total of 15 amps/switch
- Replaces obsolete models: 269VL, 269WVL, 68V, 68W, P68W, P68WN

Three-Function Control

Model P3RW*

- Control multiple applications from a single, central location
- Control any exhaust fan, fan/light or heater/fan/light
- Save space, conveniently fitting in a single gang box
- Simple installation saves time and money
- Rated 120V at 60Hz, max total of 15 amps/switch
- Replaces obsolete models: 66V, 66W, P66V, P66W, P66WN

Occupancy Sensor

Model MS100W

- Turn fan on/off when motion is sensed or stops
- Set fan/light runtime after motion stops
- Detect motion in rooms up to 900 square feet
- Sense motion up to 35 feet away
- Save energy by operating the fan/light only when motion is detected
- Rated 120V at 60Hz, max total of 1/2 HP, 300W LED/CFL, 600W incandescent

Precisely control the ventilation in your bathroom or indoor environment to mitigate mold and moisture issues from improper use of exhaust fans. Make Sensaire™ your first choice in smart ventilation.

Speed Control

Model SC100W*

- Turns any PSC or AC fan into an adjustable-speed fan
- Control sound levels by adjusting fan speed and CFM power
- Adjust fan speed precisely to bathroom ventilation needs to save energy
- Rated 120V at 60Hz, max total of 3 amps/switch
- Replaces obsolete models: 277V, 57V, 57W, 75V, P57W, P57WN

60 Minute Countdown Timer

Model CD60W*

- Set countdown timer to 20, 40 or 60 minutes
- Can also be set to run continuously
- Save energy—countdown timer ensures the fan always turns off
- LED indicates run-time remaining
- Rated 120V at 60Hz, max total of 9 amps/switch
- Replaces obsolete models: 59V, 59W, 61V, 61W, 62W, 63V, 63W, 71V, CFT12WH, P59V, P59W, P59WN, P61WN, VS63WH, VS66WH, VS67WH, VS68WH, VS69WH

Delay Off Timer

Models DT100W*

- Use the 'delay' setting under the switch plate to ensure proper bathroom ventilation by keeping the fan running for 5 to 60 minutes after you leave
- Use the 'ventilation' setting to meet code requirements by ventilating the bathroom for a predetermined amount of time every hour
- User adjustable settings can be changed as much as desired until the perfect setting is found
- Designed to meet ASHRAE 62.2 and CalGreen Title 24 codes for continuous ventilation
- Rated 120V at 60Hz, max total of 6 amps/switch
- Replaces obsolete models: 64V, 64W

Fresh In™

An energy-efficient, reliable way to bring fresh air inside.

In today's tightly built homes, bringing fresh air inside makes perfect sense, whether it's done to meet code requirements or for personal comfort preferences. That's why Broan offers Basic and Premium solutions to residential ventilation. Both models have variable speeds and an ultra-efficient Electronically Commutated Motor (ECM) to maintain a constant airflow. The Basic model is a single-mode solution that delivers continuous airflow. The Premium model utilizes an algorithm that satisfies three ventilation codes and offers five comfort modes to suit different climatic environments. Built-in intelligence delivers airflow without losing efficiency when installed according to industry best practices.

An open window doesn't mean fresh air. The moment you open a window, fine dust and other allergy aggravating particles settle onto every surface. Optional MERV 8 or MERV 13 rated filters remove particulates before air enters the dwelling.

Utility fans. Every room can be more comfortable.

Every room needs ventilation. That's why we thought of every solution. Our utility fans deliver clean, fresh air wherever you need it—a bathroom, laundry room, recreation room, workshop or nursery. Look to our room-to-room, wall/ceiling mount, through-wall or vertical discharge utility fans for powerful spot ventilation. Simple, practical and powerful—our fans provide the quality you expect and the comfort you deserve.

General features for chain-operated utility fans

- Pull-chain opens the door and starts fan
- Housing adjusts to fit walls from 4½"-9½" thick
- Specially designed fan blade
- Housing features foam insulated door for energy efficiency
- Use for a garage, kitchen, laundry room, rec room, and more

506

- 10" fan (10⅜" diameter sleeve)
- 430 CFM, designed for use in a garage, kitchen, laundry room, rec room, and more
- 7.5 Sones

507

While supplies last

- 8" fan (8⅜" diameter sleeve)
- 250 CFM
- 7.0 Sones

General features for room-to-room fans

- Adjustable mounting brackets span up to 24 in.
- Installs easily between ceiling joists or wall studs
- Built-in damper prevents backdrafts
- Bright white fan cover matches most white ceiling paint
- Permanently lubricated, thermally protected motor
- UL listed and HVI-2100 certified for safety

510

While supplies last

- 370 CFM, Whole home or Commercial Ventilation
- 8.5 Sones

511

- 180 CFM, powerful ventilation designed for larger rooms or master baths, eliminates moisture, pollutants, and odors from larger rooms
- 4.5 Sones

502 While supplies last, 503

- Installs easily between ceiling joists or wall studs
- Built-in damper prevents backdrafts
- Fits ¾" x 10" duct
- 502 is 300 CFM and 503 is 160 CFM
- 502 is 9.0 Sones and 503 is 5.0 Sones

508 (10"), 509/509S (8")

- 509S: features an integral ON/OFF rotary switch—no wall switch to wire
- 509S: use in a garage, kitchen, laundry room, rec room, and more
- 508 is 290 CFM and 7.5 Sones
- 509/509S is 200 CFM and 8.5 Sones

**While supplies last

512 While supplies last

- 90 CFM, Powerful ventilation to remove moisture and reduce the risk of mold or mildew
- 4.0 Sones
- Built-in variable speed control
- Easy interior wall installation
- Galvanized steel housing stands up to moisture
- Permanently lubricated motor
- 6" room to room
- Use SC100W speed control separately

512M

- 6" Through-Wall
- Louvered exterior wall cap with built-in bird screen
- 6" diameter flexible aluminum duct included
- 70 CFM and 6.0 Sones

General Features & Benefits

- Galvanized steel housing installs easily between ceiling joists
- Steel mounting brackets with keyhole slots for fast installation

504

While supplies last

- 10" vertical discharge
- Fits 10" round duct—use Model 472 transition/damper (available separately) for 8" round duct (performance will be reduced)
- 330 CFM and 8.0 Sones

505

- 8" vertical discharge with built-in damper
- 8" fan, 8¼" diameter housing
- 200 CFM and 8.5 Sones

673

While supplies last

- 6" vertical discharge with built-in damper
- 6" paintable fan, spin-on, white fan cover
- 60 CFM and 4.5 Sones

Broan Model	CFM	Sones	Sizing Specifications	Overture® Compatible

8210 Ceiling Mount, Vertical Discharge

While supplies last

- Ventilates directly through the roof with round ducting
- 210 CFM, Whole home or Commercial Ventilation
- 6.5 Sones
- Surface-mount fan installs on interior walls with ease
- Room-to-room wall fan
- Two attractive white fan covers can be painted to match decor
- High-strength, reinforced fan blade
- Permanently lubricated motor for a long life
- Specially designed housing reduces diameter of discharge opening to fit 7" round duct; no reducer needed
- UL Listed for use in cooking areas

8310 Wall/Ceiling Mount, Side discharge only

While supplies last

- 160 CFM, powerful ventilation designed for larger rooms or master baths, eliminates moisture, pollutants, and odors from larger rooms
- 5.0 Sones
- Steel mounting brackets with keyhole slots for fast installation
- Duct size 8" diameter
- 3 1/4" x 10" duct, side discharge
- Installs easily in walls or ceiling
- Built-in backdraft damper
- UL Listed for use in cooking areas

NuTone Model	CFM	Sones	Duct	Overture® Compatible

BUILDING THE AMERICAN DREAM

Broan-NuTone® is America's most trusted residential ventilation company. We're proud to bring better air quality to more than 90 million homes nationwide.

High-traffic environments need high performance ventilation.

Need an exceptionally quiet solution to light commercial ventilation? With their heavy-duty motors, Broan-NuTone High Capacity Ventilation Fans are the perfect answer for ventilating conference rooms, dining areas, public restrooms and other heavily-trafficked spaces. Low-vibration and low-profile, these discrete products work quietly and powerfully behind the scenes to remove odor, humidity and air-borne particulates that affect indoor air quality.

L100E, L150E, L200E, L250E, L300E

Available end of 2022

- Ceiling mounted
- 8" round metal duct connector
- 20 gauge galvanized steel housing
- Duct horizontally or vertically
- Low profile, white plastic fan cover
- Model MG1 metal fan cover sold separately
- Models L100E, L150E, L200E, L250E and L300E are cULus listed for use over tubs and showers when connected to a GFCI branch circuit
- Model 80L Variable Speed Control adjusts blower speed and sound level (available separately)

L100EL, L150EL, L200EL, L250EL, L300EL

Available end of 2022

- Inline mounted
- Removable access panel, no insulation
- Two 8" round duct connectors
- No fan cover
- Suitable for kitchen installations

L100, L150

- 6" round metal duct connector
- Single, impact-resistant centrifugal blower wheel housing
- 20 gauge galvanized steel housing
- Duct horizontally, vertically, or in-line with a separate adapter
- Low profile, white or painted white enamel metal fan cover
- Models L100L and L150L are UL Listed for use over tubs and showers when connected to a GFCI branch circuit
- Model 80L Variable Speed Control adjusts blower speed and sound level (available separately)

L200, L250, L300

- 8" round metal duct connector
- Single, impact-resistant centrifugal blower wheel (Model L300KMG has a metal wheel)
- 20 gauge galvanized steel housing
- Duct horizontally, vertically, or in-line with a separate adapter
- Models L200L, L250L and L300L are UL Listed for use over tubs and showers when connected to a GFCI branch circuit
- Model 80L Variable Speed Control adjusts blower speed and sound level (available separately)

L100L, L150L

- Removable access panel, no insulation
- Two 6" round duct connectors
- No fan cover

L200L, L250L, L300L

- Suitable for kitchen installations
- Removable access panel, no insulation
- Two 8" round duct connectors

ROOF CAPS

Model S437

- High-capacity design up to 1200 CFM
- Built-in bird screen
- Steel housing, black electrically bonded epoxy finish

Model 611**

- For flat roof installation
- Aluminum natural finish
- For up to 8" round duct

Model 611CM**

- For curb mount installation
- Other features same as Model 611

Model 612**

- For flat roof installation
- Aluminum natural finish
- For up to 12" round duct

Model 612CM

- For curb mount installation
- Other features same as Model 612

Model 634

- For 3¼" x 10" or up to 8" round duct
- Built-in backdraft damper and bird screen
- Steel housing, black electrically bonded epoxy finish

Model 634M

- Same as Model 634, except for 6" round duct

Model 644**

- Same as Model 634, except aluminum natural finish

GREASE FILTERS

Model SLAF1

- Aluminum mesh filter traps grease and protects motor
- Dishwasher safe
- SLAF1 (12" x 12") for L100/150/200/250/300 Series
- SLAF1 for use with metal covers

WALL CAPS

Model 441

- For 10" round duct
- Steel with aluminum louvers

Model 613**

- For 12" round duct
- Built-in backdraft damper and bird screen
- Aluminum natural finish

Model 641

- Same as Model 613, except for 6" round duct

Model 643

- For 8" round duct
- Built-in backdraft damper
- Aluminum natural finish

Model 843BL

- For 6" round duct
- Built-in backdraft damper and bird screen
- Black finish

IN-LINE ADAPTERS

Model 961L**

- For L100/L150 Series
- Galvanized steel
- 6" round duct intake

Model 981L**

- For L200/L250/L300 Series
- Galvanized steel
- 8" round duct intake

Model 982L**

- For L400/L500/L700 Series
- Galvanized steel
- 4½" x 18½" duct intake

Model 983L**

- For L900/L1500 Series
- Galvanized steel
- 8" x 12" duct intake

DUCT TRANSITIONS

Models S423 & ST81212

- Galvanized steel
- S423: (4½" x 18½" to 10" round)
- ST81212: (8" x 12" to 12" round)

VIBRATION DAMPENING HANGERS

Model V104 (not shown)**

- For Model L2000L
- Heavy gauge steel construction
- Neoprene vibration dampening cushion
- Maximum load 75 lbs (each)
- For ¾" diameter threaded rod (available separately from others)
- Set of four required for each ventilator

METAL GRILLE KIT

Model MG1

- For L100/150/200/250/300 Series
- White enamel painted steel
- Mounting screws included

RADIATION DAMPERS

When excessive heat is detected, the breakaway fusible link triggers the closing of the radiation damper's fire resistant screen to prevent smoke and fire from traveling through ductwork.

Features

- 165° fusible link
- Galvanized steel frame
- Stainless steel negator-type closure spring

High Capacity Models RD1, RD2, RD3 (not shown)

- UL rated 3-hour ceiling radiation dampers
- High temperature, non-asbestos, reinforced fiber thermal fabric
- RD1 (12½" x 12½") for L100/150/200/250/300 Series
- RD2 (21¾" x 12½") for L400/500/700 Series
- RD3 (22¼" x 18¼") for L900/1500 Series

**While supplies last

LIGHT COMMERCIAL WALL CONTROLS

Digital Dehumidistat

Model DD500W*

- Turn any ventilation fan into a humidity-sensing solution
- Reduce mold and mildew to improve indoor air quality
- Precision control enables desired humidity level to start the fan
- LED indicates fan on/off status
- Rated 120V at 60Hz, max total of 9 amps/switch
- Replaces obsolete model DH100W

Two-Function Control

Model P2RW*

- Two rocker switches control any two functions: fan, light, heater or nightlight
- Save space, conveniently fitting in a single gang box
- Simple installation saves time and money
- Rated 120V at 60Hz, max total of 15 amps/switch
- Replaces obsolete models: 269VL, 269WL, 68V, 68W, P68W, P68WN

60 Minute Countdown Timer

Model CD60W*

- Set countdown timer to 20, 40 or 60 minutes
- Can also be set to run continuously
- Save energy—countdown timer ensures the fan always turns off
- LED indicates run-time remaining
- Rated 120V at 60Hz, max total of 9 amps/switch
- Replaces obsolete models: 59V, 59W, 61V, 61W, 62W, 63V, 63W, 71V, CFT12WH, P59V, P59W, P59WN, P61WN, VS63WH, VS66WH, VS67WH, VS68WH, VS69WH

Delay Off Timer

Model DT100W*

- Use the 'delay' setting under the switch plate to ensure proper bathroom ventilation by keeping the fan running for 5 to 60 minutes after you leave
- Use the 'ventilation' setting to meet code requirements by ventilating the bathroom for a predetermined amount of time every hour
- User adjustable settings can be changed as much as desired until the perfect setting is found
- Designed to meet ASHRAE 62.2 and CalGreen Title 24 codes for continuous ventilation
- Rated 120V at 60Hz, max total of 6 amps/switch
- Replaces obsolete models: 64V, 64W

Variable Speed Control

Model 80L

- Adjust ventilation easily in any room
- Variable Speed Control mounts inside the fan housing and enables blower speed adjustment
- For Broan High Capacity Fans L100-L900
- Speed control with metal housing
- Perforated fan insulation for easy installation
- 120V, 3 amps, 60 Hz

Attic ventilation. Push the heat out. Put money back in your wallet.

Prevent heat and moisture build-up. Attics can reach over 150°F in summer, warming your living area, increasing the air-conditioning load and your energy bill. In winter, ice dams can form, and moist air can condense causing mildew, rotting wood and wet insulation. Year-round attic ventilation ensures a cooler, drier attic which can extend the life of your roof and air conditioner, while lowering air conditioning expense.

Attic Ventilation Calculator

How much attic ventilation do you need?
Scan this QR code and you'll know what
you need in a few minutes.

General Features & Benefits

- Reduces moisture in attic
- Lowers temperature of home in summer
- Metal flashing allows for nailing and hot tar application
- Mesh bird screen
- Built-in adjustable thermostat for automatic operation at your chosen temperature
- Mounts easily between rafters, installation template included

356BK

353, 35316 While supplies last

- Galvanized steel housing for added strength
- Combine with automatic shutter (model 433) to get optimum efficiency and performance

DD500W Remote In-Line Ventilator

Turn any ventilation fan into a humidity-sensing solution. Reduce mold and mildew to improve indoor air quality. Precision control enables desired humidity level to start the fan.

Powered Attic Ventilation Specifications

Surface mount solar ventilation

For most roofs, our one-piece solar-powered attic ventilator (SPAV) is the perfect solution. Because our solar cells are highly efficient at capturing the sun's energy, there is no need for unsightly raised panels or tracking systems. Instead, what you see is a low profile ventilator in a contoured design that integrates well with the roof.

345SOBK

345SOWW**		537	3200	28	Weathered Wood

**While supplies last

433 Automatic Shutter for Gable Mount Attic Ventilators While supplies last

Feature counter-balanced aluminum vanes that automatically open and close when the ventilator turns on and off. Better air flow than stationary attic louvers. Extruded aluminum frame fits flush with outside wall. Weather-tight closure. Easy to install.

For use with Broan Models 353 and 35316.

DUCTING

Model 406 Round Duct**

- 6" round duct
- 2' galvanized section

Model 407 Round Duct**

- 7" round duct
- 2' galvanized section

Model 410 Round Duct

- 10" round duct
- 2' galvanized section

DUCTING KITS

**Model RVK1A†
Flexible Roof Ducting Kit**

- Includes Model 636 Roof Cap
- 4" diameter metal duct connector
- 2 duct clamps
- 4" to 3" reducer
- 8' of 4" flexible aluminum ducting

**Model WVK2A†
Flexible Wall Ducting Kit**

- Includes white polymeric wall cap
- 4" diameter metal duct connector
- 2 duct clamps
- 4" to 3" reducer
- 5' of 4" flexible aluminum ducting

ELBOWS

**Model 418
Adjustable Elbow**

- Fits 10" round duct

FILTERS

Model 99010042 Aluminum Filter

- Fits Utility Ventilator Models 503, 503MG, 505, 505MG, 509, 509MG, 509S and 509SMG

Model 99010271 Aluminum Filter

- Fits Utility Ventilator Models 12C, 12CMG, 502, 502MG, 504, 504MG, 508, 508MG, 510, 510MG, 511 and 511MG

ROOF CAPS

Model S437 10" Round†

- High-capacity design up to 1200 CFM
- Backdraft damper and built-in bird screen
- Welded steel construction
- Black powder coat finish
