Protect what matters with **Yale** security solutions

Yale®

An ASSA ABLOY Group brand

ASSA ABLOY

## The world's favorite lock since **1843**

About Yale

Linus Yale

Created in 1843, Yale is one of the oldest international brands in the world and probably the best-known name in the locking industry. The Yale history captures major innovations that have marked the evolution not just of Yale, but of the entire locking industry.

At Yale, we take great pride in our beginnings. Everything we are today, we owe to the inspirational ingenuity of Linus Yale Senior and Linus Yale Junior.

Yale is a part of the ASSA ABLOY Group. At ASSA ABLOY, we believe that freedom enriches people and that fear makes us poorer. To realize freedom, we must firstly feel safe and secure. That's why the ASSA ABLOY Group of companies is committed to creating high quality door opening solutions.
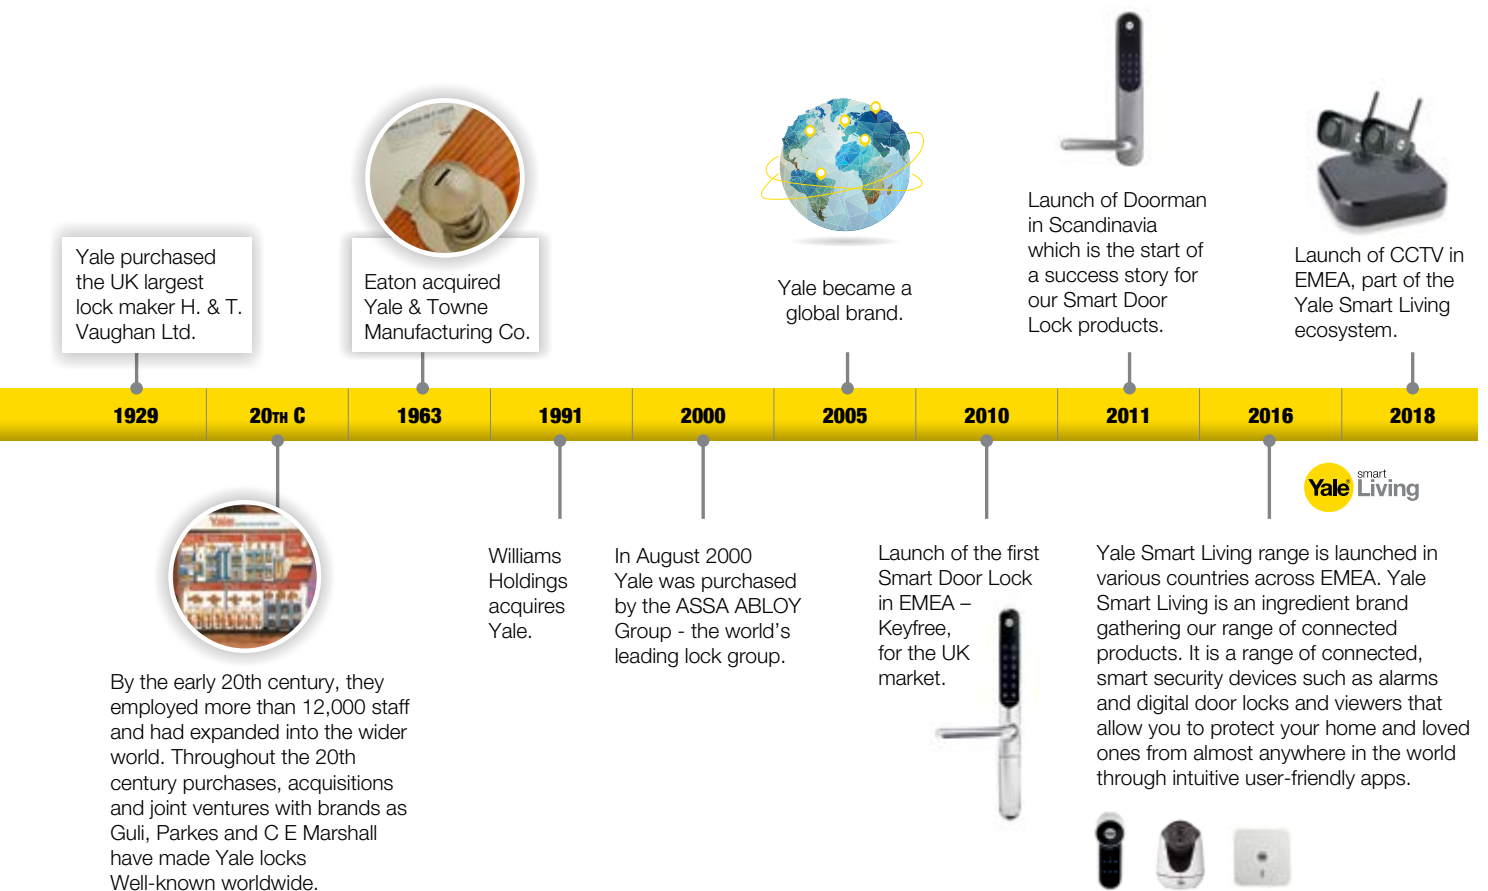

Patent from Linus Yale Sr. for a door lock (US3630) with circular pin tumblers.

Linus Yale Sr.'s son joined his father in the business.

Yale patented his design for the famous pin tumbler cylinder padlock - still used around the world today.

Relying on Yale patents, Yale's sterling name, and his native ingenuity, Linus Yale Junior and his colleague, Henry Towne, established the Yale & Towne Company in Stanford, Connecticut, at the time employing 35 people.

After the death of Linus Yale Junior, his son, John B. Yale, joined Henry Towne and helped grow the company from a small shop into a giant manufacturing enterprise.

Yale & Towne established a sales branch in Britain (first British plant).

1843	1844	1847	1850	1851	1857	1857-65	1868	1879	1894	1903

First Lock Patent from Linus Yale Sr. (Combination Lock, US3312).

Linus Yale Sr. built a small lock factory in Newport, USA.

Yale patented a safety lock for use in banks.

Granted patents between 1857 and 1865, Yale finally succeeded in creating his most important invention – the Yale cylinder lock. (June 27, 1865, US patent 48475 - round cylinder with five pin tumblers in a line and flat key) Linus Yale Jr. transformed the locking industry forever with his many breakthrough inventions.

A line of padlocks was introduced.

YALE PIN TUMBLER PADLOCK.

Towne began stamping the name Yale on the padlocks.

1843-2019

STILL PIONEERING

Yale is the brand behind locks of every design and function in over 125 countries, since more than 175 years.

All over the world, people are actively securing all they care about; their home, their family, their personal belongings or their business with the name they trust the most, Yale. That's why we proudly say that Yale is **"the world's favorite lock".**
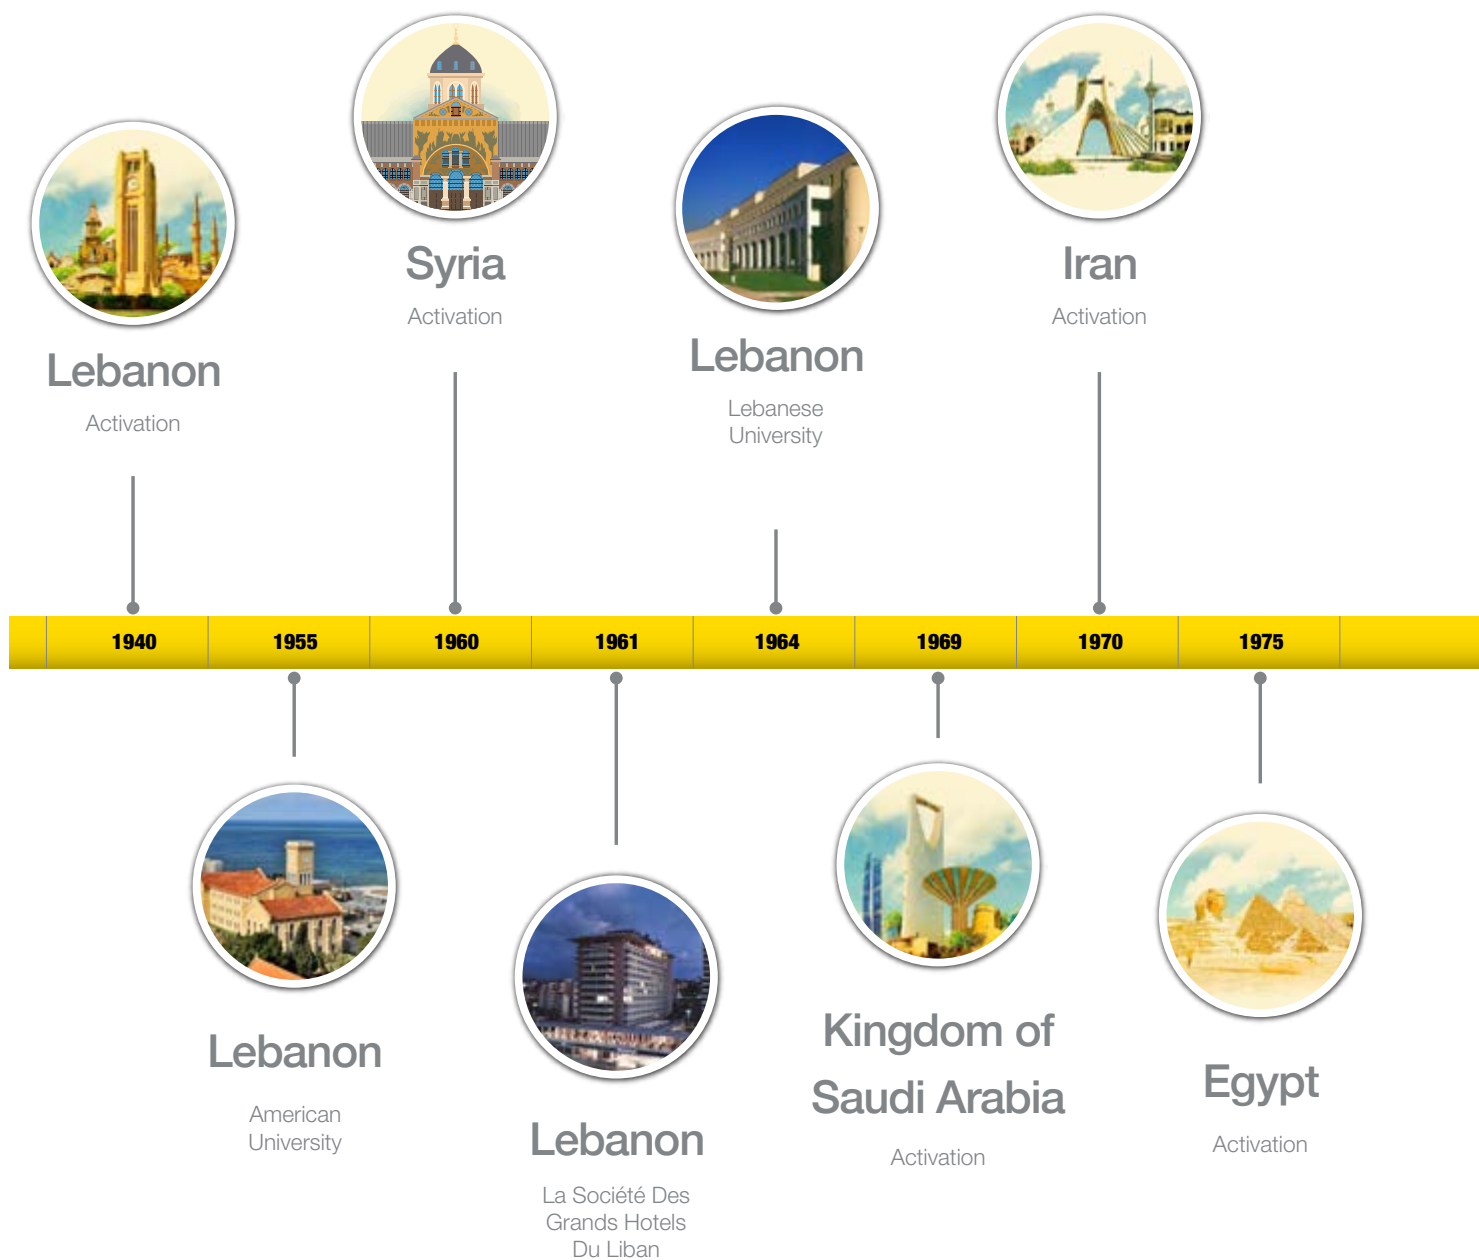

Our overall aim is to make our customers feel so safe and secure that they are free to enjoy their life fully, free of worries and free to choose what they want to do.

Yale purchased the UK largest lock maker H. & T. Vaughan Ltd.

Eaton acquired Yale & Towne Manufacturing Co.

Yale became a global brand.

Launch of Doorman in Scandinavia which is the start of a success story for our Smart Door Lock products.

Launch of CCTV in EMEA, part of the Yale Smart Living ecosystem.

| 1929 | 20TH C | 1963 | 1991 | 2000 | 2005 | 2010 | 2011 | 2016 | 2018 |

By the early 20th century, they employed more than 12,000 staff and had expanded into the wider world. Throughout the 20th century purchases, acquisitions and joint ventures with brands as Guli, Parkes and C E Marshall have made Yale locks Well-known worldwide.

Williams Holdings acquires Yale.

In August 2000 Yale was purchased by the ASSA ABLOY Group - the world's leading lock group.

Launch of the first Smart Door Lock in EMEA – Keyfree, for the UK market.

Yale Smart Living range is launched in various countries across EMEA. Yale Smart Living is an ingredient brand gathering our range of connected products. It is a range of connected, smart security devices such as alarms and digital door locks and viewers that allow you to protect your home and loved ones from almost anywhere in the world through intuitive user-friendly apps.

Yale in the Middle East 1940-2019

About Yale Middle East

Yale ME is the market leader in residential security solutions and offers an extensive range of products catering to the varied demands of the market. The products are handpicked from millions of product combinations globally, ranging from mechanical locks, smart products like alarms and cameras to door solutions and connected smart locks; and adapted to meet the diverse needs of consumers across the Middle East region. Yale first set foot in the Middle East with Lebanon in 1940, and today, has physical presence in 14 countries through some of the region's top distributors, and online presence with key ecommerce accounts.

Yale Smart Living

Retrofit Smart Door Lock

A smart home starts with a smart door.

ENTR® is the revolutionary smart lock solution that allows you to control your door lock from your smartphone and other Bluetooth enabled accessories. The lock can be opened with a touchpad, fingerprint reader, or remote fob as well as through the app, and has an automatic locking feature which means your home is always protected. In addition, the app can be used to send mobile keys to grant and revoke entry to guests and other approved visitors.

Security, convenience and control

About:
Combining Yale high security with today's advanced locking technology, ENTR® gives you secure, convenient control over the access to your home. ENTR® is the smart lock solution that allows you to control your door lock from your smartphone, tablet and other Bluetooth enabled devices.

Features:
• No more keys
• Unlock using your smartphone, remote control, key pad and wall mounted touchpad or fingerprint readers
• Self-locking door for peace of mind
• Easy to install
• Working with a lithium-ion rechargeable battery provided in the package

ENTR® highlights:
• Ideal for most door types or sizes with euro profile cylinder – simply remove your old cylinder and replace with ENTR®
• Automatic locking – shut the door and it will automatically lock
• Wire-free and wireless – ENTR® is a rechargeable battery operated system

Retrofit Smart Door Lock
ENTR® Accessories

High security access options

ENTR® works with a variety of devices that give you access control. Select those that best suit your needs and convenience:

Touchpad Wall Reader
Predefine up to 20 different codes. Once a code is programmed into the touchpad, you will be able to use it to securely unlock the door. Easy to install and program.

Remote Control
Battery operated remote control

Fingerprint Wall Reader
The fingerprint wall reader gives control and functionality, allowing you to register up to 20 users. You will be able to use both authorised fingerprints and PIN codes. Authorisation for users can be managed and scheduled.

ENTR® Power Supply
ENTR® has rechargeable batteries that are powerful and eco-friendly. There are two charging options to keep your ENTR® fully operational: Wired Charger and Wire-free Charger.

+ Optional Feature

Smart Door Lock
YDM3109

Specifications:
- Type: DIN type mortice lock
- Credentials:
  - Pin code (6-12 digits)
  - Proximity card: 4 (up to 40 users)
- Mechanical key: 2
- Center distance: 72mm
- Backset: 60mm
- Door thickness: 40-80mm
- Remote Control (Optional)
- IP 55: water resistant
- Operating temperature: -15 to +55 °C

Features:
- Ways to unlock
  - PIN code
  - RF card
  - Mechanical key
- Fake PIN code
- Operation status notification
- Missing key invalidation
- Automatic locking
- Anti-panic egress with safe handle
- Break-in and damage alarm
- Low battery alarm & emergency power with 9v battery

Highlights:
YDM3109 mortice lock is a smart solution for residential & light commercial applications, ideal for wooden doors.

Code Handles

Electromechanical code handle for doors and windows

Yale Code handle is an innovative solution with an automatic locking mechanism built into the handle, which only allows the door to be opened by entering the correct personal code.

Code Handles
Door Handle

Specifications:
- Fits lock cases with DIN standards
- Two CR2, 3V lithium batteries tested, (for approx 60,000 operations)
- 4-6 digit code
- Material: brushed stainless steel and satin chrome zinc
- Indication for battery change
- Tested to at least 100,000 operations, according to EN 1906
- Fire tested according to EN 1363
- Dimensions :
  - Handle length: 141 mm
  - Depth: 71 mm
  - Rosette diameter: 54 mm

Features:
- Access filtering
- Easy locking without keys
- No wiring
- Master code and up to 9 user codes
- Blocking function if wrong code is entered five times
- Auto or manual locking

Highlight:

For easy and convenient locking/unlocking of interior door only - such as office doors, staff rooms, archives, back office, and store applications.

No	SKU Reference	Description	Color	Handing
01	Door Handle	8812 8LA 10026	Brushed stainless steel and satin chrome zinc	Left
02	Door Handle	8812 8RA 10025	Brushed stainless steel and satin chrome zinc	Right

Code Handles
Window Handle

Specifications:
- The Code Handle is unlocked with a 6 digit code to be based on numbers 1 to 4
- Separate lock button
- 1 administrator/user code + 4 additional user codes
- Blocking function when wrong code is entered repeatedly
- One combined administrator/user code to enter/change/reset user codes and enable/disable sound
- The code is not affected by voltage drop/battery change
- Operated with standard AAA alkaline batteries
- Battery lifetime is approximately 2 years/15,000 operations
- Low battery indication
- Supplied with M5 screws, security screws and 3 interchangeable spindles
- Fits DIN standard 43 mm c/c
- Dimensions :
  - Handle length: 126 mm
  - Depth: 70 mm
  - Rosette size: 70 x 32.5 mm

Features:
- Lock and unlock by using your personal code without key
- Locks patio/balcony doors and windows from the inside
- Possibility to lock in all 90° positions i.e. also in ventilation mode for tilt and turn type doors/windows
- Enhances child safety
- Simple installation, no wiring
- Tested to meet relevant parts of EN 13126-1, EN 1627-30, SS 3620, ESD and EMC compatibility

Highlight:
To lock/unlock your windows and patio/balcony doors with Code. Fits window/doors that open inwards.

Sync Smart Home Alarm Kits

Yale self-monitored Sync Smart Home Alarms give you peace of mind that your home is secure and protected, whether you are at home or away. Our Smart Home alarms are easy to set up and fully controllable from our Yale Home App through your phone, tablet and Apple Watch as well, and connect simply to other security products in the Yale Smart Living family. Smart together, our Sync alarm works with Philips Hue and Amazon Alexa, combining lights, sound and voice to create the ultimate security deterrent.

Yale Smart Living
Sync Smart Home Alarm Accessories

Sync Motion Detector
AC-PIR

The sensor will activate the alarm when motion is detected and will work up to 200m away from the smart hub.

Sync Pet Friendly Motion Detector
AC-PETPIR

The sensor will activate the alarm when movement over 25 kg is detected and will work up to 200m away from the smart hub.

Sync Door/window Contact
AC-DC

When the door or window is opened, the contact and magnet lose connection, which activates the alarm.

Sync Keypad
AC-KP

Keypad can be used to arm, disarm or emergency trigger your alarm system. The disarming function is protected by the user's PIN code.

Sync Smoke Detector
AC-PSD

The detector triggers the alarm system and build in siren, when smoke, movement or a temperature change is detected.

Sync Smart External Siren
AC-BXG

Additional external siren for your Yale Sync Smart Home Alarm System.

Sync Key Fob
AC-KF

The key fob can be used to arm, disarm or emergency trigger your alarm system up to 200m away from the smart hub.

Sync Lock Module
AC-LM

Connects your Yale Smart Door Lock to your Yale Sync Smart Home Alarm System.

Sync Panic Button
AC-PB

Immediately activates the alarm in case of emergency by pressing the red button.

Water Leak Sensor
AC-WS

Keep your home safe from water damage.

Sync Smart Plug
AC-PS

The Smart Plug allows you to turn home appliances on and off remotely (i.e. lamp or radio) via the Yale Home App.

Sync Smart Plug Euro
AC-PS-EU

The Smart Plug allows you to turn home appliances on and off remotely (i.e. lamp or radio) via the Yale Home App.
