HP ENVY x360 Convert 15-eu0010ca (378U1UA)

Overview

Power and precise color to fuel your creations plus privacy features

HP ENVY x360 15 Convertible PC is a 2-in-1 touchscreen laptop with a powerful AMD Ryzen™ processor, high definition display with dazzling color accuracy and added security features like a physical camera shutter and a microphone mute button.

Wirelessly share across devices

Easily share photos, videos, and files between your mobile devices and HP ENVY over Wi-Fi with HP QuickDrop.

Enhanced security features

Keep your work safe with fingerprint reader and privacy camera shutter key, and keep your chats private with the mute mic button.

Power up your creativity

Bring your ideas and creativity to life with the power and performance of an AMD Ryzen™ processor[1] and Radeon™ graphics.

Features

Get a fresh perspective

Windows 11 provides a calm and creative space where you can pursue your passions through a fresh experience. From a rejuvenated Start menu, to new ways to connect to your favorite people, news, games, and content—Windows 11 is the place to think, express, and create in a natural way.[2]

AMD Ryzen™ 5000 U-Series Mobile Processors

The ultimate performance for beautiful mobile workspaces. Inspiration doesn't wait for you to sit at a desk. When you need to get the job done on a notebook, AMD Ryzen™ 5000 Series Mobile Processors can deliver fast rendering and encoding performance.

FHD IPS display

Enjoy crystal-clear images from any angle. With 178° wide-viewing angles and a vibrant 1920 x 1080 resolution, you'll always have a great view of your favorite content.[3]

Flicker-free

Using DC Dimming technology that controls brightness by adjusting direct current rather than cycling the backlight, we can eliminate screen flickering for more comfortable viewing.[4]

Ocean-bound plastic

Built with the environment in mind, our laptop design includes sustainable materials like ocean-bound plastic in the speaker enclosure and recycled aluminum.[5]

Battery life for long days

Extend your day into the night with up to 11 hours and 30 minutes of battery life. Longer battery life means you can keep going beyond your day without recharging.[6]

[1] Multi-core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. AMD's numbering is not a measurement of clock speed.

[2] Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software or BIOS update to take full advantage of Windows functionality. Windows is automatically updated and enabled. High speed internet and Microsoft account required. ISP fees may apply and additional requirements may apply over time for updates. See http://www.windows.com.

[3] Full high-definition (FHD) content is required to view FHD images.

[4] The flicker-free capability eliminates screen flickering through integrating DC-dimming LED backlights.

[5] Percentage of ocean-bound plastic contained in each component varies by product. Laptops manufactured with recycled aluminum material in product cover. Percent of recycled aluminum varies by product.

[6] Battery life will vary depending on various factors including product model, configuration, loaded applications, features, use, wireless functionality, and power management settings. The maximum capacity of the battery will naturally decrease with time and usage. See https://bapco.com/products/mobilemark-2018/ for additional details.
