Overview
25 Word Product Description

Featuring the latest six-core Intel® Core™ i7-8700K CPU, CORSAIR ONE PRO offers the definitive 4K, VR, gaming and streaming experience in an incredibly compact, quiet and sophisticated PC.

Overview
50 Word Product Description

Featuring the latest six-core Intel® Core™ i7-8700K CPU, CORSAIR ONE PRO offers the definitive 4K, VR, gaming and streaming experience. With custom GPU and CPU liquid-cooling technology, CORSAIR ONE PRO is quieter than a whisper, shockingly small, and engineered to amaze.

Overview
100 Word Product Description

Featuring the latest six-core Intel® Core™ i7-8700K CPU, CORSAIR ONE PRO offers the definitive 4K, VR, gaming and streaming experience. Combining premium material construction, a bead-blasted aluminum chassis and subtle ambient lighting, CORSAIR ONE PRO conveys refined yet unmistakable style that's at home in a workstation, gaming setup or as a VR show piece. Equipped with the cutting-edge performance of a liquid-cooled NVIDIA® GeForce GTX 1080 graphics card, and 16GB of award-winning CORSAIR VENGEANCE LPX DDR4 memory, CORSAIR ONE PRO delivers peak performance in today's most demanding games and applications. Producing less than 20 dBA of noise at idle*, CORSAIR ONE PRO is quieter than a whisper, shockingly small, and engineered to amaze. (*Tested using CS-9000007-NA model at Orfield Laboratories. Sound pressure was measured 1 meter from the front of the unit with the system idle.)

Features and Benefits

- **Six Cores in ONE:** Experience the power of a liquid-cooled Intel® Core™ i7-8700K CPU. With six cores, twelve threads and running at up to 4.7GHz, it delivers blazing fast gaming performance.
- **Fast, Quiet, Compact:** CORSAIR ONE PRO takes fast, quiet and small PCs to a previously impossible level with fully custom liquid-cooling technology and an incredibly compact form factor.
- **NVIDIA® GeForce GTX 1080 Graphics:** Equipped with a liquid-cooled NVIDIA® GeForce GTX 1080 graphics card with 8GB of GDDR5X memory, for super-smooth 4K, VR, gaming and streaming experiences.
- **Fully-Loaded Memory:** Fitted with 16GB of award-winning CORSAIR VENGEANCE LPX DDR4 memory running at 2,666MHz, for peak performance in today's most demanding games and applications.
- **Storage to Spare:** A high-speed 480GB M.2 SSD and 2TB hard disk drive mean no compromises on performance, or capacity.
- **Seen, Not Heard:** Operating at just 20 dBA when idle*, CORSAIR ONE PRO is virtually inaudible and seamlessly fits into your office, living room or den.
- **Big Performance, Small Size:** CORSAIR ONE PRO's unique, compact form-factor design seamlessly fits into any space, be it for work, play, or both, with no compromise in performance.
- **Refined Elegance:** Constructed from stunning premium materials, including fine bead-blasted aluminum, and highlighted by subtle ambient lighting.
- **World-Class Support:** CORSAIR ONE PRO comes backed by CORSAIR's dedicated 24/7 customer support team, available by phone or online, to help with any questions or issues.
