SUBJECT: SECURITY INVESTIGATIONS -  
INDIVIDUALS TRAVELING ABROAD

The Director approved memorandum C. D. Brennan to Mr. W. C. Attached to the above-mentioned memorandum was a proposed SAC Letter which was approved and which indicated that appropriate Manual changes would be submitted.

ACTION:

If approved, attached changes for Section 87D, Manual of Instructions, should be referred to the Training Division for handling.

SYNOPSIS:

The purpose of this memorandum is to recommend changes in guidelines requiring the Field to submit letterhead memoranda concerning travel abroad by individuals with subversive backgrounds.

Existing instructions require that the Field, when information is received indicating that an individual who has been the subject of a past security investigation, a past member of a basic revolutionary organization, or has been a member of certain specified front groups, to immediately advise the Bureau by memorandum setting forth pertinent facts regarding the travel and subversive background for referral to appropriate U. S. Government agencies and Legal Attaches. Under current requirements many instances have occurred where memoranda were submitted when the subversive data was neither substantial nor current.

The increase in subversives traveling abroad following a Supreme Court decision in 1958 holding that the State Department could no longer deny passports on grounds of subversive affiliation plus the enormous task of investigating thousands of New Left adherents and racial agitators, many of whom travel and participate in demonstrations abroad, has placed an ever-increasing burden upon the Field.

Regarding subversives traveling abroad, it is felt our guidelines should be changed, restricting submission of memoranda by the Field to: (1) Subjects of current security investigations or subjects having subversive activity in past five years; (2) Subject in Security Index, Section A of Reserve Index, or the Agitator Index; (3) Past security subjects who plan to remain abroad over six months; (4) Past security subjects who, although inactive over five years, may be "sleepers," or where current information otherwise indicates a need for foreign coverage of an individual.

If you agree, there is attached a proposed SAC Letter. Manual changes are being prepared.

Memorandum to Mr.

RE: SECURITY INVESTIGATIONS - INDIVIDUALS  
TRAVELING ABROAD  
#604-69

DETAILS:

Upon receipt of information indicating foreign travel by a security subject, existing instructions provide for submission of memoranda by the Field when the individual has been: (1) The subject of a current or past security investigation, (2) A past member of a basic revolutionary organization, (3) A member since July, 1950, of an organization designated pursuant to E.O. 10450, (4) A member since July, 1950, of an organization declared subversive by the HCUA or other legislative committees, or (5) A member since July, 1950, of an organization described by reliable informants or sources as being dominated or controlled by one of the basic revolutionary organizations.

Since the Supreme Court decision in the Kent and Briehl vs. Dulles passport case in June, 1958, which held that the State Department could no longer deny passports to individuals with past histories of subversive affiliations, thousands of such individuals with varying degrees of subversive activities have applied for and received passports. As a result, the above broad criteria has placed a heavy burden on the Field in handling investigations of this type.

A review of information received from the Field concerning individuals traveling abroad has indicated that in many instances the subversive data is neither substantial nor current. Many of the memoranda concern individuals on whom we have had no subversive data for many years. In support of this position, the Legal Attache London, has advised that while in discussion with MI-5 and Scandinavian authorities, these sources have wondered whether in view of more pressing priorities, a need now exists for memoranda where they relate to individuals on whom we have no recent indication of subversive activity.

The emergence of the New Left movement as a subversive force and the resultant thousands of investigations initiated on individuals connected with the New Left, including U.S. citizens who have traveled and participated in anti-U.S. demonstrations abroad, has placed ever increasing demands on our investigative personnel. In view of this increase and the questionable value of disseminating nonpertinent and noncurrent information on many individuals who travel abroad, it is believed that our guidelines

Memorandum [redacted] to Mr. [redacted]

RE: SECURITY INVESTIGATIONS - INDIVIDUALS  
TRAVELING ABROAD

should be changed at this time regarding these matters. It is, therefore, suggested that our requirements in this field be restricted to submission of memoranda concerning individuals falling within the following categories: (1) Subjects of current security investigations or where there is information showing subversive activity by a subject during the past five years; (2) Subjects whose names are included on the Security Index, Section A of the Reserve Index, or the Agitator Index; (3) Subjects of past security investigations where information available indicates these individuals are likely to remain in a foreign country over six months; (4) Where information available indicates that subjects of past security investigations, although inactive for over five years, may be a "sleeper" or in an underground capacity, or where current information otherwise indicates a need to effect foreign coverage.

The above guidelines will eliminate those cases in which the subversive information is not of a substantial nature such as those described above.

It is believed that limiting dissemination of information to State and Central Intelligence Agency in accordance with the above will adequately discharge our responsibilities with respect thereto and, at the same time, materially reduce the work placed upon the Field because of the large number of individuals with subversive background traveling abroad.

MAISON WITH PASSPORT OFFICE  
DEPARTMENT OF STATE

We have in the past on a quarterly basis made available to Mr. Robert Johnson, General Counsel, Passport Office, Department of State, a list of individuals included in Priority I of the Security Index. Priority I includes hard core national and state level revolutionary organization leaders and leaders of other subversive organizations and unorganized groups who have indicated a propensity for violence or have received special training in sabotage, espionage or guerrilla warfare. This serves as a check list against issuing U. S. passports.

The practice of furnishing similar lists was originally approved by memorandum A. H. Belmont to Mr. Ladd dated 12/3/60. This practice was again approved by memorandum C. D. Brennan to Mr. W. C. Sullivan dated 11/23/63, wherein it was recommended and approved that the Priority I list be made available to Mr. Johnson in place of the lists of top functionaries and key figures, which lists are no longer available since the re-evaluation of the Security Index in May, 1963. This list, which is prepared by the Automatic Data Processing Unit, will be very useful as the Department of State alerts the Bureau to contemplated travel abroad by subversives.

ORIGINAL FILED IN

ACTION:

1) That the enclosed Priority I list prepared as of February 14, 1969, be furnished to Mr. Johnson by liaison with the understanding that it is to be held in the strictest confidence by him at all times in his office and is to serve only as a alert list upon which State can take no action but must contact us for reports.

2) That the prior list furnished Mr. Johnson be retrieved and returned to Mr. Rosack for destruction.

MANUAL OF INSTRUCTIONS

The Manual of Instructions, Volume IV, Section 122D, page 17, paragraph 3c and page 18, paragraph 7a should be amended to read as follows:

- c. An up-to-date letterhead memorandum containing pertinent background information, including arrest record and a good physical description, and a succinct summary of the subject's agitational activities must accompany form FD-397 when no such letterhead memorandum or an investigative report has been submitted within the past year. The submission of the above information by letterhead memorandum does not apply to agitators who are also on the security index, are members of Klan or white hate-type organizations being investigated under section 122A, volume IV, of this manual, or are the subjects of other investigations which require investigative reports.
7. Annual review of files by field offices

If, however, the individual is also included in the security index under Priority I, this verification must be made quarterly. Form FD-403 may be used in verifying residences and employments of agitator index subjects. Each time that an agitator index subject's residence and employment are verified, the case must be reevaluated to assure that the subject remains qualified for inclusion in the agitator index under the criteria for such inclusion. A notation to the effect that the case has been reviewed for this purpose shall be made on the form FD-403.

The letterhead memorandum or report should include all pertinent information not previously included in an annual letterhead memorandum or the required periodic report.
  
- c. When letterhead memoranda or reports relating to agitator index subjects contain data affecting material included on subject's existing agitator index card, cover pages accompanying letterhead memorandum or report shall include as last page form FD-305 or FD-305a appropriately checked. *General*

#606-69 The report and verification requirements regarding SI subjects have been changed with the approval of the Director and an SAC Letter has been prepared in order to advise each field division.

The SI consists of three priorities. Reports pertaining to individuals designated as Priority I of the SI will henceforth be submitted on an annual basis. Such reports were previously submitted on a semiannual basis. Verification of their residence and employment will continue to be conducted every three months. The verification of residence and employment of individuals designated as Priority II and Priority III of the SI will henceforth be verified on an annual basis. Such verification was previously handled on a semiannual basis. No other changes are being made regarding SI. Verification of residence and employment regarding subjects on Agitator Index is also being changed to a yearly basis. This was previously done on a semiannual basis.

The field is being instructed that the reduction in the frequency of reports for Priority I subjects and verification of residence and employment of Priority II and Priority III subjects should not be interpreted as meaning that security investigations should be curtailed in any fashion. In addition, the field is being reminded of its responsibility, as well as the Bureau's responsibility to be aware of the location of SI subjects so that in the event a national emergency arises requiring the implementation of the Emergency Detention Program (EDP), SI subjects can be located for apprehension and detention. Each division is being instructed that appropriate sources should be established to alert the Bureau in the event an SI subject changes his residence and/or employment. The establishment of such sources is vital in order that the Bureau's responsibilities under the EDP can be fulfilled in the manner expected.

SECURITY INDEX

The Security Index is designed for the purpose of maintaining a list of individuals who should be apprehended and incarcerated in the event of a national emergency, such as an attack from abroad or internal revolt. Such individuals must be proven to be a definite threat to the national security. All additions to and deletions from the Security Index are approved in each field division by the Special Agent in Charge or his designated representative; are completely reviewed by Bureau supervisors who approve or reject the field recommendation; and final approval is given by the Department. The Security Index is based upon Title 2 of the Internal Security Act of 1950 and is a part of the over-all Emergency Detention Program.

In June, 1968, we thoroughly revised investigative procedures of individuals on the Security Index by setting up priorities.

I suggest a report once a year

Individuals designated Priority I are hard core national and state leaders of basic revolutionary groups or other subversive organizations who have indicated propensity for violence. Verification of their residence and employment is conducted every three months and a report submitted every six months. Reports concerning such individuals were previously submitted on a quarterly basis. There were 647 individuals in Priority I as of February 14, 1969.

I suggest a report every year only

Individuals designated Priority II fall in the second level leadership of such basic revolutionary organizations or groups who have indicated a propensity for violence. Verification of their residence and employment is conducted every six months with a report submitted on an annual basis. There were 1,738 individuals in Priority II as of February 14, 1969.

I suggest a report once each year

Yes. H

Priority III is made up of all other individuals on the Security Index. Their residence and employment is verified every six months with a report being submitted every two years. Reports were previously submitted on an annual basis. As of February 14, 1969, there were 7,816 individuals in Priority III.

For handling actions

The Security Index is constantly changing through penetrative review by the field, Bureau supervisors and the Department. We have been making anywhere up to 38 changes a week in this list since July, 1968.

## Memorandum

DATE: March 5, 1969

FROM :

SUBJECT: SECURITY INVESTIGATIONS OF INDIVIDUALS

By memorandum <sup>GENERAL</sup> to Mr. dated March 3, 1969, captioned "Criminal Intelligence Program, Manpower Needs," it was noted in part that the Chicago Division recommended a six month moratorium on report writing on all Security Index (SI) subjects with pertinent information to be submitted by letterhead memorandum where necessary.

It appears that the suggestion of the Chicago Division would merely substitute letterhead memoranda for reports. It is proposed instead that all report writing be suspended for a six month period to include all SI subjects in Priority III (7,816 as of 2/14/69) and all SI subjects in Priority II (1,738 as of 2/14/69). It is believed, however, that SI subjects in Priority I (647 as of 2/14/69) should not be included since to do so could seriously affect the internal security of the nation. It is noted that individuals in Priority I consist of hard core national and state basic revolutionary organization leaders and those leaders of other subversive organizations and unorganized groups who have indicated a propensity for violence and/or who have received special training in sabotage, espionage and/or guerrilla warfare.

It is noted that we have already reduced the frequency of submission of reports pertaining to Priority I SI subjects. Such reports, as of February 27, 1969, are submitted on an annual basis rather than on a semiannual basis. In view of the nature of the individuals included in Priority I, it is believed that this should continue and the moratorium not pertain to Priority I.

RECOMMENDATION

There is attached for approval a letter to all offices containing instructions as recommended above suspending report writing pertaining to SI subjects in Priority II and Priority III.

SUBJECT: DELINQUENCY IN SECURITY AND RACIAL MATTERS INVESTIGATIONS

0175

An analysis is made on a monthly basis of the field delinquency in internal security, foreign intelligence and racial matters. Based on this analysis a letter is sent to each office wherein delinquency in these cases is considered to be excessive.

By letters to all offices dated 2/27/69, and 3/6/69, investigations and report writing in Security Matter - Communist cases and Priority II and Priority III Security Index subject cases were suspended for a period of six months or curtailed to reduce the frequency of certain types of investigation. This was done in order to make available additional manpower for concentrated investigation in the area of organized crime.

During the month of February, 1969, there were 22,988 pending active matters in the combined classifications 65,100 and 105. This represents an increase of 480 cases since January, 1969. During February, 1969, there was a total of 8,409 pending active matters in the 157 classification which represents an increase of 894 cases since January, 1969.

With the suspension and decrease in security and related cases, it does not appear necessary that individual letters be written to offices having excessive delinquency for a period of six months. The monthly administrative reports will continue to be followed closely in order that any unusual trends may be noted and corrective action taken. The preparation of individual letters will again be considered in six months. You will continue to be kept advised of developments in delinquency in these matters through the preparation of a monthly memorandum.

ADDENDUM: DOMESTIC INTELLIGENCE DIVISION 2/3/69

This suggestor recommends the form FD-122 (the form used in Security Index cases from which Security Index cards are made up or changed) be revised to set forth the organizational affiliation designations in alphabetical order. Such a listing would result in a saving of time since the proper block could be more easily located and checked.

A similar form FD-122a is used for the same purpose in cases involving security subjects who qualify for the Reserve Index A. The advantages mentioned by the suggestor would also apply to changing the FD-122a in the same manner. The alphabetical listing should include the organization designations, however, the word "Miscellaneous" should continue to be last. The revision of these forms should be made at the time of the next printing.

The Domestic Intelligence Division recommends adoption of this suggestion. *Per Mr. [redacted], also advised AWC should be inserted for American Workers Communist Party, as well as [redacted] for [redacted] Weps*

It is a pleasure for me to advise you this proposal is being adopted and extended to include Form FD-122a. Steps will be taken to place this idea into effect when these items are next printed.

**NOTE:** Suggests Form FD-122 (Recommendation for Preparation of, or Change in, Security Index Card) be revised to list the designations for organizational affiliations in alphabetical order thereby enabling personnel working with these forms to more easily locate and check proper designation (sample of form attached).

Domestic Intelligence Division noted a similar form the FD-122a is used for same purposes in cases involving security subjects who qualify for Reserve Index A. Advantages mentioned by suggester would also apply to changing this form in same manner. The alphabetical listing should include the organization designations; however, the word "Miscellaneous" should continue to be last. Administrative Division advised rearranging these items would have no affect on the handling of these forms in Voucher-Statistical Section. Training Division has no objection to these revisions if it will aid in handling this work. On approval, this letter will serve as authority for the Forms Management Desk and Manuals Desk, Training Division, to take appropriate action.

DELINQUENCY IN SECURITY AND  
RACIAL MATTERS INVESTIGATIONS

An analysis of the field delinquency in internal security, foreign intelligence and racial matters (RM) was conducted for the month of March, 1969.

Pending active matters in combined classifications 65, 100 and 105 decreased by 2,147, as the total decreased from 22,988 to 20,841. Delinquent matters increased by 362, as the total increased from 1,170 to 1,532. The percentage of delinquent matters increased from 5.1 per cent to 7.4 per cent.

*9/14/71*  
Pending active matters in the 157 classification decreased by 91, as the total decreased from 8,409 to 8,318. Delinquent matters increased by 198, as the total increased from 434 to 632. The field-wide delinquency percentage increased from 5.2 per cent to 7.6 per cent. *DR*

By memorandum dated March 24, 1969, C. D. Brennan to Mr. W. C. Sullivan, it was recommended and approved that in view of the suspension and decrease in security and related cases, it did not appear necessary that individual letters be written to offices having excessive delinquency for a period of six months. Accordingly, no communications are being directed to the offices having excessive delinquency at this time. There is attached a listing of the offices having a high delinquency indicated by asterisk. We will continue to follow developments in delinquency in these matters.

# 782-69

Date 4/18/69

To: Director, FBI From: (Suggester's name) ASAC Division of Assignment San Juan Office

Handwritten marks: a checkmark and the number 47.

SUGGESTION  
It is suggested that Form FD-122 (Security Index Recommendation/Change) be revised at the next printing to include a space to be checked if the subject is known to be armed, has suicidal tendencies or is otherwise dangerous to the point where it can be expected he would attempt to inflict bodily harm to arresting Agents in time of national emergency. This notation would also appear on the Security Index (SI) cards maintained at the Bureau and the field office concerned as a "flag."  
It is noted this suggestion could be expanded, for reference purposes, to include Forms FD-122a (Reserve Index) and FD-397 (Agitator Index).  
(Continued on Page 2)

Current practice or rule (Include manual citation as well as facts)  
No notation, as explained above, is included on either the forms noted or on the SI cards.

Advantages of suggestion and annual savings (include basis for estimate)  
SI cards serve as an operational guide for the apprehension of persons deemed dangerous to the national security of the United States in the event of a national emergency. Although it is realized that most SI subjects, especially those on Priority I and II, have a general propensity for violence, it would be most beneficial to include in the SI card a "flag" cautioning the arresting Agent that subject's degree of dangerousness is compounded by the fact that he is known to carry a firearm, is mentally unstable, etc.

Disadvantages of suggestion  
None known.

(The use by the United States of my suggestion shall not form the basis of a further claim of any nature by me, my heirs, or assigns upon the United States. I understand that I will be considered for any justified award only if my suggestion is adopted within two years after submission.)  
 Mr.  Mrs.  Miss Signature and Title of Suggester

Recommendations and comments of Division Head  
Suggestion appears to have considerable merit and it is recommended that it be considered for adoption.

Vertical stamp: APR 21 1969

A suggested, revised FD-122 is attached herewith, noting the three added blocks:

- "A & D"
- "Suicidal"
- "Other"

Under "Other" would be included those subjects who are mentally unstable, who have previously resisted arrest, who have been charged and/or imprisoned for crimes of violence, etc.

If the suggestion is adopted, all SI cards could eventually be brought up to date with this additional information following the periodic verification of subject's residence and employment.

Dear :

Your suggestion has been received that Form FD-122 be revised to provide space for entries with respect to dangerous and suicidal propensities of a subject. The matter has been considered and it has been decided there is no need to amend the form since such tendencies on the part of a subject will be already contained in his file and this would necessarily be reviewed prior to taking any action to apprehend him.

Although your idea was not adopted in this instance, I appreciated having the benefit of your observations.

Sincerely,

NOTE: Suggests that FD-122 (Recommendation for Preparation of, or Change in, Security Index Card) be revised to provide spaces to check if a subject is armed and dangerous, has suicidal tendencies, or other dangerous traits.

Mr. [REDACTED]

NOTE: (continued)

Training Division discussed suggestion with Domestic Intelligence Division and Washington Field Office and all agree that idea should not be adopted. This form is for purpose of having a Security Index (SI) card prepared on subject or making changes on already existing card. These cards are administrative devices to compile information on SI subjects mainly with respect to residence, employment and physical description. In event of emergency requiring pick-up and detention of these subjects, however, reliance would not be placed on the cards but the file would be resorted to for review and it would contain all necessary information including the fact that the subject was armed and dangerous, had suicidal tendencies, etc. It is not believed necessary to clutter the SI card with these data. The same reasoning applies to Form 122a which performs the same functions as FD-122 with respect to the Reserve Index and FD-397, its counterpart with respect to the Agitator Index.

In an article which appeared in the March 24, 1969, issue of the Detroit Free Press, Detroit, Michigan, entitled, "9 Face Charges in Raid on Dow", it is stated that nine anti-war demonstrators, two of them from Detroit, will appear in court in Washington, D. C., for a preliminary hearing on charges that they ransacked the Washington offices of the Dow Chemical Company, Saturday.

The protesters, who included six Catholic clergymen and one nun, overturned desks, broke two outside windows, and threw company correspondence and literature onto the street four floors below. They also splashed what one police officer identified as human blood on the walls, carpet and ceilings. Posters depicting burned Asian children with the slogans, "stop the war" and "womens strike for peace" were taped to the walls. The article continued that no one was injured and the demonstrators, several wearing clerical garb, did not resist arrest. All nine were charged with burglary and destruction of property. They included the of Detroit. The demonstrators said they acted to protest Dow's "programmed destruction of human life". They said the company was "seeking profit in the production of napalm, defoliants and nerve gas." Dow has been a target of anti-war groups because it manufactures napalm used in Vietnam.

Currently a six-month investigative moratorium is in effect regarding certain Security Index (SI) Subjects and reports for some SI Subjects are now submitted at two-year intervals.

Name check requests on these subjects present a situation where Bureau files indicate Field Office files contain pertinent information in addition to material in Seat of Government files.

In order to cover this situation and fulfill our responsibilities to the name check requester, the following procedure will be utilized. The Name Check Section (NCS), upon receipt of this type of request, will contact the substantive supervisor in the Domestic Intelligence Division (DID) for authority to disseminate pertinent material from the file. Upon approval, NCS will make two Xerox copies of the incoming name check request. The original request form and pertinent investigative reports available in files will be sent by NCS to the requester with a notation on the form that additional information may be available at the Field level and a request for the Field to furnish this information to Bureau Headquarters has been made. Further, the agency will be requested to resubmit their name check request in 45 days for any additional information. Information appearing on the original form setting forth the NCS's action will also be annotated on one of the Xerox copies. The two Xerox copies and the file will be forwarded to the substantive supervisor in the DID, whereupon he will issue appropriate instructions to the Field. It is noted that the name check request forms may also contain lead information.

The DID, upon receipt of the requested information from the Field, can disseminate to the appropriate agency. However, when the name check request was received from the Defense National Agency Check Center, Fort Holabird, Maryland, no dissemination should be made to that Center. It is noted that this agency merely covers leads for the Department of Defense and has no files and is in no position to receive the information. Regarding Defense National Agency Check Center, dissemination should be made only upon receipt of an additional name check request. The DID, however, may desire to disseminate to the appropriate Defense intelligence agency having intelligence interest.

No estimate of the number of requests of this type is available; however, it will not be a large number.

The DID has agreed to the above procedure.

SECURITY INVESTIGATIONS OF INDIVIDUALS

Reference is made to New Orleans airtel dated 4/9/69, captioned "Students for a Democratic Society (SDS) National Council (NC) Meeting, 3-27 thru 30-69, Austin, Texas, IS - SDS," with copies designated for various files in your office. With the exception of \_\_\_\_\_ and \_\_\_\_\_, it is not possible to identify the remaining individuals in Bureau files based on available information. You should, therefore, advise by return mail whether the remaining individuals are subjects of case files in your office and if so, include the status of such investigations. In the event they are not being actively investigated, your recommendations in this regard should be submitted promptly.

It has been recently noted that with the increased activity of the New Left within your territory, many communications are being submitted to the Bureau which contain, in many instances, the names of individuals participating in rallies, demonstrations, etc. The surnames of the individuals are set forth with the first initial and no other identifying data is furnished. It is not possible to definitely identify such individuals in Bureau files.

MAILED 6  
MAY 12 1969  
COMM-FBI

Although it is realized that many of the communications are prepared to be submitted at the earliest possible time following the activity, it would be extremely helpful if information could be included in the cover communication identifying those persons mentioned on whom case files exist. If an individual is included on the Security Index, it should be so indicated. Where no case file exists and no investigation has been or is being conducted, you should so indicate setting forth specific reasons.

NOTE: Inclusion of above-requested information in communications concerning demonstrations, etc., would greatly facilitate handling investigative inquiries relating to individuals participating in these activities.

SECURITY INDEX GENERAL

To: Director, FBI		Date: April 21, 1969
From: (Suggester's name)		Division of Assignment: SPRINGFIELD
<p><b>SUGGESTION</b>          When current supply of FD-154 (Verification of Information on Security Index Cards) is exhausted, suggested form be revised to include information re Armed and Dangerous status of security index subject. Ten copies of proposed form attached.</p>		
<p>Current practice or rule (Include manual citation as well as facts) Armed and Dangerous information not presently indicated for verification during annual execution of FD-154. Manual of Instructions, Vol. III, Sec 87(b) I, provides this information should appear on back of Security Index card.</p>		
<p>Advantages of suggestion and annual savings (Include basis for estimate)          Inclusion of Armed and Dangerous data on FD-154 would insure this important information is placed on back of Security Index, as required per above Manual instructions (page 50), which provides that printed captions for data to appear on cards should be augmented by other data required "Dangerous characteristics of subject, including notation if subject possesses firearms". Would also insure info placed on SI card in event subject has recently come into possession of dangerous weapons.</p>		
<p>Disadvantages of suggestion          None, except for cost of revision, which cost would be assimilated by including revision in next over-all revision of FD-154.</p>		
<p>(The use by the United States of my suggestion shall not form the basis of a further claim of any nature by me, my heirs, or assigns upon the United States. I understand that I will be considered for any justified award only if my suggestion is adopted within two years after submission.)  <input type="checkbox"/> Mr. <input checked="" type="checkbox"/> Mrs. <input type="checkbox"/> Miss</p>

Memorandum

TO :

DATE: May 15, 1939

FROM :

SUBJECT: S. 1372  
91st CONGRESS, 1st SESSION -  
A BILL TO REPEAL THE EMERGENCY  
DETENTION ACT OF 1950 (TITLE II OF  
THE INTERNAL SECURITY ACT OF 1950)  
LEGISLATIVE MATTERS

The Department has requested comments on captioned bill introduced in the U. S. Senate on April 13, 1939, by Mr. Inouye (D-Hawaii) and others. This bill is similar to two others introduced in the House of Representatives. A letter has been prepared setting forth our comments recommending against passage.

<sup>general</sup> The Emergency Detention Program (EDP) and the <sup>0</sup> Security Index (SI) are based on Title II of the Internal Security Act (ISA) of 1950. This law has come under attack from various groups primarily due to the fact that little is publicly known concerning the manner in which the EDP will operate. Leftist groups are spreading propaganda charging that the Government can use this law to place anyone who opposes actions by the Government in a concentration camp. Although this is utterly absurd, it is, nevertheless, believed to be true by those who are victims of the propaganda. The ISA contains detailed provisions aimed at safeguarding the individual rights of those who may be detained only in the event of a national emergency.

This law provides a legal basis for the EDP and the SI. It is necessary to have such a law since the absence of such could possibly result in the same type of action taken against Japanese-Americans at the start of World War II. Our detention program is vital to the internal security of the nation since it provides for the legal detention of individuals who have, by their actions or statements, indicated that they are opposed to our form of Government and could engage in acts of sabotage and espionage during the time of a national emergency. The repeal of this law could be politically expedient but is certainly not in the best interests of safeguarding the internal security of this country.

RECOMMENDATION

That the attached letter be approved and sent.

S. 1572  
Last CONGRESS, 1st SESSION -  
A BILL TO REPEAL THE EMERGENCY  
DETENTION ACT OF 1950 (TITLE II OF  
THE INTERNAL SECURITY ACT OF 1950)  
EMERGENCY MATTERS

This is in response to your request dated May 13, 1950, for the views of this Bureau on S. 1572, a bill to repeal the Emergency Detention Act of 1950. It is felt that this bill should not be adopted.

The Emergency Detention Act of 1950 serves as a basis for the Program for Apprehension and Detention of Persons Considered Potentially Dangerous to the National Defense and Public Safety of the United States and the Security Index, both of which are operated by this Bureau under the direction of the Department. The repeal of this Act would remove the basis for these programs which could seriously hamper the internal security of this nation in the event of an extreme national emergency. The law, as it stands, contains necessary safeguards for the rights of the individual and limits action of the U. S. Government since the detention of each person under the law must be fully justified, and no mass arrests could be made merely on the basis of an individual's nationality or race. The protection of this nation from potential saboteurs and espionage agents is provided by this law, and it should certainly be considered that the provisions of the Emergency Detention Act who have been trained by foreign powers in acts of sabotage, espionage and guerrilla warfare should be detained prior to the commission of any act which would be detrimental to the internal security of the nation, and to the national defense.

SECRET

Assistant Attorney General  
Internal Security Section

Individuals have been scheduled for detention who have, by their acts and statements, indicated they desire the overthrow of this Government through force and violence, and their activities are certainly not in the best interests of the nation. The number of persons actually detained would be far less than is generally believed. Opponents of this law envision mass arrests totaling anywhere from 10,000 to 200,000 individuals. If invoked, the Emergency Detention Program, under current practice, could result in the detention of only up to 671 individuals and probably less. This has resulted from the establishment of three priorities under the detention program.

In view of the above, it is felt that the Emergency Detention Act of 1950 is a vital and necessary part of the law of the land and should not be repealed unless some provision is insured under which the internal security of this nation can be protected from the enemies who may attempt to destroy it from within.

In accordance with your request, the copy of S. 1072 furnished with your request is being returned.

SUBJECT: DELINQUENCY IN SECURITY AND  
RACIAL MATTERS INVESTIGATIONS

An analysis of the field delinquency in internal security, foreign intelligence and racial matters (RM) was conducted for the month of April, 1969. *Rappah*

Pending active matters in combined classifications 65, 100 and 105 decreased by 424, as the total decreased from 20,841 to 20,417. Delinquent matters decreased by 399, as the total decreased from 1,532 to 1,133. The percentage of delinquent matters decreased from 7.4 per cent to 5.5 per cent.

Pending active matters in the 157 classification increased by 154, as the total increased from 8,318 to 8,472. Delinquent matters decreased by 140, as the total decreased from 632 to 492. The field-wide delinquency percentage decreased from 7.6 per cent to 5.8 per cent.

By memorandum dated March 24, 1969, C. D. Brennan to Mr. W. C. Sullivan, it was recommended and approved that in view of the suspension and decrease in security and related cases, it did not appear necessary that individual letters be written to offices having excessive delinquency for a period of six months. This continues to be true; however, it is noted that the Cincinnati office has a delinquency of 34.2 per cent in the 105 classification and a delinquency of 21.2 per cent in the over-all security classifications. During the previous month, Cincinnati's delinquency in the 105 classification was 25.6 per cent and 26.9 per cent in the over-all security classifications. It is believed a personal attention letter should be directed to Cincinnati in view of the continuing increase in its delinquency in the 105 classification. No other communications are deemed necessary at this time.

There is attached a listing of the offices having a high delinquency indicated by asterisk. We will continue to follow developments in delinquency in these matters. *ST 115 REC-127 - 3940*

LIAISON WITH PASSPORT OFFICE  
DEPARTMENT OF STATE

We have in the past on a quarterly basis made available to Mr. [redacted], General Counsel, Passport Office, Department of State, a list of individuals included in Priority I of the Security Index. Priority I includes hard core national and state basic revolutionary organization leaders and leaders of other subversive organizations and unorganized groups who have indicated a propensity for violence or have received special training in sabotage, espionage or guerrilla warfare. This serves as a check list against issuing U. S. passports.

The practice of furnishing similar lists was originally approved by memorandum to Mr. [redacted] dated 12/8/50. This practice was again approved by memorandum to Mr. [redacted] dated 11/25/68, wherein it was recommended and approved that the Priority I list be made available to Mr. [redacted] in place of the lists of top functionaries and key figures, which lists are no longer available since the re-evaluation of the Security Index in May, 1968. This list, which is prepared by the Automatic Data Processing Unit, will be very useful as the Department of State alerts the Bureau to contemplated travel abroad by subversives.

ACTION:

1) That the enclosed Priority I list prepared as of May 15, 1969, be furnished to Mr. [redacted] by liaison with the understanding that it is to be held in the strictest confidence by him at all times in his office safe and is to serve only as an alert list upon which State can take no action but must contact us for reports.

2) That the prior list furnished Mr. [redacted] be retrieved and returned to Mr. [redacted] for destruction.

<p>SUGGESTION <u>FD 154</u> is utilized to verify residence and employment of Security Index subjects; FD 398 and FD 403 are used similarly for Klan and hate-type organization subjects and for Agitator Index subjects. Since the purpose of the form is to provide a means suitable for verification without entailing extra typing and to have current information concerning a subject available, it is suggested that these three forms be combined on a larger, outsize, heavier colored paper which stands out in the file and can be easily located. This form should have, as at present, a place at the top for current residence and employment and add a place for position and organization. The bottom half of the form should have a space for residence and employment and date and source of verification; if photograph available; if armed and dangerous; if change should be submitted; date file reviewed and Agent's initials.</p>		
<p>Current practice or rule (include manual citation as well as facts)          Three separate forms are utilized: FD 154, FD 398, FD 403.  <i>Security Index - Personal</i></p>		
<p>Advantages of suggestion and annual savings (include basis for estimate)          A combined form which could be utilized in all types of security cases as known at present and which could be used in future cases in this category. By using one form, of a heavier paper which is larger than normal paper size, the current residence and employment can be easily spotted in a multi-volume or active file and also the need for current verification can be spotted.</p>		
<p>Disadvantages of suggestion          Scrapping the three forms used at present which are of different color and which act as flags to particular type of case.</p>		
<p>(The use by the United States of my suggestion shall not form the basis of a further claim of any nature by me, my heir or assigns upon the United States. PERSONAL

Mr.  
Federal Bureau of Investigation  
Mobile, Alabama

Dear Mr. :

Thank you for the suggestions that three particular forms be combined and that Form FD-203 be amended to permit its being used for other cases of a similar nature. With regard to your first proposal, similar ones have been considered previously and not adopted since these items were designed for specific purposes and any attempt to place all the necessary information on one format would cause confusion. Your second idea is being evaluated and you will be advised of the final decision.

I appreciate the interest you displayed in giving me the benefit of your observations on these matters.

NOTE: Suggestion 881-69 proposes Form FD-154 used to verify residence and employment of Security Index subjects and Forms FD-398 and FD-403 used similarly for Klan and hate-type organization subjects and Agitator Index subjects be combined on a larger, outsize, heavier, colored paper which stands out in file and can be easily located.

*J. Edgar Hoover*  
(NOTE continued page 2)

Mr.

NOTE: (continued)

Similar ideas have been considered previously and not approved. It is more practical to have separate forms for these three programs. By having them combined into one format, additional work would be involved on part of any Agent handling these matters on part-time basis in determining which items are needed for particular program he is working with at the time. Each form was designed for a specific purpose and is of a different color for easy recognition and combining them would result in confusion on part of field. Forms must be of a standard size. Training Division recommends current idea not be adopted.

Suggestion 883-69 proposes Form FD-203 which is used to request investigation in Resident Agencies in Security Matter - Communist cases be amended to delete the caption, "Security Matter - C," so it would be possible to use it in Klan-type cases as well as Black Nationalist and other related cases. Designation at bottom of form for a 100- file would be deleted but words "file number" could be substituted. Form could be filled out in duplicate in pen or pencil with a copy for the file and original to Resident Agency.

Referred to the Domestic Intelligence Division for views and recommendations.

**PHOTOGRAPHS  
SUGGESTION 54-70 SUBMITTED BY  
ASAC NICK F. STAMES, SAN JUAN OFFICE**

**SUGGESTION:** That the requirement to have a current photograph of each Security Index (SI) subject be revised to include only Priority I subjects. By letter to Albany (copies to all offices) dated 7/11/69, captioned, "Emergency Detention Program (EDP)," Bureau advised in part that the decision of the Department to terminate the agreement with the Department of Defense regarding detention facilities is based on the Department's current plan to apprehend only Priority I SI subjects when and if the EDP goes into effect. This suggestion is being made in light of the above Departmental decision. In line with this idea, a current photograph of a Priority II or III subject would still be obtained, attached to the SI card, and disseminated to Secret Service, provided it is available during the course of the normal investigation.

**CURRENT PRACTICE:** The suggester states the Manual of Instructions, Section 87D, page 50, states in part, that a current photograph of each SI subject must appear on the individual SI card. In addition, current photographs of all SI subjects are furnished to Secret Service.

**ADVANTAGES:** ASAC feels implementation of this idea should save a considerable amount of Agent investigative time inasmuch as numerous cases of Priority II and III subjects are currently maintained in a pending status for the sole purpose of obtaining a current photograph.

**OBSERVATIONS:** SAC Anderson, San Juan, advised this proposal appeared to have considerable merit and he recommended that it be considered for adoption.

Domestic Intelligence Division advised the Manual of Instructions set forth the instruction that "reasonable efforts should be made during the investigation of a security subject to obtain a photograph through usual sources. Cases on Security Index subjects are to be maintained in a pending status until such time as

a suitable photograph is obtained unless circumstances dictate otherwise, in which case the Bureau should be advised." The field places a copy of the photograph on one copy of the SI card maintained in the field and forwards one copy to the Bureau to be forwarded to the U. S. Secret Service (USSS) headquarters. The USSS also receives from the Bureau copy of all reports and letterhead memoranda regarding SI subjects and uses this material along with the photograph in connection with its protective responsibilities of the President. A survey of this Division was made and it was felt the practice of submitting photographs of subjects in Priority I, II and III of the SI should be continued. Such photographs are of great value in conducting investigation of these individuals and greatly assist USSS in carrying out its responsibilities. Additionally while the Department plans only for the apprehension of Priority I subject in the event that the EDP is put into effect, in the event of a great National emergency it can be foreseen that individuals listed in Priority II and III will be apprehended also. At that time, photographs will be of inestimable value. It was further believed that the present instructions in the Manual are broad enough so as not to impose an undue burden on the field to obtain photographs for all subjects listed on the SI and, in fact, experience has shown that this has been the case. This division opposed adoption.

Training Division agrees since the mere fact that the program at this point only calls for the immediate arrest of Priority I subjects does not remove from the Bureau the tremendous responsibility in this field of being prepared as it has historically been prepared to take care of whatever situation may arise be it the arrest of Priority I SI subjects or the arrest of the entire SI list.

RECOMMENDATION: That the suggestion not be adopted. On approval, that the attached letter be forwarded to the suggester. He has been thanked by prior letter.

**LIAISON WITH PASSPORT OFFICE  
DEPARTMENT OF STATE**

We have in the past on a quarterly basis made available to Mr. \_\_\_\_\_, General Counsel, Passport Office, Department of State, a list of individuals included in Priority I of the Security Index. Priority I includes hard-core national and state basic revolutionary organization leaders and leaders of other subversive organizations and unorganized groups who have indicated a propensity for violence or have received special training in sabotage, espionage or guerrilla warfare. This serves as a check list against issuing U. S. passports.

The practice of furnishing similar lists was originally approved by memorandum \_\_\_\_\_ to Mr. \_\_\_\_\_ dated 12-8-50. This practice was again approved by memorandum \_\_\_\_\_ to Mr. \_\_\_\_\_ dated 11-25-68, wherein it was recommended and approved that the Priority I list be made available to Mr. \_\_\_\_\_ in place of the lists of top functionaries and key figures, which lists are no longer available since the re-evaluation of the Security Index in May, 1968. This list, which is prepared by the Automatic Data Processing Unit, will be very useful as the Department of State alerts the Bureau to contemplated travel abroad by subversives.

**ACTION:**

1) That the enclosed Priority I list prepared as of August 15, 1969, be furnished to Mr. \_\_\_\_\_ by liaison with the understanding that it is to be held in the strictest confidence by him at all times in his office safe and is to serve only as an alert list upon which State can take no action but must contact us for reports.

Memorandum

DATE: September 8, 1969

TO :  
FROM :

SUBJECT: 0 SECURITY INVESTIGATIONS OF INDIVIDUALS

SYNOPSIS:

*Mem.*

By letters to all offices dated 2/27 and 3/6/69, attached, a moratorium was placed on routine Security Matter - Communist (SM-C) cases, certain changes were made in the frequency with which reports were to be submitted regarding Security Index (SI) subjects, the frequency of verification of residence and employment of SI and Agitator Index (AI) subjects was changed from a semiannual basis to an annual basis, and all report writing relating to SI subjects in Priority II and Priority III was suspended for a six-month period. The main purpose of these changes was to make available Agent personnel for immediate reassignment from security investigations to investigations pertaining to organized crime. In an earlier draft of this memorandum, it was recommended that this moratorium be extended for six months. We have considered this and oppose it for the reasons set forth below.

Responsibilities in the security field have not lessened. The Bureau continues to have the responsibility in the event of a national emergency to be in a position to know where SI subjects are located. This will not be possible if we continue verification only on an annual basis. The Bureau has been historically prepared and we must be in a position to act when called upon to do so. The backlog of security investigations cannot be further postponed.

Since 3/1/69, we have had an over-all increase of 397 Agent personnel including Agents presently in New Agent's Training Classes. There has been a net gain of 64 Agents in the field and there are presently 466 Agents in training school, all of whom will be assigned to the field during the next three months. It is, therefore, imperative that we terminate the moratorium now and begin to open cases immediately so that an accurate determination can be made as to where the manpower will be needed when it becomes available.

RECOMMENDATION:

That the moratorium and curtailment of security matter investigations be rescinded. If approved, each office will be advised.

Memorandum to Mr.  
RE: SECURITY INVESTIGATIONS OF INDIVIDUALS

DETAILS:

By letter to all offices dated 2/27/69, attached, the frequency of submitting reports pertaining to individuals on the SI was changed. Submission of reports in Priority I SI cases was changed from six months to one year. Reports concerning Priority II and Priority III SI subjects were continued on an annual basis and two-year basis, respectively. The frequency of verification of residence and employment of SI subjects was also changed to require that such verification regarding Priority II and Priority III SI subjects be handled on an annual basis rather than semiannually. Routine SM-C investigations were suspended for a six-month period. The verification of residence and employment of AI subjects was changed to an annual basis rather than semiannually as previously required.

By letter to all offices dated 3/6/69, attached, reports concerning all SI subjects in Priority II and Priority III were suspended for a period of six months. Several other programs relating to security matters were also changed or revised to provide for immediate assignment of additional personnel for concentration on organized crime work.

In an earlier draft of this memorandum recommended that this moratorium be extended for six months. We have considered this and oppose it for the reasons set forth below.

Our over-all responsibilities in the security field have not lessened during the period of this moratorium. This is evidenced by the fact that as of 2/14/69, there was a total of 10,301 individuals on the SI. As of 8/15/69, this total had risen to 10,669. This increase is directly attributable to investigations pertaining to New Left-type individuals who are extremely militant in nature, have a definite propensity for violence, and would seize upon events presented by a national emergency to bring about the downfall of our form of government.

Memorandum to Mr.  
RE: SECURITY INVESTIGATIONS OF INDIVIDUALS

This increase is also attributable to the fact that we have not continued to review individuals currently carried on the SI for the purpose of determining whether they should be removed from this list. The deletion of individuals from the SI had been a continuing project in connection with established reporting and verification procedures. Investigations of the subversive elements in this country can no longer be considered routine since, by the very nature of the individuals and the organizations involved, a very complex situation and challenge confronts the Bureau. The security investigation today does not merely have to establish membership in a basic revolutionary group, but it has to penetrate even the mind of the individual member since some of the purposes of these organizations follow the legal definition of legitimate protest which is supported by many leading figures.

Continuing investigations regarding individuals already on the SI may be considered routine but are, nevertheless, vital investigations. The Bureau is charged with the responsibility in this extremely delicate field and in the event of a national emergency, such as the Cuban crisis, which could arise on very short notice, we would be expected to be in a position to discharge our responsibilities without hesitation. Such a situation and the resulting responsibility require that we know where our SI subjects are located. There will not be time to look for them, which will be the case if we continue to verify their residence and employment only on an annual basis. The subversive element is extremely mobile and unless we keep continuing tabs on their whereabouts, we will fall short of carrying out our responsibilities should we be called upon to do so.

The Bureau has never had to say, "Give us more time and we will do the job," and we certainly do not wish to be put in this position should an emergency arise requiring the Emergency Detention Program to be placed in effect. The Bureau has been historically prepared and must continue to be in a position to act when called upon to do so.

Memorandum to Mr. [redacted]  
RE: SECURITY INVESTIGATIONS OF INDIVIDUALS

The moratorium was imposed as a matter of temporary expediency and as the end of this six-month period approaches it appears that the backlog of security investigations created as a result of the moratorium cannot be further postponed. There has been virtually no investigation of Priority II and Priority III SI subjects. It must be presumed that many of them have changed their residence and/or employment. Some may have obtained employment in defense facilities or engaged in other activity which should be brought to the attention of other Government agencies. Neither the Department nor other Government investigative agencies which receive copies of our investigative reports through regular dissemination are aware of this moratorium; and if the moratorium is continued, the Department and these agencies should be advised of the fact that our investigations in the security field have been curtailed. This is particularly true regarding U. S. Secret Service which receives copies of all security reports in connection with its responsibility for protecting the President.

In view of the above it would appear that the moratorium regarding security matter investigations should be rescinded and the periodic verification of residence and employment of SI subjects should be re-established on a semi-annual basis. This, of course, will require the reassignment of Agent personnel to security-type work.

The number of Agent personnel on duty as of 3/1/69, was 6,959. Agent personnel on duty as of 8/27/69, was 7,356. This represents an over-all increase of 397 Agents. There has been a net gain of 64 Agents in the field and there are currently 466 Agents enrolled in New Agents' Training Classes, all of whom will be assigned to the field during the next three months. The number of Agents assigned during March, 1969, for this concentrated drive on organized crime will very soon have been replaced through the New Agents' Training Program.

It is, therefore, imperative that we terminate the moratorium now and begin to open cases immediately so that an accurate determination can be made as to where the Agents will be needed when they become available.

SUBJECT: SECURITY INVESTIGATIONS OF INDIVIDUALS *General*

By letters to all offices dated 2/27/69 and 3/6/69, a moratorium was placed on routine Security Matter - Communist (SM - C) cases, certain changes were made in the frequency with which reports were to be submitted regarding Security Index (SI) subjects, the frequency of verification of residence and employment of SI and Agitator Index (AI) subjects was changed and all report writing relating to SI subjects in Priority II and Priority III was suspended for a six-month period.

The above-mentioned six-month period recently terminated and all aspects of the above moratorium were thoroughly re-evaluated. As a result, it was the recommendation of Mr. [redacted] that the moratorium be extended for another six months at which time all aspects will again be reconsidered. The Director concurred with Mr. [redacted] recommendation.

Attached is a letter to all field offices advising them that instructions contained in Bulets of 2/27/69 and 3/6/69 will continue to remain in effect for another six months, at which time this suspension will again be re-evaluated.

0 SECURITY INVESTIGATIONS OF INDIVIDUALS

PGrep dated 10/14/69 captioned "ARL," contains names of various individuals, many from other field offices, who were arrested in Pittsburgh in connection with a Students for a Democratic Society demonstration at South Hills High School, Pittsburgh. One of those named was of Trenton, New Jersey. There is no indication in rerep that Pittsburgh has been furnished information concerning

Unless already done and where the individual does not reside in your territory, furnish appropriate office covering residence of each individual so arrested all pertinent information concerning the particular individual's activities in Pittsburgh. Include data concerning specific charges brought against the individual involved. Your communication transmitting the information to field offices should include the statement that the information concerning the subject's participation in the demonstrations, and the arrest is being furnished in view of existing instructions that a determination be made whether a security investigation is warranted, and whether overall activities would justify inclusion of their names on the Security Index.

The arrests indicated above show a propensity for violence and if combined with subversive data, may warrant Security Index consideration. Offices covering residences of those arrested should have the information so that office files may be checked for subversive data.

ReBulet to Albany and all offices captioned as above dated 9/17/69, advising that report writing concerning all Security Index subjects designated Priority II and Priority III had been suspended for an additional six month period.

The Bureau has noted in recent weeks that your office has submitted a number of reports and letters in lieu of reports concerning individuals falling within the categories mentioned in relet. The purpose of instant letter, however, is to advise that instructions contained in relet continue to remain in effect. NOTE:

By letter dated 3/6/69, field offices were first advised of a six month moratorium in report writing. This period would have normally ended 9/6/69. Relet dated 9/17/69 advised that the moratorium would continue in effect. A large number of reports have been coming through from the Los Angeles Office but not from any other office. Either Los Angeles is not following instructions in relet or they opened a large number of report writing cases during the period 9/6 through 9/17/69 when ostensibly they thought the moratorium had ceased. As the normal 45 day period for submission of such reports has passed; and reports continue to come in, it is felt that instant letter is necessary to insure that Bureau instructions are being followed.

November 20, 1969

LIAISON WITH PASSPORT OFFICE  
DEPARTMENT OF STATE

We have in the past on a quarterly basis made available to Mr. General Counsel, Passport Office, Department of State, a list of individuals included in Priority I of the Security Index. Priority I includes hard-core national and state basic revolutionary organization leaders and leaders of other subversive organizations and unorganized groups who have indicated a propensity for violence or have received special training in sabotage, espionage or guerrilla warfare. This serves as a check list against issuing U. S. passports.

The practice of furnishing similar lists was originally approved by memorandum to Mr. dated 12/8/60. This practice was again approved by memorandum to Mr. dated 11/25/68, wherein it was recommended and approved that the Priority I list be made available to Mr. in place of the lists of top functionaries and key figures, which lists are no longer available since the re-evaluation of the Security Index in May, 1968. This list, which is prepared by the Automatic Data Processing Unit, will be very useful as the Department of State alerts the Bureau to contemplated travel abroad by subversives.

ACTION:

1) That the enclosed Priority I list prepared as of November 14, 1969, be furnished to Mr. by liaison with the understanding that it is to be held in the strictest confidence by him at all times in his office safe and is to serve only as an alert list upon which State can take no action but must contact us for reports.

SUBJECT: SECURITY INVESTIGATIONS OF INDIVIDUALS

ReBulet to Pittsburgh dated 10/31/69, captioned as above, and Pittsburgh airtels to Bureau dated 9/10/69 and 9/25/69, both captioned "SDS; IS-SDS".

For the information of offices receiving copies of this letter, the Bureau has instructed that offices covering the residences of each of the twenty-six females arrested in Pittsburgh on 9/4/69 in connection with the demonstration at South Hills High School by the Weatherman faction of SDS, be furnished pertinent information concerning each of these individuals' activities in Pittsburgh. The Bureau also instructed that receiving offices should be advised that this information is being furnished in view of existing instructions that a determination be made whether a security investigation is warranted and whether overall activities would justify inclusion on the Security Index.

Information concerning the activities of the twenty-six females arrested in Pittsburgh was previously furnished to the Bureau and receiving offices in referenced Pittsburgh airtels.

If not already done, all offices receiving this letter should determine whether security investigations are warranted on the below-listed individuals.

SECURITY INVESTIGATIONS OF INDIVIDUALS

ReDNrep of SA \_\_\_\_\_, dated 11/19/69,  
captioned "New Left Movement; IS-MISC," your file

Page 43 of rerep contains the names of those SDS members from the Colorado area who traveled to Chicago in October, 1969, for the purpose of participating in demonstrations which ultimately led to violence, arrests and considerable property damage. It is noted that the Bureau is not in possession of background and subversive information concerning some of the individuals listed. If you have not already done so, insure that files are reviewed and sources contacted for pertinent information concerning each individual. Results should be furnished the Bureau in appropriate form under the individual case caption, accompanied by your recommendations as to additional action, if any, deemed necessary.

It is further noted that page 22 of rerep identifies a (LNU) as speaking at an SDS meeting in Boulder, Colorado, in September, 1969, at which meeting she spoke regarding possession of bombs and indicated that they would be used against the ROTC at the University of Colorado.

Further, page 26 of rerep contains information concerning \_\_\_\_\_ who reportedly lent his truck for the purpose of transporting SDS members to Chicago in October, 1969. In addition, this individual donated a sum of money to be used as bail money for SDS members arrested in Chicago as a result of their anticipated violent activities in that city.

If you have not already done so, investigation should likewise be conducted to identify the above (LNU) and to obtain pertinent information concerning her and Abels. Results concerning your inquiries in these matters should likewise be furnished the Bureau under appropriate case caption, accompanied by your recommendations concerning additional action deemed necessary.

PERSONAL ATTENTION

Letter to All Special Agents in Charge:

RE: EMERGENCY DETENTION PROGRAM

Dear Sir:

The Department has approved a suggestion that Security Index (SI) subjects currently designated as Priority III be maintained separately. For administrative purposes Priority III subjects will continue to be maintained as a portion of the SI but all decisions relating to such individuals will be made strictly within the Bureau. Priority I and Priority II subjects will continue to be reviewed and approved by the Department. This decision was based on the Department's intention to consider only those individuals in Priority I and Priority II for apprehension in the event the Emergency Detention Program is placed in effect.

All SI cards pertaining to Priority III subjects should be immediately separated from those cards pertaining to Priority I and Priority II subjects and maintained in a separate section of the SI. These subjects will continue to be designated as Priority III and the criteria for including subjects in this category will remain the same. The Department will be completely divorced from any action pertaining to Priority III subjects.

This administrative handling of Priority III subjects should not generate any reevaluation of your SI subjects since any redesignations of Priorities at this time will be carefully scrutinized at the Bureau.

Residence and employment of Priority III subjects should be verified on an annual basis as is the current practice. In connection with this verification, the case file should be thoroughly reviewed for any necessary action to be taken

including a reevaluation of the subject's status. This includes removal from Priority III or possible redesignation as a Priority I or Priority II SI subject.

As investigations are completed regarding additional security subjects, the investigative results should be submitted to the Bureau by summary-type report along with your recommendations regarding inclusion on Priorities I, II or III. Once an individual is approved for inclusion in Priority III any pertinent subsequent information may be furnished by letterhead memorandum. No investigative reports will be required in Priority III cases subsequent to the initial summary-type report. Reports will continue to be required in Priority I and Priority II SI cases in accordance with Section 87D of the Manual of Instructions.

With the establishment of this procedure, the maintenance of the Reserve Index A (RI-A) will be discontinued at the Bureau. The RI-A will be maintained solely by each field division in the same manner as Reserve Index B is currently handled.

Manual changes will be forthcoming. All surveys and programs in connection with Emergency Detention Program should be adjusted accordingly. Revision of necessary forms will be forthcoming.

Very truly yours,

John Edgar Hoover  
Director

REC'D DON WLETT DIA  
JUN 23 1969

December 12, 1969

PROGRAM FOR APPREHENSION AND  
DETENTION OF PERSONS CONSIDERED  
POTENTIALLY DANGEROUS TO THE  
NATIONAL DEFENSE AND PUBLIC  
SAFETY OF THE UNITED STATES

The Department by letter dated November 19, 1969, approved our proposal that Priority III Security Index (SI) subjects be removed from the SI. The Department also agreed that a listing of these Priority III subjects should be maintained by the Bureau for possible action in the event of a national emergency. The Department issued no instructions as to how this listing would be maintained. It will, therefore, be maintained for administrative purposes as a part of the regular SI but these Priority III subjects will be handled strictly within the Bureau. The Department will continue to make all decisions regarding Priorities I and II of the SI.

This method of handling Priority III <sup>GENERAL</sup> subjects was brought about by the Department's feeling that Priority III subjects would not be apprehended in the event of a national emergency. The Department feels that only those individuals in Priority I and possibly Priority II of the SI would be apprehended for detention in the event of a national emergency. Individuals in Priority I and Priority II total 2,679. There are 8,170 individuals in Priority III. The total SI numbers 10,849.

A letter to all Special Agents-in Charge has been prepared advising that henceforth Priority III subjects will be handled completely within the Bureau. The criteria for including individuals in Priority III remains the same, basically, that such individuals must be rank and file members of an organization considered subversive. All Special Agents in Charge are being advised that this should not mean a lessening of our investigative attention regarding individuals in this category but is actually a concentration of our efforts in areas most essential to the internal security of the country.

Memorandum to Mr.  
RE: PROGRAM FOR APPREHENSION AND DETENTION  
OF PERSONS CONSIDERED POTENTIALLY DANGEROUS  
TO THE NATIONAL DEFENSE AND PUBLIC SAFETY  
OF THE UNITED STATES

Cases on Priority III subjects will be reviewed on an annual basis and verification of residence and employment will be made at that time as is the current practice. The Bureau need be advised only in the event changes are necessary. Such information may be submitted by letterhead memoranda with regular submission of reports being discontinued.

With the establishment of this means of handling Priority III subjects, the maintenance of Reserve Index A (RI-A) will be discontinued at the Bureau. The RI-A will be maintained strictly by each field division. RI-A is made up of individuals who do not meet the criteria for the SI but have had previous connections with subversive groups and are in a position to influence others.

Since the Department has not specifically instructed the Bureau on the method of maintaining this listing of Priority III subjects, it is not necessary to advise the Department. The administrative handling of Priority III subjects is up to the Bureau and can most logically be maintained administratively as a portion of the SI with an inactive status.

RECOMMENDATION:

That the attached letter to all Special Agents in Charge be approved.
