TREK

LANTERN • FLASHLIGHT • CHARGER

PRODUCT DIAGRAM:

1. Lantern hanging hook
2. LED flashlight
3. Power button
4. Lantern

5. USB-C input port
6. USB output port
7. Carabiner
8. Magnets

CHARGING THE LIGHT

- Before first use please fully charge the light
- Open the small rubber door at the base of the light
- Connect a USB-C cable to the light and the other end to a USB power source
- The light will blink green while charging
- When it is fully charged, the blinking green light will change to a solid green light

CHARGING A SMARTPHONE

- Open the large rubber door at the base of the light
- Connect a USB cable to the light and the other end to your device
- the light will have a steady blue glow while it is charging a device
- Your phone will indicate that it is charging

OPERATING THE LIGHT

Each press of the power button changes the light function

1st press = flashlight bright mode

2nd press = flashlight low mode

3rd press = lantern 90°

4th press = lantern 180°

5th press = lantern 360°

6th press = mosquito light

7th press = flashing mode

Note 1: If you wait 5 seconds or longer between button presses, the next button press turns the light off

Note 2: A two second hold of the power button in any light mode will directly turn the light function off

MAGNETIC FEATURE:

The base has 4 magnets, the light can attach to a metal surface for hands free operation

USB output: 5V/2A (10W)

Flashlight: 300 lumens (max)

Lantern: 300 lumens (max)

IPX rating: IP66 waterproof and dustproof

FCC STATEMENT: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.

Operation is subject to the following two conditions:

1. this device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation.

CAUTION: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment
