Product Information

Product Specifications

Model Number: SU8NST

Electrical Rating: 5.0 VDC; Max 3A

Operating temperature: 0°C to 35°C

Connectivity: Wifi 6 - 802.11 a/b/g/n/ac/ax; BT BDR/EDR, BLE.

Quick Start Information

Included In-Box:

- Device
- Power Adapter
- USB Cable
- Micro SD card ejection pin

Activate Device:

Step 1: Power on the device by pressing and releasing the power button on top.

Step 2: Follow instructions on the screen to complete the set up and enable the features.

Connecting Device to Network:

Step 1: Tap the Quick Settings icon located on the Status bar to display settings for the most commonly performed tasks

Step 2: Select your network from the list of displayed SSID

Step 3: If required, input password

Safety and Compliance Information

Using Your Device Around Other Electronic Devices

The Device, uses, and can radiate radio frequency (RF) energy and, if not used in accordance with its instructions, may cause interference to radio communications and electronic equipment. External RF signals may affect improperly installed or inadequately shielded electronic operating systems, entertainment systems, and personal medical devices.

While most modern electronic equipment is shielded from external RF signals, if in doubt, check with the manufacturer. For personal medical devices (such as pacemakers and hearing aids), consult with your physician or the manufacturer to determine if they are adequately shielded from external RF signals.

There are some places where RF signals could constitute a hazard, such as health care facilities, and construction sites. If you are not sure, look around for signs indicating that two-way radios or mobile phones should be turned off.

FCC Compliance Information

Radio Frequency Information

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications that are not expressly approved by the party responsible for compliance could make the device no longer comply with the FCC Rules.

Information on your device is on file with the FCC and can be found by inputting your device's FCC ID, which can be found on the back of Device, into the FCC ID Search form available at transition.fcc.gov/oet/ea/fccid

The party responsible for FCC compliance is Amazon.com Services LLC 410 Terry Ave North, Seattle, WA 98109 USA. If you wish to contact Amazon visit www.amazon.com/devicesupport, select United States, click Help & Troubleshooting, then click on Contact Us.
