MASERATI

Maserati Touch Control Plus

The vehicle is equipped with the info-telematics Maserati Touch Control Plus (MTC+) System, an advanced user interface which combines innovative and exclusive technical features combining entertainment, user settings, air conditioning, navigation, communication and information functions within a single system.

The MTC+ system comes equipped with an audio system, acoustically optimized for this vehicle.

The vehicle is provided with this specific add to the Owner's Manual, describing the MTC+ system fully and listing all warnings and precautions for use, which are essential for safe use of the system. Maserati recommends you to read the add carefully and thoroughly.

The information in this publication is provided by using examples.

Maserati may modify for technical or marketing purposes the specifications of the system described in this publication at any time.

⚠️ **WARNING!**

• **ALWAYS drive safely with your hands on the steering wheel. You have full responsibility and assume all risks related to the use of the MTC+ features and applications in this vehicle. Only use MTC+ when it is safe to do so. Failure to do so may result in an accident involving serious injury or death.**

• **The Navigation System assists the driver while driving, providing advice and suggestions, by means of voice guidance and graphic information, for the best route to take for reaching the set destination. The suggestions provided by the Navigation System do not relieve the driver from full responsibility for the maneuvers made through traffic while driving, or from compliance with road regulations and other provisions regarding road traffic. The person driving the vehicle is always and in any case responsible for safe driving on the road.**

1 – Safety Guidelines

1

Safety Guidelines

Ensure that all persons read this manual carefully before using the MTC+ System. It contains instructions on how to use the system in a safe and effective manner.

⚠️ **WARNING!**
Please read and follow these safety precautions. Failure to do so may result in injury or property damage.

• Glance at the screen only when necessary and safe to do so. If prolonged viewing of the screen is necessary, pull over at a safe location.
• Stop use immediately if a problem occurs. Failure to do so may cause injury or damage to the product. Return it to your authorized dealer to repair.
• Make certain that the volume level of the system is set to a level that still allows you to hear outside traffic and emergency vehicles.

⚠️ **WARNING!**
This manual contains WARNINGS

against operating procedures that could result in an accident or bodily injured. If you do not read the entire manual, you may miss important information. Observe all WARNINGS!

NOTE:

The information given in this manual is subject to change.

Safety References

Before operating this system for the first time, please read this manual carefully. Note the safety precautions described in this manual. If you have any questions, please contact Maserati or your authorized dealer.

Intended Use

Generally recognized rules of radio technology were maintained during the development and manufacture of this system. When using this product, be aware of state/province-specific norms and guidelines.

Navigation System (if equipped) — Safety Precaution and Important Information

Read this information carefully before starting to operate the Navigation System and follow the instructions in this manual. Maserati shall be liable for problems or accidents resulting from failure to observe the instructions in this manual.
Failure to avoid the following potentially hazardous situations could result in an accident or collision resulting in death or serious injury.

• Always use your best judgment, and operate the vehicle in a safe manner. Do not become distracted by the Navigation System while driving, and always be fully aware of all driving conditions. Minimize the amount of time spent viewing the Navigation System screen while driving and use voice prompts when possible.

• Do not input destinations, change settings, or access any functions requiring prolonged use of the Navigation System controls while driving. Pull over in a safe and legal manner before attempting such operations.

• When navigating, carefully compare information displayed on the Navigation System to all available navigation sources, including road signs, road closures, road conditions, traffic congestion, weather conditions, and other factors that may affect safety while driving. For safety, always resolve any discrepancies before continuing navigation, and defer to posted road signs and road conditions.

• The Navigation System is designed to provide route suggestions. It is not a replacement for driver attentiveness and good judgment. Do not follow route suggestions if they suggest an unsafe or illegal maneuver or would place the vehicle in an unsafe situation.

• Be careful of the ambient temperature. Using the Navigation System at extreme temperatures can lead to malfunction or damage. Also note that the unit can be damaged by strong vibration, by metal objects, or by water getting inside the unit.

⚠️ **WARNING!**

The Navigation System is designed to provide you with route suggestions. It does not reflect road closures or road conditions, weather conditions, or other factors that may affect safety or timing while driving.

Use the Navigation System only as a navigational aid. Do not attempt to use the Navigation System for any purpose requiring precise measurement of direction, distance, location, or topography.

The Global Navigation Satellite System is subject to changes that could affect the accuracy and performance of all GPS equipment, including the Navigation System.

System Care

Safe usage of the MTC+ System

Read all instructions in this manual carefully before using your system to ensure proper usage! Your system is a sophisticated electronic device. Do not let young children use your system. Permanent hearing loss may occur if you play your music or the system at loud volumes. Exercise caution when setting the volume on your system. Driving is a complex activity that requires your full attention. If you're engaged in driving or any activity that requires your full attention, we recommend that you do not use your system.

NOTE:

Many features of this system are speed dependent. For your own safety, it is not possible to use the touch screen keyboard while the vehicle is in motion. Keep drinks, rain, and other sources of moisture away from your system. Besides damage to your system, moisture can cause electric shocks as with any electronic device.

Connections

Never force any connector into the ports of your system.
Make sure your connectors are the correct shape and size before you connect.
Any attached cable should be routed so that it will not apply any pressure to the connection and should not obstruct the driver operation.

Touch screen

Do NOT attach any object to the touch screen, doing so can result in damage to the touch screen.
Do not touch the screen with any hard or sharp objects (pen, USB stick, jewelry, etc.) which could scratch the touch screen surface!

NOTE:

It is possible to use a plastic stylus for press screen enabled devices such as a PDA and Pocket PCs. Do not spray any liquid or caustic chemicals directly on the screen! Use a clean and dry micro fiber lens cleaning cloth in order to clean the touch screen. If necessary, use a lint-free cloth dampened with a cleaning solution, such as isopropyl alcohol, or an isopropyl alcohol and water solution ratio of 50:50. Be sure to follow the solvent manufacturer's precautions and directions.

GPS Navigation and Satellite Radio Antenna

The GPS navigation and satellite radio antenna is integrated into the fin on the roof of the vehicle. Do not place items on the roof around the roof top antenna location. Objects placed within the line of sight of the antenna will cause decreased performance. Larger luggage items should be placed as far from the antenna as possible. Do not place items directly on or above the antenna.

Other Electronic Devices

You may bring other electronic devices into your vehicle (e.g., PDA, iPod, etc.).

Some of these devices may cause electromagnetic interference with the GPS. If a degradation in the Navigation System is observed, turn the devices off, or keep them as far away from the GPS antenna as possible.

2 – Devices, Controls and Buttons

Overview

MTC+ System has a series of soft-keys, controls and devices through which it is possible set up different audio options, perform setting/function changes and use external multimedia sources.

1. 📞 Phone Button
2. 🎙 Voice Command Button
3. Steering Wheel Audio Controls
4. Microphones
5. Volume Control
6. Tune/Scroll Control
7. Enter Button
8. Browse Button ☰
9. Back Button ↩
10. Media Inputs (AUX, USB and SD memory card)
11. Power Outlets
12. Touch Screen Display
13. SOS-Emergency Call Button (optional only for Russian market)
14. USB Inputs for Charging the Connected Devices.

Rear Controls

2
Front Controls

Quick Description

Phone Button 📞

Pressing the Phone button 📞 it is possible to: activate the phone mode, start a call, show recent incoming and outgoing calls, show contacts list, etc. All these functions can also be reached by using the touch screen commands on the MTC+ display in "Phone" mode. When pressing the button 📞 an audible sound will invite you to impart a command.

Voice Command Button 🎙

By using voice commands, after pressing the 🎙 button, it is possible to control the AM and FM radio, the satellite radio and all devices connected and managed by the "Media" mode (i.e SD card, USB/iPod player). When pressing the button 🎙 an acoustic signal will invite to give a voice command.

Steering Wheel Audio Controls

These audio controls are rocker-type switches with a button in the center and are located on the rear side of the steering wheel, right behind the front switches.

Press any button to display information on the radio station or track being listened to inside a pop-up for 2 seconds on instrument cluster. The right-hand control manages the volume.
By pressing the top of the rocker switch you can increase the volume and by pressing the bottom of the rocker switch you can lower it. Press the center button to mute the volume. The left-hand control functions depend on the current source. To change source, press the center button.
When in "Radio" mode, pressing the top of the switch will "Seek" up for the next listenable station and pressing the bottom of the switch will "Seek" down for the previous listenable station.
When an external source is connected to MTC+, a light press on the top of the switch will play the next track on the device connected.
Pressing the bottom of the switch once will go to the beginning of the current track, or to the beginning of the previous track if it is within one second after the current track begins to play. If you press the switch up or down twice, it plays the second track; three times, it will play the third, etc.

Microphones

The microphones placed behind the grilles on either side of the front dome console allows to give voice commands with hands-free function. See "Voice Recognition Quick Tips" in section 8 for more details.

Volume Control

Working this knob in "Radio" or "Media" mode, user can adjust the volume of the radio or audio files, from minimum to maximum and vice versa. Turn knob clockwise to increase the volume, counterclockwise to decrease it. The volume status will be indicated in the top part of the MTC+ display.
Tune/Scroll Control

Working this knob in "Radio" or "Media" mode, user can go through

the radio stations or scroll the tracks inside connected external devices and confirm the selection by pressing enter button.
In any other mode of the MTC+, use this knob to scroll the list of available options or to manage the cursor movement in the lower bar of the main menu. Then press enter button to confirm the function or setting highlighted on MTC+ display.

Enter Button

Press this button to confirm the function or setting highlighted on MTC+ display.

Browse button ☰

After selecting a function, using the tune/scroll knob or soft-keys on MTC+ display, press this button to see the detail of the items/options of the selected function. This button is also used as short cut to display the phone book, when the "Telephone" menu is selected, or the favorites when the "Nav (Navigation)" menu is selected.

Back button ↩

Press this button to go back to previous menu or previous screen.
Press this button to shift the navigation one level backwards on

MTC+ screen. If it is pressed and held for at least 2 seconds, it brings the cursor back in the lower bar of the main menus.

Media Inputs

The inputs for front passengers are located inside the glove box compartment of the dashboard and in the compartment at the front end of the central console. To access the central console inputs, push the lid to open completely.
In the central console compartment there are a AUX input, compatible only with 3,5 mm jack connectors (not included), a USB port ⟷ for data exchange (see section "Media Mode" for further details) and an SD Memory card slot.
To insert a memory card into the slot, lift the tab with the "SD" indication and push it inside the slot. To extract it, press lightly on the card.
For rear seat passengers, there are two USB inputs inside the compartment located on the rear end of the central console, above the air vents. To access this USB inputs open the outside cover. The USB inputs in the glove box and at the rear end of the central console allow charge (CHARGE ONLY label) of the connected source.

Power Outlets

To access the power outlet inside the front cup holder, press the cover to open completely. Remove the cigarette lighter and use its socket as power outlet.
To access the power outlet located inside the glove box of the central console you need to open the half-lids.
There is another power outlet in the compartment at the rear end of the central console.
To access the power outlet, push the lid to open completely.

Touch Screen Display

The soft keys located on the lower part of the MTC+ display represent the main menu modes/functions, which are briefly indicated below.

2

MTC+ with Navigator

1. **"Radio"** soft-key

MTC+ without Navigator

Touch this soft-key to enter the Radio mode. The different tuner modes: FM, AM, MW, LW, SW, DAB, DAB+ and DMB (if equipped) can be selected by touching the related soft-keys in the Radio mode.

2. **"Media"** soft-key
Touch this soft-key to access media

sources such as: USB Device, AUX, Bluetooth (if equipped) and SD card as long as the requested media is present.

3. **"Controls"** soft-key
Touch this soft-key to access the controls that can be set up. Controls such as: Heated Seats, Heated Steering Wheel, Ventilated Seats, etc. can be selected or turned on/off by touching the related soft-key. For further details see the Owner's Manual.

4. ♆ **(Apps) soft-key**
Touch this soft-key to access connected phone connection options and user functions settings if MTC+ is equipped with navigator.

5. **"Climate"** soft-key
Touch this soft-key to access the air conditioning settings.

6. **"Nav"** soft-key (if equipped)
Touch this soft-key to access the Navigation feature. Refer to the section "Navigation Mode" for further details.

7. **"Phone"** soft-key
Touch this soft-key to access the MTC+ Phone feature that can be set or monitored via MTC+.

8. **"Settings"** soft-key (only for MTC+ without navigator)

Touch this soft-key to access the list of functions that the user can set.

Main menu bar is set up by Maserati: it can be personalized according to personal requirements, as explained in "Personalized Menu Bar" of this section.

Personalized Menu Bar

The MTC+ features and services in the main menu bar are easily changed for your convenience. Simply follow these steps:

• Touch the ♆ Apps soft-key to open the App screen.

• Touch and hold, then drag the selected App icon to replace an existing shortcut in the main menu bar.

• The replaced shortcut will now be an active App/shortcut on the main menu bar.

3 – MTC+ Access

Introduction to MTC+ Access

To unlock the full potential of MTC+ Access in your vehicle, you first need to register with MTC+ Access.

⚠️ **WARNING!**

• **ALWAYS obey traffic laws and pay attention to the road. Some MTC+ Access services including SOS-Emergency Call (available only for Russian market) will NOT work without an operable 3G (data) network connection.**

• **ALWAYS drive safely with your hands on the steering wheel. You have full responsibility and assume all risks related to the use of the MTC+ System features and applications in this vehicle. Only use MTC+ System when it is safe to do so. Failure to do so may result in an accident involving serious injury or death.**

NOTE:

Your vehicle may be transmitting data as authorised by the subscriber. MTC+ Access services can only be used where coverage is available.

What Is MTC+ Access?

MTC+ Access enhances your ownership and driving experience by connecting your vehicle with an operable 3G (data) network.
For a complete list of MTC+ Access services, please visit: www.maserati.com.
MTC+ Access provides:

• The ability to remotely lock/unlock your doors and start your vehicle (if foreseen) from virtually anywhere, with the MTC+ Access App, the Maserati Owner Connect website (www.maserati.com).

• Security alarm notification via text or e-mail.

• Yelp to help find great places, businesses and other locations when you need them.

• Voice texting so you can compose, send and receive text messages with your voice while keeping your hands on the wheel.

Before you drive, familiarize yourself with the easy-to-use MTC+ System.

• The SOS-Emergency call button on dome console (available only for Russian market). This button connects you directly to emergency services.

• The MTC+ ⚜ Apps soft-key on the main menu bar on the touch screen. This is where you can begin registration for MTC+ Access, find the Apps.

• The MTC+ 🎙 Voice Recognition and phone 📞 button on steering wheel. The buttons let you use your voice to give commands, make phone calls, send and receive text messages hands-free, enter navigation destinations and control your radio and media devices. For more details, see "MTC+ System Phone" section.

Included Trial Period for New Vehicles

Your new vehicle may come with an included trial period for use of the MTC+ Access services starting at the date of vehicle purchase. To activate the trial, you must first register with MTC+ Access. Once registered, MTC+ Access customers can purchase

additional services and Apps over the lifetime of their vehicle ownership.

Included Trial on New Vehicles ONLY	
Radio Sales Code	RA4
Trial Period	12 months of the Advantage Package

Features And Packages

After the trial period, you can subscribe to continue your service by visiting the Maserati Owner Connect website (www.maserati.com).

Getting Started with MTC+ Access

Registration

To unlock the full potential of MTC+ Access in your vehicle, you first need to register with MTC+ Access.
Signing up is easy! Touch the ♆ Apps button on the touch screen to "Register By Web" to complete the process using your wireless device or computer.
For further information please visit www.maserati.com.

Download The MTC+ Access App

You're only a few steps away from using remote commands and playing your favourite music in your car.
To link your internet radio accounts:

• Download the MTC+ Access App to your mobile device.

• Touch the "Via Mobile" icon on the MTC+ touch screen.

• Touch the App you'd like to connect to your vehicle.

• Enter your login information for the selected App and touch "Link".

• Next time you're in your vehicle, enable Bluetooth, pair your phone and select the Via Mobile App you want to play from the MTC+ touch screen to stream your personalised music.

NOTE:

• *You can also complete this process on the web. Simply visit www.maserati.com log in and click "Set Up Via Mobile Profile" (under Quick Links).*

• *Once you download the App to your compatible mobile device, you will also be able to start your vehicle and lock/unlock its doors from virtually anywhere.*

Using Maserati Owner Connect

The Maserati Owner Connect website (www.maserati.com) provides you with all the information you need, all in one place. You can track your service history, find recommended accessories for your vehicle, watch videos about your vehicle's features, and easily access your user guides and manuals. It is also where you can manage your MTC+ Access account. This section will familiarize you with the key elements of the website that will help you get the most of your MTC+ Access system.

3

• **Your Vehicle(s):**

Images are placed here to represent the Maserati vehicles you own. If a vehicle you own is not shown here, click on the "Add New Vehicle" button. Likewise, if a vehicle is shown that you no longer own click on the "Edit Profile" to manage your account.

• **Edit Profile:**

To manage the details of your MTC+ Access account, such as your contact information, password and PIN, click on the "Edit Profile" button to access the details of your account.

• **Connected Vehicle:**

This statement will indicate which vehicle's you own that are equipped with the MTC+ Access system. Other vehicles you own may not have MTC+ Access and will indicate that it is a non-MTC+ Access Vehicle.

• **Remote Services:**

For vehicles with an active MTC+ Access subscription, touch one of these icons and enter your four-digit MTC+ Security PIN to command your vehicle to remotely start (if equipped), lock/unlock doors or sound the horn and lights.

• **Subscription Status:**

Refer to this section to quickly see if you are currently subscribed to remote services.

• **MTC+ Access App:**

This is where you can enter the mobile phone number for your compatible device to download the MTC+ Access App. Device compatibility can be verified at www.maserati.com. For more details, see the paragraph "Download the MTC+ Access App" in this chapter.

• **Learn & Use:**

Click on the "Learn & Use" tab to find user guides and other information about your vehicle. More specifically, there is a dedicated MTC+ Access tab in this section to learn all about your connected vehicle capabilities.

Editing Your Notifications
Notifications are an important element of your MTC+ Access Account. For example, any time you use your remote services (such as remote door unlock), or if your security alarm is set off, you can elect to receive a text message and/or email to notify you of the event. To set up the notifications, please follow these instructions.

Using MTC+ Access

Getting Started With Apps

Applications (Apps for short) in your MTC+ Access system are designed to deliver the features and services that you want. There are two basic categories:

• **Built-In Apps:**

Uses the 3G (data) network on your radio.

• **MTC+ Access via Mobile (if equipped):**

Uses the MTC+ Access App and your device's data plan to access your personal accounts (such as "Aha") from the vehicle and control them using the vehicle touch screen. Customer's data plan charges will apply.

Apps Main Menu

Touch the ⨁ Apps soft-key on the touch screen to open the Apps main menu, in this screen you will be able to access all of your available Apps. To access an App directly, touch the corresponding soft-key on the touch screen and you will be directed to that App. To view the rest our your Apps,

touch the page forward or page back soft-key.

App Manager

Touch the "App Manager" soft-key to access the following categories:

• **Favourite Apps:**

This is a good place to put the Apps you use most frequently.

• **All Apps:**

All of your available Apps will reside in the "All Apps" folder.

• **Running Apps:**

Touch this tab to see which Apps are currently running.

NOTE:

Most MTC+ Access features do not require that you have a compatible device. The MTC+ Access features must have an operable 3G (data) network connection and you must be registered with MTC+ Access with an active subscription. Only voice commands, the MTC+ Access App and Via Mobile Apps require a compatible device to work with your MTC+ Access system.

Yelp Search

Use Yelp to search for places to eat, shop, relax and play.

Description
Yelp is a familiar, widely used website and mobile App that connects people to great local businesses. Now with MTC+ Access, Yelp has been adapted for your vehicle, and on the go capability. Yelp gives you the ability to search for a Point of Interest (POI) or desired destination using either pre-defined search categories, or custom searches, using keywords like "tacos." Searching can be done by voice recognition or by using the touch screen keypad.
Here is what Yelp can do for you while you are on the road:

• Deliver a list of up to 20 results, prioritizing by best match, by distance or rating.

• Provide up-to-date search listings (pulling the latest information from the cloud).

• The live and local search engine will scan 12 categories and millions of POIs to provide drivers with a local guide for real word-of-mouth recommendations.

• With one touch, select from the list to find location address, phone number, user ratings, hours of operation (if available) and price ratings (if available).

• The ability to call the selected POI directly (a device must be paired via Bluetooth), or have the address immediately sent to the navigation system for routing (if equipped).

How It Works

• **Using the touch screen:** launch Yelp by touching Apps Yelp.

• **Or using voice recognition:** press the button on the steering wheel and say "Launch Yelp."

Give It a Try!

• Press the button on the steering wheel and say "Launch Yelp."

• Press the ⏻ button on the steering wheel and say "Yelp Search."

• The MTC+ System will prompt you to say something like, "car wash" After the beep, say "restaurants".

• The MTC+ System will link out to the cloud to do your Yelp search, and depending on your search request, this may take up to 30 seconds.

• Using the touch screen, select a restaurant from the list of search results.

• Navigate to the location by pressing "Go Now" (if equipped with navigation).

NOTE:

Save your destination to "Favourites". To find it again go to "Nav" > "Where to" > "Favourites".

How to Add and Delete Search Categories

Yelp provides the ability to save custom search categories by first initiating the search, then pressing the star. To delete a search category, select it, and touch the star icon. A confirmation prompt will appear to confirm. Create up to 36 custom search categories!

Requirements

• Vehicle must be properly equipped with the MTC+ Access System.

• Your vehicle must be in range of an operable 3G (data) network connection (indicated by the signal strength bars on the ⚇ Apps soft-key on the touch screen).

• Vehicle must be registered with MTC+ Access and have an active subscription that includes the applicable feature or App.

• Vehicle must be powered with ignition device in the **RUN** or **ACC** position with a properly functioning electrical system.

• Vehicle must have on board navigation to use "Go Now".

• Mobile device must be paired with Bluetooth® and connected to call a POI directly.

Safety Information

⚠️**WARNING!**
ALWAYS drive safely with your hands on the steering wheel. You have full responsibility and assume all risks related to the use of the MTC+ features and applications in this vehicle. Only use MTC+ when it is safe to do so. Failure to do so may result in an accident involving serious injury or death.

Tips And Shortcuts

• To improve your search results, use single search terms like "coffee" rather than multiple words, which may deliver mixed results, for example, "home improvement and gardening stores."

• Press the ⏻ button on the steering wheel to use voice commands.

• If you wish to cancel a search request, touch "Cancel."

• To learn more about a listing, touch the line that appears on the display details such as the address, phone number and hours of operation (if applicable).

• Sort results by "Best Match", "Rating" or "Distance" (default is "Best Match").

• The "Rating" tab will re-sort your search based on ratings submitted by everyday users to Yelp's on-line database.

• "Distance" will sort by the closest POI near you.

• To bypass the voice prompts hit the ⏻ button a second time to barge in and state your desired command.

• To exit Yelp, touch the "X" (close) soft-key in the upper right corner of the touch screen.

Security Alarm Notification

Notifies you via email or text message (SMS) when the vehicle's factory-installed theft alarm system has been set-off.

Description

The Theft Alarm Notification feature notifies you via email or text message (SMS) when the vehicle's factory-installed theft alarm system has been set-off. You've probably seen this before, a vehicle's alarm goes off in a parking lot or out on the street, and the owner is nowhere to be found. With Theft Alarm Notification your vehicle will alert you of the situation.

Should you receive a notification that your theft alarm has been set-off, please react with caution. There are a number of reasons why your alarm may have been triggered, one of which could be that your vehicle was stolen. If so, please see the details of the Stolen Vehicle Assistance service below.

How It Works

Theft Alarm Notification can send you an email or text message (SMS) should the alarm go off. The following instructions will help you manage your notifications.

• Log on to the Maserati Owner Connect website (www.maserati.com) using the user name and password you used when registering your MTC+ Access system.

  • If you forgot your user name or password, links are provided on the website to help you retrieve them.

• Once logged in you will find yourself on the dashboard. Click on the "Edit Profile" soft-key in the upper-right corner of the page.

• Click on the "Notifications" tab on the left side of the page.

• If you have more than one vehicle with MTC+ Access, please select which vehicle you want to manage notifications for using the drop down menu.

• You can enter up to five mobile phone and/or email addresses to your notifications, and you can customize which ones receive the types of messages.

• You will receive a confirmation text message, asking to confirm and receive vehicle notifications. If you are OK with this, reply to the text message saying "yes" (message and data rates may apply, please see your mobile device provider for details). If you have questions, text "HELP" in your reply.

• You're all set. Should your theft alarm go off, a notification(s) will be sent to the number(s) and/or email(s) you provided.

Requirements

• Vehicle must be properly equipped with the MTC+ Access System and a factory installed Theft Alarm system.

• Your vehicle must have an operable 3G (data) network connection.

• Vehicle must be registered with MTC+ Access and have an active subscription that includes the applicable feature or App.

• Owner must properly set-up notification to have the Theft Alarm Notification sent to an appropriate mobile device or email account.

⚠ **CAUTION!**
In the event your theft alarm is

(Continued)

(Continued)
activated, use caution and evaluate the situation from a safe distance. If any unauthorised or suspicious person is near or inside of your vehicle, immediately contact the police. Do not do anything that could jeopardize your safety or the safety of those around you.

FAQs
What do I do if my Theft Alarm goes off?
In the event your theft alarm is activated, use caution and evaluate the situation from a safe distance. If any unauthorised or suspicious person is near or inside of your vehicle, immediately contact the police. Do not do anything that could jeopardize your safety or the safety of those around you.
How can I change where I receive notifications?
You can manage your notifications by going to the Maserati Owner Connect website (www.maserati.com) and log in with your user name and password. Once there, you can click on "Edit Profile", then the "Notifications" tab.
Can I receive a text message (SMS) when my Theft Alarm goes off?

Yes. Text messages are a convenient and quick way to receive notifications. You can manage your notifications by going to the Maserati Owner Connect website (www.maserati.com) and log in with your user name and password. Once there, you can click on "Edit Profile", then the "Notifications" tab to add, remove and edit your notification options.

Voice Texting

Description
This Voice Texting enhances the Voice Text Reply feature built into your MTC+ Access radio. While Voice Text Reply provides 18 pre-defined messages you can send, Voice Texting lets you create and send nearly any message you want. Just speak your message as if you were talking to the recipient, and the MTC+ Access voice-texting technology will convert your voice into a text message. Voice Texting and Voice Text Reply features are compatible with many newer Android and Blackberry devices. Before using, determine if your device has been tested to support Bluetooth® "Message Access Profile (MAP)" at www.maserati.com. iPhone and some other devices do not currently support Bluetooth® MAP. Ensure MAP is ON

and incoming message notification is enabled.
How It Works (Set Up Your Device to Work with Voice Texting)
After pairing your device to the vehicle using Bluetooth® see (www.maserati.com), touch the phone 📞 soft-key on the menu bar of the radio to see the main "Phone" screen. A minute or so after a compatible MAP enabled device has been Bluetooth® connected to the vehicle; the "messaging" soft-key on the touch screen will change from grey to white. This is an indicator that Voice Texting will work with your device. Outgoing voice texts may not be possible. The device may allow incoming texts only. Determine if your device has been tested to support Bluetooth "Message Access Profile" (MAP) - at www.maserati.com. (Your device may support Voice Texting even if not found on this website. Check with your device manufacturer to see if it supports MAP protocol).

NOTE:

If your device supports MAP, then ensure MAP is on and incoming message notification is enabled, (see www.maserati.com for device specific instructions).

Follow the steps below to see if your device can set up to work with Voice Texting.

If a Bluetooth® authorisation window appears showing your device requesting permissions, check the box for Always and touch "Accept".

Sending A New Text Message From Radio

• Push phone 📞 button on the steering wheel.

• Say "Send text message".

• The system will respond "Say the phone number or the full name and the phone type of the contact that you want to send a message to".

• Dictate message ("I will be home at eight").

• When finished dictating, wait for prompt and say "Send".

Viewing Or Listening To Incoming Messages
To listen to a message from radio:

• Press the phone 📞 button on the steering wheel. Say "Listen to message".

• Or touch the "Listen" soft-key on the touch screen.

Viewing Your Messages

• Press the phone 📞 button on the steering wheel.

• Say "View message".

• Or touch "View" on the in-vehicle touch screen.

3

Contact names or phone numbers of the message sender appears in a list along with "View" and "Listen" soft-keys on the touch screen.

Viewing A Specific Message

• Touch "View" next to the contact name/phone number of the message you want to be displayed.

• Or say "Show message <number of the message>".

Listening To A Message

Touch "Listen" on the touch screen or push the "Phone" button on the steering wheel and say "Listen," the MTC+ system will read the received text message over the vehicle audio system.

Barge-In

"Barge-in" is a feature that enables a user to say a valid command without waiting for the system to finish speaking. When the system is "speaking" you can press the phone button on the steering wheel and say a valid command.

For example, if the system is explaining all of the options available after dictating a text message, at any time the user can touch "Listen" on touch screen or press the phone button on the steering wheel and say "Listen."

Requirements

• (MAP may not be compatible with Apple iPhones (pre iOS 6). Apple iOS 6 supports receiving text messages, but does not support sending text messages).

• Available on vehicles equipped with MTC+ Access.

• Vehicle must be registered with an active MTC+ Access Advantage trial or paid subscription for free form text response to work.

• Vehicle and device must have an operable 3G (data) network connection.

• Customer must have a properly paired and connected device with Bluetooth® Message Access Profile (MAP) enabled. Voice Texting is compatible with many newer BlackBerry and Android mobile devices. Apple iOS 5 and earlier does not support MAP so iPhones will not send free form text messages. Apple iOS 6 supports receiving, not sending text messages. To check if your device has been tested to be compatible please visit: www.maserati.com.

Disclaimers

• Not all Voice Texting features may be available on your device.

• Your MAP supported device must be paired and connected to a compatible MTC+ radio.

• Vehicle must have an operable 3G (data) network connection to voice text.

• Maserati and its affiliates are not responsible for errant text messages.

• Vehicle must be registered with an active MTC+ Access trial or paid subscription.

⚠️ **WARNING!**
ALWAYS drive safely with your hands on the steering wheel. You have full responsibility and assume all risks related to the use of the MTC+ features and applications in this vehicle. Only use MTC+ when it is safe

to do so. Failure to do so may result in an accident involving serious injury or death.

FAQs
Can I still voice text if my device is not listed?
We are constantly testing devices and updating our compatibility database. If your device is not listed, you may still be able to pair and connect your MAP supported device to a compatible MTC+ radio to see if all or most voice texting functions work. Check your device manufacturer if MAP is supported on your device.
Can I use voice texting while in my other Maserati vehicle?
The Voice Texting free text response feature is available only on MTC+ (sales code RA4) radio. Other Maserati vehicles do support hands free texting, but only with fixed responses.
My "Messaging" soft-key on the touch screen is White, but I can only use pre-formatted responses
The Voice Texting free-form voice response requires a subscription to the MTC+ Access Advantage package. (some devices will support pre-formatted responses, but not free-form. Refer to www.maserati.com for further details.)

Do I have to "train" my MTC+ Radio to my voice?
Maserati uses the latest voice recognition engine that provides good recognition without required training. This makes it easier for a passenger to also use the system.
Can a passenger voice text?
Yes, however, voice recognition microphones are optimised for the driver, so the system may have difficulty hearing the passenger; also, the system will use the currently connected device, so be sure your passenger isn't sending texts to the wrong recipient.
Does Voice Texting work with accents?
Speech isn't perfect. Technology isn't perfect. While Maserati strives to use the latest voice recognition engine, the technology may have difficulty with strong accents.
Can I voice text my car?
The "Voice Texting" feature allows you to listen to, and reply to text messages (SMS) sent to your device by voice while in your vehicle.
How many pre-formatted replies are there?
You can respond with a set of up to 18 preset outgoing messages such as "I'll

call you later." Refer to "Voice Texting" paragraph in this chapter.
Can I use abbreviations and emoticons?
Of course! Just say the name of the most popular emoticon or abbreviation, e.g. smiley, frown, wink, & LOL.
Can I use text messaging if the "messaging" button doesn't turn white?
Only MAP compatible devices will work with text messaging. If your device is compatible, the "messaging" light will turn white, after the device is Bluetooth® connected, and you will then be able to do hands free text messaging. The system will respond with "Sorry, I didn't understand you" if you push the steering wheel phone button and say a voice command for text messaging, when the button isn't active ("white").

Remote Door Lock/Unlock
Description
The remote door lock/unlock feature provides you the ability to lock or unlock the door on your vehicle, without the keys and from virtually any distance. You can send a request to your vehicle in one of three ways:

• Using the MTC+ Access App from a compatible device

• From the Maserati Owner Connect website (www.maserati.com)

If you want, you can set up notifications for your account to receive an email or text (SMS) message every time a command is sent to lock or unlock your doors.

How It Works
MTC+ Access App:

• Download the MTC+ Access App to a compatible device and login using your user name and password.

• To lock the doors, touch the 🔒 button with the closed lock icon; to unlock the driver's door touch the 🔓 button with the open lock icon.

• A pop-up screen will appear asking for your MTC+ Security PIN (this is the same 4-digit code established when your registered your MTC+ Access system). Enter the MTC+ Security PIN on the keypad and touch "OK."

• The MTC+ Access App will confirm if your command was sent (or not). Touch "OK" to close the pop-up screen.

• It will take a little while for the command to go through to your vehicle. The time it takes depends on a number of technical conditions.

• A message will appear on the screen to let you know if the command was received by your vehicle.
Maserati Owner Connect website:

• Log on to the Maserati Owner Connect website (www.maserati.com) using the user name and password you used when registering your MTC+ Access system.

NOTE:

If you forgot your user name or password, links are provided on the website to help you retrieve them.

• If you have more than one vehicle registered into the Maserati Owner Connect website (www.maserati.com), select the vehicle you want to send the command by touching on its image along the top.

• Beneath the image of a vehicle like yours, you will see a row of icons. To lock the doors, touch the 🔒 closed lock icon; to unlock the driver's door touch the 🔓 open lock icon.

• You will then be asked to enter your MTC+ Security PIN (this is the same 4-digit code established when your registered your MTC+ Access system). Please enter your MTC+ Security PIN.

• A message will appear on the screen to let you know if the command was received by your vehicle.

Requirements

• Vehicle must be properly equipped with the MTC+ Access system.

• Vehicle must have an operable 3G (data) network connection.

• Vehicle must be registered with MTC+ Access and have an active subscription that includes the applicable feature or App.

• If using the MTC+ Access App to command your vehicle, your device must be compatible and be connected to an operable 3G (data) network connection.

• An ignition cycle is required for some remote commands such as Remote Vehicle Start and Remote Door Lock/Unlock if following a Remote Horn and Lights activation.

FAQs
How long does it take to unlock or lock the door?
Depending on various conditions, it can take 1–2 minutes or more for the request to get through to your vehicle,

although MTC+ is always striving to improve performance.

Which is faster, my key fob or the MTC+ Access App?
Your key fob will lock/unlock the door quicker, however its range is limited and it can sometimes get misplaced or locked in the vehicle. Your MTC+ Access App comes in handy for these and other situations.

Will my vehicle be safe if I lose my device?
People sometimes lose their devices, which is why security measures have been engineered into the MTC+ Access App. Asking for your user name, password and MTC+ Security PIN help to ensure that nobody can get into your vehicle if they happen to find your device.

Why can't all devices use the MTC+ Access App?
The MTC+ Access App has been designed to work on most devices with the Apple and Android operating systems. The capabilities of these devices allows us to remotely command your vehicle. Other operating systems may be supported in the future.

Why is the MTC+ Access App running slow?

The MTC+ Access App relies on a mobile network connection from your device to send commands to your vehicle which must have an operable 3G (data) network connection. If either your device or your vehicle are in an area with below average coverage, it may take longer to log in and send commands.

Remote Vehicle Start (if equipped)

Description
The remote vehicle start feature provides you with the ability to start the engine on your vehicle, without the keys and from virtually any distance. Once started, the pre-set climate controls in your vehicle can warm-up or cool-down the interior before you have to get in. You can send a request to your vehicle in one of two ways:

• Using the MTC+ Access App from a compatible device.

• From the Maserati Owner Connect website (www.maserati.com).
You can also send a command to turn-off an engine that has been remote started. After 15 minutes if you have not entered your vehicle

with the key fob, the engine will shut off automatically.
This remote function requires your vehicle to be equipped with a factory-installed Remote Start system. If you want, you can set-up notifications for your account to receive an email or text (SMS) message every time a command is sent to remote start or cancel a remote start.

How It Works
MTC+ Access App:

• Download the MTC+ Access App to a compatible device and login using your user name and password.

• To start the engine, touch the ∩ circular arrow, to turn-off an engine that has been remote started touch the "cancel" soft-key.

• A pop-up screen will appear asking for your MTC+ Security PIN (this is the same 4-digit code established when your registered your MTC+ Access system). Enter the MTC+ Security PIN on the keypad and touch "OK."

• The MTC+ Access App will confirm if your command was sent (or not). touch "OK" to close the pop-up screen.

• It will take a little while for the command to go through to your

3

vehicle. The time it takes depends on a number of technical conditions.

• A message will appear on the screen to let you know if the command was received by your vehicle.
Maserati Owner Connect website:

• Log on to the Maserati Owner Connect website (www.maserati.com) using the user name and password you used when registering your MTC+ Access system.

NOTE:

If you forgot your user name or password, links are provided on the website to help you retrieve them.

• If you have more than one vehicle registered into the Maserati Owner Connect website (www.maserati.com), select the vehicle you want to send the command by clicking on its image along the top.

• Beneath the image of a vehicle like yours, you will see a row of icons. To start the engine, touch the ∩ circular arrow, to turn-off an engine that has been remote started touch the "cancel" soft-key.

• You will then be asked to enter your MTC+ Security PIN (this is the same

4-digit code established when your registered your MTC+ Access system). Please enter your MTC+ Security PIN.

• A message will appear on the screen to let you know if the command was received by your vehicle.

Requirements

• Vehicle must be properly equipped with the MTC+ Access System and factory installed remote start capabilities.

• Vehicle must have an operable 3G (data) network connection.

• Vehicle must be registered with MTC+ Access and have an active subscription that includes the applicable feature or App.

• To perform updates to this application, if required, your vehicle must be connected to an operable 3G (data) network.

• If using the MTC+ Access App to command your vehicle, your device must be compatible and be connected to a mobile network.

• An ignition cycle is required for some remote commands such as remote vehicle start and remote door lock/unlock if following a remote horn and lights activation.

FAQs

How long does it take to remote start my vehicle?
Depending on various conditions, it can take three minutes or more for the request to get through to your vehicle, although MTC+ is always striving to improve performance.
Which is faster, my key fob or the MTC+ Access App?
Your key fob will remote start your vehicle quicker, however its range is limited. For example, when you are leaving the stadium after the game, you can remote start your vehicle to have the inside comfortable before you even get there.
Will my vehicle be safe if I lose my wireless device?
People sometimes lose their wireless devices, which is why security measures have been engineered into the MTC+ Access App. Asking for your user name, password and MTC+ Security PIN help to ensure that nobody can start your vehicle if they happen to find your device.
Can someone drive off with my vehicle using the App?
No. Driving your vehicle still requires the key fob to be in the vehicle. The remote start feature simply starts the engine to warm-up or cool down the

interior before you arrive, you cannot drive away without the key fob.

Can I stop a vehicle that is being driven by cancelling the engine start command?
No. If a vehicle is driving down the road the cancel remote start soft-key will not stop it. It simply cancels or ends a remote start of the engine.

Why can't all devices use the MTC+ Access App?
The MTC+ Access App has been designed to work on most devices with the Apple and Android operating systems. The capabilities of these device allows us to remotely command your vehicle. Other operating systems may be supported in the future.

Remote Horn And Lights

Description
It is easy to locate a vehicle in a dark, crowded or noisy parking area by activating the horn and lights. It may also help if you need to draw attention to your vehicle for any reason. You can send a request to your vehicle in one of three ways:

• Using the MTC+ Access App from a compatible device.
• From the Maserati Owner Connect website (www.maserati.com).

If you want, you can set-up notifications for your account to receive an email or text (SMS) message every time a command is sent to turn on the horn and lights.

How It Works
• Download the MTC+ Access App to a compatible device and login using your user name and password.
• To turn on the horn and lights, touch the horn 🔊 icon. To turn-off the horn and lights, touch the horn 🔊 icon again.
• A pop-up screen will appear asking for your MTC+ Security PIN (this is the same 4- digit code established when your registered your MTC+ Access system). Enter the MTC+ Security PIN on the keypad and touch "OK."
• The MTC+ Access App will confirm if your command was sent (or not). touch "OK" to close the pop-up screen.
• It will take a little while for the command to go through to your vehicle. The time it takes depends on a number of technical conditions.
• A message will appear on the screen to let you know if the command was received by your vehicle.

Maserati Owner Connect website:
• Log on to the Maserati Owner Connect website (www.maserati.com) using the user name and password you used when registering your MTC+ Access system. If you forgot your user name or password, links are provided on the website to help you retrieve them.
• If you have more than one vehicle registered into the Maserati Owner Connect website (www.maserati.com), select the vehicle you want to send the command by clicking on its image along the top.
• Beneath the image of a vehicle like yours, you will see a row of icons. To turn on the horn and lights, touch the horn 🔊 icon. To turn off the horn and lights, touch the horn 🔊 icon again.
• You will then be asked to enter your MTC+ Security PIN (this is the same 4-digit code established when your registered your MTC+ Access system). Please enter your MTC+ Security PIN.
• A message will appear on the screen to let you know if the command was received by your vehicle.

Requirements

3

3

- Vehicle must be properly equipped with the MTC+ Access System.
- Vehicle must have an operable 3G (data) network connection.
- Vehicle must be registered with MTC+ Access and have an active subscription that includes the applicable feature or App.
- To perform updates to this application, if required, your vehicle must be connected to an operable 3G (data) network.
- If using the MTC+ Access App to command your vehicle, your device must be compatible and be connected to a mobile network.
- An ignition cycle is required for some remote commands such as Remote Vehicle Start and Remote Door Lock/Unlock if following a Remote Horn and Lights activation.

NOTE:

The remote horn and lights feature is designed to be loud and get noticed. Please keep in mind the surroundings when using this feature.

FAQs
How long does it take to sound my horn and flash the lights?

Depending on various conditions, it can take three minutes or more for the request to get through to your vehicle, although MTC+ is always striving to improve performance.
Which is faster, my key fob or the MTC+ Access App?
Your key fob will sound the horn and flash the lights quicker; however its range is limited.
Will my vehicle be safe if I lose my wireless device?
People sometimes lose their device, which is why security measures have been engineered into the MTC+ Access App. Asking for your user name, password and MTC+ Security PIN help to ensure that nobody can access your vehicle if they happen to find your device.
How do I turn off the horn and lights after I turn them on?
By touching the horn 📢 icon a second time on your MTC+ Access App, a second command will be sent to shut-off the horn and lights.
Why can't all devices use the MTC+ Access App?
The MTC+ Access App has been designed to work on most devices with the Apple and Android operating systems. The capabilities of these device allows us to remotely command

your vehicle. Other operating systems may be supported in the future.

Vehicle Health Alert
Your vehicle will send you an email alert if it senses a problem under the bonnet with one of your vehicles key systems. For further information go to the Maserati Owner Connect website (www.maserati.com).

Via Mobile Apps
NOTE:
This paragraph contains the description and the use of App "Aha". This information can be applied to many of the Apps that you can download from your mobile device or from your PC and visualize on the MTC+ screen.

Aha by Harman (if equipped)
Aha makes it easy to instantly access your favourite Web content on the go. Choose from over 40,000+ stations spanning internet radio, personalised music, news, entertainment, hotels, weather, audiobooks, Facebook, Twitter, and more.
Description
Aha lets you easily access and organize your favourite web content on your

device, then seamlessly integrates the experience with your vehicle.

• Listen to audio updates from Facebook or Twitter (vehicle must be registered with MTC+ Access).

• Organize your favourite content from the web into personalised on-demand radio stations.

• Aha gives customers the flexibility to create up to 30 pre-set stations from within the vehicle, on the Aha website (aharadio.com), or through the Aha mobile App.

• "Like" and "Dislike" soft-key on the touch screen are available to refine songs being played on the station.

• Ability to perform location-based local searches (e.g. "Hungry" and "Coffee") and route to a point of interest by sending the address to the navigation system (if equipped).

• Real-time traffic reports and audio books (read aloud).

• Access your favourite podcasts, internet radio, on-demand music, traffic reports and restaurant recommendations.

• News, sports, talk, social, comedy and special interest podcasts.

Ensure that "Via Mobile" data has been turned on under "Settings" in the MTC+ Access App.
Each time you want to use a "Via Mobile" App in your vehicle, the MTC+ Access App must be running on your device and the device must be paired via Bluetooth®.
A message will be displayed to remind you that Via Mobile Apps utilize the data plan on your connected device to provide content. Touch "OK" soft-key to continue or the "X" to exit.

NOTE:

Many devices have a limit to how much data they can utilize before incurring additional charges. The amount of data being used varies by device, service provider and specific App. Check your device service plan for more details.

You can associate your Aha account with your personal Facebook and Twitter accounts. If you have the Aha App downloaded to your device visit the Aha settings screen and look for "Associate Accounts." You can also associate your Aha account from aharadio.com.

Requirements

• Vehicle must be properly equipped with the MTC+ Access System.

• Your device must be compatible with the MTC+ Access App and properly connected to the vehicle.

• To perform updates to this application, if required, your vehicle must be connected to an operable 3G (data) network.

• Your device must be connected to a mobile network.

• Vehicle must be registered with MTC+ Access and have an active subscription that includes the applicable feature or App.

• Vehicle must be powered with the ignition device in the **RUN** or **ACC** position with a properly functioning electrical system.

FAQs
Why can't I get Aha Via Mobile to work?
Here are some things to consider:

• Check to ensure you have linked your Aha account credentials with MTC+ Access. This is usually done during registration and set-up. Then, check to ensure you have properly connected your compatible device to the vehicle touch screen. The MTC+ Access App must be open and you

3

must be logged in. A blue light indicates that it's providing data to the vehicle.

• If you recently changed your password for Aha, it may need to be updated on Maserati Owner Connect under the "Via Mobile" paragraph in this chapter.

How does Aha help refine my music options?
It organizes your favourite content into personalised on-demand radio stations. You can access podcasts, internet radio, personalised traffic reports and even restaurant recommendations. It will assemble content for you based on your use of the "like" and "dislike" soft-key on the touch screen.

Where does the search function search from?
The search function will provide results based on the location of your vehicle. As you drive, the search results will change to reflect your vehicle's current location.

How do I sync my Aha account with Facebook and Twitter?
Associate your Aha account with Facebook and Twitter services at aharadio.com, or from the Aha device App. From the Aha device App, visit the Aha settings screen and look for "Associate Accounts."

If I enter personalised preferences on the web, will it also save my setting when I am in the vehicle?
Yes, your personalised selections are saved to a common area, so they will be reflected wherever you access Aha in the vehicle on the vehicle touch screen, device or the Aha website aharadio.com.

Why can't I get Aha Via Mobile to work?
Ensure you have registered for MTC+ Access and associated your Aha account credentials with MTC+ Access. This is done during registration and set-up process. Then, ensure you have properly connected your compatible device to the vehicle touch screen. The MTC+ Access App must be open. A blue light indicates that it's providing data to the vehicle.

If I changed my password for Aha, do I have to update it with MTC+ Access?
Yes. Visit Maserati Owner Connect website (www.maserati.com), log in, and click on Via Mobile.

How do I set up an Aha account?
You can create an account with Aha by visiting aharadio.com. To make changes to an existing Aha account, visit the Aha website.

Can I create an Aha account during MTC+ Access registration and set-up?
There is a link from the "Via Mobile" profile page where the customer can go to the Aha website to create a new account.

How do I block explicit content?
By default Aha automatically filters and blocks explicit content for you. If you would like to enable the ability to listen to explicit podcasts, as well as comedy or user-generated shouts, you must visit the "Settings" screen and switch the "Allow Explicit Content" setting to "ON".

Should I have the Aha App downloaded to my device to use Aha Via Mobile?
You do not need to have the Aha App on your device to use Aha Via Mobile. The MTC+ Access App is required.

How do I know how much data is being used?
MTC+ Access Via Mobile uses your device's existing data plan to stream content. Data usage varies by phone/device, content (e.g. videos), high quality audio and several other factors. Please refer to your device carrier for specific details.

SOS-Emergency Call (available only for Russian market)

⚠️ **WARNING!**
Some MTC+ Access services, including SOS-Emergency call, will NOT work without an operable 3G (data) network connection.

With MTC+ Access, your vehicle has on-board assistance features that is activated by the button located on the dome console designed to enhance your driving experience if you should ever need assistance or support.
Description

SOS-Emergency Call is a feature that, at the push of a button, can contact emergency services providing that the Telematic Box Module (TDM) is working and the ignition device is in **RUN** or **ACC** position. The manual emergency Call is possible also when the ignition device is in **OFF** position until its backlight stays on. It's a convenient way to get in contact with an operator in the event of an emergency. When the connection between the vehicle and an operator is made, your vehicle will automatically transmit location and vehicle information to the emergency service operator.
The SOS-Emergency Call is automatically forwarded in the event of an accident with airbag intervention providing that the ignition device is in **RUN** position and airbags are working (malfunction warning light 🚗 off).
Ended the call, you can still call the emergency service operator to indicate additional information by pressing the button again.

How It Works

Press and hold for a few seconds the SOS-Emergency Call button on the dome console; the green LED on the button will blink and then become a fixed light indicating a call has been placed.

NOTE:

In case the SOS-Emergency Call button is accidentally pushed, there is a 10 second delay before the call is placed. The system will verbally alert you that a call is about to be made. To cancel the call connection, push the SOS-Emergency Call button on the dome console.

Once a connection between the vehicle and an emergency service operator is made, the SOS-Emergency Call system will transmit the following important vehicle information to the operator:

• Indication that the occupant placed an SOS-Emergency Call.

• The Vehicle Identification Number (VIN).

• The last known GPS coordinates of the vehicle.
You should be able to speak with the emergency service operator to

3

determine if additional help is needed. The SOS-Emergency Call has priority over other audio sources, which will be muted. If you have a phone connected via Bluetooth®, it is disconnected and reconnected at the end of the SOS-Emergency Call.
Voice prompts will guide you during the SOS-Emergency Call.
If a connection is made between an emergency service operator and your vehicle, you understand and agree that operators may, like any other emergency call, record conversations and sounds in and near your vehicle upon connection.

SOS-Emergency Call System Limitations

If the SOS-Emergency Call system detects a malfunction, any of the following may occur at the time the malfunction is detected:

• The LED on the dome console button will continuously be illuminated red.
• The instrument cluster will display a message alerting you to contact the **Service Network** together with the failure warning light.
Even if the SOS-Emergency Call system is fully functional, external or not controlled factors may prevent or stop

SOS-Emergency Call operation. These include, but are not limited to, the following factors:
• The key fob has been removed from the vehicle and the delayed accessories mode is active.
• The ignition device is in **OFF** position.
• The vehicle's electrical systems are not intact.
• The SOS-Emergency Call system software and/or hardware is damaged during a vehicle crash.
• The vehicle battery loses power or becomes disconnected during a vehicle crash.
• 3G (data) network and/or GPS signals are unavailable or obstructed.
• Equipment malfunction at the emergency service operator facility.
• Operator error.
• 3G (data) network congestion.
• Weather.
• Buildings, structures, geographic terrain, or tunnels.

NOTE:

The signal strength bars on the ⚜ Apps soft-key on the touch screen will show a single bar and a symbol to indicate your vehicle is not connected to an operable 3G (data) network.

If your vehicle loses battery power for any reason (including during or after an accident) the SOS-Emergency Call system, among other vehicle systems, will not operate.

Requirements

• This feature is available only on vehicles sold in Russian market.
• Vehicle must have an operable 3G (data) network connection.
• Vehicle must be powered with a properly functioning electrical system.
• The ignition device must be in the **RUN** or **ACC** position and in **OFF** position until its backlight stays on.

⚠️ **WARNING!**
• **Never place anything on or near the vehicle's 3G (data) and GPS aerials. You could prevent 3G (data) and GPS signal reception, which can prevent your vehicle from placing an**

emergency call. An operable 3G (data) network connection and a GPS signal is required for the SOS-Emergency Call system to function properly.

• Do not add any aftermarket electrical equipment to the vehicle's electrical system. This may prevent your vehicle from sending a signal to initiate an emergency call. To avoid interference that can cause the SOS-Emergency Call system to fail, never add aftermarket equipment (e.g., two-way mobile radio, CB radio, data recorder, etc.) to your vehicle's electrical system or modify the antennas on your vehicle. IF YOUR VEHICLE LOSES BATTERY POWER FOR ANY REASON (INCLUDING DURING OR AFTER AN ACCIDENT) THE MTC+ FEATURES, APPS AND SERVICES AMONG OTHERS WILL NOT OPERATE.

• The Occupant Restraint Controller (ORC) turns on the airbag warning light on the instrument cluster if a malfunction in any part of the airbag system is detected. If the airbag warning light is illuminated, the airbag system may not be working properly and the SOS-Emergency Call system may not be able to send a signal to an emergency service operator. If the airbag warning light is illuminated, have immediately the airbag system checked ad the Service Network.

• Ignoring the LED on dome console button could mean you will not have emergency call services if needed. If the LED on dome console button is illuminated in red color, have immediately the airbag system checked ad the Service Network.

• If anyone in the vehicle could be in danger (e.g., fire or smoke is visible, dangerous road conditions or location), do not wait for voice contact from an emergency service operator. All occupants should exit the vehicle immediately and move to a safe location.

• Failure to perform scheduled maintenance and regularly inspect your vehicle may result in vehicle damage, accident or injury.

FAQs

What Happens if I Accidentally Push the SOS-Emergency Call Button on the Dome Console?
You have 10 seconds after pushing the emergency button to cancel the call.

To cancel the call, either push the button again.
What Type of Information Is Sent when I Call Emergency Service Operator from My Vehicle?
Certain vehicle information, such as VIN of the model, is transmitted along with last known GPS location. Also note that emergency service operators may record conversations and sounds within your vehicle once a connection is made, and that by using the service you consent to having this information shared.
When Could I Use the SOS-Emergency Call Button?
You can use the emergency button to make a call if you or someone else needs emergency assistance.

Maintain My MTC+ Access Account

How to Remove my MTC+ Access Account

To remove your MTC+ Access account or cancel your MTC+ Access subscription go to the Maserati Owner Connect website (www.maserati.com). On Maserati Owner Connect, go to "MTC+ Store", and touch "Remove My Vehicle."

Adding Vehicles to my MTC+ Access Account

You can easily add vehicles to your MTC+ Access account on-line by going to the Maserati Owner Connect website (www.maserati.com) > Dashboard > "Add a Vehicle". Connected vehicles must follow the secure registration process to be added to an account.

MTC+ FAQs

How Do I Register for my MTC+ Access Account?
Touch the ⚉ Apps button on the in-vehicle touch screen, then select MTC+ Registration.

Why Do I Need An Email Address?
Without an email address, customers cannot register for MTC+ Access. Customers need to register so they can subscribe to receive additional services and create a MTC+ Security PIN for remote command requests.

How Do I Create A MTC+ Security PIN?
Set up your MTC+ Security PIN during the registration process. The MTC+ Security PIN will be required to authenticate you when performing any remote services such as remote door lock/unlock, remote horn & lights, or remote vehicle start.

What If I Forgot my MTC+ Security PIN?
If you've already registered and forgot your MTC+ Security PIN, you can reset the pin by selecting "Edit Profile" on the Maserati Owner Connect website (www.maserati.com).

How Do I Create a MTC+ Payment PIN?
Log into the Maserati Owner Connect website (www.maserati.com) with your user name and password. Select "Edit Profile" > "MTC+ Payment Account" to create an account (and PIN) (if you have a MTC+ Access equipped vehicle).

What Is a MTC+ Payment PIN?
A MTC+ Payment PIN is a unique 4-digit code that you create to gain access to your payment information – your credit cards, billing address, payment history and more. It is required in order to purchase MTC+ Access packages and Apps.

What If I Forgot my MTC+ Payment PIN?
The next time you are asked for your MTC+ Payment PIN, select "Forgot PIN?" and follow the steps to reset it.

How Do I Update my MTC+ Payment Account Address?
Your MTC+ Payment Account address must be updated on-line only: login to the Maserati Owner Connect website (www.maserati.com), and select "Edit Profile" > "MTC+ Payment Account".

How Do I Update my MTC+ Profile?
Your name, home address, phone number, email address and MTC+ Security PIN can be updated on-line on the Maserati Owner Connect website (www.maserati.com).

• Log in to the Maserati Owner Connect website (www.maserati.com) then select

"Edit Profile" to edit your personal information.

• Make your edits and click "Save."

Can I Access every App And Service While Driving?

No, some applications and services are not available while driving. For your own safety, it is not possible to use some of the touch screen features while the vehicle is in motion (e.g. keypad).

Can I Access the MTC+ Store while I Am Driving?

No, some applications and services are not available while driving. Only use MTC+ applications and services when the vehicle is parked in a safe location.

How Do I Know when a New App, Feature or Package Is Offered?

Go to "MTC+ Store" to check for updated features, packages and Apps.

Will I Be Notified when my Subscription Is Expired or Will It Automatically Renew?

There is no auto-renewal feature currently offered. You can find the expiration dates for all of your App and package subscriptions from your in-vehicle touch screen, select ♆ Apps soft-key > "MTC+ Store" > "My Apps".

How Do I Manage My Notification Preferences?

Go to "Edit Profile" > "MTC+ Notifications" on the Maserati Owner Connect website (www.maserati.com).

Do I Receive A Purchase Confirmation?

Yes. You will receive a purchase confirmation email any time you renew your MTC+ Access subscription.

How Do I Purchase A Subscription?

From your in-vehicle touch screen:

• Select ♆ Apps soft-key > "MTC+ Store".

• Choose a package or service.

• Follow the steps to enter your MTC+ Payment PIN and complete the process.

You can also go to the "MTC+ Store" on-line at Maserati Owner Connect website (www.maserati.com), select the "Shop" tab, then "MTC+ Store".

How Do I Update my Credit Card Information?

Login to the Maserati Owner Connect website (www.maserati.com), and select "Edit Profile", then select "MTC+ Payment Account".

How Do I Find Out How Much Longer I Have on my Subscription?

From your vehicle touch screen > select ♆ Apps soft-key > "MTC+ Store" > "My Apps" and choose a subscription to view its expiration date. When your subscription is about to expire you will receive an email notification.

Which Apps Are Included With My Vehicle?

Go to "MTC+ Store" > "My Apps" to see Apps currently available on your vehicle.

If I Delete/Remove a Package from my Screen, Does It Cancel my Subscription?

Yes, this removes the subscription of the selected package.

Can I Get a Refund if I Have Not Used the Entire Subscription?

No.

Can I Cancel a Subscription Before It Expires?

Yes, but your subscription will still be active until the expiration date. If you subscribe to another package, the new subscription will start immediately.

Do I Have To Keep my Vehicle on During the App Download Process?

Yes.

How Do I Re-Initiate a Download App if There Was an Error?

If you're having issues with an App you can reinstall it. This returns the App to its original state which usually fixes the problem. This does not affect your MTC+ subscriptions or account information. To reinstall an App from the in-vehicle touch screen, touch

3

⚜ Apps soft-key > "MTC+ Store" > "My Apps" > "Settings" > "Reinstall Apps" > continue...
What Should I Do if I Want To Sell my Vehicle?
Before your vehicle is sold to a new owner, you'll want to remove your account information. This process removes all personal information and returns the MTC+ system to its original factory settings. To remove your account information from the MTC+ system:

• On the touch screen, touch ⚜ Apps soft-key > "MTC+ Store" > "My Apps" > "Settings".

• Choose "Remove MTC+ Account" and follow the instructions.
I Am Trading my Vehicle In. Can I Transfer Apps To my New Vehicle if I Have an Active Subscription?
No.
What Will Happen if There Is Not an Operable 3G (Data) Network Connection?
The SOS - Emergency button (if equipped) will NOT function if you are not connected to an operable 3G (data) network. Other MTC+ services will only be operable if your MTC+ Access service is active and you are

connected to an operable 3G (data) network.
How Will I Know if my Vehicle Is Not Connected To an Operable 3G (Data) Network?
The signal strength bars on the ⚜ Apps soft-key on the touch screen will show a single bar and a prohibition symbol to indicate your vehicle is not connected to an operable 3G (data) network.

Safety Guidelines

⚠ **WARNING!**
ALWAYS obey traffic laws and pay attention to the road. Some MTC+ Access services, including SOS - Emergency Call (if equipped), will NOT work without an operable 3G (data) network connection.

NOTE:

Your vehicle may be transmitting data as authorised by the subscriber.

Ensure that all persons read this manual carefully before using the radio system. It contains instructions on how to use the system in a safe and effective manner.

• Glance at the screen only when safe to do so. If prolonged viewing of the screen is required, park in a safe location and set the electric parking brake.

• Stop use of the MTC+ System immediately if a problem occurs. Failure to do so may cause injury or damage to the MTC+ System. Please contact the **Service Network** solve this malfunction.

• Ensure the volume level of the MTC+ System is set to a level that still allows you to hear outside traffic and emergency vehicles.

Safe Usage Of The MTC+ Access System

• Read all instructions in this manual carefully before using your system to ensure proper usage!

• Your system is a sophisticated electronic device. Do not let young children use your system.

• Permanent hearing loss or damage may occur if you play your music or otherwise operate the system at loud volumes. Exercise caution when setting the volume on your system.

NOTE:

Many features of this system are speed dependent. For your own safety, it is not possible to use some of the touch screen features while the vehicle is in motion.

• Keep drinks, rain, and other sources of moisture away from your system. Besides damage to your system, moisture can cause electric shocks as with any electronic device.

Device Connection and Audio Tips with MTC+

• More than one device can be paired to your vehicle. The connected device with the highest priority will be used. To transition between devices, select "Phone" soft-key > "Settings", then touch the desired device.

• Multiple devices may be connected at one time. For example, a device can be paired and connected for hands-free calling and texting, while a USB media source is connected for audio. However, only one Bluetooth connection can be used at a time.

• Device calls will always have the highest priority regardless of which connection is active (only the SOS - Emergency Call (if equipped) will have a higher priority than the device). For example, if an App is launched and the user receives a call, the user will be exited out of the App and returned to the App when the call ends.

• After all devices are connected/paired, when switching to a different audio source, audio will auto-play from the new source.

• Current audio (AM-MW-LW-SW/FM/DAB-DAB+-DMB/AUX/SD) will continue to play when switching to a non-media type App.

• Current audio (AM-MW-LW-SW/FM/DAB-DAB+-DMB/AUX/SD) is muted during SOS-Emergency Call.

• Device calls will mute all audio except for Navigator (Nav) prompts if guidance is currently active (audio will resume after device call is ended).

• All secondary incoming device calls will be treated similar to "call waiting" (except SOS-Emergency Call).

• Incoming calls received while entering a Navigator (Nav) destination (before pressing "Go") will cancel the Navigator (Nav) entry. The user is required to start over when the device call has ended.

4 – Radio Mode

Radio Controls

The radio is equipped with the following modes:

• FM

• AM/MW/LW/SW (if equipped)

• DAB, DAB+ and DMB (if equipped)
Touch the "Radio" soft-key on the touch screen, bottom left corner, to enter the Radio mode. The different tuner modes: FM, AM, MW, LW, SW, DAB, DAB+ and DMB (if equipped), can then be selected by pressing the corresponding buttons in the Radio mode.

Volume Control

The volume control knob on the central console turns continuously (360 degrees) in either direction, without stopping. Turn the volume control knob clockwise to increase the volume and anti-clockwise to decrease. When the audio system is turned on, the sound will be set at the same volume level as last played.

Tune/Scroll Control

Turn the tune/scroll control knob clockwise to increase or anti-clockwise to decrease the radio station

frequency. Push the enter button to confirm a selection.
Touching the green soft-key "GO" on the touch screen confirms selection, immediately tunes the radio to the selected station or channel and closes the "Direct Tune" page.

Screen Close

The "X" soft-key on the touch screen at the top right, provides a means to close the "Direct Tune" screen. The "Direct Tune" screen also auto closes if no activity occurs within 10 seconds.

Seek and Direct Tune Functions

The seek up and down functions are activated by touching the double arrow buttons (⏭ , ⏮) on the touch screen to the right and left of the radio station display, or by pressing the left steering wheel audio control up or down.

Seek Up ⏭
Touch and release the seek up ⏭ soft-key on the touch screen to tune the radio to the next listenable station or channel. During a seek up function, if the radio reaches the starting station after passing through the entire band two times, the radio will stop at the station where it began.

Fast Seek Up ⏭
Touch and hold the seek up ⏭ soft-key on the touch screen to advance the radio through the available stations or channels at a faster rate, the radio stops at the next available station or channel when the button on the touch screen is released.

Seek Down ⏮
Touch and release the seek down ⏮ soft-key on the touch screen to tune the radio to the next listenable station or channel. During a seek down function, if the radio reaches the starting station after passing through the entire band two times, the radio will stop at the station where it began.

Fast Seek Down ⏮
Touch and hold the seek down ⏮ soft-key on the touch screen to advance the radio through the available stations or channel at a faster rate, the radio stops at the next available station or channel when the button on the touch screen is released.

Direct Tune
Touch the "Tune" softkey on the touch screen located at the bottom of the radio screen. The "Tune" soft-key on the touch screen is available in FM, AM, MW, LW, SW, DAB, DAB+ and DMB (if equipped) radio modes and

can be used to direct tune the radio to a desired station or channel.

Touch the available number soft-key on the touch screen to begin selecting a desired station. Once a number has been entered, any numbers that are no longer possible (stations that cannot be reached) will become deactivated/greyed out.

Undo

You can backspace an entry by touching the bottom left "Undo" soft-key on the touch screen.

GO

Once the last digit of a station has been entered, the "Direct Tune" screen will close and the system will automatically tune to that station. The selected station or channel number is displayed in the "Direct Tune" text box.

Setting Presets

The presets are available for all radio modes, and are activated by touching any of the 6 "Preset" soft-keys on the touch screen, located at the top of the screen.

When you are receiving a station that you wish to commit into memory, press and hold the desired numbered soft-key on the touch screen for more that two seconds or until you hear a confirmation beep.

The radio stores up to 12 presets in each of the "Radio" modes. A set of 6 presets are visible at the top of the radio screen.

You can switch between the two radio presets by touching the arrow > soft-key located in the upper right of the radio touch screen.

Browse Function in Radio Modes

When in any Radio modes, the "Browse" screen provides a means to edit the "Presets List" and is entered by pushing the enter button.

Scrolling Preset List

Once in the "Browse Presets" screen, you can scroll the preset list by rotation of the tune/scroll knob, or by

touching the ▲ and ▼ arrow keys, located on the right of the screen.

Preset Selection from List

A preset can be selected by touching any of the listed "Presets", or by pushing the enter button on the central console to select the currently highlighted preset.

When selected, the radio tunes to the station stored in the preset and returns to the main Radio screen.

Deleting Presets

A preset can be deleted in the "Presets Browse" screen by touching the trash can icon for the corresponding preset.

Return to Main Radio Screen

You can return to the main Radio screen, by touching the "X" soft-key on the touch screen when in the "Browse Presets" screen.

4

Audio

Press of the "Audio" soft-key on the touch screen to activate the Audio settings screen to adjust "Balance/Fade", "Equalizer", "Speed Adjusted Volume", "Surround Sound", Clari-Fi" and "Auto Play".

NOTE:

The available audio modes depending on the type of audio system supplied on the car.

You can return to the Radio screen by touching the "X" located at the top right.

Balance/Fade

Touch the "Balance/Fade" soft-key on the touch screen to balance audio between the front speakers or fade the audio between the rear and front speakers.
Touching the "Front," "Rear," "Left," or "Right" soft-keys or touch and drag the blue speaker icon to adjust the "Balance/Fade".

Equalizer

Touch the "Equalizer" soft-key on the touch screen to activate the "Equalizer" screen.
Touch the "+" or "–" soft-keys, or by pressing and dragging over the level bar for each of the equalizer bands. The level value, which spans between -9 to +9, is displayed at the bottom of each of the bands.

Speed Adjusted Volume

Touch the "Speed Adjusted Volume" soft-key on the touch screen to activate the "Speed Adjusted Volume" screen.
This function is adjusted by selecting from "Off," "1," "2" or "3." This alters the automatic adjustment of the audio volume with variation to vehicle speed. Volume increases automatically as speed increase to compensate for normal road noise.

Surround Sound

Touch the "On" soft-key on the touch screen to activate Surround Sound. Touch "Off" to deactivate this feature. When this feature is "On", you can hear audio coming from every

direction as in a cinema or home theatre system.

Clari-Fi

Touch the "On" soft-key on the touch screen to activate Clari-Fi function. Press "Off" to deactivate this function. When in "On", this function improves the audio quality by enhancing digitally compressed source files such as MP3 and AAC files and certain music tracks played by radio stations. In case of high-definition source files like the ones on a CD, Clari-Fi shall apply no enhancement. Clari-Fi intervention is completely automatic.

Auto Play

Touch the "On" soft-key on the touch screen to activate Auto Play function. Press "Off" to deactivate this function.

When a portable device is connected to MTC+ System, it plays automatically the songs if this function in set "On".

5 – Media Mode

USB/iPod Mode

Overview

USB/iPod mode is entered by either inserting a USB device or iPod and cable into the USB port of the central console or press the "iPod" soft-key on the left side of the screen.

Seek Up/Seek Down

Touch and release the seek up ▶▶ soft-key on the touch screen for the next selection on the USB device/iPod. Touch and release the seek down ◀◀ soft-key on the touch screen to return to the beginning of the current selection, or to return to the beginning of the previous selection if the USB device/iPod is within the first three seconds of the current selection.

Browse

Touch the "Browse" soft-key on the touch screen or the browse button ☰ on the central console to display the browse window. The left side of the browse window displays a list of ways you can browse through the contents of the USB device/iPod. If supported by the device, you can browse by folders, artists, playlists, albums, songs, etc. Press the desired soft-key on the left side of the screen. The centre of the browse window shows items and it's sub-functions, which can be scrolled by pressing the ▲ and ▼ soft-keys to the right. The tune/scroll control knob can also be used to scroll.

Media Mode

Touch the "Media" soft-key on the touch screen to select the desired audio source: USB.

Repeat

Touch the "Repeat" soft-key on the touch screen to toggle the repeat functionality. This soft-key is highlighted when active. The radio will continue to play the current track, repeatedly, as long as the repeat is active.

Shuffle

Touch the "Shuffle" soft-key on the touch screen to play the selections on the USB/iPod device in random order to provide an interesting change of pace. Touch this soft-key a second time to turn this feature off.

Info

Touch the "Info" soft-key on the touch screen to display the current track information. Touch this soft-key a second time to cancel this feature.

Tracks

Touch the "trks" soft-key on the touch screen to display a pop up with the song list. The currently playing song is indicated by an arrow and lines above and below the song title. When in the tracks list screen you can rotate the tune/scroll control knob to highlight a track (indicated by the line above and below the track name) and then push the enter button to start playing that track.
Touching the "trks" soft-key on the touch screen while the pop up is displayed will close the pop up.

Audio

Refer to "Radio" mode for adjusting the audio settings.

AUX Mode

Overview

Auxiliary mode is entered by inserting an AUX device using a cable with a 3.5 mm audio jack into the AUX port or by pressing the "AUX" soft-key on the left side of the screen.

Inserting Auxiliary Device

Gently insert the auxiliary device cable into the AUX port. If you insert an auxiliary device with the ignition device in **RUN** position and the radio on, the unit will switch to AUX mode and begin to play when you insert the device cable.

Controlling the Auxiliary Device

The control of the auxiliary device (e.g., selecting playlists, play, fast forward, etc.) cannot be provided by the radio; use the device controls instead. Adjust the volume with the volume control knob, or with the volume of the attached device.

NOTE:

The vehicle radio unit is acting as the amplifier for audio output from the auxiliary device. Therefore if the volume control on the auxiliary device is set too low, there will be insufficient audio signal for the radio unit to play the music on the device.

Media Mode

Touch the "Media" soft-key on the touch screen to select the desired audio source: AUX (auxiliary device).

Audio

Refer to Radio Mode for adjusting the audio settings.

SD Card Mode

Overview

SD Card mode is entered by either inserting a SD Card into its slot or touch the "SD Card" soft-key on the left side of the screen.

Seek Up/Seek Down

Touch and release the seek up ⏭ soft-key on the touch screen for the next selection on the SD Card. Touch and release the seek down ⏮ soft-key on the touch screen to return to the beginning of the current selection, or to return to the beginning of the previous selection if the SD Card is within the first three seconds of the current selection.

Browse

Touch the "Browse" soft-key on the touch screen or the browse button ☰ on the central console to display the browse window. The left side of the browse window displays a list of ways you can browse through the contents of the SD Card. If supported by the device, you can browse by folders, artists, playlists, albums, songs, etc. Touch the desired soft-key on the left side of the screen. The centre of

5

the browse window shows items and it's sub-functions, which can be scrolled by touching the ⏶ and ⏷ soft-keys to the right of the screen. The tune/scroll control knob can also be used to scroll.

Media Mode

Touch the "Media" soft-key on the touch screen to select the desired audio source: SD Card.

Repeat

Touch the "Repeat" soft-key on the touch screen to toggle the repeat functionality. This soft-key is highlighted when active. The radio will continue to play the current track, repeatedly, as long as the repeat is active.

Shuffle

Touch the "Shuffle" soft-key on the touch screen to play the selections on the SD Card device in random order to provide an interesting change of pace. Touch this soft-key a second time to turn this feature off.

Info

Touch the "Info" soft-key on the touch screen to display the current track

information. Touch this soft-key a second time to cancel this feature.

Tracks

Touch the "trks" soft-key on the touch screen to display a pop up with the song list. The currently playing song is indicated by an arrow and lines above and below the song title. When in the tracks list screen you can rotate the tune/scroll control knob to highlight a track (indicated by the line above and below the track name) and then push the enter button to start playing that track.
Touching the "trks" soft-key on the touch screen while the pop up is displayed will close the pop up.

Audio

Refer to Radio mode for adjusting the audio settings.

Bluetooth® Mode

Overview

Bluetooth® Streaming Audio (BTSA) or Bluetooth® mode is entered by pairing a Bluetooth® device, containing music, to the MTC+ System.
Before proceeding, the Bluetooth® device must be paired to the phone to communicate with the MTC+ System.

NOTE:

See the pairing procedure in the "MTC+ System Phone" section for more details.

To access Bluetooth® mode, press the "Bluetooth" soft-key on the left side of the screen.

Seek Up/Down

Touch and release the seek up⏭
soft-key on the touch screen for the
next selection on the Bluetooth®
device. Touch and release the seek
down ⏮ soft-key on the touch screen
to return to the beginning of the
current selection, or return to the
beginning of the previous selection if
the Bluetooth® device is within the
first second of the current selection.

Media Mode

Touch the "Media" soft-key on the
touch screen to select the desired
audio source: Bluetooth®.

Tracks

If the Bluetooth® device supports this
feature, touch the "trks" soft-key on
the touch screen to display a pop up
with the song list. The currently
playing song is indicated by a blue
arrow and lines above and below the
song title.
Pressing the "trks" soft-key on the
touch screen while the pop up is
displayed will close the pop up.

Audio

Refer to "Radio Mode" section for
adjusting the audio settings.

5

6 – Control and Climate Modes

Controls Screen

Overview

Touch the "Controls" soft-key to access the settings screen.
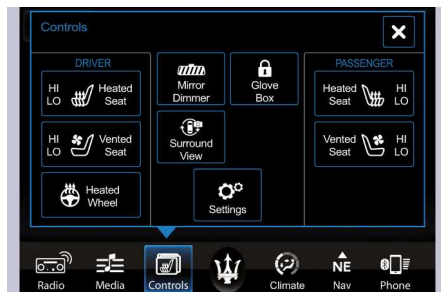

NOTE:

Screen content changes depending on vehicle equipment.

Soft-keys on the sides of the screen refer to driver comfort settings ("DRIVER") and front passenger comfort settings ("PASSENGER"). Soft-keys at the centre of the screen refer to the glare adjustment function on the internal rear-view mirror ("Mirror Dimmer"), to glove box locking function ("Glove Box"), to Surround View cameras view function ("Surround View") and to turn off the screen backlight ("Screen OFF").

In this area you also find the "Settings" soft-key that allows access to user settings described in "MTC+ Settings" section.

Controls: Programmable Features

Front Comfort Seat (Driver & Passenger)

⚠️ **WARNING!**

• **Persons with low skin sensitivity because of advanced age, chronic illness, diabetes, spinal cord injury, medication, alcohol use, exhaustion or other physical conditions must be careful when using the seat heater. It may cause burns even at low temperatures, especially if used for long periods of time.**

• **Do not place anything on the seat that insulates against heat, such as a blanket or cushion. This may cause the seat heater to overheat. Sitting in a seat that has been overheated could cause serious burns due to the increased surface temperature of the seat.**

Front Seats Heat Function

NOTE:

The engine must be running for the heated seats to operate.

• Touch the "Controls" soft-key on the lower part of the MTC display.
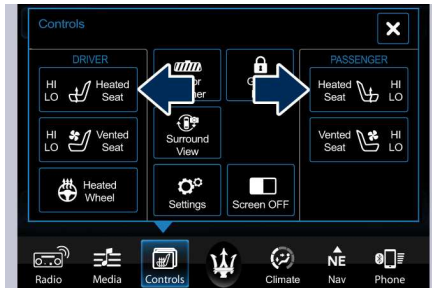

• Within 15 seconds, touch the "Driver" or "Passenger" seat soft-key once to select HI-level heating.
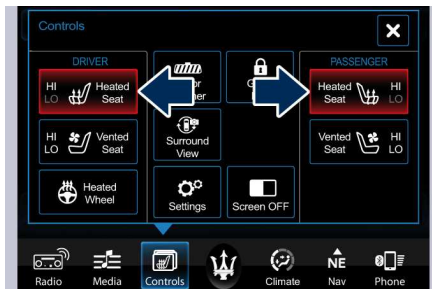

• Within 15 seconds, touch the same soft-key a second time to select LO-level heating.

• Within 15 seconds, touch the same soft-key a third time to shut the heating elements OFF.

NOTE:

Once a heat setting is selected, heat will be felt within 2 to 5 minutes.

When the HI-level setting is selected, the heater will provide a boosted heat level during the first 4 minutes of operation.
Then, the heat output will drop to the normal HI-level.
If the HI-level setting is selected, the system will automatically switch to LO-level after a maximum of 60 minutes of continuous operation.
At that time, the display will indicate the change from HI to LO.
The LO-level setting will turn OFF automatically after a maximum of approximately 45 minutes.

Front Ventilated Seats Function

• Touch the "Controls" soft-key on the lower part of the touch screen.
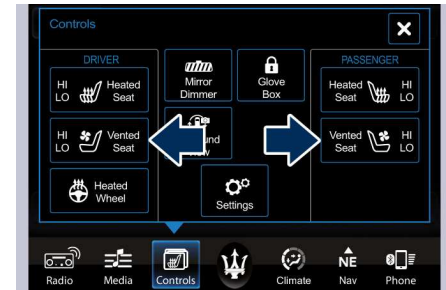

• Within 15 seconds, touch the "Driver" or "Passenger" seat soft-key once to select HI-level ventilation.
• Within 15 seconds, touch the same soft-key a second time to select LO-level ventilation.

• Within 15 seconds, touch the same soft-key a third time to shut off the seat ventilation.
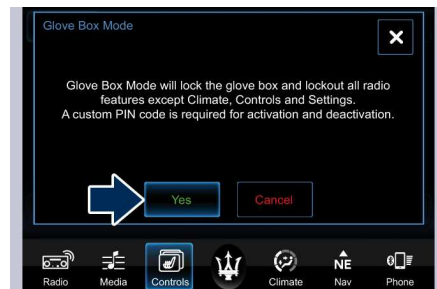

must contact the **Maserati Service Network** that will reset this feature. This feature is only available when vehicle is at a standstill.

Glove Box Lock

• Open "Controls" screen and touch "Glove Box".
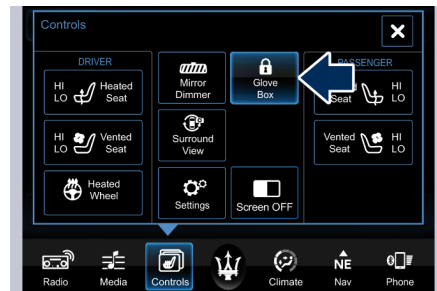

• To open the screen required to enter the PIN, answer "Yes" to the prompt.

• Using the keypad, enter the four digits of the PIN and press "OK". A buzzer will sound three tones indicating that proper PIN code was entered.

NOTE:

• *If you do not enter all PIN digits, a prompt and a buzzer will indicate that you should do so.*

• *In case of incoming call while entering the PIN, the MTC+ system will temporarily stop the release function. As soon as the barge-in is over, the keypad screen will be displayed again so that you can enter the PIN.*

• Confirm entered code by touching "OK" in the next page. Glove box is

now locked and the MTC+ will go back to "Controls" page.

Glove Box Unlock

If the glove box is locked, when you enter in the vehicle, the MTC+ screen will display the page already shown during the locking procedure, on which a message will indicate that system operation is reduced and that only "Climate", "Controls" and "Settings" features are active.
Unlock glove box by entering the lock code as previously specified.

Glove Box Manual Unlock

If battery is flat, it is necessary to manually work the actuator on the LH side of the glove box to unlock the glove box that has been locked using the PIN code.

• Proceed carefully and start with the central part, indicated by the arrow

6

61

in the figure, and remove the dashboard molding beneath and on the sides of the climate control panel. This molding is fastened by means of 10 pins (indicated in the figure) press-fitted onto clips present in dashboard structure.
• After removing the molding, take the screwdriver from the tool kit under boot mat (see vehicle Owner's Manual).

• Insert screwdriver tip inside the hole on LH side of glove box structure: push until home against actuator pin.

• Push down screwdriver tip to release actuator pin and manually unlock the glove box. The actuator will remain in this condition until battery feed is restored.

• Reinstall the molding ensuring that
Inner Section

pins match with the clips of dashboard structure.

• Press on the molding, always starting from the central part until all 10 pins are engaged in their clips and "click" in place.

After releasing the glove box by means of this procedure, do not lock glove box using the PIN code and contact the Maserati Service Network to have unlock feature via PIN code checked.

Surround View

Refer to "Surround View Camera System (optional)" chapter of section 2 in your vehicle Owner's Manual for function description and details.

Switch OFF Touch screen Backlight

If the screen backlight becomes annoying when driving, it is possible to switch it off.

Switch off the screen backlight by touching "Screen OFF" soft-key in "Controls" screen of MTC+ display.
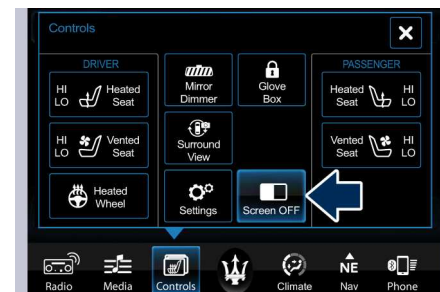

Climate Screen

To access the settings screen, touch the "Climate" soft-key on main menu bar of touch screen or press the buttons on the climate control panel.

NOTE:

Screen content changes if the vehicle is equipped with dual zone climate or four zone climate (optional).

Dual Zone Climate Commands

Commands Function

1. Climate Control On/Off
Once you enter the screen "Climate", touch the "ON" soft-key to switch the climate control on/off. The LED on the button and the OFF key will illuminate when the A/C is on.

NOTE:

For vehicle equipped with Remote Start, the Air Conditioning System will not function during Remote Start operation if the climate control is left in OFF.

2. A/C
Touch to change the current air conditioning (A/C) setting; the

indicator illuminates when the A/C is on. Operating this function will cause the automatic feature to switch into manual mode and the AUTO soft-key will turn off.

3. Driver Temperature Control
Provides the driver with independent temperature control. Touch the ▼ soft-key for cooler temperature. Touch the ▲ soft-key for warmer temperature. The driver's temperature setting will be displayed on the MTC+ screen between the arrows.

NOTE:

In SYNC mode, this button will also automatically and simultaneously adjust the passenger temperature.

4. Passenger Temperature Control
Provides the passenger with independent temperature control. Touch the ▼ soft-key for cooler temperature. Touch the ▲ soft-key for warmer temperature. The passenger's temperature setting will be displayed on the MTC+ screen between the arrows.

NOTE:

Touching the 4 soft-key while in SYNC mode will automatically exit SYNC.

6

5. Recirculation
Touch to change the current setting, the LED indicators on the relevant soft-key illuminates to indicate which recirculation function is activated.

6. Blower Control
Blower control is used to regulate the amount of air forced through the climate system. There are seven blower speeds available. Adjusting the blower will cause automatic mode to switch to manual.
Touch the small icon of the blower to decrease the speed, or the big icon to increase it. Between the two icons, bars will appear to show the number of the corresponding selected speed. The blower can also be activated/regulated by touching the bars between the two blower icons.

7. AUTO
This function automatically controls the interior temperature by adjusting the air flow rate and the air distribution. Touch the "AUTO" will cause the ATC to switch between manual and automatic mode. The "AUTO" soft-key illuminates when the "AUTO" function is activated.

8. FAST Defrosting/Demisting
Touch the ☷ soft-key to switch the airflow setting to the windshield and the front side windows to get a quick defrosting/defogging. The soft-key illuminates when this feature is activated. Operating this function will cause the ATC to switch into manual mode: so the AUTO soft-key will turn off; the fifth blower speed will be automatically selected, unless the blower is not already set to a higher speed. If this function is turned off the climate system will return to the previous setting.

9. REAR Defrosting/Demisting
Touch the ☷ soft-key to turn on the rear window defroster and the heated outside mirrors. The soft-key will illuminate when the rear window defroster and the heated external mirrors are on.
The rear window defroster and the heated external mirrors automatically turn off after 10 minutes.

⚠️ **CAUTION!**
Failure to observe the following cautions may cause damage to the rear windows defroster:
• Use care when washing the inside of the rear window. Do not use abrasive window cleaners on the interior surface of the window. Use a soft cloth and a mild washing solution, wiping parallel to the heating elements. Labels can be peeled off after soaking with warm water.
• Do not use scrapers, sharp instruments, or abrasive window cleaners on the interior surface of the window.
• Keep all objects inside the vehicle at a safe distance from the window.

10. Airflow Distribution Modes
The airflow distribution mode can be adjusted so air comes from the dashboard vents, floor vents, demist/defrost vents.
The display contains the relevant soft-keys used to set these modes. Available settings are as follows:
• **"Dashboard" mode** 🚶
  Air flows in from the four adjustable vents of the dashboard and the two positioned at the rear of the central console. Each of these vents can be singly adjusted. The air vanes of the vents can be moved up and down or right and left to adjust air flow direction. A setting wheel, placed near each vent, allows to regulate or close the air flow.
• **"Bi-Level" mode** 🚶
  Air comes from the dashboard vents, the central console adjustable vents

and the fixed floor vents. A small portion of the airflow is directed through the defrost/demist vents.

NOTE:

Bi-Level mode is designed to let cooler air from the dashboard and rear central console vents and warmer air from the floor vents.

• **"Floor" mode** ⤸

Air comes from the floor vents. A small portion of the airflow is directed through the defrost/demist vents.

• **"Mix" mode** ⤸

Air comes from the floor and the defrost/demist vents. This mode is recommended for cold climates, to improve comfort and prevent fogging.

11. "SYNC" mode

Touch the SYNC soft-key on the MTC+ to switch the Sync feature on/off. The SYNC indicator illuminates when this feature is selected. This function is used to synchronize the passenger temperature setting with the driver temperature setting.
Changing the passenger temperature setting while in SYNC will automatically exit this feature.

12. MAX A/C

Touching the MAX A/C soft-key, the system automatically switches to get the maximum cold air flow.

Adjust Driver and Passenger Temperature with Voice Commands

Using single voice commands, you can adjust the temperature on the driver and passenger side.
For all informations, see chapter "Voice Recognition Quick Tips" in section 8.

Four Zone Climate Commands by the Driver

By operating the MTC+ display soft-keys the driver can adjust the settings of the rear climate zones controlled by rear passengers.
By touching the following MTC+ soft-key, the driver is able to:

1. View and change the settings of the rear climate.
2. Block the settings of the rear climate.
3. Synchronize the temperature of the front passenger side and the one set by the rear passengers with the driver's side.
4. Return to the front climate control display.

NOTE:

Refer to "Air Conditioning Controls" chapter of section 4 in your vehicle Owner's Manual for more details.

7 – Navigation Mode

Main Menu

Once the navigationsystem has ben activated from the **Maserati Service Network,** touch the "Nav" soft-key on the bottom of the touch screen.

• Touch "Where To?" to find or route to a destination.

• Touch "View Map" to view the map.

• Touch "Information" to view "Traffic", "Where Am I?" and "Trip Computer" information.

• Touch "Emergency" to search for Hospitals, Police and Fire Stations near your current location. You can also display your current location and save any Emergency facility location to your favourites.

• Touch "Stop" to stop a route.

• Touch "Detour" to detour a route.

Where To?

Where To? — Main Menu

From the "Nav" main menu, touch the "Where To?" soft-key on the touch screen and select one of the following methods to program a route guidance.

NOTE:

Refer to the individual section of the chosen option for further information.

• **Address**

Touch this soft-key on the touch screen to search by a street address or a street name with house number.

• **Recent**

Touch this soft-key on the touch screen to access previously routed addresses or locations.

• **Point of Interest**

Touch this soft-key on the touch screen when you want to route to a point of interest. The Point of Interest (POI) database allows you to select a destination from a list of locations and public places, or points of interest.

• **Favourites**

Touch this soft-key on the touch screen to access previously saved addresses or locations.

• **Crossroads**

Touch this soft-key on the touch screen to enter in two street names as a destination.

• **Go Home**

Touch this soft-key on the touch screen to program or confirm a route to the saved home address.

• **Trips**

Touch this soft-key on the touch screen to program a new trip or recall a saved trip.

• **GEO Coordinates**

Touch this soft-key on the touch screen to route to a "GEO Coordinate". A geo coordinate is a coordinate used in geography. You can determine a geo coordinate with the help of a hand-held GPS

receiver, a map, or the navigation system.

• **Point on Map**

Touch this soft-key on the touch screen to select a destination directly from the "Map" screen. By selecting a street segment or icon, you can quickly enter a destination without the need to input the city name or street.

• **City Centre**

Touch this soft-key on the touch screen to route to a particular city. The navigation system will calculate a route with the destination at the centre of the city.

• **Trails**

Touch this soft-key on the touch screen and select the option to start trail recording to track the route you are driving. Select the option to "stop trail recording" to end tracking. This gives you a point of reference to for a particular route if needed.

• **Closest City**

Touch this soft-key on the touch screen to route to a nearby city. The screen will display an alphabetical listing of nearby cities. The navigation system will calculate a

route with the destination at the centre of the nearby city.

• **Phone Number**

Touch this soft-key on the touch screen to route to a location or point of interest by the phone number.

NOTE:

You can touch the ← back arrow soft-key on the touch screen to return to the previous screen or the "X" soft-key on the touch screen to exit.

Where To? — Address

To enter a destination by "Address", follow these steps:

1. While in the "Nav" main menu, touch the "Where To?" soft-key on the touch screen, then press the "Address" soft-key on the touch screen.

2. Touch "Spell Out Town" or "Spell Out Street" to begin entering the address of your destination.

If you touch "Spell Out Town", you will have to enter and select/touch the desired town name, followed by the desired street name then the house number.

7
If you touch "Spell Out Street" you will have to enter and select/touch the desired street name in the correct city and then you will have to enter the house number.

To change the state and/or country, touch the "state, country" soft-key on the touch screen and follow the prompts to change the state and/or country.

3. Once the correct town, street and number has been entered, you will be asked to confirm your destination by touching "OK".

4. Touch the "Yes" soft-key on the touch screen to confirm your destination and begin your route.

If you are currently on a route guidance and you select "Recent", the system will ask you to choose one of the following:

• Cancel previous route
• Add as first destination
• Add as last destination
You can touch the ← back arrow soft-key on the touch screen to return to the previous screen or the "X" soft-key on the touch screen to exit.

Where To? — Recent

To route to a recent destination, follow these steps:

1. While in the "Nav" main menu, touch the "Where To?" soft-key on the touch screen, then touch the "Recent" soft-key on the touch screen.

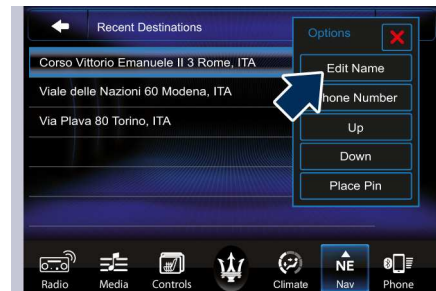

2. Touch the soft-key on the touch screen with the name of the desired destination.

3. Confirm the route with "Yes" to start the route guidance.

To delete a destination from the list, touch the trash can icon soft-key on the touch screen.

To display the options for a destination touch the "Options" soft-key on the touch screen that looks like a gear.

The following options are available for each destination:

• Edit name

• Add phone number

• Move up in the list

• Move down in the list

• Place pin on the location (saves the spot on the list)
You can touch the ← back arrow soft-key on the touch screen to return to the previous screen or the "X" soft-key on the touch screen to exit.

Where To? — Point of Interest

To enter a destination by Point of Interest (POI), touch the "Where To?" soft-key from the "Nav" main menu, then touch the "Point of Interest" soft-key on the touch screen.

The Point of Interest database allows you to select a destination from a list of locations and public places, or points of interest.
You have the following POIs to choose from:

• Petrol Stations

• Restaurants

• Hotels/Motels

• ATM/Banking

• All POIs

• Spell out name
You can also change your POI search area, by touching the "Change Search Area" soft-key on the touch screen. You will have the following options to change your search area:

• Around Me

• In a Town

• Near Destination (only available during route guidance)

• Along Route (only available during route guidance)
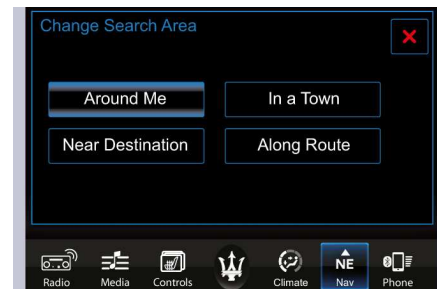

You can touch the ← back arrow soft-key on the touch screen to return to the previous screen or the "X" soft-key on the touch screen to exit.

POI — Petrol Stations, Restaurants, Hotels/Motels and ATM/Banking

1. To select a POI regarding Petrol Station, Restaurants, Hotels/Motels or ATM/Banking, touch the "Where To?" soft-key on the touch screen, then touch the "Point of Interest" soft-key on the touch screen.
2. Touch the soft-key on the touch screen regarding the desired POI to search (Petrol Stations, Restaurants, etc.).

You can search for a POI by the following categories, which are soft-key tabs at the top of the screen.

- Name
- Distance
- Type
- ABC (search)

3. Touch the desired POI and touch "Yes" to confirm the destination.

If you are currently on a route guidance and you select a POI, the system will ask you to choose one of the following:

• Cancel previous route
• Add as first destination
• Add as last destination
You can touch the ⟵ back arrow soft-key on the touch screen to return to the previous screen or the "X" soft-key on the touch screen to exit.

All POIs

1. To select a POI type, touch the "Where To?" soft-key on the touch screen, then touch the "Point of Interest" soft-key on the touch screen.
2. Touch "All POIs" soft-key on the touch screen.

You can search through the

available POI categories to find your desired POI.

The available categories are:
• Airport
• ATM/Banking
• Automotive
• Coffee Shops
• Community
• Entertainment
• Petrol Stations
• Health and Beauty
• Highway Exit
• Hospital
• Hotels/Motels
• Other
• Parking
• Recreation
• Restaurants
• Shopping
• Travel
• Truck

3. Select a category and then select a subcategory if necessary. Touch the "ABC" soft-key on the touch screen to activate a keyboard with alphabetic characters to search within the POI categories.
4. Touch the desired POI and touch "Yes" to confirm the destination.

If you are currently on a route guidance and you select a POI, the system will ask you to choose one of the following:

• Cancel previous route
• Add as first destination
• Add as last destination
You can touch the ← back arrow soft-key on the touch screen to return to the previous screen or the "X" soft-key on the touch screen to exit.

POI — Spell Out Name
1. To select for a specific POI, touch the "Where To?" soft-key on the touch screen, then touch the "Point of Interest" soft-key on the touch screen.
2. Touch the "Spell out name" soft-key on the touch screen.
3. A keyboard will appear on the

screen. Type in the POI that you want to search and touch the "List" soft-key on the touch screen to display available items.
4. Touch the desired POI and touch "Yes" to confirm the destination.

If you are currently on a route guidance and you select a POI, the system will ask you to choose one of the following:

• Cancel previous route
• Add as first destination
• Add as last destination
You can touch the ← back arrow soft-key on the touch screen to return to the previous screen or the "X" soft-key on the touch screen to exit.

Where To? — Favourite Destinations

To route to a favourite destination, follow these steps:

1. While in the "Nav" main menu, touch the "Where To?" soft-key on the touch screen, then touch the "Favourites" soft-key on the touch screen.

7

2. Touch the soft-key on the touch screen with the name of the desired favourite destination and confirm the route with "Yes" to start the route guidance.

3. To delete a destination from the list, touch the trash can icon soft-key on the touch screen.

4. To save a favourite destination, touch the "Add Favourite" soft-key on the touch screen and follow the steps to route a destination.

5. To display the options for a favourite destination touch the "Options" soft-key on the touch screen that looks like a gear.

    The following options are available for each favourite destination:
    • Edit Name
    • Add Phone Number

If you are currently on a route guidance and you select a Favourite, the system will ask you to choose one of the following:

• Cancel previous route
• Add as first destination
• Add as last destination
You can touch the ← back arrow soft-key on the touch screen to return to the previous screen or the "X" soft-key on the touch screen to exit.

Where To? — Junction

To enter a destination by junction/intersection, follow these steps:

1. While in the "Nav" main menu, touch the "Where To?" soft-key on the touch screen, then touch the "Junction" soft-key on the touch screen.

2. Touch the "Spell Out Junction" soft-key on the touch screen.

   This menu shows the default country and state setting.

NOTE:

To change the state and/or country, touch the "state, country" soft-key on the touch screen and follow the prompts to change the state and/or country.

3. If you touch "Spell Out Town," enter and touch the desired city name, followed by the desired street name, then enter the intersection street.

   If you touch "Spell Out Street," enter and touch the desired street name in the correct city, then enter the intersecting street.
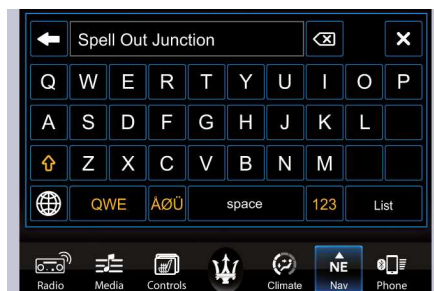

4. Once the correct city and intersection have been entered, you will be asked to confirm your destination.
5. Touch the "Yes" soft-key on the touch screen to confirm your destination and begin your route.
If you are currently on a route guidance and you select a intersection, the system will ask you to choose one of the following:

• Cancel previous route
• Add as first destination
• Add as last destination
You can touch the ← back arrow soft-key on the touch screen to return to the previous screen or the "X" soft-key on the touch screen to exit.

Where To? — Go Home
To enter your home address, follow these steps:
1. While in the "Nav" main menu, touch the "Where To?" soft-key on the touch screen then touch the "Home" soft-key on the touch screen.

   If there is no home address entered, touch "Yes" to enter it now.
2. To set your set your home address choose one of the following

options:
• Address
• Recent
• Point of Interest
• Favourites
• Junction
• GEO Coordinates
• Point on Map
• Town Centre
• Closest Towns
• Phone Number

   Once you have generated your home address, you will be asked to save it.
NOTE:
Refer to the individual section of the chosen option for further information.

3. Touch the "Save" soft-key on the touch screen to confirm your destination and begin the route to your home address.
4. This address will be saved as your home address and it can be accessed by touching the "Home" soft-key in the "Where To?" menu.
Change/Delete Your Home Address
To change or delete your current home address perform the following:

7

1. Touch the "Home" soft-key in the "Where To?" menu.
2. Touch the "Options" soft-key at the bottom of the displayed map.
3. Touch "Clear Home" and then touch "Yes" to clear/delete your home address.
4. To enter in a new home address, follow the "Where To?" and "Go Home" procedure.

You can touch the ← back arrow soft-key on the touch screen to return to the previous screen or the "X" soft-key on the touch screen to exit.

Where To? — Trips

To route to a saved trip, follow these steps:

1. While in the "Nav" main menu, touch the "Where To?" soft-key on the touch screen then touch the "Recent" soft-key on the touch screen.
2. Touch the "Trip" soft-key on the touch screen.

3. Touch the soft-key on the touch screen with the name of the desired trip and touch the first destination in the list.
4. Confirm the route by touching "Yes" to start the route guidance.

To add a trip, follow these steps:

1. Touch the "Create new Trip" soft-key on the touch screen.
2. Type in the new trip name.
3. Touch "Add Destination" to add destinations to your trip.
4. Choose from the following options to add a destination
   • Address
   • Recent
   • Point of Interest
   • Favourites
   • Junction
   • GEO Coordinates

• Point on Map
• Town Centre
• Closest Towns
• Phone Number

NOTE:

Refer to the individual section of the chosen option for further information.

5. Add more needed destinations to your trip.

NOTE:

Each destination will be listed in order, with the last destination being the final destination.

6. Your new trip will appear on the "Trips" list.

To delete a trip from the list, touch the trash can icon soft-key on the touch screen.

To display the options for a trip touch the "Options" soft-key on the touch screen that looks like a gear.

The following options are available for each trip:

• Edit Name
• Move Up in the list
• Move Down in the list

You can touch the ← back arrow soft-key on the touch screen to return

to the previous screen or the "X" soft-key on the touch screen to exit.

Where To? — GEO Coordinate

To route to a saved trip, follow these steps:

1. While in the "Nav" main menu, touch the "Where To?" soft-key on the touch screen then touch the "GEO Coordinate" soft-key on the touch screen.

2. Enter the latitude by typing in the numbers. Use the left and right arrows to select specific numbers in the location shown.
3. Touch the "OK" soft-key on the touch screen.
4. Enter the longitude by typing in the numbers. Use the left and right arrows to select specific numbers in the location shown.

5. Touch "OK" to confirm the destination.

NOTE:

Touch the "Format" soft-key on the touch screen to change the format of the Latitude/Longitude entry.

6. Touch the "Yes" soft-key on the touch screen to confirm your destination and begin your route.
If you are currently on a route guidance and you select a "Geo Coordinate", the system will ask you to choose one of the following:

• Cancel previous route
• Add as first destination
• Add as last destination
You can touch the ← back arrow soft-key on the touch screen to return to the previous screen or the "X" soft-key on the touch screen to exit.

Where To? — Point on Map

To enter a destination by "Point on Map", follow these steps:

1. While in the "Nav" main menu, touch the "Where To?" soft-key on the touch screen then touch the "Point on Map" soft-key on the touch screen.

2. Use the touch screen to drag the centre of the cross over the desired destination.

3. Either touch the address bar at the top centre of the screen to confirm your location, or touch the "Details" soft-key in the upper right corner to display the available locations near that point on the map.
4. Touch the "Yes" soft-key on the

touch screen to confirm your destination and begin your route.
If you are currently on a route guidance and you select a "Point on Map", the system will ask you to choose one of the following:

• Cancel previous route

• Add as first destination

• Add as last destination
You can touch the ← back arrow soft-key on the touch screen to return to the previous screen or the "X" soft-key on the touch screen to exit.
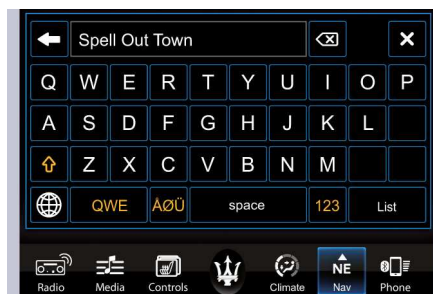

Where To? — Town Centre

To enter a destination by "Town Centre", follow these steps:

1. While in the "Nav" main menu, touch the "Where To?" soft-key on the touch screen then touch the "Town Centre" soft-key on the touch screen.

2. Enter the name of the town you would like to route to.

3. Touch the desired town from the list.
4. Touch the "Yes" soft-key on the touch screen to confirm your destination and begin your route.
If you are currently on a route guidance and you select a "Town Centre", the system will ask you to choose one of the following:

• Cancel previous route

• Add as first destination

• Add as last destination
You can touch the ← back arrow soft-key on the touch screen to return to the previous screen or the "X" soft-key on the touch screen to exit.

Where To? — Closest Towns

To enter a destination by "Closest Towns", follow these steps:

1. While in the "Nav" main menu, touch the "Where To?" soft-key on the touch screen then touch the "Closest Towns" soft-key on the touch screen.

2. Touch the desired town from the list.
3. Touch the "Yes" soft-key on the

touch screen to confirm your destination and begin your route.
If you are currently on a route guidance and you select a "Closest Towns", the system will ask you to choose one of the following:

• Cancel previous route

• Add as first destination

• Add as last destination
You can touch the ← back arrow soft-key on the touch screen to return to the previous screen or the "X" soft-key on the touch screen to exit.

Where To? — Routes

When starting to drive a route you want to record, follow these steps:

1. While in the "Nav" main menu, touch the "Where To?" soft-key on the touch screen then touch the "Routes" soft-key on the touch screen.

2. Touch "Start Route Recording" soft-key on the touch screen.

3. When you want to end the recording of a route, touch "Stop Route Recording" soft-key on the touch screen.
The trip you recorded will be added to the "Recent Routes" list.

Where To? — Phone Number

To enter a destination by phone number, follow these steps:

1. While in the "Nav" main menu, touch the "Where To?" soft-key on the touch screen then touch the "Phone Number" soft-key on the touch screen.

2. Enter the phone number of the destination you would like to route to.

3. Touch the desired destination from the list.

4. Touch the "Yes" soft-key on the touch screen to confirm your destination and begin your route.
If you are currently on a route guidance and you select a phone number destination, the system will ask you to choose one of the following:

• Cancel previous route

• Add as first destination

• Add as last destination
You can touch the ← back arrow soft-key on the touch screen to return to the previous screen or the "X" soft-key on the touch screen to exit.

7

Before Route Guidance

Before confirming the route with the "Yes" soft-key on the touch screen, it is possible to select options different

from the default route settings.
• Options – Touch the "Options" soft-key on the touch screen to display a list of options to alter your route. To make a selection touch and release the desired setting until a check-mark appears.

• Avoid – Touch the "Avoid" soft-key on the touch screen to choose road types to avoid during your route. To make a selection touch and release the desired setting until a check-mark appears.

NOTE:

Since toll roads, tunnels and ferries are built for the purpose of shortening travel distances, avoiding these road types may increase distance and travel time.

• Save – Touch the "Save" soft-key on the touch screen to save the destination as a favourite.
Touch the "Yes" soft-key on the touch screen to confirm your destination and to start your route guidance.
You can touch the ← back arrow soft-key on the touch screen to return to the previous screen or the "X" soft-key on the touch screen to exit.

View Map

View Map – Main Menu

Touch the "View Map" soft-key from the "Nav" main menu to display a map of your current position.

With the map displayed you have the following features available:

Menu
Touch this soft-key on the touch screen to return to the "Nav" main menu.

Touch this soft-key on the touch screen to display the areas terrain while in map view. Touch the soft-key on the touch screen until a check-mark appears, showing the setting has been selected.

Park Areas
Touch this soft-key on the touch screen to display park areas while in map view. Touch the soft-key on the touch screen until a check-mark appears, showing the setting has been selected.

Railways
Touch this soft-key on the touch screen to display railway tracks while in map view. Touch the soft-key on the touch screen until a check-mark appears, showing the setting has been selected.

Town Areas
Touch this soft-key on the touch screen to display town areas while in map view. Touch the soft-key on the touch screen until a check-mark

appears, showing the setting has been selected.

River Names

Touch this soft-key on the touch screen to display river names while in map view. Touch the soft-key on the touch screen until a check-mark appears, showing the setting has been selected. You can touch the ← back arrow soft-key on the touch screen to return to the previous screen or the "X" soft-key on the touch screen to exit.

Settings — Guidance

With the map displayed, touch the "Options" soft-key on the touch screen, then touch the "Settings" soft-key on the touch screen and then the "Guidance" soft-key on the touch screen. You can also access this menu by touching the "Settings" soft-key in the lower right of the "Nav" main menu.

The following Guidance options are available.

• **Play Voice Guidance Prompts** – Touch this soft-key on the touch screen to enable voice guidance prompts during route guidance. Touch the soft-key on the touch screen until a check-mark appears, showing the setting has been selected.

• **Nav Volume Adjustment** – Touch the "+" or "–" soft-keys on the touch screen to adjust the "Nav" voice prompt volume.

• **Lane Recommendation** – Touch this soft-key on the touch screen to enable lane recommendation during route guidance. Touch the soft-key on the touch screen until a check-mark appears, showing the setting has been selected.

• **Junction View** – Touch this soft-key on the touch screen to enable junction view during route guidance. Touch the soft-key on the touch screen until a check-mark appears, showing the setting has been selected.

• **Navigation Turn-by-Turn displayed in cluster** – Touch this soft-key on the touch screen to enable navigation turn-by-turn displayed in vehicles cluster during route guidance. Touch the soft-key on the touch screen until a check-mark appears, showing the setting has been selected.

• **TMC Route Mode (if equipped)** – Touch this soft-key on the touch screen to change how the "Traffic Message Channel (TMC) Route

Mode" functions during route guidance. Select from:

• Automatic
• By Delay Time
• Manual
• Off

• **TMC avoidance types (if equipped)** – Touch this soft-key on the touch screen to display the available Traffic Message Channel (TMC) avoidance types you would like displayed while in route guidance. Touch the desired selection soft-key on the touch screen until a check-mark appears, showing the setting has been selected.

• **Avoid** – Touch the "Avoid" soft-key on the touch screen to choose road types to avoid during your route. To make a selection touch the desired setting until a check-mark appears. You can touch the ← back arrow soft-key on the touch screen to return to the previous screen or the "X" soft-key on the touch screen to exit.

Information

From the "Nav" main menu, touch the "Information" soft-key on the touch screen and select one of the following options to view additional information.

• Traffic
• Where Am I?
• Trip Computer

Information — Where Am I?

To select "Where Am I?" information, follow these steps:

1. While in the "Nav" main menu, touch the "Information" soft-key on the touch screen.
2. Touch the "Where Am I?" soft-key on the touch screen.

"Where Am I?" displays the address and GEO coordinates of your current location.

3. Touch the "GPS" soft-key on the touch screen to view the Global Navigation Satellite System information.
4. Touch the "Save" soft-key on the touch screen to save the location in your favourites.

You can touch the ← back arrow soft-key on the touch screen to return to the previous screen or the "X" soft-key on the touch screen to exit.

Information — Trip Computer

To select "Trip Computer" information, follow these steps:

1. While in the "Nav" main menu, touch the "Information" soft-key on the touch screen.

2. Touch the "Trip Computer" soft-key on the touch screen.

Trip Computer displays the following trip information from your last trip:

• Travel direction
• Distance to final destination
• Vehicle speed
• Distance travelled
• Overall average speed
• Moving average speed

7

• Maximum speed reached

• Total time travelled

• Travel time spent moving

• Travel time spent stopped

You can touch the ← back arrow soft-key on the touch screen to return to the previous screen or the "X" soft-key on the touch screen to exit.

Emergency

Emergency — Main Menu

From the "Nav" main menu, touch the "Emergency" soft-key on the touch screen and touch one of the following options to search and route to a specific location.

• Hospital – Search and route to a hospital close to your current location

• Police – Search and route to a police station close to your current location

Touch the "Location" soft-key on the touch screen to display your exact current location.
Touch the "Save" soft-key on the touch screen to save your current location in favourites.

You can touch the ← back arrow soft-key on the touch screen to return to the previous screen or the "X" soft-key on the touch screen to exit.

Emergency — Hospital

To search for a hospital close to your current location, follow these steps:

1. While in the "Nav" main menu, touch the "Emergency" soft-key on the touch screen.

2. Touch the "Hospital" soft-key on the touch screen.

You can search for a hospital by the following categories, which are soft-key tabs at the top of the screen.

• Name

• Distance

• ABC (Search)

NOTE:

In case of emergency, please contact the facility to verify their availability before proceeding.

3. Touch the desired hospital and touch "Yes" to confirm the destination.
If you are currently on a route guidance and you select a hospital the system will ask you to choose one of the following:

• Cancel previous route
• Add as first destination
• Add as last destination
You can touch the ← back arrow soft-key on the touch screen to return to the previous screen or the "X" soft-key on the touch screen to exit.

Emergency — Police

To search for a police station close to your current location, follow these steps:

1. While in the "Nav" main menu, touch the "Emergency" soft-key on the touch screen.
2. Touch the "Police" soft-key on the touch screen.

You can search for a police station by the following categories, which are soft-key tabs at the top of the screen.
• Name
• Distance
• ABC (Search)

NOTE:

In case of emergency, please contact the facility to verify their availability before proceeding.

1. Touch the desired police station and touch "Yes" to confirm the destination.
If you are currently on a route guidance and you select a police station the system will ask you to choose one of the following:

• Cancel previous route
• Add as first destination

• Add as last destination
You can touch the ← back arrow soft-key on the touch screen to return to the previous screen or the "X" soft-key on the touch screen to exit.

Map Updates

The map data available in your vehicle is the most up-to-date information that was available when your vehicle was built. Map data is updated periodically as map information changes. To update the navigation system software and the map data, contact the **Maserati Service Network**.

7

8 – MTC+ System Phone

Overview

MTC+ System Phone is a voice-activated, hands-free, in-vehicle communications system. This system allows you to dial a phone number with your mobile phone.
MTC+ System Phone supports the following features:

Voice Activated Features:

• Hands-free dialling via voice ("Call John Smith Mobile" or, "Dial 248-555-1212").

• Hands-free text to speech listening of your incoming SMS messages.

• Hands-free text message reply (forward one of 18 pre-defined SMS messages to incoming calls/text messages).

• Redialling last dialled numbers ("Redial").

• Calling back the last incoming call number ("Call Back").

• View call logs on screen ("Show incoming calls," "Show Outgoing calls," "Show missed Calls," "Show Recent Calls").

• Searching contacts phone number ("Search for John Smith Mobile").

NOTE:

Examples of voice commands are provided throughout this manual. For quick use, go to the chapter "Voice Recognition Quick Tips" in this section.

Screen Activated Features

• Dialling via keypad using touch screen.

• Viewing and calling contacts from phone books displayed on the touch screen.

• Setting favourite contact phone numbers so the are easily accessible on the main phone screen.

• Viewing and calling contacts from recent call logs.

• Reviewing your recent incoming SMS.

• Listen to music on your Bluetooth® device via the touch screen.

• Pairing up to 10 phones/audio devices for easy access to connect to them quickly.

NOTE:

Your phone must be capable of SMS messaging via Bluetooth® for messaging features to work properly.

Your mobile phone's audio is transmitted through your vehicle's audio system; the system will automatically mute your radio when using the MTC+ System Phone features.
For customer support visit your Maserati local authorized dealership.
MTC+ System Connect Phone allows you to transfer calls between the system and your mobile phone as you enter or exit your vehicle and enables you to mute the system's microphone for private conversation.
The MTC+ System Phone is driven through your Bluetooth® "Hands-free Profile" mobile phone. MTC+ features Bluetooth® technology - the global standard that enables different electronic devices to connect to each other without wires or a docking station, so MTC+ System Phone works no matter where you stow your mobile phone (be it your purse, pocket, or briefcase), as long as your phone is turned on and has been paired to the vehicle's MTC+ Connect Phone. The MTC+ System Phone allows up to ten mobile phones or audio devices to be linked to the system. Only one linked (or paired) mobile phone and one audio device can be used with the system at a time.

Phone Button

The phone ☎ button on the steering wheel is used to get into the phone mode and make calls, show recent, incoming, outgoing calls, view phone book etc. When you press the button you will hear a beep. The beep is your signal to give a command.

Voice Command Button

The voice command button on the steering wheel is only used for "barge in" and when you are already in a call and you want to send tones or make another call.

The button on the steering wheel is also used to access the voice commands for the MTC+ Voice Command features if your vehicle is equipped.

The MTC+ System Phone is fully integrated with the vehicle's audio system. The volume of the MTC+ System Phone can be adjusted either from the radio volume control knob or from the steering wheel radio control (right switch).

Operation

Voice commands can be used to operate the MTC+ System Phone and to navigate through its menu structure. Voice commands are required after most MTC+ System Phone prompts. There are two general methods for how voice command works:

1. Say compound commands like "Call John Smith mobile."

2. Say the individual commands and allow the system to guide you to complete the task.

You will be prompted for a specific command and then guided through the available options.

• Prior to giving a voice command, one must wait for the beep, which follows the "Listen" prompt or another prompt.

• For certain operations, compound commands can be used. For example, instead of saying "Call" and then "John Smith" and then "mobile", the following compound command can be said: "Call John Smith mobile."

• For each feature explanation in this section, only the compound command form of the voice

command is given. You can also break the commands into parts and say each part of the command when you are asked for it. For example, you can use the compound command form voice command "Search for John Smith," or you can break the compound command form into two voice commands: "Search Contact" and when asked "John Smith." Please remember, the MTC+ System Phone works best when you talk in a normal conversational tone, as if speaking to someone sitting a few feet/metres away from you.

Natural Speech

Your MTC+ System Phone voice system uses a natural language Voice Recognition (VR) engine.
Natural speech allows the user to speak commands in phrases or complete sentences. The system filters out certain non-word utterances and sounds such as "ah" and "eh." The system handles fill-in words such as "I would like to."
The system handles multiple inputs in the same phrase or sentence such as "make a phone call" and "to Kelly Smith." For multiple inputs in the same phrase or sentence, the system identifies the topic or context and

8

provides the associated follow-up prompt such as "Who do you want to call?" in the case where a phone call was requested but the specific name was not recognised.

The system utilizes continuous dialogue; when the system requires more information from the user it will ask a question to which the user can respond without pushing the voice command ![voice] button on the steering wheel.

Pair (Link) MTC+ System Phone to a Mobile Phone

To begin using your MTC+ System Phone, you must pair your compatible Bluetooth® enabled mobile phone. Mobile phone pairing is the process of establishing a wireless connection between a cellular phone and the MTC+ system.

To complete the pairing process, you will need to reference your mobile phone Owner's Manual. Please visit www.maserati.com for complete mobile phone compatibility information.

NOTE:
• You must have Bluetooth® enabled on your phone to complete this procedure.

• The vehicle must be in P (Park).

1. Place the ignition device in the **ACC** or **RUN** position.
2. the "Phone" soft-key in the menu bar on the touch screen. If there is no phones currently connected with the system, a pop-up will appear asking if you would like to pair a mobile phone.
3. Select "Yes" to begin the pairing process.
4. Search for available devices on your Bluetooth® enabled mobile phone.
   • Press the Settings button on your mobile phone.
   • Select Bluetooth® and ensure it is enabled. Once enabled, the mobile phone will begin to search for Bluetooth® connections.
5. If "No" is selected, and you still would like to pair a mobile phone, press the "Settings" soft-key from the MTC+ System Phone main screen.

• Select "Paired Phones" then touch the "Add Device" soft-key on the touch screen.

• Search for available devices on your Bluetooth® enabled mobile phone (see below). When prompted on the phone, select "MTC+" and accept the connection request.

6. MTC+ Connect Phone will display an in progress screen while the system is connecting.
7. When your mobile phone finds the MTC+ system, select "MTC+"
8. When prompted on the mobile phone, accept the connection request from MTC+ System Phone.

NOTE:

Some mobile phones will require you to enter the PIN number.

9. When the pairing process has

successfully completed, the system will prompt you to choose whether or not this is your favourite phone. Selecting "Yes" will make this phone the highest priority. This phone will take precedence over other paired phones within range and will connect to the MTC+ system automatically when entering the vehicle. Only one mobile phone and/or one Bluetooth® audio device can be connected to the MTC+ system at a time. If "No" is selected, simply select "MTC+" from the mobile phone/audio device Bluetooth® screen, and the MTC+ system will reconnect to the Bluetooth® device.

Pair Additional Mobile Phones

1. Touch the "Settings" soft-key on the touch screen from the Phone main screen.
2. Next, touch the "Phone/Bluetooth" soft-key on the touch screen.

3. Touch the "Add Device" soft-key on the touch screen.
4. Search for available devices on your Bluetooth® enabled mobile phone. When prompted on the phone, enter the name and PIN shown on the MTC+ screen.
5. MTC+ System Phone will display an in process screen while the system is connecting.
6. When the pairing process has successfully completed, the system will prompt you to choose whether or not this is your favourite phone.

Selecting "Yes" will make this phone the highest priority. This phone will take precedence over other paired phones within range.

NOTE:

For phones which are not made a favourite, the phone priority is determined by the order in which it was paired. The latest phone paired will have the higher priority.

You can also use the following Voice Recognition (VR) commands to bring up the "Paired Phone" screen from any screen on the radio:

• "Show Paired Phones" or
• "Connect My Phone".

Pair a Bluetooth® Streaming Audio Device

1. Touch the "Media" soft-key on the touch screen to begin.
2. Change the Source to Bluetooth®.
3. Touch the "Bluetooth" soft-key on the touch screen to display the paired audio devices screen.
4. Touch the "Add Device" soft-key on the touch screen.

8

93

NOTE:

If there is no device currently connected with the system, a pop-up will appear.

5. Search for available devices on your Bluetooth® enabled audio device. When prompted on the device, enter the PIN shown on the MTC+ screen.
6. MTC+ System Phone will display an in process screen while the system is connecting.
7. When the pairing process has successfully completed, the system will prompt you to choose whether or not this is your favourite device. Selecting "Yes" will make this device the highest priority. This device will take precedence over other paired devices within range.
8. Touch the "Add Device" soft-key on the touch screen.

NOTE:

For devices which are not made a favourite, the device priority is determined by the order in which it was paired. The latest device paired will have the higher priority.

You can also use the following Voice Recognition (VR) command to bring up a list of paired audio devices.

• "Show Paired Phones" or
• "Connect My Phone".

Connecting to a Particular Mobile Phone or Audio Device after Pairing

MTC+ System Phone will automatically connect to the highest priority paired phone and/or audio device within range. If you need to choose a particular phone or audio device follow these steps:

1. Touch the "Settings" soft-key on the touch screen.
2. Touch the "Paired Phones" or "Paired Audio Sources" soft-key on the touch screen.
3. Touch to select the particular phone or the particular audio device.
4. Touch the "X" to exit out of the "Settings" screen.

Disconnecting a Phone or Audio Device

1. Touch the "Settings" soft-key on the touch screen.
2. Touch the "Paired Phones" or

"Paired Audio Sources" soft-key on the touch screen.
3. Touch the "Settings" soft-key located to the right of the device name.
4. The options pop-up will be displayed.
5. Touch the "Disconnect Device" soft-key on the touch screen.
6. Touch the "X" to exit out of the "Settings" screen.

Deleting a Phone or Audio Device

1. Touch the "Settings" soft-key on the touch screen.
2. Touch the "Pair Phones" or "Paired Audio Sources" soft-key on the touch screen.
3. Touch the settings icon soft-key located to the right of the device name for a different phone or audio device than the currently connected device.
4. The options pop-up will be displayed.
5. Touch the "Delete Device" soft-key on the touch screen.
6. Touch the "X" to exit out of the "Settings" screen.

8

Making a Phone or Audio Device a Favourite

1. Press the "Settings" soft-key on the touch screen.
2. Press the "Paired Phones" or "Paired Audio Sources" soft-key on the touch screen.
3. Press the settings icon soft-key located to the right of the device name.
4. The options pop-up will be displayed.
5. Press the "Make Favourite" soft-key on the touch screen; you will see the chosen device move to the top of the list.
6. Press the "X" to exit out of the "Settings" screen.

Phone Book Download (Automatic Phone Book Transfer from Mobile Phone) — If Equipped

If equipped and specifically supported by your phone, MTC+ System Phone automatically downloads names (text names) and number entries from the mobile phone's phone book. Specific Bluetooth® phones with phone book access profile may support this feature. See www.maserati.com website, for supported phones.

• To call a name from a downloaded mobile phone book, follow the procedure in the chapter "Voice Recognition Quick Tips" in this section.

• Automatic download and update of a phone book, if supported, begins as soon as the Bluetooth® wireless phone connection is made to the MTC+ System Phone, for example, after you start the vehicle.

• A maximum of 1,000 contact names with four numbers per contact will be downloaded and updated every time a phone is connected to the MTC+ System Phone.

• Depending on the maximum number of entries downloaded, there may be a short delay before the latest downloaded names can be used. Until then, if available, the previously downloaded phone book is available for use.

• Only the phone book of the currently connected mobile phone is accessible.

• This downloaded phone book cannot be edited or deleted on the MTC+ System Phone. These can only be edited on the mobile phone. The changes are transferred and updated to MTC+ System Phone on the next phone connection.

Managing Your Favourites

There are three ways you can add an entry to your favourites.

1. During an active call of a number to make a favourite, press and hold the preset soft-key on the touch screen on the top of the phone main screen.
2. After loading the mobile phone book, select phone book from the "Phone" main screen, then select the appropriate number. Touch the "Settings" soft-key next to the selected number to display the options pop-up. In the pop-up select "Add to Favourites."

NOTE:

If the favourites list is full, you will be asked to remove an existing favourite.

3. From the "Phone" main screen, select phone book. From the phone book screen, select the "Favourites" soft-key on the touch screen and then select the settings icon soft-key on the touch screen located to the right of the phone book record.

4. Select an empty entry and touch the "Settings" soft-key on that selected entry. When the "Options" pop-up appears, press "Add from Mobile." You will then be asked which contact and number to choose from your mobile phone book. When complete the new favourite will be shown.

To Remove a Favourite

1. To remove a favourite, select "phone book" from the "Phone" main screen.
2. Next select "Favourites" on the left side of the screen and then touch the settings icon soft-key on the touch screen.
3. Touch the settings icon soft-key next to the favourite you would like to remove.
4. The "Option"s pop-up will display, touch "Remove from Favs".

Phone Call Features

The following features can be accessed through the MTC+ System Phone if the feature(s) are available and supported by Bluetooth® on your mobile service plan. For example, if your mobile service plan provides three-way calling, this feature can be accessed through the MTC+ System Phone. Check with your mobile service provider for the features that you have.

Ways to Initiate a Phone Call

Listed below are all the ways you can initiate a phone call with MTC+ System Phone.

• Redial
• Dial by touching in the number
• Voice Commands (dial by saying a name, call by saying a phone book name, redial or call back)
• Favourites
• Mobile phone book
• Recent call log
• SMS message viewer

Dial by Saying a Number

1. Press the phone ☎ button on the steering wheel to begin.
2. After the "Listening" prompt and the following beep, say "Dial 151-123-4444."
3. The MTC+ System Phone will dial the number 151-123-4444.

Call by Saying a Phone Book Name

1. Press the phone ☎ button on the steering wheel to begin.
2. After the "Listening" prompt and the following beep, say "Call John Doe Mobile."
3. The MTC+ System Phone will dial the number associated with John Doe, or if there are multiple numbers it will ask which number you want to call for John Doe.

Call Controls

The touch screen allows you to control the following call features:

• Answer
• End
• Ignore
• Hold/unhold
• Mute/unmute
• Transfer the call to/from the phone
• Swap two active calls
• Join two active calls together

Touch-Tone Number Entry

1. Touch the "Phone" soft-key on the touch screen.
2. Touch the "Dial" soft-key on the touch screen.
3. The "Touch-Tone" screen will be displayed.
4. Use the numbered soft-keys on the touch screen to enter the number and touch "Call."

Press the [icon] button on the steering wheel to send a touch-tone during a call in progress and say "Send 1234#" or you can say "Send voicemail password" if voicemail password is stored in your mobile phone book.

Recent Calls

You may browse up to 31 of the most recent of each of the following call types:

• All calls

• Incoming calls

• Outgoing calls

• Missed calls

These can be accessed by touching the "recent calls" soft-key on the "Phone" main screen.
You can also press the phone [icon] soft-key on the steering wheel and say "Show my incoming calls" from any screen and the incoming calls will be displayed.

NOTE:

Incoming can also be replaced with "Outgoing," "Recent" or "Missed."

Answer or Ignore an Incoming Call — No Call Currently in Progress

When you receive a call on your mobile phone, the MTC+ System Phone will interrupt the vehicle audio system. Press the phone [icon] button on the steering wheel to accept the call. You can also touch the "answer" soft-key on the touch screen or touch the caller ID box.

Answer or Ignore an Incoming Call — Call Currently in Progress

If a call is currently in progress and you have another incoming call, you will hear the same network tones for call waiting that you normally hear when using your mobile phone. Press the phone [icon] button on the steering wheel, answer button on the touch screen or caller ID box to place the current call on hold and answer the incoming call.

NOTE:

The MTC+ System Phone compatible phones in the market today do not support rejecting an incoming call when another call is in progress. Therefore, the user can only answer an incoming call or ignore it.

Place/Retrieve a Call from Hold

During an active call, touch the "Hold" soft-key on the "Phone" main screen.

Making a Second Call while Current Call is in Progress

You can place a call on hold by pressing the "Hold" soft-key on the "Phone" main screen, then dial a number from the dial pad, recent calls, SMS inbox or from the phone books. To go back to the first call, refer to "Toggling between Calls" in this section. To combine two calls, refer to "Join Calls" in this section.

Toggling between Calls

If two calls are in progress (one active and one on hold), touch the "Swap" soft-key on the "Phone" main screen. Only one call can be placed on hold at a time.

8

You can also press the phone 📞 button to toggle between the active and held phone call.

Join Calls

When two calls are in progress (one active and one on hold), touch the "Join Calls" soft-key on the "Phone" main screen to combine all calls into a conference call.

Call Termination

To end a call in progress, momentarily touch the phone end 📵 button on the touch screen or the phone 📞 button on the steering wheel. Only the active call(s) will be terminated and if there is a call on hold, it will become the new active call.

Redial

Touch the "Redial" soft-key on the touch screen, or press the phone 📞 button and after the "Listening" prompt and the following beep, say "Redial."
The MTC+ System Phone will call the last number that was dialled from your mobile phone.

Call Continuation

Call continuation is the progression of a phone call on the MTC+ System Phone after the vehicle ignition device has been switched to **OFF** position.

NOTE:

The call will remain within the vehicle audio system until the phone becomes out of range for the Bluetooth® connection. It is recommended to press the "transfer" soft-key on the touch screen when leaving the vehicle.

Assistance Call

Roadside Assistance

If you need towing assistance:
- Press the phone 📞 soft-key on the steering wheel to begin.
- After the "Listening" prompt and the following beep, say "Roadside Assistance".

NOTE:

- *The emergency roadside assistance call can also be initiated using the touch screen.*
- *The roadside assistance number dialed is based on the country where the vehicle is purchased. The number dialed may not be applicable with the available mobile service and area.*
- *The MTC+ System Phone does slightly lower your chances of successfully making a phone call as to that for the mobile phone directly.*

Voice Mail Call

To learn how to access your voice mail, refer to "Working with Automated Systems".

Working with Automated Systems

This method is used in instances where one generally has to press numbers on the mobile phone keypad while navigating through an automated telephone system.

You can use your MTC+ System Phone to access a voice mail system or an automated service, such as a paging service or automated customer service line. Some services require immediate response selection. In some instances, that may be too quick for use of the MTC+ System Phone.

When calling a number with your MTC+ System Phone that normally requires you to enter in a touch-tone sequence on your mobile phone keypad, you can utilize the touch screen or press the button and say the word "Send" then the sequence you wish to enter. For example, if required to enter your PIN followed with a pound, (3 7 4 6 #), you can press the button and say, "Send 3 7 4 6 #". Saying "Send" followed by a number, or sequence of numbers, is also to be used for navigating through an automated customer service center menu structure, and to leave a number on a pager.

You can also send stored mobile phonebook entries as tones for fast and easy access to voice mail and pager entries. To use this feature, dial the number you wish to call and then press the button and say for example, "Send voicemail password". The system will prompt you to enter the name or number and say the name of the phonebook entry you wish to send. The MTC+ System Phone will then send the corresponding phone number associated with the phonebook entry, as tones over the phone.

NOTE:

- *The first number encountered for that contact will be sent. All other numbers entered for that contact will be ignored.*
- *You may not hear all of the tones due to mobile phone network configurations. This is normal.*
- *Some paging and voice mail systems have system time out settings that are too short and may not allow the use of this feature.*
- *Pauses, wait or other characters that are supported by some phones are not supported over Bluetooth®. These additional symbols will be ignored in the dialing a numbered sequence.*

Barge in - Overriding Prompts

The button can be used when you wish to skip part of a prompt and issue your voice command immediately. For example, if a prompt is asking "There are 2 numbers with the name John. Say the full name" you could press the button and say, "John Smith" to select that option without having to listen to the rest of the voice prompt.

Voice Response Length

It is possible for you to choose between "Brief" and "Detailed" voice response length.

- Touch the "Settings" soft-key.
- Touch the "Display" soft-key, then scroll down to "Voice Response Length".
- Select either "Brief" or "Detailed" by touching the box next to the selection. A check-mark will appear to show your selection.

Phone and Network Status Indicators

MTC+ System Phone will provide notification to inform you of your

8

phone and network status when you are attempting to make a phone call using MTC+ System Phone. The status is given for roaming, network signal strength and phone battery strength.

Dialing using the Mobile Phone Keypad

You can dial a phone number with your mobile phone keypad and still use the MTC+ System Phone (while dialing via the mobile phone keypad, the user must exercise caution and take precautionary safety measures). By dialing a number with your paired Bluetooth® mobile phone, the audio will be played through your vehicle's audio system. The MTC+ System Phone will work the same as if you dial the number using voice command.

NOTE:

Certain brands of mobile phones do not send the dial ring to the MTC+ System Phone to play it on the vehicle audio system, so you will not hear it. Under this situation, after successfully dialing a number the user may feel that the call did not go through even though the call is in progress. Once your call is answered, you will hear the audio.

Mute/Un-Mute (Mute OFF)

When you mute the MTC+ System Phone, you will still be able to hear the conversation coming from the other party, but the other party will not be able to hear you. In order to mute the MTC+ System Phone simply touch the "Mute" soft-key on the "Phone" main screen.

Advanced Phone Connectivity

Transfer Call to and from Mobile Phone

The MTC+ System Phone allows ongoing calls to be transferred from your mobile phone to the MTC+ System Phone without terminating the call. To transfer an ongoing call from your connected mobile phone to the MTC+ System Phone or vice versa, press the "Transfer" soft-key on the "Phone" main screen.

Connect or Disconnect Link between the MTC+ Phone and Mobile Phone

If you would like to connect or disconnect the Bluetooth® connection between a MTC+ System Phone paired mobile phone and the MTC+ System Phone, follow the instructions described in your mobile phone User's Manual.

Things You Should Know about MTC+ System Phone

Voice Command

For the best performance:
• Always wait for the beep before speaking.
• Speak normally, without pausing, just as you would speak to a person sitting in front of you, a few metres/feet away from you.
• Ensure that no one other than you is speaking during a voice command period.

Performance is maximised under:
• Low-to-medium blower setting
• Low-to-medium vehicle speed
• Low road noise
• Smooth road surface
• Fully closed windows
• Dry weather condition
Even though the system is designed for many languages and accents, the system may not always work for some. When navigating through an automated system such as voice mail, or when sending a page, before speaking the digit string, make sure to say "Send."

NOTE:

It is recommended that you do not store names in your favourites phone book while the vehicle is in motion.

Phone book (mobile and favourites) name recognition rate is optimised when the entries are not similar. You can say "O" (letter "O") for "0" (zero). Even though international dialling for most number combinations is supported, some shortcut dialling number combinations may not be supported.
On versions with opening sunroof, performance may be impaired when the roof is open.

Far End Audio Performance

Audio quality is maximised under:
• Low-to-medium blower setting
• Low-to-medium vehicle speed
• Low road noise
• Smooth road surface
• Fully closed windows
• Dry weather conditions
• Operation from the driver's seat
Performance such as audio clarity, echo, and loudness to a large degree rely on the phone and network, and not the MTC+ System Phone.

Echo at the far end can sometimes be reduced by lowering the in-vehicle audio volume.
On versions with opening sunroof, performance may be impaired when the roof is open.

Voice/Text Replay

Create a text message using the voice commands. The radio will recognise 18 present SMS messages by voice command.

Reading Messages

If you receive a new text message while the phone is connected to the MTC+ System Phone, the screen will display the corresponding message. Once received a message viewed and listened, following options are available:

• Send a reply
• Forward
• Call

Sending Messages with Soft-keys

With MTC+ System Phone it is possible to send SMS messages. To send a new message:

• Select the "Phone" soft-key.

8

• Select the "Messaging" soft-key, then "New Message".

• Select one of the 18 preset messages and the person to whom you want to send the message.

• If more than one number is available for the receiver, select the number to which you want to send the message.

• Touch "Send" or "Cancel".

Voice Controlled Messaging

• Touch the phone 📞 soft-key on the touch screen or press the same button on the steering wheel.

• After the "Listening" message and following beep, say "Send message to John Smith mobile".

• When the system indicates the message to be send, deliver the desired message, or "List". There are 18 preset messages.

While reading the list of decided messages, you may interrupt the system by pressing the ⟲ button and deliver the message you wish to send. After the system has confirmed that you want to send the message to John Smith, it will proceed with the sending.

List of preset messages:

1. Yes
2. No
3. Okay
4. I can't talk right now
5. Call me
6. I'll call you later
7. I'm on my way
8. Thanks
9. I'll be late
10. I will be (number) minutes late
11. See you in (number) minutes
12. Stuck in traffic
13. Start without me
14. Where are you?
15. Are you there yet?
16. I need directions
17. I'm lost
18. See you later

Bluetooth® Communication Link

Mobile phones have been found to lose connection to the MTC+ System Phone. When this happens, the connection can generally be re-established by switching the mobile phone OFF/ON. Your mobile phone is recommended to remain in Bluetooth® ON mode.

Power-Up

After switching the ignition device from **OFF** to either the **RUN** or **ACC** position, or after a language change, you must wait at least 15 seconds prior to using the system.

Voice Recognition Quick Tips

Introducing MTC+

Start using MTC+ Voice Recognition with these helpful quick tips. It provides the key Voice Commands and tips you need to know to control your MTC+ System.

Get Started

• Visit www.maserati.com to check mobile device and feature compatibility and to find phone pairing instructions.

• Reduce background noise. Wind and passenger conversations are examples of noise that may impact recognition.

• Speak clearly at a normal pace and volume while facing straight ahead. The microphones are positioned on the dome console and aimed at the driver and front passenger.

• Each time you give a voice command, you must first press either the or button, wait until **after** the beep, then say your voice command.

• You can interrupt the help message or system prompts by pressing the

 or button and saying a voice command from current category.

All you need to control your MTC+ System with your voice are the buttons on your steering wheel.
1. Press phone button to initiate or to answer or to end a phone call, send or receive a text.

2. Press button to begin radio, media, navigation, Apps and climate functions.

Basic Voice Commands

The basic voice commands below can be given at any point while using your MTC+ System.
Press the button.

After the beep, say…

• "Cancel": to stop a current voice session.

• "Help": to hear a list of suggested Voice Commands.

• "Repeat": to listen to the system prompts again.

The visual cues that inform you of your voice recognition system's status appear on the touch screen, above the main icons bar.

Radio

Use your voice to quickly get to the AM, FM or DAB you would like to hear.
Press the button.
After the beep, say "Tune to": ninety-five-point-five FM.

NOTE:

At any time, if you are not sure of what to say or want to learn a voice command, press the button and say "Help". The system will provide you with a list of commands.

Media

MTC+ System offers connections via USB, SD Card and Bluetooth® auxiliary ports. Voice operation is only available for connected USB and iPod devices. Press the button. After the beep, say one of the following commands and follow the prompts to switch your media source or choose an artist.

• "Change source": to Bluetooth®.
• "Change source": to iPod.
• "Change source": to USB.
• "Play artist": Beethoven.

• "Play album": Greatest Hits;
• "Play song": Moonlight Sonata.
• "Play genre": Classical.

NOTE:

Press the "BROWSE" soft-key on the touch screen to see all of the music on your iPod or USB device. Your voice command must match exactly how the artist, album, song and genre information is displayed.

Phone

Making and answering hands-free phone soft-key calls is easy with MTC+ System. When the "Phone Book" soft-key is illuminated on your touch screen, your system is ready. Check www.maserati.com for mobile phone compatibility and pairing instructions.

Push the phone button. After the beep, say one of the following commands…

• "Call": John Smith.
• "Dial": 123-456-7890 and follow the system prompts.
• "Redial": call previous outgoing phone number.
• "Call back": call previous incoming phone number.

NOTE:

When providing a voice command, press the phone button and say "Call", then pronounce the name exactly as it appears in your phone book. When a contact has multiple phone numbers, you can say "Call <name> work".

Voice Text Reply

MTC+ System will announce incoming text messages. Press the phone 📞 button and say "Listen". (Must have compatible mobile phone paired to MTC+ system).

• Once an incoming text message is read to you, press the phone 📞 button. After the beep, say "Reply".

• Listen to the MTC+ prompts. After the beep, repeat one of the pre-defined messages and follow the system prompts.

Pre-defined Voice Text Reply Responses		
Yes	Stuck in traffic	See you later
Cant't talk right now	Start without me	I'll be late
Okay	See you in <number> of minutes	I will be <number> minutes late
Call me		
I'll call you later	I need directions	Where are you?

Pre-defined Voice Text Reply Responses		
I'm on my way	Are you there yet?	No
I'm lost		Thanks

NOTE:

Your mobile phone must have the full implementation of the Message Access Profile (MAP) to take advantage of this feature.

Apple iPhone iOS 6 or later supports reading incoming text messages only.

Climate

Too hot? Too cold? You can adjust vehicle temperatures hands-free and keep everyone comfortable while you keep moving ahead (if vehicle is equipped with climate control).
Press the 🎙 button.
After the beep, say one of the following commands…

• "Set driver temperature to < 20 > degrees".

• "Set passenger temperature to < 20 > degrees".

NOTE:

Voice command for "Climate" may only be used to adjust the interior temperature of your vehicle. Voice command will not work to adjust the heated seats or steering wheel, if foreseen.

Navigation

If vehicle is equipped with navigation system, the MTC+ navigation feature helps you save time and become more productive when you know exactly how to get to where you want to go. To enter a destination, press the 🎙 button.

After the beep, say…
• "Enter state <......>": or the MTC+ System version without navigation.

• "Navigate to <......>": or the MTC+ System version with navigation,.

8

Then follow the system prompts.

NOTE:

To start a POI search, press the
🎙️VR button. After the beep, say "Find
nearest < coffee shop >".

Siri Smart Personal Assistant

When a compatible iPhone or iPad that supports Siri voice recognition is paired to the vehicle, the 🎙️VR button also activates the Siri Smart Personal Assistant.
Siri requires mobile internet access and its functionality might change depending on the geographical area. Through simple voice commands, without taking your eyes off the road, it may be possible to send messages, make phone calls, create notes and reminders, etc.

Do Not Disturb

With "Do Not Disturb" feature, you can disable notifications from incoming calls and texts, allowing you to keep your eyes on the road and hands on the wheel. For your convenience there is a counter display to keep track of your missed calls and text messages while you were using "Do Not Disturb" feature.
"Do Not Disturb" can automatically reply with a text message, a call or both, when declining an incoming call and send it to voicemail. To select one of these options, see section "Phone".

Automatic reply messages can be:
• "I am driving right now, I will get back to you shortly."
• Create a custom auto reply message up to 160 characters.

NOTE:

Only the first 25 characters can been seen on the touch screen while typing a custom message.

While in "Do Not Disturb" feature, conference call can be selected so you can still place a second call without being interrupted by incoming calls.

NOTE:

• *Reply with text message is not compatible with iPhones.*
• *Auto reply with text message is only available on phones that supporting Bluetooth® MAP.*

9 – MTC+ Settings

Customer Programmable Features — MTC+ Settings

NOTE:

All settings must be edited with ignition device set to RUN position.

To display the programmable features menu on MTC+:

• touch the "Settings" soft-key, if available, on main menu toolbar;

• or touch to view all available applications and then select "Settings";

• or touch "Controls" on main menu toolbar and select "Settings".

In this mode the MTC+ System allows you to access the following programmable features (some of them are optional and may not be available on your vehicle): Display, Units, Voice Commands, Clock, Setting & Driving Assistant, Lights, Doors & Locks, Auto-On Comfort & Remote Start, Engine Off, Suspension, Audio, Phone,

Radio Setup, Restore Settings and Clear Personal Data.

NOTE:

• *Only one touchscreen area/key may be selected at a time.*

• *Menu navigation indications refer to the use of soft-keys on MTC+ display: the same operations can be performed using the manual controls on central console.*

To make a selection, and enter the desired function, touch the corresponding soft-key on the menu (the picture shown is "Engine off").

To scroll through the functions, move the cursor up or down, or touch the arrow ▼ o ▲. Once the desired mode is entered, press and release the touch-screen area of the setting that you wish to modify. The new setting

will be highlighted with one or more boxes to indicate status or possible variants of the function status. A check mark in a box indicates the current status of the function. Touch the check mark to cancel, or the empty box to insert the check mark, and change the status of the function.

Once the procedure is completed (for example, Display mode) touch the ← back arrow soft-key to return to the previous menu or touch the upper right "X" soft-key, to close the settings screen. Touching the ▲ or ▼ soft keys and the cursor on the right side of the screen will allow you to scroll up or down through the available settings.

Display

After pressing the "Display" soft-key the following mode settings will be available.

Display mode

When in this display you can select one of the auto display settings. To change mode status, touch and release the "Manual" or "Auto" soft-key.

Display Brightness with Headlights On

When in this display, you can select the brightness with the headlights on. Adjust the brightness from level 0 to 10 with the "+" and "−" setting soft-keys or by selecting any point on the scale between the "+" and "−" soft-keys.

Display Brightness with Headlights Off

When in this display, you can select the brightness with the headlights off. Adjust the brightness as previously explained.

Set Language

When in this display, you can select one language for all display descriptions, including the trip functions and the navigation system (if equipped).
The available languages are specific to the target markets.

Touchscreen Beep

When in this display, you can turn on or shut off the sound activated by pressure of a touch screen soft-key.

Controls Screen Time-Out

When this mode is selected, the "Controls" screen will remain displayed for 5 seconds. If this mode is not selected, the screen will remain displayed until closed manually.

Navigation Turn-by-Turn" Displayed on Cluster

By selecting this feature, the turn-by-turn directions will appear on the instrument cluster along a programmed route until the desired destination is reached (see picture).

Phone In Cluster

When this mode is selected, the display will show the symbols used to call in progress.

Units

After pressing the "Units" and then "Custom" soft-key on the touch screen you may select between Metric and Imperial units of measurements. Each unit of measure can be independently displayed in the TFT Display and in the navigation system (if equipped). The following selectable units of measure are listed below:

• *Distance* unit:
   select from: "km" or "mi".

• *Speed* unit:
   select from: "km/h" or "mph".

• *Consumption* unit:
   select from: "L/100km", "km/L" or "MPG" (UK).

• *Capacity* unit:
   select from: "L/100km", "L" or "gal".

• *Pressure* unit:
   select from: "kPa", "bar" or "psi".

• *Temperature* unit:
   select from: "°C" or "°F".

• *Power* unit:
   select from: "kW" or "HP".

• *Torque* unit:
   select from: "Nm" or "lb-ft".

Voice Commands

After pressing "Voice" soft-key the following modes will be available.

Voice Response Length

When in this display, you can change the voice response length settings. To change the voice response length, touch the "Brief" or "Detailed" soft-key.

Show Command List

When this feature is selected, it is possible to select options during a voice control session. Options for available controls are: "Always", "w/Help" or "Never".

Clock

Time is always visible on the dashboard analog clock and in digital format on the instrument cluster and on the MTC+ display.

With this feature it is possible to view and set the following modes.

Sync with GPS Time

Time is normally automatically synchronized with the radio signal. It is also possible to set automatic synchronization mode using GPS signal instead.

Set Time Hours

With "Sync with GPS Time" feature unchecked and this mode selected, you can set the hours manually from 1 to 24. To select, touch the "+" or "–" soft-keys to adjust the hours.

Set Time Minutes

With "Sync with GPS Time" feature unchecked and this mode selected, you can set the minutes manually from 0 to 59. To select, touch the "+" or "–" soft-keys as done for the hours.

Time Format

When in this mode, you can select the time format display. To change the current setting, touch and release the "12 Hrs" or "24 Hrs" soft-key.

Show Time In Status Bar

This feature will allow you to turn on or shut off the digital clock in the status bar.

Set Date in Cluster (DD/MM/YY)

When in this mode, you can set the date manually in the status bar of the MTC+ and on the instrument cluster display. Touch the "+" or "-" soft-keys to adjust "Day", "Month" and "Year".

Setting & Driving Assistant

NOTE:

For further details about this features, refer to Owner's Manual.

Touch this soft-key to set the following modes.

Forward Collision Warning

The Forward Collision Warning (FCW) feature provides an audible and/or visual warning in case of potential forward collisions. The feature can be set "On" or "Off".

Forward Collision Warning Sensitivity

This feature can be set to "Far", to "Medium" or to "Near". The default status of FCW is the "Far" setting. This means the system will warn you of a possible collision with the vehicle in front of you when you are farther away.
This gives you the most reaction time. To change the setting for more dynamic driving, select the "Near" setting. This warns you of a possible collision when you are much closer to the vehicle in front of you.

Forward Collision Warning Plus

The FCW system includes Advanced Brake Assist (ABA). When this feature is selected, the ABA applies additional brake pressure when the driver applies an insufficient brake pressure to avoid a potential frontal collision. The feature can be set "On" or "Off". The ABA system becomes active at 8 km/h (5 mph).

Lane Departure Warning

This feature sets the distance at which the steering wheel will provide feedback for potential lane departures. The feature can be set "On" or "Off".

Lane Departure Warning Sensitivity

This feature sets the sensitivity of the steering wheel feedback for potential lane departures.
The amount of directional torque the steering system can apply to the steering wheel to correct for vehicle lane departure can be set at "Low," "Medium" or "High."

Park Assist

The rear park assist system will scan for objects behind the vehicle when the

transmission shift lever is in R (Reverse) and the vehicle speed is less than 12 km/h (7.5 mph). The system can be enabled with "Sound" only, "Sound + Display", or turned "Off".

Front Sensors Active in Drive

If this feature is active, when driver takes shift lever to D (Drive), only the front parking sensors are activated. This feature is useful when driving in line to prevent that any vehicles behind are detected by the rear parking sensors.

Front Park Assist Chime Volume

When this feature is selected, the chime volume of front park assist sensors can be set to "Low", "Medium" or "High" level. "Medium" is the default setting. The system will retain its last known configuration state through ignition cycles.

Rear Park Assist Chime Volume

When this feature is selected, the chime volume of rear park assist sensors can be set to "Low", "Medium" or "High" level. "Medium" is the default setting. The system will retain its last known configuration state through ignition cycles.

Tilt Mirrors In Reverse

By selecting this feature the outside side-view mirrors will tilt downward when the ignition is in **RUN** position and the transmission shift lever is in R (Reverse) position. The mirrors will move back to their previous position when the transmission is shifted out of R (Reverse). The feature can be set "On" or "Off".

Blind Spot Alert

When this feature is selected, the Blind Spot Alert (BSA) feature can be set to "Off", "Led" or "Led + Chime" (default mode). When this feature is activated in "Led" mode, the system will only show a warning light in the outside mirrors. When "Led + Chime" mode is activated, the system will show a warning light in the outside mirrors as well as give an audible alert when the turn signal is on. When "Off" is selected, the system is deactivated.

Surround View Camera Delay

When activation occurs by pressing the "Surround View" button in the "Controls" screen, the initial view will be the default view (associated with current gear state). Image will be

displayed while in that gear as long as vehicle speed remains less than 12 km/h (8 mph). When vehicle is shifted into a different gear, the image will remain displayed for 10 seconds or until vehicle speed exceeds 12 km/h (8 mph), at which point it will immediately cancel and return to the last viewed screen. The feature can be set "On" or "Off".

Surround View Camera Guidelines

When this feature is selected, moving the shift lever in R (Reverse) position or pressing "Surround View" soft-key on MTC+ display appear active guidelines over the surround view camera display. The feature can be set "On" or "Off".

Rearview Camera

This vehicle can be equipped with a rear parking camera which allows to see an image of the rear surroundings of your vehicle whenever the shift lever is set in R (Reverse). The image will be displayed on the MTC+ display along with a caution note to check entire surroundings. The feature can be set "On" or "Off".

Rearview Camera Delay

By selecting this feature, when the shift lever is moved out of R (Reverse), the rear view image with dynamic grid lines will be displayed for up to 10 seconds after shifting unless the forward vehicle speed exceeds 12 km/h (8 mph), or the transmission is shifted into P (Park) or the ignition device is switched to the **OFF** position. The feature can be set "On" or "Off".

Rearview Camera Dynamic Guidelines

This feature allows you to see active guidelines over the rearview camera display whenever the shift lever is put into R (Reverse) position.
The image will be displayed on the MTC+ display along with a caution note to check entire surroundings across the top of the screen. After five seconds, this note will disappear.

Intermittent Wiper Options

By selecting this feature, the system will automatically activate the windshield wipers if it senses moisture on the windshield. The feature can be set "On" or "Off".

Hill Start Assist

This feature allows you to disable the HSA system. The feature can be set "On" or "Off".

Lights

Press the "Lights" soft-key to set the following modes.

Headlamp Off Delay

By selecting this feature, the driver can choose to have the headlamp off or lit for 30, 60, or 90 seconds when the engine is shut off. To change the current headlamp off delay status, touch and release the "0", "30", "60" or "90" soft-key to select the desired time range.

Illuminated Approach

By selecting this feature, the driver can choose to have the headlamp off or lit for 30, 60, or 90 seconds when the doors are unlocked with the key fob RKE transmitter.

Headlamp with Wipers

By selecting this feature, while the headlamp lever is in "AUTO" position, the headlamp will turn on approximately 10 seconds after the wipers are activated. The headlamp will also turn off when the wipers deactivate if they were activated in the current mode. The feature can be set "On" or "Off".

Automatic High Beams

By selecting this feature, the high beam headlamp will deactivate automatically under certain conditions. The feature can be set "On" or "Off". See Owner's Manual for further information.

Headlamp Drop (Traffic Changeover)

By selecting this feature, the headlights will change their luminous distribution when a left-hand-drive vehicle enter a Country with right-hand-drive system and vice versa. The feature can be set "On" or "Off".

Adaptive Front Lighting System

This feature allows you to enable or disable some functions of the

Adaptive Front Lighting System (AFS). The feature can be set "On" or "Off". See Owner's Manual for further information.

Doors & Locks

Press the "Doors & Locks" soft-key to set the following modes.

Auto Door Locks

When this feature is selected, all doors will automatically lock when the vehicle is in motion. The feature can be set "On" or "Off".

Auto Unlock Doors on Exit

By selecting this feature, all doors will unlock when the vehicle is stopped, the transmission is in P (Park) or N (Neutral) position and the driver's door is open. The feature can be set "On" or "Off".

Flash Lamps with Lock

By selecting this feature, the headlights will flash when the doors

are locked or unlocked with the key fob RKE transmitter or when using the Passive Entry feature.

Sound Horn with Remote Lock

When this feature is selected, the horn will sound when the doors are locked with the key fob RKE transmitter. You can choose from the following options: "Off" (no sound), "1st Press" (sound on the first press of the 🔒 button) and "2nd Press" (sound on the second press of the 🔒 button).

Sound Horn with Remote Start

When this feature is selected, the horn will sound when you use the key fob RKE transmitter to start the engine. The feature can be set "On" or "Off".

Remote Unlock Sequence

By selecting this feature you may set up only the driver's door or all doors mode will unlock on the first press of the key fob RKE transmitter 🔓 button. When "Driver Door" is selected, you must press the key fob RKE transmitter 🔓 button twice to unlock also the passenger's doors.
When unlock "All Doors" by first press selection mode, all doors will unlock on the first press of the key fob RKE transmitter 🔓 button.

If the vehicle is programmed on "1st Press of Key Fob Unlocks":

• all doors will unlock no matter which "Passive Entry" equipped door handle is grasped;

• only the driver's door will unlock when the driver's door is grasped;

• with "Passive Entry", touching the handle more than once will only result in the driver's door opening. If driver door first is selected, once the driver door is opened, the interior door lock/unlock switch can be used to unlock all doors (or use key fob RKE transmitter).

Passive Entry

This feature allows you to lock and unlock the vehicle door(s) without having to push the key fob RKE transmitter 🔒 or 🔓 buttons. By selecting this feature, "Passive Entry" may be set "On" or "Off". The default status is "On". With "Passive Entry" deactivated, also the "Pre-Short Drop" function is disabled (for further information, refer to "Bodywork Maintenance and Care" in section 7).

Personal Settings Linked to Key Fob

This selected mode enables to combine the key fob to personal driver's position settings. These Dashboard Instruments and Controls settings will be implemented when pressing the 🔒 button on the key fob RKE transmitter with ignition device in **RUN** position.

Power Liftgate Chime

When this feature is selected, further to turn indicators flashing, an acoustic warning will also be triggered when opening and closing the liftgate. The feature can be set "On" or "Off".

Hands Free Liftgate

To prevent from the accidental opening of the power liftgate/Hand free (optional) with the movement of the foot, it is possible to disable the "Hand Free" function. The feature can be set "On" or "Off". This operation is recommended when you have to wash the car.
For further information, refer to Owner's Manual.

Auto-On Comfort & Remote Start

This feature allows to activate the comfort of the driving seat when starting the engine.

Auto-on Driver Comfort System

By selecting this feature the driver's heated/vented seat and heated steering wheel (if foreseen) will automatically activate by temperatures below 4°C (40°F). When temperatures are above 26°C (80°F) the driver vented seat will turn on. You can choose from the following options: "Off" (no comfort functions active), "Remote Start" (activation of comfort functions when you use the key fob RKE transmitter to start the engine) and "All Starts" (activation of comfort functions when you start the engine in all modes).

Engine Off (Options)

This feature allows you to set some functions after turning off the engine.

Easy Exit Seat

When this feature is selected, the driver's seat will automatically move rearward once the engine is shut off. The feature can be set "On" or "Off".

Key Off Power Delay (Power duration after engine shutdown)

By selecting this feature, the power window switches, radio, MTC+ System, power sunroof (optional), and power outlets will remain active for up to 10 minutes after the ignition switch is cycled to **OFF**. Opening of one front door will cancel this feature.
The switch-off delay can be canceled (0 seconds) or choose from 45 seconds, 5 minutes or 10 minutes.

Headlamp Off Delay

By selecting this feature the headlamp will stay lit for up to 90 seconds after turning off the engine.
The switch-off delay can be canceled (0 seconds) or reduced to 60 or 30 seconds.

Air Suspension Auto Easy/Entry

Select this mode to automatically lower vehicle to minimum ground clearance when driver takes transmission to P (Park) to help entry into and exit from the vehicle and unloading of cargo from the boot compartment. The feature can be set "On" or "Off".

Suspension

This feature allows displaying and setting the following modes of the pneumatic suspension system.

Air Suspension Auto Easy/Entry

Select this mode to automatically lower vehicle to minimum ground clearance when driver takes transmission to P (Park) to help entry into and exit from the vehicle and unloading of cargo from the boot compartment. The feature can be set "On" or "Off".

Air Suspension Warning Messages Only

Select this mode to choose whether to display only warnings (option "On").

Tire Jack Mode/Stationary Auto Leveling

Select this mode to disable the pneumatic suspension to avoid automatic leveling, when vehicle must be lifted for changing a wheel or tire. The feature can be set "On" or "Off".

Transport Mode

Select this mode to lower the pneumatic suspension to minimum ride height and disable system operation to help vehicle loading and transport, for instance on the platform of a tow truck. The feature can be set "On" or "Off".

Wheel Alignment Mode

Select this mode to prevent automatic pneumatic suspension alignment when servicing suspension and/or steering parts. The feature can be set "On" or "Off".
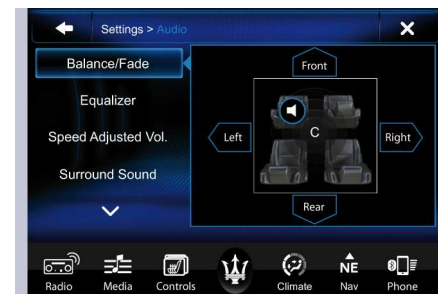

Audio

This feature enables to view and set the available audio modes depending on the type of audio system supplied on the car.
The following modes refer to the "High Premium" audio system.

Balance/Fade

Use this screen to adjust the balance and fade settings. Touch and drag the speaker icon, use the arrows to adjust, or tap the "C" icon to readjust to the centre.

Equalizer

Use this screen to adjust the "Bass", "Mid" and "Treble" settings. Adjust the settings with the "+" and "–" setting soft-keys or scroll and touch

the slider in any point on the scale between the "+" and "–" soft-keys.

Speed Adjusted Volume

This feature increases or decreases volume combined to vehicle speed. To change the speed adjusted volume touch the "Off", "1", "2" or "3" soft-key.

Surround Sound

This feature provides simulated surround sound mode. Available settings: "On" and "Off".

Clari-Fi

This function improves the audio quality by enhancing digitally compressed source files such as MP3 and AAC files and certain music tracks played by radio stations. In case of high-definition source files like the ones on a CD, Clari-Fi shall apply no enhancement. Clari-Fi intervention is completely automatic. The feature can be set "On" or "Off".

Auto Play

When a portable device is connected to MTC+ system, it plays automatically the songs if this feature is set "On".

Phone

Press this soft-key to select and connect phones and audio sources.

Do Not Disturb

Setting available for this feature:

• *Auto Reply*

To change the mode status, touch the "Text", "Call" or "Both" soft-key.

• *Auto Reply Message*

To change the mode status, touch the "Custom" or "Default" soft-key.

• *Customize Auto Reply Message*

This feature allows you to customize the "Auto Reply Message". Text messages are limited to 160 characters (key pad is not available while vehicle is it motion).

Paired Phones and Audio Device

By selecting this feature you will be notified which phones or which audio sources are combined to the Phone/Bluetooth system.
For each option, you can also add a device and change the PIN code of the device you wish to connect.

NOTE:

On the Maserati website, at www.maserati.com, or through the Maserati Service Network you may consult the list of telephones that are compatible with the MTC+, and their level of compatibility.

Radio Setup

Press the "Radio Setup" soft-key to set some listening options.

Traffic Announcements

By Selecting the FM type of frequency you may listen to traffic announcement information.

DAB Announcements

By selecting the frequency of digital broadcasting you may listen to traffic announcements.

DAB Announcements Categories

Selecting the frequency of digital broadcasting you can tune on an alternative frequency and the regional mode. These two features can set "On" or "Off". Digital radio extends

the selection of stations, adding also numerous specialty channels. It features the most modern reception technology and it is DAB+ compatible. Additional information are also shown in the display, such as the song title and the artist.

Restore Settings

When this feature is selected, it will reset the "Display", "Clock", "Audio", and "Radio Settings" to their default settings.
Run this feature and a pop-up will appear asking user to confirm default settings resetting. Select "Yes" to restore, or "Cancel" to exit. Once the settings are restored, a pop-up appears confirming that settings have been reset to default.

Clear Personal Data

When this feature is selected, it will remove personal data concerning settings and/or options that have been modified compared to factory settings and will also remove from system memory Bluetooth devices and presets.
To remove personal information, select this feature and a pop-up will appear asking confirmation to delete all personal data. Select "OK" to clear, or "Cancel" to exit. Once the data have been cleared, a pop up appears confirming that personal data have been cleared.
