2. How to Connect Devices

Click "Help" - "Connection Guide" in LOKLiK IdeaStudio to learn detailed USB or Bluetooth connection instructions.

(1) USB Connection :

Step 1: Ensure a 10-inch (25 cm) room behind your LOKLiK Crafter™；

Step 2: Power the machine on；

Step 3: Connect your LOKLiK Crafter™ to your computer via USB.

Notes：

If you are using USB Hub to connect, you may encounter the following situations:

The transmission speed may be slow if the hub connects multiple devices simultaneously;

The device may not work properly if the hub is incompatible with the devices.

(2) Bluetooth Connection :
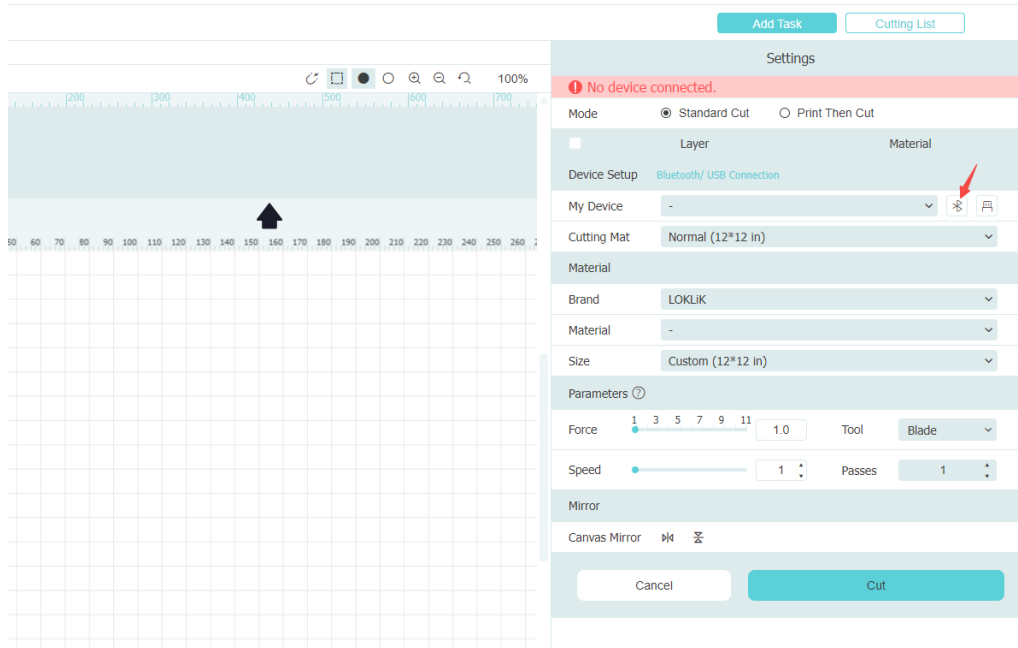

Step 1: Ensure a 10-inch (25 cm) room behind your LOKLiK

Crafter™；

Step 2: Power the machine on and place it within five meters of the computer；

Step 3: Check if there is Bluetooth and open it on your computer;

Step 4: Click "Bluetooth" in LOKLiK IdeaStudio；

Step 5: Connect the Bluetooth.

<mark>FAQs：</mark>

● **Cannot connect the machine via Bluetooth?**

Ensure your computer is capable of Bluetooth. For desktop computers, you need an external Bluetooth adapter. For laptops, you need to confirm that the Bluetooth switch is turned on;
Ensure the computer/laptop is within 5 meters of the LOKLiK Crafter™.

● **Cannot connect the machine via Bluetooth?**

Ensure the machine is powered on, Check whether there are other Bluetooth devices; try again after turning off the others, If you have further questions, please call our after-sales service number: +1 855-908-0870 (Available on weekdays from 4 a.m. -12 p.m.(PDT))

● **Cannot find Bluetooth on LOKLiK IdeaStudio?**

Click "Add Task", and there's the " ✳ " near "My Device".
Note: Please reconnect the Bluetooth if the computer or the LOKLiK Crafter™ is restarted.
