

## WHO IS BROADCOM?

You may not realize it, but you use Broadcom innovations every day. In fact, Broadcom technology powers the most complex IT environments in the world. We are a global infrastructure technology leader built on more than 50 years of innovation, collaboration, and engineering excellence.

*It's important to me that whether we're inventing the future through innovative R&D or co-creating new solutions with partners and users, Broadcom's focus is customer centricity.*

**Hock Tan**  
President and CEO  
of Broadcom

## CONNECTING EVERYTHING

Our technology connects people, homes, production processes, and businesses. It moves data around the world at scale—quickly and securely

More than  
**99%**  
of all internet traffic crosses through some type of Broadcom technology

Named  
**7<sup>th</sup>**  
biggest US technology company in 2023  
Source: Technology Magazine 3/22/23

**Powers** smartphones, broadband access, data center networking and industrial automation

**Enables** smartphone communication, internet access and GPS navigation

**Delivers** ultra-fast broadband connectivity to homes and devices, and **powers** home and office wireless networks

**Enables** factory automation, renewable energy and automotive electronics

**Enables** and **secures** service providers, data centers and the cloud to move and store data for everyday applications such as e-mail, social media and banking

**Connects** multiple devices across cable modems, set-top boxes, Wi-Fi routers and digital subscriber line (DSL) gateways to connect to the Internet, securely

**Protects** people, data, devices and applications from cyber threats, wherever they are

**Aligns** teams and provides the data transparency and capabilities needed to optimize efficiency, reduce waste, and foster trust between stakeholders.

## COMMITMENT TO R&D

We are an engineering-first technology company, focused on building world-class technology. Our commitment to R&D drives our growth, and our technology empowers the world's innovators to push the boundaries of new discoveries.

**27%** 27% annual increase in our R&D budget on a compounded annual rate since IPO in 2009

**\$5B** \$5B invested in R&D each year

**17K** 17,000 patents in FY22

**22** 22 category-leading semiconductor & infrastructure software divisions

**75%** 75% of employees are world-class engineers

## CONTINUOUS INNOVATION FOR OVER 50 YEARS

We have deep experience in powering digital transformations. Below are just a few examples of our industry firsts:

**1960**

Introduced the first commercially available light-emitting diode (LED) dot matrix displays

**1970**

Introduced the first fiber optic transmitters and receivers for data communications

**1978**

Introduced the first External Security Manager (ESM) for the mainframe, offering control of access and protection to mainframe apps and data

**1990**

Created the first single-chip DOCSIS cable modem to allow cable TV operators to provide Internet access

**1990**

Created the first FBAR technology to enable mobile devices to filter unwanted frequencies and support multiband wireless communications

**1980**

Introduced first SCSI controller, RAID, and Fibre Channel, leading to more than 40 Years of critical data protection for enterprise servers

**2007**

Launched the first Wi-Fi, Bluetooth and FM combo chip for mobile phones

**2010**

Shipped high-performance touch screen interface technology for smartphones and portable electronic communications devices

**2012**

Introduced the first Full-Band Capture all-digital TV tuner enabling design efficiency and scalable bandwidth to the satellite TV market

**2022**

Shipped Tomahawk 5, industry's highest bandwidth switch chip to accelerate AI/ML workloads

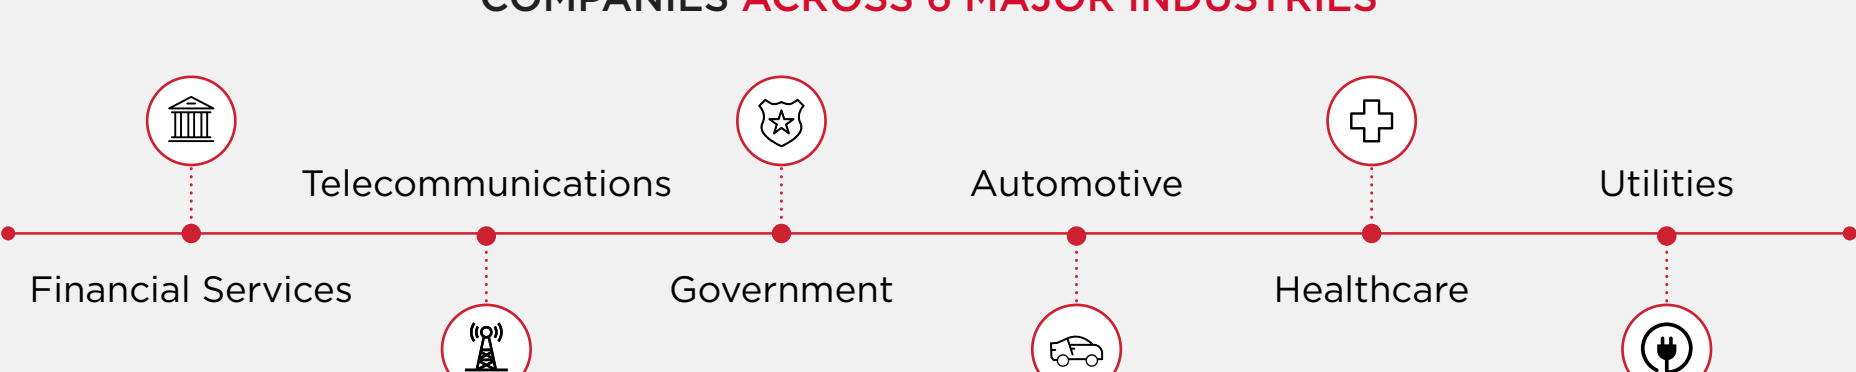

**2020**

Pioneered Adaptive Protection to maximize endpoint security

**2019**

Unveiled Automation.ai, the Industry's First AI-driven Platform that accelerates digital business decision-making

## WE ARE A TRUSTED PARTNER TO THE LARGEST GLOBAL COMPANIES ACROSS 6 MAJOR INDUSTRIES

## RECOGNIZED FOR OUR BUSINESS INNOVATION APPROACH

People recognize the responsible way we approach business.

**2022**  
Best Financially Managed Semiconductor Company Achieving Greater than \$1 Billion in Annual Sales

**2022**  
Most Responsible Companies

**2023**  
Most Responsible Companies

**2023**  
Most Trustworthy Companies

**2023**  
Greatest Workplaces for Job Starters

**As one of the world's leading infrastructure technology companies, we recognize our shared responsibility in combating climate change.**

We made a commitment to reduce our Scope 1 and Scope 2 greenhouse gas (GHG) emissions  
**by 38% across our operations by 2030**

In 2022, we recycled  
**over 48 metric tons**  
(100,000 lbs) of e-waste from our facilities globally

For **15 years** Broadcom engineers have  
**minimized both active and idle power consumption**  
that optimize mobile phone battery life
