
NuTone® iColor™ Collection of Medicine Cabinets Offers Eye-Popping Color Choices

Hartford, Wis., January 13, 2005 – For homeowners

looking to add a splash of color in their bathrooms, NuTone® introduces the new NuTone iColor™ Collection of Medicine Cabinets, according to Suzanne Loose, medicine cabinet product manager.

“A colorful medicine cabinet can really brighten up a smaller bathroom. The iColor Collection lets homeowners add color, incorporate new shades or complement existing colors in a bathroom simply by adding a medicine cabinet,” says Loose.

The iColor Collection is available in six bold hues including Fire Red, Sunburst Orange, Lemon Yellow, Racing Green, Cobalt Blue and Metallic Onyx. To ensure color durability, the steel cabinets feature a baked-on powder coat finish.

“Today’s homeowners want to express themselves in every aspect, in every room of their homes. The unique palette of six vivid colors in the iColor Collection lets homeowners

incorporate personal style and function,” says Loose.

In addition to their vibrant, playful appearance, the iColor Collection has several convenient features. Glass shelves are locked in place with snap-fit shelf supports. Rubber bumpers ensure that the door closes quietly and the cabinet can be mounted to allow for left- or right-hand door opening. One-hundred-and-seventy-degree concealed hinges allow for wide door opening and smooth operation. Interior mirrors on the back of the cabinet and inside the door add functionality.

The iColor Collection is available in 25-inch tall, five-inch deep models that can be surface-mounted or recessed. The exterior mirror is premium flat-front float glass that provides a deep rich reflection.
