

Key Features

- 1. Hygienic Steam cycle
- 2. BubbleStorm™
- 3. Heavy Duty+ cycle
- 4. Quick Wash cycle
- 5. Magic Filter
- 6. Vibration Reduction Technology
- 7. Tub Clean
- 8. SmartThings App enabled
- 9. Smart Check trouble-shooting
- 10. Soft-close glass door
- 11. 11 year Digital Inverter Warranty

Remove up to 99.9% of certain bacteria¹

Hygiene Steam cycle

Give clothes an intensive clean using hot water and steam. The Hygiene Steam cycle¹ washes at 60°C to sanitise clothes and help remove up to 99.9% of certain common bacteria² and stubborn stains³.

Fast, efficient wash

BubbleStorm™ Technology

Wash faster and more efficiently with BubbleStorm™ using a combination of three specialist functions. Active Bubble™ dissolves detergent to create rich bubbles for fast penetration, Dual Storm™ pulsator cleans efficiently with its powerful whirlpool action and Speed Spray™ helps reduce rinse time with high force water jets designed to quickly remove detergent from clothes⁴.

Tough stains be gone

Heavy Duty+ cycle

Enjoy highly concentrated detergent washing with the Heavy Duty+ cycle. It washes using less water than a regular cycle for an intense cleaning action to help remove stubborn stains.

Small loads in 31 mins⁵

Quick Wash cycle
Cut down on laundry time without sacrificing cleaning performance. The
Quick Wash cycle allows you to wash up to 2kg of laundry in 31 minutes so
you can spend less time on chores and more time doing the things you love.

SAMSUNG

Helps keep lint off clothes

Magic Filter

Keep unsightly speckles off your whites and darks and help prevent clogging up your drainage. Magic Filter with dual mesh effectively gathers lint and fluff during wash so clothes appear spotlessly clean. Clean-up is easy with 180° access to easily empty out the filter and help to keep it working efficiently.

Peaceful washing, less noise

Vibration Reduction Technology

Do your laundry when it suits you without worrying about disturbance. Innovative Vibration Reduction Technology helps reduce noise and vibration during washes⁶ by keeping the tub balanced, even at high speeds.

Easy maintenance

Tub Clean

Keep the door and inside of your top load washer fresh with Tub Clean, designed to help remove detergent residue and dirt build up inside the drum and around the door gasket without using any harsh chemicals. It even notifies you when its time to clean again!⁷

Laundry from your phone

SmartThings App

Laundry is easy with SmartThings⁸. Receive end of cycle alerts, start or stop your wash remotely, schedule cycles on your time, get recommendations on the best wash cycles for your clothes and much more – straight from your smartphone with the SmartThings app.

Easy trouble-shooting

Smart Check

The Smart Check error-monitoring system helps detect and diagnose problems for quick and easy troubleshooting solutions sent directly to your compatible smartphone⁹ to help save on laundry down-time or engineer call-outs.

Convenient Design

Premium Soft Close Door

Avoid loud bangs from the lid shutting unexpectedly. The Soft Close Door shuts safely, gently and silently with the help of a damper that is designed to automatically slow down movement of the lid. The clear tempered glass window allows you to monitor your wash without lifting the lid.

Peace of Mind

11 year parts warranty on the Digital Inverter Motor

Digital Inverter Technology uses strong magnets for a quiet and powerful performance. By eliminating the use of brushes, you'll enjoy a quieter wash¹⁰ without friction and outstanding durability backed-up by our 11 year warranty¹¹.

DISCLAIMERS

- . Available when washing laundry loads up to 5kg.
- Based on the Intertek test report for the Hygiene Steam course. Removes 99.9% of certain bacteria, including Staphylococcus aureus and Escherichia coli. Individual results may vary.
- 3. Based on internal testing. The optimal temperature may vary depending on the type and condition of dirt and stains.
- I. Based on third party testing when comparing individual soil/stain removal, BubbleStorm technology is statistically better or equal to liquid when comparing soil/stain removal at the same temperature.
- 5. The Quick Wash cycle can be adjusted for loads 2kg or less, with as little as 20 mins for a complete wash cycle for lightly soiled laundry.
- 6. Based on internal testing compared to Samsung model without VRT Technology.
- 7. Recommended for use every one or two months depending on frequency of use or when the alert icons turns on.
- 8. Available on Android, iOS devices. A Wi-Fi connection, a Samsung account and download of Samsung SmartThings app are required. Data charges may apply.
- 9. Available on compatible iPhones and Android devices. Service call-outs may be required and can incur extra repair costs. Bluetooth must be switched on.
- 10. The level of noise reduction is 3dBA in general. Based on internal testing of a WA6000R with a Digital Inverter Motor and a Rainno PJT with a Universal Motor. Results may vary depending on the actual usage conditions.
- 11. 11 year parts warranty on the invertor compressor. See warranty card or visit www.Samsung.com.au for details
