Benefits

- Tall aluminum fence with adjustable MDF face plates — 4 7/8 In. x 25 1/8 In. supports taller work pieces
- Rigid aluminum router mounting plate — stays flat and precise for accuracy and pre-drilled for a wide variety of routers
- Large 27 In. x 18 In. die-cast aluminum top — for job-site durability
- Easy-to-use featherboards — 2 adjustable featherboards to attach to fence and table, providing additional guidance and kickback protection
- Accessory slot accepts featherboard and 3/4 In. optional accessories such as miter gauge
- Dust collection port for standard 2-1/2 In. vacuum hoses
- Storage pocket for holding router accessories
- Cord wrap storage
