The lightning flash with arrowhead, within an equilateral triangle, is intended to alert the user to the presence of uninstalled "dangerous voltage" within the product's enclosure. This voltage may be of sufficient magnitude to constitute a risk of electric shock to persons.

**CAUTION:**  
TO PREVENT THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

### IMPORTANT SAFETY INSTRUCTIONS

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use this apparatus near water.
6. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
7. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
8. Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong is provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
9. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
10. Only use attachments/accessories specified by the manufacturer.
11. Unplug this apparatus during lightning storms or when unused for long periods of time.
12. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

## Site Preparation

In determining the location for your Megatouch Gametime™ video game, consideration must be given to a suitable, grounded electrical outlet. Since the game is a computerized device, it should be connected to a separate grounded circuit. If a separate circuit is not available, care should be taken to provide a clean and constant voltage. As a basic guideline, never connect the unit to a circuit that also supplies power to freezers, coolers or other high power consuming and electrical noise-generating equipment. Place the game in a location where nothing will interfere with proper ventilation. The game should not be exposed to any dripping or splashing liquids. Objects filled with liquid should not be placed on the unit.

**WARNING - To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture. The power cord on the rear of the unit is the disconnect device and must remain readily accessible after installation.**

## Setting up your Game

1. After removing the game from the carton, plug the game into a standard AC outlet.

**NOTE: All packaging materials should be retained in the event the game needs to be sent in for service.**

2. Turn the power switch at the back of the game to ON and wait for completion of the boot-up sequence. The game will display the Player Menu Screen.
3. The machine has been preset at the factory and therefore should not need to be adjusted; however, it is recommended that the screen be calibrated (see **Touchscreen Calibration**).
4. There are many custom settings available for the game. To customize the settings, follow the software instructions in this manual.

FIGURE 1 - REAR VIEW

## Game Description

The Megatouch Gametime unit has an Ethernet coupler installed in the rear of the game (see Figure 1). The coupler can be used for broadband Internet connection or linking two or more games together for head-to-head play. The game also has a wireless adapter which can be used to automatically wirelessly link to another game or wirelessly connect to a broadband Internet connection (this requires the purchase of an 802.11 wireless router). An optional keyboard upgrade is also available for purchase through your local authorized dealer (part number: KAV-100-014-01). The keyboard allows you to easily type text in a Web browser. There is also a centronics connector on the back of the game which is used for future software upgrades.

## Control Board Compartment

The control board compartment is located at the rear of the game (see Figures 1 and 2). Loosen the two thumbscrews to open the compartment. The buttons on the control board are explained below.

### SETUP

Press **SETUP** to access the software options. These options are explained in the software section of this manual. If **SETUP** is pressed during boot-up, the on-screen DIP switch program will launch. Consult the **DIP SWITCH SETTINGS** section of this manual for more information.

### CALIBRATE

Pressing the **CALIBRATE** button will take you through the steps to calibrate the touchscreen. This is sometimes necessary if the touchscreen is not responding properly to touch. See **Touchscreen Calibration** for detailed instructions.

### MONITOR CONTROLS

The five buttons labeled Auto, Exit, Left, Right, and Menu adjust the monitor settings. See **Monitor Adjustment Procedure** for detailed instructions of each button.

## General Care and Maintenance

### Touchscreen Calibration

- Press the **CALIBRATE** button, located in the control board compartment (see Figure 2). Touch the center of the first cross that appears on the screen. Once you release your finger, a second cross will appear.

**NOTE: You must hold your finger on the circle for approximately 2 seconds for the calibration to be recognized.**

- Touch the center of the second cross that appears on the screen.
- Once the second cross is touched and released, another cross will appear on the screen. To test the calibration of the screen, touch the cross with your finger and slowly drag your finger around the screen. The cross should follow your movement.
- Touch the **EXIT** button, then perform the operation a second time for high resolution.

FIGURE 2 - CONTROL BOARD DRAWING

### Monitor Adjustment Procedure

The vertical/horizontal controls and brightness/contrast controls are located on the control board (see Figure 2).

Pressing the button labeled **Menu** on the control board will show an on-screen display of the monitor settings. Use the Left and Right buttons to move through the menu. Touch **Menu** to select the option you want to change. Use the Left and Right buttons to change the option. Then press **Menu** again to deselect the option. **Auto** will automatically adjust the size and brightness. Touch the **Exit** button to exit. Adjust the monitor controls until the screens look as suggested in the following steps:

1. Set the game to the Checkerz game screen.
2. Adjust the vertical and horizontal size and vertical and horizontal position to make sure that the game screen fills the monitor screen and that the game screen is centered.
3. Adjust the brightness and contrast controls until the top sets of checkers are a rich red and the bottom set are a dark gray. The feet on the "Checkerz" character should be white. (Adjusting the brightness and contrast can also correct a lack of sharpness.)

### Cleaning the Cabinet

- The cabinet should be cleaned with a dry cloth and mild detergent. Always apply the cleaner to the cloth and not directly on the game. Liquids could enter the cabinet and damage electronics inside.

### Cleaning the Touchscreen Monitor

- The touchscreen glass should be cleaned with a damp cloth and isopropyl alcohol or a *non-ammonia* cleanser. *Do not use any abrasive or vinegar-based cleansers, as they will damage the touchscreen glass.* Always apply the cleaner to the cloth and not directly to the glass. Liquids could enter the cabinet and damage electronics inside.

**NOTE: DO NOT USE ANY ABRASIVE SOLVENTS, ACID OR VINEGAR-BASED CLEANSERS ON THE TOUCHSCREEN OR SIDE DECALS. SUCH CLEANSERS COULD HARM THE TOUCHSCREEN AND ERASE THE DECALS. BE CAREFUL NOT TO USE COMMERCIAL CLEANERS CONTAINING ANY OF THESE SUBSTANCES.**

### Cleaning the Fans and Vents

- The fans and vents should be cleaned of any dust and grime on a regular basis to ensure proper ventilation of the game.
- To ensure proper operation of the game, it is important that all fans are operating correctly and that the airflow is unobstructed. Make sure nothing is placed next to the fan vents that would inhibit the flow of air. Also, if any fans are not operating, it is important that the game be sent in for service.

### Watchdog Timer

This game has been equipped with a feature that allows it to automatically reboot if it encounters a problem. When the watchdog timer is enabled, it will reboot the machine within 2 minutes after a failure, allowing the game to automatically reset itself if a problem arises without needing a technician present.

### Eigentumsvorbehalt der Software

1. Das beiliegende Merit®-Produkt, welches das Megatouch® Softwareprogramm („Software“) beinhalten kann, aber nicht darauf beschränkt ist, und die schriftlichen Unterlagen sind Eigentum des Lizenzgebers und sind durch die Gesetze der Vereinigten Staaten und anderer Länder und durch internationale Verträge urheberrechtlich geschützt.

### Beschränkungen im Gebrauch und Transfer

2. Sollte diese Softwarelieferung mehrere Medien enthalten (z.B. CD, Karten, Festplatten usw.), dürfen Sie nur die für Ihre Maschine angebrachte Medienart verwenden. Die anderen Medienarten dürfen nicht auf anderen Maschinen verwendet werden oder an Dritte übergeben werden, abgesehen von einem endgültigen Transfer der Software und aller schriftlichen Unterlagen (wie im untenstehenden Paragraphen 4 beschrieben).
3. Sie dürfen nur eine Sicherungskopie der Software herstellen. Unter keinen Umständen dürfen Sie einen Softwaresicherungsschlüssel oder Sicherungsmaßnahmen kopieren oder davon Sicherungskopien herstellen.
4. Sie dürfen das Nutzungsrecht für die Software und die schriftlichen Unterlagen (einschließlich der aktuellen Version und aller vorhergehenden Versionen) an Dritte übertragen, wenn Sie keine Kopie behalten und wenn der Empfänger die Bestimmungen dieses Abkommens in schriftlicher Form akzeptiert. Bei einem solchen Transfer der Lizenz an Dritte erlischt Ihre Lizenz umgehend. Abgesehen von den Bestimmungen dieses Paragraphen sind alle anderen Transfers oder Übertragungen der Nutzungsrechte für diese Software unerlaubt.
5. Sie dürfen die Software nicht benutzen oder eine Nutzung gestatten, wenn eine solche Nutzung der Software irgendwelche Gesetze und Verordnungen der kommunalen oder staatlichen Behörden verletzen würde. Sie verpflichten sich die Software nicht so zu nutzen oder nutzen zu lassen, dass sie damit gegen staatliche, Bundes- oder Lokalgesetze oder Bestimmungen der USA oder gegen ausländische Gesetze oder Bestimmungen, einschliesslich aller Gesetze bezüglich Glücksspiels, Spielens oder geistigen Eigentumsrechts der Software, verstossen.
6. Es ist Ihnen nicht gestattet, die Software abzuändern, zu verändern, zu übersetzen, rückumzuwandeln, zu dekompileieren oder zu zerlegen, oder aus der Software oder eines Teils davon andere Werke abzuleiten. Sie dürfen auch aus der Software, einem Bestandteil der Software oder aus den Datenausgaben der Software keine Hinweise, Bemerkungen, Ratschläge, Wasserzeichen oder andere Markierungen entfernen, verändern, verbergen oder auf andere Art unlesbar machen.
7. Sie akzeptieren, dass die Software und die Urheberschaft, die Systeme, die Ideen, Erfindungen, die Arbeitsweisen, die Dokumentation und alle anderen darin enthaltenen Informationen und alle Versionen, Veränderungen, und Bearbeitungen davon das geistige Eigentum des Lizenzgebers sind, und dass sie durch Straf- und Zivilgesetzgebung und durch die Copyright-, Geschäftsgeheimnis-, Warenzeichen- und die Patentgesetze der Vereinigten Staaten und anderer Länder geschützt sind.

### Beschränkte Garantie

8. Der Lizenzgeber garantiert zu Ihren Gunsten, dass die Software für die angegebene normale Garanzzeit des Lizenzgebers nach Ihrer Annahme der Software in erheblicher Übereinstimmung mit der beiliegenden Dokumentation laufen wird.

### Verpflichtung des Lizenzgebers im Rahmen der Garantie

9. Die ausschließliche Pflicht des Lizenzgebers im Rahmen der vorstehenden Garantie besteht darin, alle geschäftlich vertretbaren Schritte zu unternehmen, um Teile der Software zu berichtigen oder abzuändern, bis sie mit der beiliegenden Dokumentation erheblich übereinstimmen.
