

SX 2600  
AIR CONDITIONER

UP TO  
**16 SEER**

**KeepRite®**

*This KeepRite® air conditioner comes with the newest cooling technology and quality components to give you the ultimate in climate control. You get outstanding quiet, maximum energy cost savings, and exceptional warranties to assure you of long-lasting satisfaction.*

### Relax in the quiet.

*What makes the KeepRite SX 2600 run so quietly? It's all in the details.*

When even the cabinet screws are coated, you know this air conditioner has been built with extra care. The clean lines outside are matched inside with the latest technical advances. Additions such as a compressor shell enclosure and sound blanket, aerodynamic top, and two-speed fan motor all contribute to the quiet operation.

### Let years go by.

*This air conditioner lets you take durability for granted.*

The scroll compressor has fewer moving parts to last longer. A filter drier removes moisture and debris that can damage the refrigeration system. The appliance-grade paint finish of the cabinet holds up to the weather.

### Add up the savings.

*A high efficiency rating means your energy bills go down and stay down.*

SEER<sup>†</sup> is the industry term for rating efficiency. Older units have lower efficiency standards. With the up to 16 SEER rating\* for this air conditioner, you could save up to 37% compared to an older 10 SEER unit!

<sup>†</sup>SEER stands for Seasonal Energy Efficiency Ratio.

\*16 SEER rating when paired with select indoor equipment.

### Stay protected.

*We've added our No Hassle Replacement™ limited warranty to give you extra security.*

KeepRite units are backed by exceptional warranties, including our No Hassle Replacement™ limited warranty, which gives the original purchaser a one-time replacement unit if the compressor or outdoor coil should fail due to defect within the first five years. You also get a 10 year parts limited warranty upon timely registration.\*

\*Limited warranty period is 5 years for parts if not registered within 90 days of installation. Jurisdictions where warranty benefits cannot be conditioned on registration will receive the registered limited warranty periods. Please see warranty certificate for further details and restrictions.

Timely registration required. See warranty certificate for details.

## SX 2600 AIR CONDITIONER

### 1 Quiet

The scroll compressor operates without noisy pistons and has a sound blanket to reduce compressor sound levels.

### 2 Durable

The painted, galvanized steel cabinet features a powder-coat, baked-on finish and a coated inlet grille with narrower spacing to provide maximum protection as it allows for proper airflow and easy coil cleaning.

### 3 Efficient

The scroll compressor and the 7 mm copper tubing with aluminum fin coils increase efficiency for greater energy savings.

### 4 Aerodynamic

The aerodynamic air discharge design reduces operating sound, and the two-speed fan motor operates most of the time on the quieter, lower speed.

### 5 Service Friendly

Comfort Alert® diagnostic system and Plug & Play feature simplify wiring and make servicing faster and easier.

Keep warm, keep cool with KeepRite systems. Since heating and cooling systems are designed to work together, it is strongly recommended that you have your dealer install both at the same time for optimum efficiency, savings, and comfort.

- a. Humidifier enhances comfort by reducing dryness in the air.
- b. Air Cleaner filters out many indoor air pollutants so the air in your home is cleaner.
- c. Set-Back Thermostat allows you to customize heating and cooling levels and also save energy.
- d. Furnace is designed for maximum comfort and high efficiency and built rugged for years of operation.
- e. Air Conditioner keeps your home cool and comfortable.
- f. Evaporator/Indoor Coil, to match your KeepRite air conditioner and furnace, assures you of optimum performance.
- g. UV Lights help prevent the growth of microbes on the coils.

The best choice for your home.

† Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet ENERGY STAR® criteria. Ask your contractor for details or visit [www.energystar.gov](http://www.energystar.gov).

♦ For information regarding furnace or fan coil options that can increase the energy efficiency of selected 13 and 14 SEER KeepRite air conditioners (SEER) and heat pumps (SEER and HSPF), go to [KeepRite.com](http://KeepRite.com) and look for "Energy Savings" on the menu.

‡ Timely registration required for 10 year parts limited warranty. Limited warranty period is 5 years for parts if not registered within 90 days of installation. Jurisdictions where warranty benefits cannot be conditioned on registration will receive the registered limited warranty periods. Please see warranty certificate for further details and restrictions.

† 16 SEER rating when paired with select indoor equipment.
