

NotePAC III Pro

Triple display system with rugged laptop form factor and an optional battery.

Unique Form Factor

The NotePAC Pro keeps the powerful performance and integrity of our portable computers while adopting a unique and different design. It utilizes a more notebook-style form factor for a very compact yet versatile design.

Compact Triple Displays

Unlike some of our other triple display units like the MegaPAC L3, the NotePAC manages to remain compact. Because of its design, it sacrifices a bit of power to maintain its compact nature.
