BENEFITS

Understanding new capacity and energy ratings
From the 15th August 2021, the way refrigerators are tested to calculate Energy Star Ratings and energy consumption have changed. This means that the capacity and energy rating calculations have changed, however the product remains unchanged. Be sure to check all new ratings to ensure that your comparisons are consistent with the new standards.

Adjustable solutions with FlexStor™
As your family changes and grows, so do the requirements of your fridge. With FlexStor™ you enjoy the convenience of being able to easily change the configuration, whatever your needs. Adjust the height and position of the door bins to fit in large and smaller items and arrange your fridge your way.

Humidity controlled crisper
Offers an ideal environment for preserving fruit and vegetables, as well as having a removable crisper front for easy cleaning

Twist ice and Serve
Whether its for an afternoon juice or a whisky on the rocks, the easy to access bin ensures you always have ice to hand. Just fill the tray, freeze, then twist. Ice when you need it

Easy to clean with glass shelves

Glass shelves improve visibility and are easy to clean

Dimensions

Minimum Recommended Airspaces

If you have a cupboard above the refrigerator with a rear gap of less than 100mm (Y), recommended minimum clearance at the top of the refrigerator increases from 50mm to 100mm (X).

Please note: Doors are designed to sit proud of cabinetry (not flush).

When positioned in a corner area, spacing of at least 350mm on the hinge side will allow the doors to open enough to enable the removal of bins and shelves.

Front face of bench aligned to front corner edge of cabinet.
