# **D-Link Quick Installation Guide**

This product can be set up using any current web browser, i.e., Internet Explorer 5x, Netscape Navigator 4x.

**DI-604** 

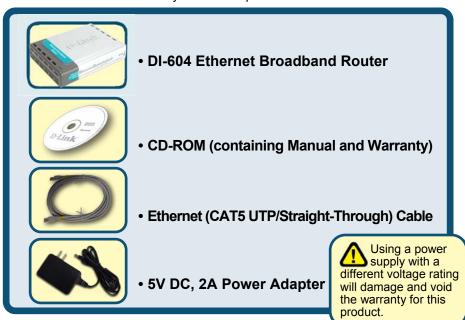

Express EtherNetwork™ Broadband Router

### **Before You Begin**

- 1. If you purchased this router to share your high-speed Internet connection with other computers, you must have either an Ethernet-based Cable or a DSL modem with an established Internet account from an Internet Service Provider (ISP).
- 2. It's best to use the same computer that is connected to your modem for configuring the DI-604 router. The DI-604 Router acts as a DHCP server and will assign all the necessary IP address information on your network. See Appendix at the end of this Quick Installation Guide or the Manual on the CD-ROM for setting each network adapter to automatically obtain an IP address.

### **Check Your Package Contents**

These are the items included with your DI-604 purchase:

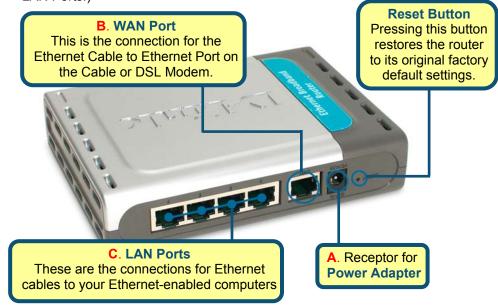

If any of the above items are missing, please contact your reseller.

## Connecting The DI-604 Broadband Router To Your Network

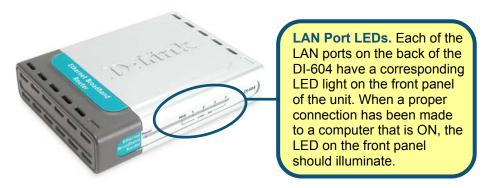

- A. First, connect the power adapter to the receptor at the back panel of the DI-604 and then plug the other end of the power adapter to a wall outlet or power strip. The Power LED will turn ON to indicate proper operation.
- **B.** 1. Power off your Cable or DSL modem; some devices may not have a on/off switch and will require you to unplug the power adapter. Now, the DI-604 should be powered on and the Cable / DSL modem should be turned off.
  - 2. Cable / DSL modem (Power Off) DI-604 (Power On)
    Connect an Ethernet cable to the Ethernet jack located on the Cable / DSL modem. After the Ethernet cable is securely connected, power on the Cable / DSL modem by turning on the unit or plugging in the power adapter.
  - 3. Cable / DSL modem (Power On) DI-604 (Power On) Insert the other end of the Ethernet cable to the WAN PORT on the back panel of the DI-604. The WAN LED light will illuminate to indicate proper connection. If the WAN LED is not illuminated, please go back and step B and repeat its instructions.
- C. Insert an Ethernet cable to LAN port 1 on the back panel of the DI-604 and an available Ethernet port on the network adapter in the computer you will use to configure the DI-604. The LED light for LAN Port 1 will illuminate to indicate proper connection. (Note: The LAN Ports on the DI-604 are Auto-MDI/MDIX. Meaning you can use a straight-through or crossover-Ethernet cable to the LAN Ports.)

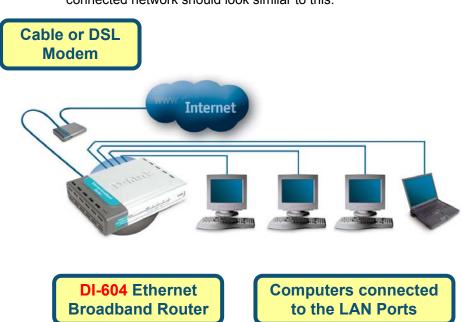

## **Connecting Additional Computers To The DI-604 Broadband Router**

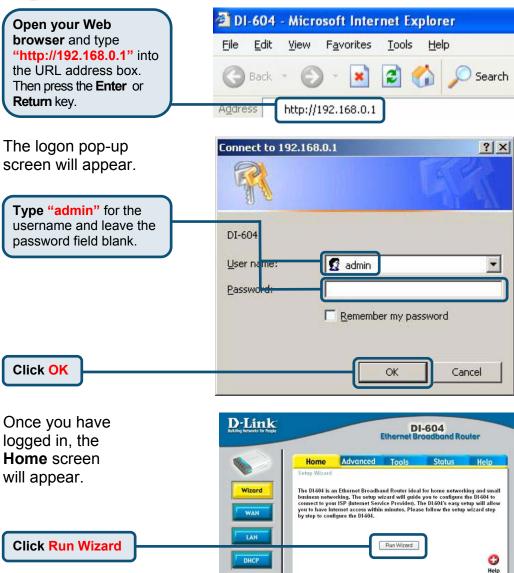

Using additional Ethernet (CAT5 UTP/Straight-Through) cables, connect your Ethernet-equipped computer(s) to one of the 3 remaining Ethernet LAN ports on the back panel of the DI-604.

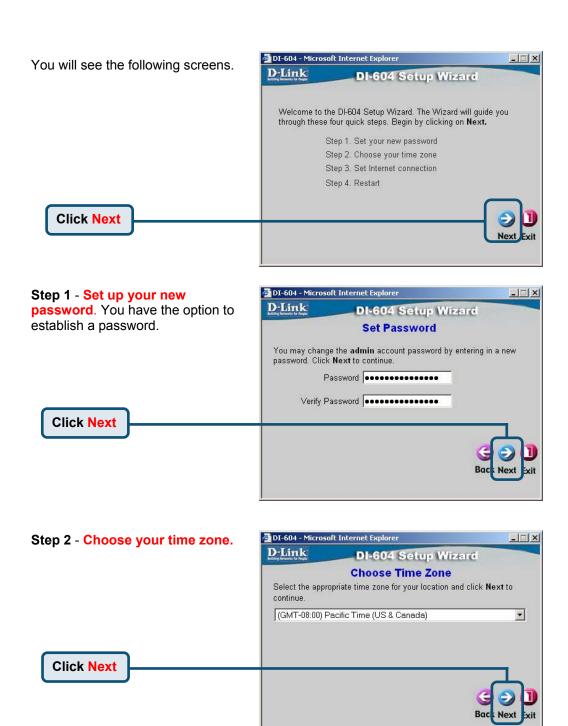

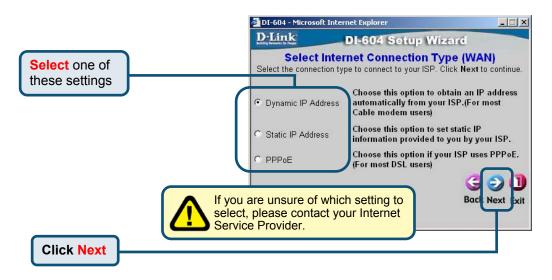

When you have completed the steps in this *Quick Installation Guide*, your connected network should look similar to this:

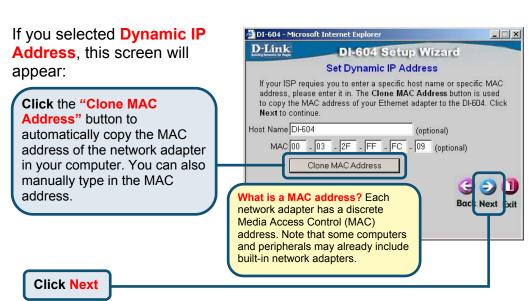

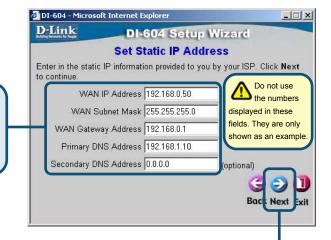

If your ISP requires a **Static IP Address**, and this option is selected, then this screen will appear:

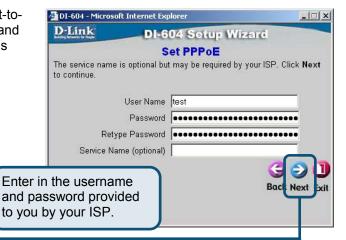

Enter the IP address information originally provided to you by your ISP. You will need to complete all the required fields.

#### **Click Next**

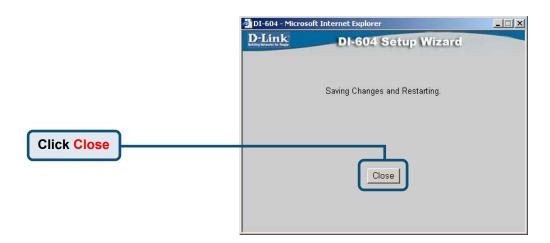

If your ISP uses **PPPoE** (Point-to-Point Protocol over Ethernet) and this option is selected, then this screen will appear:

Please be sure to remove any existing PPPoE client software installed on your computers.

Click Next

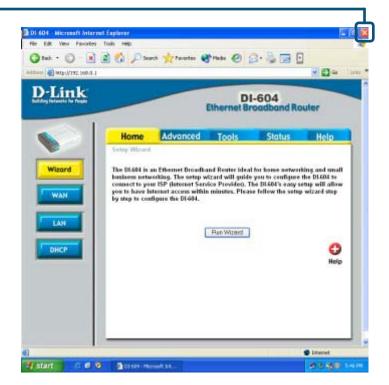

You will be returned to the **Home** tab.

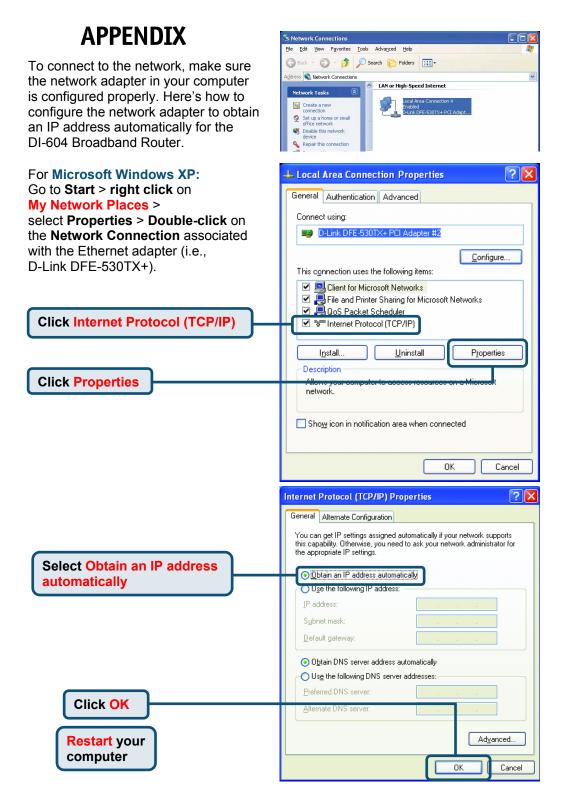

## **Test Your Internet Connection**

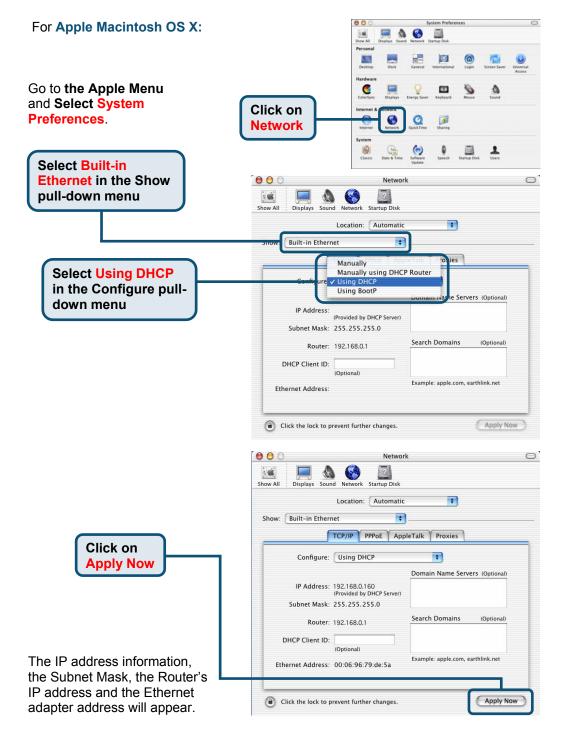

**Relaunch** your Web browser (i.e., *Internet Explorer* or *Netscape Navigator*), to link to your favorite Web site to test your Internet connection.

For additional settings or information, refer to the **Advanced**, **Tools**, **or Status** tabs on the web-management interface; or to the manual located on the CD-ROM.

### **Technical Support**

You can find software updates and user documentation on the D-Link website.

D-Link provides free technical support for customers within the United States and within Canada for the duration of the warranty period on this product.

U.S. and Canadian customers can contact D-Link technical support through our website, or by phone.

#### Tech Support for customers within the United States:

**D-Link Technical Support over the Telephone:** (877) 453-5465 24 hours a day, seven days a week.

**D-Link Technical Support over the Internet:** http://support.dlink.com email:support@dlink.com

#### Tech Support for customers within Canada:

**D-Link Technical Support over the Telephone:** (800) 361-5265 Monday to Friday 8:30am to 9:00pm EST

**D-Link Technical Support over the Internet:** http://support.dlink.ca email:support@dlink.ca
