

COOL INDOOR COMFORT

Ion System
Models CVA9, C4A7T, C4A6S

COMFORT WITH CONFIDENCE

Choose KeepRite heating and cooling equipment so you can enjoy comfort with confidence. Our products deliver exceptional quality, reliability and energy efficiency, backed by time-tested engineering and leading-edge manufacturing. Every unit we make passes a performance check in all phases of operation before it leaves our facility. We call this 100% run testing, and it's one more example of how KeepRite goes the extra mile for your satisfaction.

WHAT MATTERS IN AN AIR CONDITIONER?

ENERGY SAVINGS

SEER2 (Seasonal Energy Efficiency Ratio) measures the cooling efficiency of an air conditioner during an average cooling season. EER2 (Energy Efficiency Ratio) measures cooling efficiency of an air conditioner at a set temperature (95° F). For both ratings, the higher the number, the greater the potential for energy savings. Most Ion System air conditioners offer ENERGY STAR® qualified performance with efficiencies as high as 19 SEER2 and 12.5 EER2.

CONSISTENT COMFORT

Two-stage/two-speed and variable-speed models with SmartSense™ technology automatically select the proper cooling stage and compressor and fan speed as needed. These models better match changing conditions to provide more uniform comfort and higher energy efficiency than standard models.

CONVENIENCE

For the ultimate of comfort, efficiency, and convenience, include the Ion communicating wall control with Wi-Fi® capability in your system.

QUIET OPERATION

Enjoy comfort AND quiet – our outdoor units include compressor sound jackets for quieter performance, and our variable-speed models reduce sound even more with nearly continuous stretches of low-stage operation.

PEACE OF MIND

Rest easy with a 10-year parts limited warranty upon timely registration. And, our Ion System products provide additional peace of mind with our No Hassle Replacement limited warranty™.

WHAT SETS KEEPRITE ION AIR CONDITIONERS APART?

Smooth Operation – The multi-speed fan motor (CVA9 only) is designed to operate most of the time at the quieter, lower speed. Aerodynamic air discharge design reduces operating sounds.

Durable – The painted, galvanized steel cabinet features a powder-coat, baked-on finish and narrower grille spacing to provide exceptional protection, proper airflow and easy coil cleaning.

Quiet – The two-stage scroll compressor (C4A7T only) is designed to operate most of the time at the quieter, lower stage. As outdoor temperatures rise and additional cooling is required, it changes over to high-stage operation. A deluxe sound blanket also reduces compressor sound levels.

**Ion System
Air Conditioner**

Efficient – The scroll compressor and the 7 mm welded aluminum fin coils work collectively to save on energy.

Ion System Control – Ion System air conditioners can be teamed with our innovative Ion System communicating control, offering full-color touch screen technology. They can also be matched with KeepRite communicating gas furnaces and fan coils to create exceptional efficiency and complete comfort.

EXCEPTIONAL PEACE OF MIND

Our No Hassle Replacement limited warranty backs every KeepRite Ion System product. It means comfort with no questions. We'll replace your unit if the compressor or coil fails within the covered period.* This provides extra coverage in addition to a 10-year parts limited warranty.**

COMPONENTS OF A COMPLETE KEEPRITE SYSTEM

We offer a complete family of products designed to provide year-round comfort, control and efficiency. A KeepRite split-system air conditioner is a properly matched combination of an outdoor air conditioner and a separate indoor unit such as a natural gas, oil, propane or electric furnace or a fan coil. Your KeepRite dealer can help create a properly matched system to best fit your needs and your budget.

Ion System Control

Pair with our communicating indoor or outdoor units and zoning system for a complete Ion™ Comfort System.

Gas Furnace

Provides efficient, reliable heating for lasting comfort and potential energy savings.

Fan Coil

Works with your outdoor unit to efficiently deliver comfortable air throughout your home.

Evaporator Coil

Matches to the proper outdoor unit to provide more cooling efficiency and years of reliable service.

Air Purifier

Our patented Captures and Kills® technology treats 100% of the air flowing through your system.+

+ Based on third-party testing (2012) showing 95% of particles size 1.0 to 3.0 microns captured. Based on third-party testing (2012, 2007) showing > 99% kill rate for common cold surrogate, Streptococcus pyogenes and human influenza.

ION SYSTEM AIR CONDITIONERS

Our Ion System air conditioners can deliver cool, calm relief from soaring outdoor temperatures. From our exceptionally quiet and humidity-controlling variable-speed models with SmartSense technology to our single- and two-stage models that offer dependable comfort during warm weather, KeepRite Ion System air conditioners include features like available variable-speed scroll compressors, available multi-speed fan motors, and sound-reducing components and designs. Regardless of which model is right for you, we have an air conditioner for every home.
