TRANSPORT - DELIVERY COST IS INCLUDED*

Delivery service is available Australia wide at our usual courier cost (**Excluding some remote areas). Due to size and weight, please allow extra time for road transport delivery. Instructions included.

19" 6RU VERTICAL WALL MOUNT RACK CABINET

SPACE SAVING WALL MOUNT CABINET OPENS VERTICALLY

The 19" vertical drop down wall mount rack system offers a compact and secure enclosure for deploying rack mounted equipment. The space saving 6RU wall cabinet is only 305mm in depth, which means it is well suited for an environment where space is a constraint. It has a solid lockable metal door which you can unlock and pull down to access the equipment. There are two vents at the top for mounting optional fans to improve cooling. Cable entry from the top and bottom of the wall rack. Earth studs are located at the top and bottom of the cabinet. Powder coated finish. Includes cage nuts for installation. 40kg maximum loading capacity. Outside: 600x600x350mm. 6RU Rack 450x531x285mm.

Premium Heavy Duty Rack Cabinet

800MM WIDE HEAVY DUTY SERVER RACK CABINET - 42U - 1200 KG

EXTRA WIDE 800MM - GRILL FRONT AND BARN BACK DOORS

The 42RU 800mm wide heavy duty server cabinet is designed to provide a professional, easy to use and flexible solution to customers and installers. The server is made with SPCC cold rolled steel and is capable of withstanding up to 1200kg maximum load. The server rack is built around the universal 19" standard to deliver compatibility with most common networking equipment on the market. It has a stylish arc vented front door and a vented double door at the back. There is also a fan tray at the top of the server for installing optional fans if needed. Easy to remove front (reversible) and back barn doors, plus removable side panels (Lock optional) provide excellent access flexibility for installers working in the cabinet. There are several lockable wiring access holes at the top for cable management. Accessories include 40 set of cage nuts, 3 fixed shelves, 4x cabinet feet, 4x castors, 1x 15 way vertical PDU and 1x 4 fan tray (Note: Fans are sold separately).

CABLE TIDY - ELSAFE CABLE CLEATS®

The Elsafe Cable Cleat® is a cost effective cable management solution, it can be easily installed to the underside of a desk with a low clearance area, hides unsightly cabling while providing accessibility by lifting the outer fingers to move and change the cables as needed. The double Cable Cleat® can manage your power and data cables by also keeping them separate.

10 PIECE PACK

PATHWAY CABLE BASKETS

TRAVEL CABLES HORIZONTALLY

Durable steel with white powder coated finish. Each basket requires a pair of white moulded PATHWAY BRACKETS (sold separately) to allow the cable tray to be quickly fitted to the underside of a desk top or to a panel. Innovative features such as twin cable retaining slots in each bracket, and the ability to snap brackets together to double stack PATHWAY sections allow the power and data cable to separate from each other.

Introducing an expanded range of superior quality PDUs. ProLink
PDUs are locally manufactured in Australia with 1.2mm mild steel and
black-ripple powder coat for a durable and professional finish.
Individually hand wired outlets ensure that your power supply
is safe and reliable. Their neat and tidy design saves you space in your installation.
Designed specifically for use in 19 rack enclosures with the highest standards of
quality expected by the IT Industry. Protected by thermal, thermal-magnetic or
hydraulic-magnetic circuit breakers, with a unique shroud to prevent accidental
operation. This range of PDUs are built to comply with AS/NZS 3100:2009.

5 YEAR MANUFACTURERS WARRANTY
A large range and customisation options are available to meet your specific requirements.

prolink PREMIUM SERIES

ASSEMBLED IN AUSTRALIA
5 YEAR WARRANTY

5x IEC C13 OUTLETS PDU - 1RU

DETACHABLE CORD TYPE WITH BUILT-IN CIRCUIT BREAKER

Power rail with 5x IEC C13 outlets. 10A thermal magnetic circuit
breaker or 15A hydraulic magnetic CB. Requires inlet power lead.

Output	Input	Amps	Fuse	Length	Code
5x C13	10A C14 Socket	10A	Thermal Magnetic	480mm	RPH500
5x C13	15A C20 Socket	15A	Hydraulic Magnetic	480mm	RPH501

ASSEMBLED IN AUSTRALIA 5 YEAR WARRANTY — **prolink** PREMIUM SERIES

IEC Input:
Requires AC Lead
See "Input" for type

IEC-LOCK

GUARDS AGAINST ACCIDENTAL DISCONNECTION OF MAINS POWER

Unique 'Patented' female C13 socket, suitable for use with any standard IEC C14 connector
Protects computer, medical and other important equipment from accidental disconnection
Ideal for protecting appliances that are vulnerable to vibration or accidental movement
Suitable for various critical mains powered appliances that require a secure power source

www.IECLock.com

LOCKING PIN
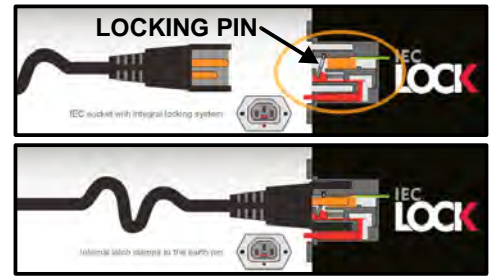

IEC-LOCK 8x C13 OUTLETS PDU - 1RU

WITH BUILT-IN THERMAL MAGNETIC CIRCUIT BREAKER

Power rail with 8x IEC-Lock C13 outlets to prevent accidental
disconnection. 10A thermal magnetic circuit breaker.
Requires a C13 type power lead.

☐ AC Power Strips - Intelligent Controlled

VERTICAL INTELLIGENT POWER RAIL WITH 33 WAY GPO + IEC-LOCK C13

18 way 10A GPO outlets and 15 way 10A IEC-Lock C13 outlets PDU. Thermal circuit breaker.
Vertical mount. Size: 55x100x1780mm
High capacity 2.5 metres 3x2.5mm² power cable to 15A C20 plug, 15A GPO or Captive plug.
Includes: ethernet, RS485, USB-RS232, Temp/Humidity and Sensor Port, I/O port etc.
Allows monitoring of current, power, input voltage, frequency, temperature and door.
Enables the configuration of the delay setting of sequential switching to prevent potential
supply overload, switching on and off of power outlets plus other features (see manual).
Set alarms for outlet current limits, temperature/humidity limits, smoke, water, door, etc.
Includes easy to use management software for front display control or TCP/IP remote control.

PDU DISTRIBUTION POWER RAILS - POWERSHIELD

POWER DISTRIBUTION UNITS

Expands outlets from UPS in the Rack.
Metal encased durable construction.
Inbuilt 10A Resettable thermal fuse.
6 Way 1RU. 10 Way 2RU. Horizontal.
10A Mains plug in a 2M lead.
All AC Sockets 10A GPO.

Output	6x GPO	10x GPO
Code	PDU6WAY	PDU10WAY

PDU REMOTE MAINS POWER MANAGER - POWERSHIELD

RPM - REMOTE POWER MANAGER

RPM is a network manageable, intelligent power control unit designed to provide control of power to up to 8 electrical devices. This power nerve centre gives you control over your electrical devices either through a network connection, model dial-up or a telephone. Once connected you can reset, power up/down the devices, and much more…

Support TCP/IP, SNMP, HTTP, SMTP, PPP, SNTP, TELNET protocol.
Connect using 10/100mbps Ethernet, Modem dial-up or a phone.
Safe power up, down or rebooting from any land or cell phone.
Individually control each of the eight AC receptacles
Anywhere in the world using standard Web Browser.
Remote and individually reboots locked up servers.
Sequentially apply power to equipment connected.
Customized TRAP & E-mail notification to Receive daily/event alerts.
Remote setup support via IP remotely through telnet commands.
"Master" can extend to more "Slaves" to control up to 128 devices.
Environmental Monitoring capabilities (Humidity, Temperature, Smoke, Motion, etc) with NetFeeler Lite (optional add-on)

PDU AUTOMATIC TRANSFER MAINS POWER SWITCH - POWERSHIELD

The PowerShield Automatic Transfer Switch (ATS) is designed with two independent power inlets to supply power to the load from a primary or secondary power source. Should the primary power source fail, the secondary will automatically supply power to the connected equipment. The transfer time from one power source to the other is seamless to the connected equipment. After switching to a secondary power source, the ATS can also switch power back to the primary input when power to the primary input is restored. The PowerShield ATS is designed to provide redundancy using a "break before make" technology. This means that in the event of a short-circuit on one of the power sources, the fault will not be able to affect the alternative power source. This switch ensures that power is transferred from one source or the other, never an overlap that may affect reliability. In the unlikely event of a fault in the ATS power supply, the ATS continues to supply from the remaining available source.

Critical load (server) has reliability of two independent power sources
Ideal for ensuring reliable power to critical devices
User selectable power source from front panel
Dual power supply for redundancy
Provides seamless power switch for IT equipment
Highly reliable 19" (1RU) rack design
Built-in USB and RS232
AS400 dry contacts included
SNMP remote monitoring option available
Two year warranty

□ UPS Power 12Vdc

12V 36W DC IN-LINE MINI UPS

BACKUP POWER SOLUTION FOR MODEM / ROUTER / SECURITY SYSTEM ETC

This mini UPS uninterruptible power supply is suitable for use as a backup power source for security monitoring system, CCTV cameras, emergency lighting, alarm system, modems, routers, switches, access points and more. This UPS includes a 3000mAh Li-ion battery. It supports 12Vdc input and 12Vdc 3A output. It has a 5.5x2.1mm DC input socket and a 5.5x2.1mm DC output plug. 4 LED indicators show power and charging status. This UPS features overcurrent protection.

Voltage	12Vdc
Iout	3A max.
Input	2.1mm DC socket
Output	2.1mm DC plug
Capacity	3000mAh
Code	UPS12V3A-2XP

□ UPS PowerShield

UPS POWERSHIELD

AUSTRALIAN DESIGNED FOR AUSTRALIAN CONDITIONS

A key challenge in the 21st century is the distribution and conservation of power. A challenge brought on by the increasing electrical requirements of sophisticated systems as those used in data centres, security, telecommunications, your business. This increasing demand puts undue strain on the electrical grid to maintain supply. This can lead to surges and spikes on the line, brownouts, power sags, line noise, harmonic distortions, frequency drift and even total power failure. Such problems can prove to be debilitating to businesses. PowerShield is the Australian company which understands Australia's power problems and has been instrumental in solving them for thousands of businesses since its inception in the year 2000.

www.powershield.com.au

POWERSHIELD DC MINI UPS 18W

12VDC OUTPUT - 18W (1.5A)

The PowerShield DC Mini is designed to provide emergency power backup to all kinds of DC powered equipment including routers, modems (including fibre optic - ONT), VOIP phone systems, surveillance equipment, alarm systems and many critical telecommunications devices. The DC Mini can economically provide hours of operation during power failure. The mini UPS includes a complete set of DC power tip adaptors allowing simple connection to all devices using DC powered jack sockets.

Built in replaceable Li-ion battery
Surge Protection 125 J @ 4500A
Auto start when plugged in
Embedded Micro-controller
Multi-colour indicator
Manual power off switch port
Overload, short-circuit, over-charge
& over-discharge protection
Size: 78x42x74mm

Model	DC Mini
Power	18W
Time	120min/9W
Battery	12V 2.6AH
Size	78x74x42mm
Weight	280g
Code	PSMINI1218

VOLTGUARD - POWERSHIELD

AVR - PROTECTS FROM BROWNOUTS AND OVER VOLTAGE

The PowerShield VoltGuard AVR will automatically maintain a constant voltage level to protect sensitive electronics from brownouts and over voltages. This cost effective compact device will provide a constantly regulated output voltage ensuring that your sensitive electronic equipment is always receiving voltage within an acceptable range. Furthermore, this VoltGuard also has included as standard, over voltage and under voltage protection which will turn off the supply to your equipment when the utility voltage moves out of the safe range. The VoltGuard also provides surge protection to protect against transients. Ideal for office equipment, PCs, home theatre and other valuable, voltage sensitive electronics.

Very wide input voltage range
Excellent output voltage stability
Includes surge and spike suppression
Extremely fast response
Provides over-voltage & under-voltage protection
Provides over-temperature and overload protection
Stylish enclosure with Australian outlet sockets

Model	Voltguard
Power	750W
Size	180x95x119mm
Weight	2.0Kg
Code	PSVG1500

UPS SAFEGUARD

AUTO VOLTAGE REGULATION WITH BATTERY BACKUP

Provides a buffer between your equipment and inconsistent mains. This cost effective, compact device constantly stands guard beside your sensitive equipment. AVR (Automatic Voltage Regulation). Anytime a power fluctuation occurs, this UPS will buck or boost the power within a ten percent variance of 240Vac. Provides three outlets of surge suppressed battery backup to keep essential systems running through power outages. It also provides three surge protected sockets for non-essential equipment. User-replaceable batteries.

Model	SafeGuard
Capacity	750VA
Power	450W
Time	2.5min/450W
Battery	12V 9AH
Switch	6ms
Size	200x290x90mm
Weight	7.0Kg
Code	PSG750

Automatic Voltage Regulation (Buck and Boost)
Light-weight compact and elegantly designed
Intelligent microprocessor control
Monitoring and shutdown software included
Fax/modem/LAN surge suppression port
Overload protection and alarm
Output short circuit protection
Start on battery function (cold start)
Easy user replaceable battery
Australian/New Zealand approved sockets
Fast charging - 90% in 4 hours
USB communication
Wall mountable

UPS DEFENDER

AVR - LINE INTERACTIVE

The Defender range uses Automatic Voltage Regulation (AVR) to minimise the effects of fluctuations in input voltage protecting your valuable equipment from power line disturbances. LCD display, user replaceable batteries and six AC sockets makes the Defender the complete package at this level.

Excellent microprocessor control guarantees high reliability
Australian outlets for UPS and Surge protection (x3)
Australian outlets for Surge protection (x3)
Boost and buck AVR for voltage stabilization
User replaceable batteries
Silent Operation (No fans included)
Auto restart while AC is recovering
Off-mode charging and Cold start function
USB communication with sophisticated NetGuard® software

POWERSHIELD COMMANDER PSCM

PURE SINE WAVE LINE INTERACTIVE AVR

The Powershield Commander Uninterruptible Power Supply (UPS) provides mains like pure sine wave for powering devices with less heat generation and high efficiency. Besides providing Automatic Voltage. Regulation (AVR) it also provides for a Pure Sine Wave output while in backup mode. Perfect for servers, motor driven equipment and sensitive equipment requiring a perfect sinewave to operate correctly in both regular and battery back up modes. Fitted with IEC outlets and RJ11 phone line surge protection. The front panel features an LCD providing real time battery management, showing battery and equipment load levels. It also features audible alarm and a host of safety features including discharge, overcharge, short circuit, overheat and overload protection. Includes management software to suit most operating systems.

Pure Sine Wave Output
Output Power Factor 0.9
Free, programmable Power Management
Ultra Modern, Informative LCD – Shows Battery Time Remaining
ECO Mode
Smart AVR
Emergency Power Off Function
Multiple Communication: Optional faster SNMP Card available

Model	Commander PSCM	Commander PSCM
Capacity	1100VA	2000VA

Weight	13Kg	20Kg
Code	PSCM1100	PSCM2000

UPS COMMANDER RT

AVR - LINE INTERACTIVE PURE SINE WAVE WITH BATTERIES

With pure sine wave output, the Commander Rack mount Tower guarantees compatibility for all kinds of loads. It's perfect power protection for versatile applications such as networking, telecom and other mission-critical applications. The ECO mode function allows cost-effective operation of UPS Systems as high as 98%. In this operation mode, load is supplied by the mains. In the event of a mains failure, the inverter takes over the load and provides supply continuity to the connected systems. To provide longer backup time the 2kVA and 3kVA models are expandable to include an additional battery bank. Multiple communication available; USB, RS232, SNMP (Optional). Control software included.

Pure sine wave output
Built-in boost and buck AVR
Output power factor 0.8
Programmable power management outlets
ECO mode operation for energy saving (ECO)
Emergency Power Off Function (EPO)
Hot-swappable battery design
Long-run models / battery extenders available
Rack Mount or Tower free standing

UPS CENTURION

DOUBLE-CONVERSION TYPE WITH BATTERIES

As a True Online Double-conversion UPS, the UPS takes the AC signal, converts it to DC and then back to AC, thus eliminating any noise or electrical interference and delivering perfect 240Vac and 50Hz frequency to all equipment and will continue to feed in the case of a mains failure. Programmable sockets on the back so that the user may get more backup on more critical equipment.

True Online Double Conversion
Wide input voltage range (110-300 VAC)
Input power factor correction 0.98
50Hz/60Hz frequency converter mode
Programmable power outlets
Emergency power off function (EPO)
Optional Eco-mode operation for energy saving
Generator compatible
Backup time extended by simply plugging additional battery banks
Battery banks are with internal charger
USB, RS232, SNMP and AS400 multiple communications available
N+X parallel redundancy available for 6K/10K models
Monitoring and Shutdown Software included

UPS CENTURION RT

DOUBLE-CONVERSION TYPE - SEPARATE BATTERY BANK REQUIRED

As a True Online Double-conversion UPS, the UPS takes the AC signal, converts it to DC and then back to AC, thus eliminating any noise or electrical interference and delivering perfect 240Vac and 50Hz frequency to all equipment and will continue to feed in the case of a mains failure. Programmable sockets on the back so that the user may get extended backup on critical equipment. The optional "L" version is for "Long Run" has no internal batteries and instead has an increased power charger for up to 10 external Battery Banks.

True double-conversion
Output power factor 0.9
User-friendly and easy-shift LCD display
Rack or Tower design
ECO and advanced ECO mode for energy saving
Output voltage regulation ± 1%
Generator compatible
Programmable power management outlets
Emergency Power Off function (EPO)
Hot swappable battery design
Available in 1000, 2000 and 3000 VA models
Ideal for medium density power protection
USB, RS232, SNMP and AS400 multiple comms'

UPS CENTURION RACK

TRUE ONLINE DOUBLE CONVERSION. RACKMOUNT. NO BATTERIES BUT INCLUDES LARGE 4AMP INTERNAL CHARGER

In applications where only limited three phase power is available yet a large single phase power supply is necessary, the PowerShield® Centurion 3/1 Rack ticks all the boxes. Recommended in applications where a balanced load is required, the Centurion 3/1 Rack Series has all of the feature of the Centurion range with the added ability of accepting three phase power to its input. Like the Centurion range, the 3/1 Rack range boasts the same User friendly LCD display that allows the operator to interrogate and program the UPS on the front panel as well as with the included software. The Centurion 3/1 Rack UPS will accommodate any standard 19 inch rack.

True double-conversion
True double-conversion
DSP technology guarantees high performance
Output powerfactor 0.8
Wide input voltage range (110-300Vac)
Active power factor correction in all phases
Built-in phase auto adapt function simplifies wire installation
50Hz/60Hz converter mode auto select
Eco mode operation for energy saving (ECO)
Emergency power off function (EPO)
Generator compatible
USB, RS-232 as standard
Intelligent slot for PSSNMP or PSModbus or PSAS400
3-stage extendable charging design for optimized battery performance
Adjustable battery numbers
Optional N+X parallel redundancy

☐ UPS Powerware Eaton

EATON 5E UPS

The Eaton 5E line interactive uninterruptable power system (UPS) provides affordable power protection for your personal computers, home, office, business telephony, routers, point of sale equipment and other electronic devices. While packed with valuable features such as AU/NZ power receptacles and USB communications, the compact size is ideal for limited office and home working spaces.

Automatic Voltage Regulation (AVR) stabilises fluctuating power sources
Microprocessor control design ensures high reliability
2x AU/NZ power outlets allowing easy equipment connection
User replaceable batteries allow easy maintenance
Start-on-battery provides portable power capability (Cold-start)
Batteries are always on charge (even when the UPS is turned off but mains is present)
HID-compliant USB port, for automatic integration with Windows®/macOS®/Linux®
Companion software pre-empt shuts down computer applications prior to battery depletion
No fan, perfect for deployment at an operators workstation, where fan noise can be an issue
Typical backup time: (20min for 1 PC, 8 min for 2PCs), this figure may vary with equipment.

Power	Watt	Size	Input	Output	Weight	Code
850VA	480W	148x100x288mm	1x power main	2x AC outlets	5.1kg	5E850IUSB-AU

EATON 3S UPS POWER BOARD

COMPACT FOR HOME, OFFICE & ENTERTAINMENT SYSTEM 600VA - 850VA

Eaton 3S is a single phase UPS designed for providing power and surge protection for desktop computers, wireless networks, gaming consoles, entertainment system and other critical equipment in your home or business. In the event of a total blackout, the unit provides sufficient battery backup time to last through most power outages or let you save your work and shut down your computer or devices without losing your data. 8x AC power plugs, this includes 4x AU outlets with battery backup and surge protection and 4x AU outlets for surge protection only. In addition, the higher capacity Eaton 3S 850 features built-in phone/DSL line protection and 2x USB charging ports (5V 2A max). For a typical high spec gaming PC, the Eaton 3S 600 should be able to power your computer offline for 6 minutes, while the Eaton 3S 850 should be able to power your computer for around 9 minutes.

Attractive compact powerboard design makes the 3S a perfect fit for the office or home environment, under the desk or on the wall.
10A circuit breaker protection 240Vac input and 8x standard AC power outlets.
HID-compliant USB port (cable supplied), for automatic integration with common operating systems (Windows®/Mac® OS/Linux) for auto save and shutdown
4 Outlets with battery backup and surge protection and 4 Outlets with surge protection.
Phone/xDSL line protection and 2x USB charging ports available for 3S 850.
Easy-to-replace battery helps to extend UPS service life

Power	Size	Weight	Code
600VA	86X140X325mm	3.2Kg	3S600AU
850VA	86x170x335mm	4.3Kg	3S850AU

EATON 5S UPS COMPACT

The Eaton 5S UPS provides cost-effective line-interactive backup power and voltage regulation for small to medium businesses with workstations, Desktop PCs, Telephone equipment and POS applications. With a compact form factor, the 5S UPS can physically fit most situations. Automatic battery check assures confidence in future operation. Voltage fluctuations are automatically corrected using an AVR device with booster/fader control. Also provides effective protection against rapid spikes, damaging surges and brown-out voltage drops. Inbuilt RJ45 surge arrester for phone or internet/ethernet protection. Optional LCD display. Optional Eco-Control feature.

Software Power Management: Ensure safe system shutdown with the Eaton UPS Companion software for when you are absent (Windows®, Macintosh® and Linux compatible)
Convenient form factor: Fit the 5S easily into tight spaces with its compact size. Use as a tower or as a desktop monitor stand
Provide surge protection for network, phone, etc. (RJ45)
Battery health check: Schedule daily, weekly or monthly health checks to verify battery performance and ensure that it delivers power during the next outage for your personal assurance
LCD display: UPS status information including battery time and outage tracking (Models 5S1200AU & 5S1600AU Only)
Eco-Control: Save up to 30 percent on energy consumption. Shuts down peripherals when the computer is turned off. Feature is menu selectable. 5S1200AU & 5S1600AU Only
3 AC Outlets for Battery backup. 1 AC Outlet not backup
All outlets are surge protected. 10A Thermal resettable fuse
Easy-to-replace battery helps to extend UPS service life

EATON 5SC UPS PRO GRADE

AFFORDABLE AND RELIABLE SOLUTIONS FOR SERVER PROTECTION 500VA - 1500VA

Eaton 5SC UPS provides line-interactive, affordable and reliable protection for small business servers. It includes an LCD interface for real-time status and measurements, and provides sinewave output for compatibility with today's most sensitive IT equipment.

LCD interface shows clearly key status information
AVR: Automatic Voltage Regulation with Booster & Fader
Pure Sinewave output in battery mode for clean AC supply (compatible with modern Server power supply, Active PFC)
Adjustable input waveform sensitivity to adapt the UPS to a specific environment (like Genset, Power Generator)
Multiple parameters adjustable directly via menu LCD and more through the included Eaton power control software (overload alarm, energy saving, restart battery level, etc.)
1 Serial port + 1 USB port (HID compliant) for automatic integration into major OS (Windows®/MacOS®/Linux)
Reliable, long-lasting UPS with patented Advanced Battery Management (ABM®) technology that only recharges the battery when necessary, service life is prolonged by up to 50%
Replaceable battery from front panel for rapid maintenance
Eaton Intelligent Power Protector (IPP) delivered as standard, can be used as point to point power management (USB/Serial) or Network based using IPP as a proxy.
Small size (mini-tower) for easy integration even with space constraints (kiosks, ATM, ticket machines, etc.)

REPLACEABLE BATTERY

EATON 5P UPS RACKMOUNT 1RU

ADVANCED POWER MANAGEMENT & PROTECTION FOR SERVERS AND NETWORK EQUIPMENT 850VA - 1150VA

The Eaton 5P is a Line interactive, density optimised power protection for the IT & Telecom environment. Advanced power management capabilities offering point-to-point and remote network supervision.

The graphical LCD display provides clear information on the UPS's status and measurements on a single screen (in seven languages). Enhanced configuration capabilities are also available with easy-to-use navigation keys.
Meters energy consumption and provides kWh values through the LCD and Intelligent Power® Software.
Load segment control enables prioritised shutdowns of nonessential equipment to maximise battery runtime for critical devices. Load segment control can also be used to remotely reboot locked-up network equipment or to manage scheduled shutdowns and sequential start-ups.
The 5P offers Serial and USB connectivity, plus an extra slot for an optional communication card (including SNMP/Web card or relay contact card).
Eaton's Intelligent Power® Software Suite compatible with all major OS including virtualisation software such as VMware and Hyper-V is included with each UPS.
With an optimised electrical design, the 5P can provide up to 98% efficiency, contributing to lower cooling and utility costs, prolonging service life reliability.
When operating in battery mode the 5P provides a high quality output pure sinewave for sensitive equipment, such as active PFC (power factor corrected) servers
1RU Rack mount form factor with front battery access for easy maintenance
Batteries can be hot-swapped without having to shut down connected equipment
Eaton ABM® battery management technology uses an innovative three-stage charging technique that only recharges the battery when necessary, so the battery experiences less corrosion and service life is prolonged by up to 50%
Two (or three) Battery Backup protected IEC Outlets
Two (or three) APM remotely switchable IEC Outlets

HIGH PRECISION OPTICAL FIBRE CLEAVER

FOR PRODUCING PERFECT FLAT FIBRE END FACE

Fibre optic cleaver is used to cut the fibreglass for fusion splicing, also
ideal for preparing fibre for pre-polished connectors to make a good
end face, and it is very important in the fibre splicing process, usually it
works together with the fusion splicer to meet the end needs.

CAT6 UTP ULTRA-THIN PATCH CABLES IN COLOUR

ONLY 3.5MM IN DIAMETER

3.5mm cables developed for high density patch panel use. Cuts down on the bulk whilst maintaining Category 6 gigabit performance.
8 Pin RJ45 Male to 8 Pin RJ45 Male. Backwards compatible with Cat5e. Snag-less plugs. Short strain relief. Reliable quality.

Ultra thin diameter: 3.5mm
100% copper conductors
T568A configuration
Fitted with Category 6 compliant RJ plug
Fully moulded strain-relief boot
Snagless flush moulded boots
ISO/IEC 11801 Category 6
TIA/EIA-568-C.2 Category 6 compliant
LSZH Low Smoke Zero Halogen

CAT7 ULTRA THIN STP ETHERNET PATCH CABLE

SUPPORTS 10-GIGABIT ETHERNET

4mm cables developed for high density patch panel use. Cuts down on the bulk whilst maintaining Category 7 10-Gigabit performance. 8 Pin RJ45 Male to 8 Pin RJ45 Male. All pairs are individually shielded with aluminium mylar. Supports PoE/PoE+ for up to 10M. Backwards compatible with Cat5e/6. Snag-less plugs. Short strain relief. Reliable quality.

CAT6 UTP PATCH CABLES - INDIVIDUALLY CERTIFIED

**INDIVIDUALLY FLUKE DTX-1800 TESTED WITH PRINT OUT**

Category 6 specification Gigabit Ethernet Network provides extended performance 250MHz bandwidth Gigabit. Also used for extra-long runs while maintaining high speed. Tested and Austel Approved TIA/EIA-568-B.1-2001 30V 1.5A max. rated cable "Snagless" RJ45 Plugs Moulded strain relief 50µ Gold plated contacts. Each cable has been individually tested by a Fluke DTX-1800 Cable Analyser with a print-out of the results supplied so that you are assured that each lead does indeed meet your customers required specification.

SHIELDED CABLE

☐ CAT6A Leads

CAT6A SSTP / SFTP PATCH CABLES 10GB

10GBase-T SHIELDED SSTP, SFTP, STP, STP PiMF

CAT6A (CAT6 Augmented) cable supports the higher frequencies required for 10G Ethernet and fully backwards compatible with CAT6 and CAT5e. All of our CAT6A cables are double shielded and fully screened to ensure immunity from Alien Crosstalk, EMI and other external interference and are specified up to frequencies of 500Mhz.

SSTP (Screened Shielded Twisted Pair) or SFTP (Screened Foiled Twisted Pair) cabling offer shielding between the pair sets and an overall sheath shield within the 100 Ohm twisted pair cable.

CAT7 FLAT ETHERNET CABLE SHIELDED STP 10GbE

Edimax CAT7 shielded snagless patch cables are designed to meet and exceed the requirements for the next generation 10GBASE-T applications. The Edimax CAT7 cabling system provides an End to End solution that provides a guaranteed 600 Mhz of usable bandwidth. The cable is terminated with 2 RJ45 connectors, shielded, 50 micron gold plated, and features integrated strain relief for greater durability. The slim and flat design allows the cable to slide under the carpet without raising it or showing that it is under there to improve your home or office. Available in black and white and length from 1M to 20M.

CAT7 4 pair STP 100% bare copper.
8P8C gold plated connector (50µm)
10 Gigabit transmission rate
Backward compatible with CAT5e, 6, 6A

6.5mmØ	10x10	KJ6-99

□ CAT5/6 Plugs Crimp EZ Through

EZ THROUGH TYPE CRIMPING - A NEW EASIER CRIMPING SOLUTION

EZ Through Type RJ45 CAT5e & CAT6 connectors offer an easy, fast and confident termination action with an improved electrical connection. EZ Through Type connectors simplify terminations by allowing the wires to be inserted straight through the connector and out the front. This allows easy identification to confirm correct and affirmative cable wire positioning prior to crimping for a secure and confident work flow. Improved connection with the cable jacket sitting tightly in the rear of the connector, meaning a better contact and the twist rate is maximised. Simply strip the cable using the HT346 EZ crimping tool, sort the wires into order and insert through the RJ45 CAT5e or CAT6 EZ connector. Finally crimp down for a perfect connection every time. Crimps the Jacket for secure cable hold. Optional cable strain boots are now available.

|				
Start EZ Through plug and cable preparation by inserting the OP-TIONAL cable boot.	Using the HT346 crimp tool for EZ Through Type plugs.	Strip off cable jacket using a wire stripper.	Cut and remove the spine and draw cord leaving the wires only.	Un-twist and place wires FLAT and in correct order.
Push the cable through so the wires protrude and the cable jacket is well within the shell for clamping.	Insert the OPTIONAL cable strain relief boot prior to crimping.	Insert the now assembled plug into the HT346 firmly.	Close the tool crimping the plug and cable until the excess wires are cut and ejected.	Inspect that all connectors are crimped and that the cable jacket is secured by the internal plug clamp.

CRIMPING TOOL - EZ THROUGH TYPE

This ratchet crimping tool is designed to cut, strip and terminate extended copper wires with precision from EZ-RJ45 and EZ-RJ11/12 connectors. Perfect to use with CAT5 and CAT6 STP and UTP cables. The ratchet mechanism allows you to make clean, consistent and repeatable terminations. You can also use this crimping tool to cut and strip wires, giving you essentially 3 tools in one.

Short/Open/ Crossover, etc. BNC (Base10) & USB (A-B) RJ11 Modem/Phone cable RJ45 CAT5 Network UTP/STP each wire (8+) is tested individually & conclusively. Includes pouch. 145x85x25mm

Code
FT68BU

Requires 9V Battery

CABLES NOT INCLUDED

NETWORK CABLE TESTER

**LCD CABLE TESTER WITH 8 LOCATION DONGLES**

Network cable tester is a powerful tool to solve cable installation problems. The tester has a number of tests such as cable connection sequence, cable length reading, user-jumper identified and cable connection for continuity and determine any open circuit, short or cross-talk interference. Check wiring error in coax, CAT5e, CAT6e and telephone lines (adaptors req.). Includes 8 dongles, numbered and each with buzzer to identify cable tested for locating ease.
• Length measurement of twin twisted cable: Scope: 1350M.
• Calibration accuracy: 3% [+/- 0.5m]
• Locating cable: 8 pieces far-end passive test jacks [ID 1 to ID 8]
• Tester port: RJ45 meter port and RJ45 Loopback port
• 8 pieces far-end recogniser RJ45 port
• 2 pieces adaptors to BNC for coax Base10 testing
• Display: 4 x 16 character dot-matrix LCD reading
• Carry pouch for meter and adaptors, etc.
• Requires: 4x 1.5V AA batteries (not included)

Code
CT8108

CABLES NOT INCLUDED
TELEPHONE/LAN CABLE TRACKER - CT81024

RJ45/RJ11/RJ12 CABLE TESTER

Probe tool for finding and testing telephone and network cables. Scanning allows users to plug a cable transmitter and the receiver will sound an alert as you move closer to the cable. The test mode (LAN only) can be used for shorts and cross testing by injecting at one end of the cable and indicating at the receiver with the LED indicator. Includes carry case, 1x 12cm RJ11 cable, 1x 12cm RJ45 cable, 1x RJ11 to crocodile clamps, batteries, earphone.

Code
CT81024

TELEPHONE/LAN CABLE TRACKER - CT81025

INCLUDES RJ45 TO BNC FOR TESTING COAXIAL CABLE

Probe tool for finding and testing telephone and network cables. Plug a cable transmitter and the receiver will sound as you move closer to the cable. The test mode (LAN only) for shorts and cross testing by injecting at one end and indicating at the receiver with the LED indicator. The tester has a built-in RJ11 cable with alligator clips. It also includes a carry case, 1x 12cm RJ45 to coax cable, 1x 12cm RJ45 cable, 2x 9V batteries and earphone.

Code
CT81025

HDMI CABLE TESTER - CT81028

The compact HDMI cable tester is designed for checking and troubleshooting HDMI cables. Useful for checking for faults with cables or inwall installations. All pins tested base-unit to Base-unit, plus a cable tracer receiver for checking installed cables.

Code
CT81028

UNMANAGED NETWORK SWITCH WITH PoE - TP-LINK

ENTRY LEVEL UNMANAGED NETWORK SWITCH WITH PoE POWER

Easy and economical way to share data and network resources over the network. These switches are compatible with PoE or PoE+ that allow you to transmit power/data over one single cable to power remote devices such as APs, IP cameras and IP phones, etc. Easy To Use, no configuration required and outstanding performance. Great for expanding your home or office network.

MANAGED SMART NETWORK SWITCHES PoE - TP-LINK

EASY SMART & SMART SWITCH SERIES FOR ADVANCED NETWORK CONFIGURATION WITH PoE POWER

The TP-Link Easy Smart and Smart Series switches allow network administrators to configure and manage switch settings such as VLAN, QoS, PoE and a few L2 features like LAG, IGMP Snooping and Port Mirroring, etc. The Smart series also supports additional advanced functions such as ACL and Spanning Tree protocol etc. PoE or PoE+ compatible to power remote devices such as APs, IP cameras and IP phones, etc. Web interface management, Smart series also can be managed by Telnet, SSH and SNMP. Outstanding performance & reasonable price.

UNIFI SWITCH WITH PoE & SFP PORTS

Managed PoE+ Gigabit Switch with SFP

Build and expand your network with Ubiquiti Networks®
UniFi® Switch, part of the UniFi line of products. The UniFi
Switch is a fully managed, PoE+ Gigabit switch, delivering
robust performance and intelligent switching for growing
networks.

Available with 8, 16, 24 or 48 RJ45 Gigabit ports, the UniFi™
Switch delivers powerful performance, PoE+ support,
SFP add-on options and can be centrally configured and
monitored using the free UniFi Controller software.

SC	20Km	100M	Multimode	FVT-2201
SC	40Km	100M	Multimode	FVT-2401

RJ45 TO SC CONVERTER WITH PoE PD SUPPORT

The LevelOne FVT-0103TXFC Power-over-Ethernet converters can transfer data from 10/100BaseTX copper to fibre interfaces. These PoE converters are designed to receive data and power from PoE networks and then to refer data out through fibre connections. Compatible with IEEE802.3af standard. Support fibre connection at up to 2km.

Type	Distance	Speed	Mode	Code
SC	2km	100M	Multimode	FVT-0103TXFC

RJ45 TO SC CONVERTER WITH PoE PS SUPPORT

The LevelOne FVT-0203TXFC 100TX to 100FX Multimode SC converter with PoE injector combines data received over fibre connection with 48VDC electrical power to provide power to remote PoE devices over an existing standard Ethernet unshielded twisted pair cable. Support fibre connection at up to 2km.

Type	Distance	Speed	Mode	Code
SC	2km	100M	Multimode	FVT-0203TXFC

RJ45 TO SC MANAGED MEDIA CONVERTER

SUPPORTS WEB BASED & SNMP REMOTE MANAGEMENT

GVM-1220 is a managed Gigabit Ethernet fibre media converter with OAM functions. It can convert Ethernet signal between 10/100/1000Base-T and 1000Base-X, It supports both half-duplex and full-duplex operations and a variety of fibre options. It is double fibre, single mode, 20km media converter.

Type	Distance	Speed	Mode	Code
SC	20km	1000M	Single mode	GVM-1220

RJ45 TO ST CONVERTER

ST MULTIMODE TX/FX

Convert fibre optics to RJ45 Fast Ethernet Multi-Mode 2Km max. 802.3u 100Base-TX/FX Full/Half Duplex modes

Type	Distance	Speed	Mode	Code
ST	2Km	100M	Multimode	FVT-2002

RJ45 TO SFP MEDIA CONVERTER TP-LINK

EXTENDS FIBRE DISTANCE FOR MULTI-MODE FIBRE OR SINGLE-MODE FIBRE

1000Mbps RJ45 to 1000Mbps SFP slot supporting MiniGBIC modules, switching power adaptor, chassis TL-MC1400 rack-mountable

Code
MC220L

RJ45 TO SFP CONVERTER

SFP TRANSCEIVER FULL DUPLEX

1000 Base-T RJ45 to SFP fibre interface. SFP slot supports pluggable Gigabit optical transceivers.

RJ45 to SFP Converter	1000M	GVT-2000
RJ45 to SFP Converter with PD	1000M	GVT-2010
RJ45 to 2x SFP Converter	1000M	GVT-2011

INDUSTRIAL RJ45 TO SC CONVERTER

The LevelOne Industrial Fast Ethernet media converter features is used for convert transferring data from 10/100Base-TX copper to single of multimode SC fibre interfaces. It has a IP30 ingress protection case and is designed to be mounted on an industrial standard DIN-rail, plus the clearly visible status LEDs provide simple monitoring of port link activity.

Type	Distance	Speed	Mode	Code
SC	2km	100M	Multimode	IEC-1100
SC	20km	100M	Single mode	IEC-1120
SC	40km	100M	Single mode	IEC-1140

INDUSTRIAL RJ45 TO SC CONVERTER

LevelOne IEC-4001 is an industrial Fast Ethernet media converter for transferring data from 10/100Base-TX copper to fibre interfaces. It supports Single mode or Multi-mode fibre with SC connector depends on model. It features a rugged aluminium case, and Link fault pass through for alerting remote location when link status changes. Mountable on an industrial standard DIN-rail or wall mount.

Type	Distance	Speed	Mode	Code
SC	2km	100M	Multimode	IEC-4001
SC	30km	100M	Single mode	IEC-4301

Type	Distance	Speed	Mode	Code
ST	2km	100M	Multimode	IEC-4002

4 PORT 100M ETHERNET SWITCH WITH SC FIBRE

LevelOne FEU-0511 is a 4-port 10/100Mbps + 1x 100BaseFX Fast Ethernet Switch that is designed for small or medium network environment to strengthen its network connection.

Type	Speed	Code
SC	100M	FEU-0511

☐ SFP+ Cables

DIRECT ATTACH SFP+ CABLE TP-LINK

Direct attach SFP+ cable with SFP+ connector on both sides. Suits 10 Gigabit ethernet connections, Available in 1m and 3m models.

Length	Code

☐ Ethernet Over 2 Wires

ETHERNET OVER VDSL2 CONVERTER

The VDS-0110 and VDS-0111, a line power pair of VDSL2 (Very high-bit-rate Digital Subscriber Line) converters, providing a broadband transmission up to 100/60Mbps downstream/upstream data rate over single pair copper line for point-to-point Ethernet connectivity. With 100/60Mbps data rate, VDS-0110/-0111 supports transmission distance up to 350m for line power connections.

VDS-0110

VDS-0111

Type	Distance	Code
Sender	350M	VDS-0110
Receiver	350M	VDS-0111

ETHERNET OVER VDSL2 CONVERTER (PSE)

VDS-0120 is an Ethernet to VDSL media converter as well as a PSE. In addition to sending data over an RJ-11 cable up to 300 metres, it can also send both power and data using the local RJ-45 port. This added functionality puts the most flexible deployment solutions right at the System Installers fingertips.

Using VDSL technology, VDS-0120 allows users to achieve 100 Mbps download and 60 Mbps upload speeds for up to 300 metres. A great point-to-point networking solution for even the most bandwidth-hungry applications. With easy plug and play installation, SIs will have no problem using these simple yet powerful devices on their next project.

Type	Code
PSE	VDS-0120

ETHERNET OVER VDSL2 CONVERTER (PD)

The VDS-0130, a VDSL2 (Very high-bit-rate Digital Subscriber Line) PoE LAN Extender, provides a broadband transmission up to 100/60Mbps downstream/upstream data rate over single pair copper line for point-to-point Ethernet connectivity. With 100/60Mbps data rate, VDS-0130 supports transmission distance up to 300m and 30/10Mbps for 1km long range connections. Users may also select a fixed data rate or a fixed SNR margin for different copper line ranging. With Power over Ethernet (PoE) feature, VDS-0130 receives power over an Ethernet cable from a central Ethernet Power Source Switch and works without external power adaptor. Plug-and-play features a minimum installation time, each VDS-0130 can be configured into either CO for central side or RT for remote side by dip switch setting.

Type	Code
PD	VDS-0130

ETHERNET OVER VDSL2 CONVERTER (BNC)

The LevelOne VDS-0202 converts your data from Ethernet to VDSL, making it easy to send high bandwidth data over long distances. This new technology uses traditional coaxial cable instead of expensive Cat.5 cables.

Users can transmit data up to 400 metres without having to add expensive Ethernet switches or cables to extend the network reach. And you can get speed up to 100Mbps downstream and 60Mbps upstream. This product is suitable for networks that utilise coaxial cables for the Digital Subscriber line.

Code
VDS-0202
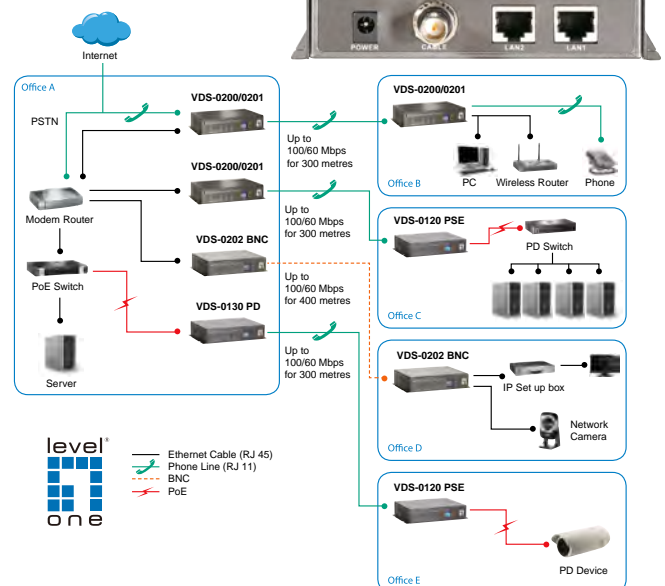

PoE REPEATER OVER 2 WIRE LEVEL1

400 METRES PoE TRANSMITTER

Two wire cables are used to connect 100Mbps fast ethernet PoE devices using 24AWG RJ11 PoE supples power required.

Code
POT-0100

400 METRES PoE RECEIVER

Accepts two wire transmission from POT0100 two wire sender. Outputs CAT.5 to PoE devices.

Code
POT-0110

☐ PoE Injectors

PoE INJECTOR TP-LINK

15.4W POWER

Up to 15.4W of PoE power.
Complies with IEEE 802.3af
Powers up to 100 metres
Throughput 100Mbps data
Includes 48V power pack.

Power	Code
15.4W	TL-POE150S

PoE INJECTOR HIGH POWER LEVEL1

SINGLE PORT 40W POWER

Up to 56W of PoE power.
Complies with IEEE
802.3af PoE
Auto detect and protected.
Supports 100Mbps input
& output.

Power	Code
56W	POI-4000

GIGABIT POE+ INJECTOR - EDIMAX PRO

IEEE 802.3at COMPLIANT

Up to 30W of PoE power.
Complies with IEEE 802.3af/at
Delivers power and data to
PoE devices up to 100 metres
over a single Ethernet cable.
Supports 1000Mbps.

Power	Code
30W	GP101IT

PoE SWITCH 12 PORT LEVEL1

UP TO 30W POWER EACH PORT

Total PoE power budget:
375W, up to 30W per port
Supports IEEE 802.3af or
Legacy PoE
Protection OVP/OCP

Power	Code
375W	POH-1260

PoE INJECTOR LEVEL1

SINGLE PORT POWER
15.4W or 30W of PoE power.
IEEE 802.3af or Legacy PoE
Auto detect and protected.

PoE INJECTOR 100MB

INDUSTRIAL GIGABIT POE+ INJECTOR - LEVEL1

The LevelOne IGP-0101 is rugged designed
30 Watts, high power Single port industrial
POE Injector is equipped with our high
efficiency ColdDesign technology to provide
30 Watts power to your security equipment.
The ColdDesign technology will not only
power up your PD device, also reduce the
excessive heat problem to a minimum. It
accepts the input voltage from 48~56 VDC to
deliver 30Watts power to meet IEEE 802.3af/at
standard. It is being rigorously tested for your
Security, Transportation and Telco application.

Power	Code
36W	IGP-0101

GIGABIT POE+ INJECTOR 60W - LEVEL1

IEEE 802.3at COMPLIANT

Up to 60W of PoE power.
Complies with IEEE 802.3af/at
Delivers power and data to PoE
devices up to 100 metres over an
Ethernet cable.
Supports 1000Mbps.
Suits remote power for PTZ IP
cameras, lighting, digital signage, etc.

Power	Code
60W	POI-5001

☐ PoE Splitters

PoE RECEIVER TP-LINK

5V/9V/12Vdc + ETHERNET

Extracts power from PoE line.
Switch 5V(2A), 9V(1A) or 12V(1A)
Available via 2.1mm DC Socket
Outputs Fast Ethernet 100Mbps
Complies with IEEE 802.3af
REQUIRES PoE INJECTOR

Power	Code
15.4W	TL-POE10R

GIGABIT POE+ SPLITTER

ADJUSTABLE POWER OUTPUT TO SUIT DIFFERENT EQUIPMENT

Splits a PoE connection into
separate power and Gigabit
data connections.
Adjustable slide switch for
either 5V/2A, 9V/2A or 12V/2A
DC output power.
Available via 1.35mm or
2.1mm DC Socket.
Supports IEEE 802.11af/at &
Gigabit data output.

Code
GP-101ST

PoE SPLITTER - LEVEL1

100M DATA OUTPUT

Power from PoE up to 15.4W
5V/9V/12Vdc power output
IEEE 802.3af 100BASE-TX
Direct to device solution.
Includes DC plug kit.

Power	Code
12W	POS-1002

1000M DATA OUTPUT

Power from PoE up to 25W
5V/9V/12Vdc power output
IEEE 802.3af 1000BASE-TX
Direct to device solution.
Includes DC plug kit.

Power	Code
25W	POS-3000

PoE INJECTOR AND SPLITTER KIT TP-LINK

SENDER-RECEIVER PAIR

Switch between 5V, 9V or 12Vdc
Send power up to 100 Metres
Includes 48V 500mA power pack
Transmits via 100Mbps ethernet

Power	Code
15.4W	TL-POE200

☐ PoE Extenders

PoE REPEATER LEVEL1

PoE REPEATER 1 PORT OUTPUT

This PoE repeater is used to extend PoE
connection for another 100 metres. It
has 1 built-in PoE ports to forward power
to remote devices. This PoE repeater
receives all power from the Power
Sending Equipment (PSE), for example,
a PoE switch. so it does not need an
external power adpator, making it an ideal
component for system integrators looking
to increase the distance of the attached
devices. Compatible with IEEE 802.3af.

Code
POR-0100

GIGABIT POE+ EXTENDER

GP-101ET PoE+ extender is the
perfect accessory for increasing
your network connection by up
to 100 metres more. The 1-Port
Gigabit PoE+ extender with plug
and play installation can extend
your network for a PD (Powered
Device) such as WLAN access
points, network cameras, IP phones
and others, with Gigabit high-speed
for greater deployment flexibility.

Code
GP-101ET

PoE REPEATER LEVEL1

PoE REPEATER 2 PORT OUTPUT

This PoE repeater is used to extend PoE
connection for another 100 metres. It
has 2 built-in PoE ports to forward power
to remote devices. This PoE repeater
receives all power from the Power
Sending Equipment (PSE), for example,
a PoE switch. so it does not need an
external power adpator, making it an ideal
component for system integrators looking
to increase the distance of the attached
devices. Compatible with IEEE 802.3af.

Code
POR-0102

PoE REPEATER OUTDOOR LEVEL1

EXTENDS BEYOND 100 METRES

No power required for this device.
Extends existing PoE further.
Weather proof housing IP66.

☐ Powerline

POWERLINE TP-LINK

Powerline products turn the electrical wiring of a home into network cables and transmit signals to every room. You can form a Powerline network wherever there are power outlets, eliminating the need for expensive and complicated Ethernet cables.

To form a basic Powerline network, you need at least two Powerline devices, whether wired or wireless ones. Different combinations of Powerline products help create a stable and unified network throughout your house.

AV600 POWERLINE KIT TP-LINK

AC SOCKETS ARE FILTERED

AV600 Powerline Adaptor with AC Pass Through Starter Kit, 500Mbps Powerline Data Rate, 1x Fast Ethernet port, HomePlug AV, Green Powerline, Plug and Play, Twin Pack

Code
TL-PA4010PKIT

AV600 POWERLINE KIT TP-LINK

HIGH SPEED UP TO 600MBPS NETWORKING BETWEEN ADAPTORS

AV500 Nano Powerline Adaptor Starter Kit, Ultra Compact Size, 500Mbps Powerline Data Rate, 1 Fast Ethernet port, HomePlug AV, Green Powerline, Plug and Play, Twin Pack

Code
TL-PA411KIT

AV600 POWERLINE KIT WITH WIFI TP-LINK

CREATE A NEW WIFI HOT-SPOT

Up to 600Mbps high speed data transmission over your home's existing electrical wiring. Also extending 300Mbps wireless connections to previously hard-to-reach areas of your home and office. Two Ethernet ports. Wi-Fi Clone Button simplifies your a secure configuration.

Code
TL-WPA4220KT

AV500 POWERLINE KIT NETCOMM

Transform your existing electrical wiring into a network capable of transmitting data at super-fast 500Mbps between the adaptors and create an instant access point for bandwidth-intensive activities such as HD-TV, online gaming, multimedia and video streaming with plug and play simplicity. The AC filtered pass-through socket reduces noise interference.

Code
NP511

NetCommWireless

AV2000 POWERLINE KIT TP-LINK

Gigabit Passthrough Powerline Kit. 2000Mbps Powerline Data Rate. 2x2 MIMO. 2 Output Gigabit Ethernet ports. Plug and Play. Twin Pack.

Code
TL-PA9020P-KIT

AV1300 POWERLINE KIT WITH HUB TP-LINK

3 OUTPUT GIGABIT PORT

AV1300 Passthrough Powerline KIT, Qualcomm, 3 Gigabit Ports, 1300Mbps Powerline, 2*2 MIMO, HomePlug AV2, New PLC Utility, Twin Pack.

TL-PA8033PKIT

AV1300 POWERLINE KIT WITH WIFI TP-LINK

WITH AC1350 WIFI + AC PASS THROUGH

AV1200 Gigabit Passthrough Powerline ac Wi-Fi KIT, 1200Mbps Powerline Data Rate to 3x out 1Gbps ethernet ports, 2*2 MIMO, AC1200 Dual Band Wireless Data Rate, 867Mbps at 5GHz + 300Mbps at 2.4GHz. Twin Pack (TL-PA8010P & TL-WPA8630P)

Code
TL-WPA8630PKIT

AV1300 AV2 POWERLINE EXTENDER TP-LINK

WORKS AS AN ADDITION TO THE KIT

AV1200 Gigabit Passthrough Powerline ac Wi-Fi extender, 1200Mbps Powerline to 3x out 1Gbps ethernet ports, AC1200 Dual Band Wireless Data Rate, 5GHz/2.4GHz, single receiver works as an addition to the WPA8630PKIT pair.

Code
TL-WPA8630P

AV1200 POWERLINE KIT NETCOMM

NetComm's new 1.2Gbps powerline kit (NP1201) allows you to use your home's internal wiring as a computer network to transfer data to any location in the house at high speed. It allows you to create a powerful home network with the speed and capacity to handle bandwidth hungry applications such as streaming high definition videos, gaming, cloud computing and so on. The compact powerline adaptors are easily concealed behind furniture and feature built-in AC pass-through to free up the power points for other uses. Easy to setup, plug and play.

Code
NP1201

NetCommWireless

□ WiFi Range Extenders

300M WIFI RANGE EXTENDER TP-LINK

2.4GHZ ACCESS POINT OR EXTENDER

Simply plug into an AC socket to receive and boost your WiFi to extend, or connect Ethernet via RJ45 input to provide a WiFi access point. Signal reception strength indicator for easy location.

Speed	Code

☐ Wireless Access Points Long Range

WIFI ACCESS POINT OUTDOOR PoE LEVEL1

150MBPS WITH N-TYPE CONNECTOR
PoE Ethernet RJ45 Input.
IP55 weather resistant. IEEE
802.11 b/g/n. 150Mbps.

Speed	Code
150Mbps	WAB-6120

WIFI ACCESS POINT BASE STATION TP-LINK

300MBPS - REQUIRES EXTERNAL ANTENNAS
Cost effective solution for outdoor wireless
networking applications with centralised
management application, it is ideal for
point-to-point, point-to-multipoint and
outdoor Wi-Fi coverage applications.

Speed	Freq.	Code
300Mbps	5GHz	TL-WBS510

WIFI ACCESS POINT PoE 2.4GHZ / 5GHZ TP-LINK

2x2 MIMO DIRECTIONAL 300MBPS
Cost effective solution for outdoor wireless
networking applications with centralized
management application, it is ideal for
point-to-point, point-to-multipoint and
outdoor Wi-Fi coverage applications.

Freq.	Gain	Tx.	Code
2.4GHz	9dBi	½W 27dBm	TL-CPE210
2.4GHz	13dBi	1W 30dBm	TL-CPE220
5GHz	13dBi	¼W 23dBm	TL-CPE510

5GHZ 23dBi N 300MBPS OUTDOOR CPE

2×2 MIMO 300MBPS MAXtream TDMA UP TO 30KM
Outdoor 5GHz 300Mbps Wireless CPE,
30+ km, IP65 Weather proof, 1 FE
Ports, Passive PoE, support TDMA and
centralised management, AP Router/
WISP Client Router/AP/AP Client/
Repeater/Bridge mode.

Speed	300Mbps
Freq.	5Ghz
Gain	23dBi
Tx.	27dBm
Code	TL-CPE610

□ Wireless Access Points Ubiquiti

UBIQUITI UNIFI CONTROLLER CLOUD KEY GEN2

Manage your UniFi network with the new, more powerful UniFi Cloud Key G2. Configure up to 50 UniFi devices in your network in minutes with Bluetooth setup from the UniFi mobile applications. The new front panel display shows important network status information at a glance. Powered by 802.3af PoE or USB-C. A built-in battery provides protection against power loss.

Code
UCK-G2

UBIQUITI UNIFI CONTROLLER CLOUD KEY GEN2 PLUS

The UniFi Cloud Key Gen2 Plus is fully capable of configuring and managing dozens of UniFi devices and camera surveillance system on your network, and offers an ultra-low energy PoE replacement for a dedicated server or computer, with virtually no digital footprint. Setup via mobile app through Bluetooth, powered by 802.3af PoE or USB-C, built in Battery for automatic safe shutdown. Front panel display for at-a-glance system details. Includes software and a bonus 1TB hard disk! Compact 130x135x27mm

Code
UCK-G2-PLUS

UBIQUITI UniFi CONTROLLER CLOUD KEY

The UniFi Cloud Key is an integrated computer and software controller in a compact package. It features a quad-core processor with 2 GB RAM, operating the latest version of the UniFi Controller with built-in hybrid cloud technology. The UniFi Cloud Key is fully capable of configuring, monitoring and managing dozens of UniFi devices in your deployment. Replacing a dedicated server or computer, the UniFi Cloud Key is an ultra-low energy solution with virtually no footprint. The Ubiquiti® hybrid cloud technology allows you to access all of your UniFi deployments from anywhere in the world. Powered by 802.3af PoE or 5V 1A USB-C.

Code
UC-CK

CLOUD KEY GEN2/GEN2 PLUS RACK MOUNT KIT

Mount your CloudKey G2 or CloudKey G2 Plus into a 19" rack with the Cloud Key G2 Rack Mount Accessory. The Cloud Key G2 and Cloud Key G2 Plus lock securely into the back of the Rack Mount Accessory for a clean and secure installation. The Cloud Key front panel display, RJ45 ethernet connector, reset button, and status LED are exposed on the front panel for easy access.

Code
CKG2-RM

UBIQUITI UNIFI ENTERPRISE GATEWAY ROUTER

WITH GIGABIT ETHERNET

The UniFi Security Gateway combines advanced security features with high performance routing technology in a compact and cost effective unit. Capable of routing up to 1 million packets per second, the UniFi Security Gateway can be easily configured through the intuitive UniFi Controller software, which also manages the UniFi Access Points for wireless networking. Protect your network and data with advanced firewall policies, VLAN support, top QoS priority and more.

Code
USG

UBIQUITI UNIFI ENTERPRISE GATEWAY ROUTER

WITH GIGABIT ETHERNET / SFP COMBO PORTS

The UniFi Security Gateway Pro (USG-PRO-4) extends the UniFi Enterprise System to encompass routing and security for your network. It combines reliable security features with high-performance routing technology in a cost-effective unit. The USG-PRO-4 has a rack-mountable form factor with fibre connectivity options and a dual-core, 1 GHz processor for maximum hardware-accelerated performance.

Code
USG-PRO-4

UBIQUITI UNIFI APs

Ubiquiti UniFi® is the revolutionary Wi-Fi system that combines enterprise performance, unlimited scalability, and a central management controller. UniFi 802.11AC Dual-Radio Access Points (APs) have a refined industrial design and can be easily installed using the included mounting hardware.

Use the UniFi Controller software to quickly configure and administer an enterprise Wi-Fi network – no special training required. RF map and performance features, real-time status, automatic UAP device detection, and advanced security options are all seamlessly integrated.

□ TP-Link EAP Software Control Series

TP-LINK EAP SOFTWARE CONTROL SERIES

The TP-LINK's EAP Series software control access points allows businesses to build reliable, cost-effective wireless networks that drive progress and keep customers happy. The EAP Series Wi-Fi Solution incorporates EAP Series hardware, which provides a smooth, reliable wireless internet experience, and a free, powerful and centralised management platform, EAP Controller. The program enables the administrators to simultaneously manage hundreds of EAPs from any PC on the network. This control even extends to APs that are located in different branches and cities, allowing them to be managed via an Internet connection.

OMADA CLOUD CONTROLLER TP-LINK

The Omada Controller TL-OC200 allows network administrators to remotely monitor and manage the entire Omada WIFI networks. It allows statistics monitoring in real-time, view a graphical analysis of network traffic, create a captive portal, upgrade and reboot your system, and easily scale your network to boost your business. Multi-Site management, Auto backup. Omada App for a convenient management.

Code
TL-OC200

WIFI WALL-PLATE ACCESS POINT AC1200

The TP-LINK EAP225 Wall is a AC1200 Dual Band wireless wall mount access point with 300Mbps at 2.4GHz and 867Mbps at 5GHz. 802.11a/b/g/n/ac compatible. It has 4x 100M LAN ports (1x uplink, 3x downlink, 1x downlink is compatible with 802.3af/at PoE+). This access point supports features such as centralised management, MU-load balance, rate limit, captive portal and more. 2x Dual-band antennas. Includes mounting screw for wall mounting.

Speed	Code
AC1200	TL-EAP225W

WIFI ACCESS POINT 300MBPS OUTDOOR TP-LINK

TP-LINK 2.4GHZ 300M

300Mbps Wireless N Outdoor Access Point, 300Mbps at 2.4GHz, 1x 100Mbps LAN, Passive PoE, Supports centralised management, Captive portal, Multi-SSID, 5dBi external omni antennas, Pole/Wall Mounting

Speed	Code
300Mbps	TL-EAP110O

WIFI OUTDOOR ACCESS POINT AC1200 MU-MIMO

TP-LINK 2.4GHZ + 5GHZ MU-MIMO

AC1200 Wireless Dual Band Gigabit Outdoor Access Point, 2.4GHz + 5GHz, Gigabit LAN, PoE, MU-MIMO, 2 Detachable Dual-Band (5GHz 4dBi & 2.4GHz 3dBi) IPX5 Dustproof/Weatherproof, Pole/Wall Mounting.

Speed	Code
AC1200	TL-EAP225O

WIFI CEILING ACCESS POINT 300MBPS TP-LINK

300Mbps Wireless N Ceiling Mount Access Point, Qualcomm, 300Mbps at 2.4GHz, 802.11b/g/n, 1 10/100Mbps LAN. Supports Passive PoE, Centralised management, Captive Portal, Multi-SSID, 2 internal antennas, Ceiling/Wall Mount

Speed	Code
300Mbps	TL-EAP110

WIFI CEILING ACCESS POINT 300MBPS TP-LINK

300Mbps Wireless N Ceiling Mount Access Point, Qualcomm, 300Mbps at 2.4GHz, 802.11b/g/n, 1 10/100Mbps LAN. Supports 802.3af PoE, Centralised Management, Captive Portal, Multi-SSID, 2 internal antennas, Ceiling/Wall Mount

Speed	Code
300Mbps	TL-EAP115

PoE

WIFI CEILING ACCESS POINT AC1350 DUAL BAND

The TP-LINK EAP225 is a AC1350 Dual Band wireless ceiling mount access point with 450Mbps at 2.4GHz and 867Mbps at 5GHz. 802.11a/b/g/n/ac compatible. It has 1x Gigabit LAN that is compatible with 802.3af PoE amd Passive PoE. This access point supports features such as centralised management, MU-MIMO, airtime fairness, beamforming, band steering, load balance, rate limit, captive portal and more. 3x Dual-band antennas. Ceiling/Wall mounting kit included.

Speed	Code
AC1200	TL-EAP225

PoE

WIFI CEILING ACCESS POINT AC1750 DUAL BAND

The TP-LINK EAP245 is a AC1750 Dual Band wireless ceiling mount access point with 450Mbps at 2.4GHz and 1300Mbps at 5GHz. 802.11a/b/g/n/ac compatible. It has 1x Gigabit LAN that is compatible with 802.3at PoE and 48V passive PoE. This access point supports features such as centralised management, MU-MIMO, airtime fairness, beamforming, band steering, load balance, rate limit, captive portal and more. 3x Dual-band antennas. Ceiling/Wall mounting kit included.

□ WiFi Router Mesh

DECO M5 MESH WIFI ROUTERS AC1300 - TP-LINK

EXTENDABLE HOME-WIDE SEAMLESS WIFI COVERAGE

The Deco M5 router is a comprehensive whole-home Wi-Fi solution. Unlike an ordinary WiFi router, the main feature of the Deco M5 is its ability to pair up with other Deco M5 units (up to 10 units, sold separately) to create a mesh WiFi network that will provides seamless lag-free coverage for over 100 devices.

• AC1300 Dual band - 450Mbps 2.4GHz plus 867Mbps 5GHz band
• WiFi mesh routers integrate together to provide seamless coverage
• Robust parental controls - Manage content, control and access
• Firewall and encryption to safeguard your network
• 3-Year built-In Antivirus to protect all connected devices
• Monitors usage, blocked content and security threats
• Easy to setup your Deco M5 WiFi router(s) through the Deco App.
• Prioritise devices and applications for faster QoS performance
• Up to 10 Deco routers can be paired up in the same network

Pack of	Speed	Code

| Add new user profile | Easy to use content filter | Set time controls | Set QoS to prioritise certain types of data | Built-in anti-virus program |

AMPLIFI HIGH DENSITY WI-FI MESH SYSTEM WITH 2X HD EXTENDERS - UBIQUITI

The AmpliFi™ HD (High Density) whole home mesh Wifi system is designed to cover your entire home with a single Wi-Fi network, enabling seamless connectivity from room to room. The system is self-optimising to ensure you always have the best connection. The system includes the Amplifi HD router that features a single core CPU and provides maximum throughput speeds of up to 450Mbps on the 2.4GHz band and up to 1300Mbps on the 5GHz band. The router has a smart LCD screen to display wireless signal performance, 4x Gigabit Ethernet ports and a USB port for sharing network resource. This kit also includes 2x mesh points for maximising coverage and eliminating dead zones in your home with a range of up to 900m². A mobile App is available for iOS and Android™ platforms for instant setup and easy management.

AMPLIFI INSTANT WHOLE HOME MESH WIFI SYSTEM

The AmpliFi Instant Wi-Fi System features an AmpliFi Instant router and mesh point for extending the network. The router includes an easy-to-use touchscreen display, 1x Gigabit Ethernet port, a WAN port, an Ethernet cable, and one MeshPoint with an Ethernet port to maximise coverage and eliminate dead zones in your home.
The AmpliFi Instant Wi-Fi system provides superior coverage with a range of up to 370m² and quick setup for whole home coverage with seamless Wi-Fi. Easy App configuration can setup your system in only 2 minutes. You can add AmpliFi HD MeshPoints or AmpliFi HD Routers to ensure complete coverage.

☐ IoT Routers Mobile & Cellular

4G/LTE WIFI ROUTER - IoT

TELTONIKA RUT240

- LTE Cat 4 with speeds up to 150 Mbps
- Automatic switching to available Backup connection
- Wireless Access Point with Hotspot functionality
- Compact size, easy integration
- Digital Input/Output for remote monitoring and control
- Compatible with Teltonika Remote Management System

Code
RUT240-LTE

3G/4G/4GX DUAL SIM MODEM ROUTER - IoT

TELTONIKA RUT950

- LTE Cat 4 with speeds up to 150 Mbps
- Automatic switch to available backup connection
- Wireless Access Point with Hotspot functionality
- Dual SIM – significantly reduce roaming costs
- 4x Ethernet ports with VLAN functionality
- Compatible with Teltonika Remote Management System

Code
RUT950-LTE

3G/4G/4GX DUAL SIM MODEM ROUTER WITH I/O

TELTONIKA RUT955

- LTE Cat 4 with speeds up to 150 Mbps
- Dual SIM – significantly reduce roaming costs
- GNSS positioning with geofencing functionality
- RS232/RS485 serial communication interfaces
- Multiple Inputs/Outputs for remote monitoring and control
- Compatible with Teltonika Remote Management System

Code
RUT955-LTE

Includes 2 x LTE antennas, 2x WiFi antennas and 1x GNSS antenna

4G LTE-A CAT6 DUAL-SIM ROUTER - IoT

- LTE Cat 6 with speeds up to 300Mbps
- Gigabit Ethernet up to 1000Mbps
- Dual-SIM with auto Failover, Backup WAN and other SW features
- Multiple secure VPN services
- Easy to use, secure and feature rich OpenWrt based Operating System
- Teltonika Remote Management

TELTONIKA RUTX09

Code
RUTX09

VDSL2/ADSL2+ GATEWAY AC1600 WIFI WITH VoIP

NBN READY - DUAL BAND WIFI / 2x FXS / 4x 1000M LAN / USB

NetComm VDSL2/ADSL2+ wireless gateway is designed to provide access to ADSL networks, VDSL or NBN and UFB fibre network options: FTTN, FTTB, FTTH. WiFi (802.11 ac), 4x 1000M LAN ports, 2x VoIP phone ports and 1x USB port for media sharing.

Speed	Code
AC1600	NF18ACV

NetComm®

VDSL/ADSL MODEM ROUTER AC1600 WIFI TP-LINK

AC1600 Wireless Gigabit VDSL/ ADSL Modem Router, Broadcom CPU, 802.11ac/a/n/g/b, 1300Mbps at 5GHz + 300Mbps at 2.4GHz, 4 GE LAN Ports, 2 USB 2.0, 3 detachable antennas, Annex A, with VDSL splitter

Speed	Code
AC1600	ARCHERVR600

VDSL/ADSL MODEM ROUTER AC1600 WIFI + VoIP

TP-Link's VR600V is a DSL router with AC1600 WIFI and VoIP. Broadcom chipset. Compatible with 802.11ac/a/n/g/b standards. WIFI speed up to 1300Mbps at 5GHz + 300Mbps at 2.4GHz. Also includes 4x gigabit ethernet ports, 2x USB 2.0, 2x TAE, 3x detachable antennas, Annex B, DECT

Speed	Code
AC1600	TL-ARCHERVR600V

VoIP

VDSL/ADSL MODEM ROUTER + AC2100 WIFI

SUPPORTS THE LATEST VDSL2 PROFILE 35B STANDARD

VDSL2/VDSL/ADSL2+/ADSL2, featuring high broadband speeds of up to 350Mbps to the internet. It has 3x 1000M RJ45 LAN ports, 1x 1000M WAN/LAN port, 1x USB port and 2100M WiFi connections. Compatible with OneMesh, deploy mesh routers or range extenders.

Speed	Code
2100Mbps	TL-ARCHERVR2100

VDSL/ADSL MODEM ROUTER AC2800 WIFI TP-LINK

WITH 802.11AC WAVE 2 TECHNOLOGY

AC2800 Wireless MU-MIMO VDSL/ADSL Modem Router - Broadcom Solution - VDSL2 Profile 17a, G.Vector - 11AC 4x4 2167Mbps(MU-MIMO), 11N 3x3 600Mbps - 3 GE LAN+1GE WAN/ LAN -1 DSL+2 USB 3.0

Speed	Code
AC2800	ARCHERVR2800

☐ VDSL & ADSL Filters

ADSL2+ IN-LINE FILTER

ADSL POTS FILTER KIT

Filters ADSL signal from the ADSL line to your analogue phone. New high quality low pass 4 stage filter for cordless phones. RCIT.0004 ETSI/Telstra

Code
DSL002

ADSL2+ SPLITTER FILTER

DISTRIBUTION POINT

Ideal for wiring from first point. One filter for the whole house. Can be hard wired or use the modular connections.

Code
DSL0042+

MODE-3
With Alarm Mode3 Connection

Code
DSL019

ADSL2+ IN-LINE FILTER SPLITTER

MODEM & PHONE SHARE

Splits the ADSL line into one filtered RJ socket for the phone and one non-filtered RJ socket for the modem. 4 Stage filter. Approved. DECT cordless phones, etc.

Code
DSL008

VDSL2 IN-LINE FILTER - NETCOMM

Separating ADSL2+ / VDSL2 connections from the telephone line signal.

Code
EM1690B

VDSL2 CENTRAL FILTER - NETCOMM

Central filter installed at the gateway to a property to separate phone and VDSL2 data signal.

Code
EM1660B

VDSL2 INDOOR/OUTDOOR FILTER - NETCOMM

Weatherproof enclosure central filter installed at the gateway to separate phone and VDSL2 data signal

Code
EM1670B

☐ 4G External USB Modem Routers

3G/4G WIFI ACCESS POINT 300M

TP-LINK - REQUIRES USB MODEM

Compatible with LTE/HSUPA/HSDPA/UMTS/EVDO USB modems, tested in the field. 3G/4G and WAN connection "Failover" guarantees an "Always-online" Internet connection. Local WiFi access point with speeds up to 300Mbps. Easy one-touch wireless security encryption with the Quick Security Setup button. Detachable WiFi antannas 2.4Ghz.

Speed	Code
300Mbps	TL-MR3420

3G/4G WIFI ACCESS POINT 150M TP-LINK

REQUIRES USB DONGLE MODEM

Compatible with 120+ LTE/HSPA+/UMTS/EVDO 3G/4G USB modems. WAN port for failover. Switch between 3G/4G, WISP, AP. USB Powered.

Speed	Code
150Mbps	TL-MR3020

3G/4G WIFI ACCESS POINT AC750 TP-LINK

REQUIRES USB DONGLE MODEM

AC750 Dual Band Wireless Mini Pocket Router, Qualcomm, 2T2R (2.4GHz), 1T1R (5GHz), 433Mbps at 5GHz + 300Mbps at 2.4GHz, 802.11ac/a/b/g/n, 3G/4G supported, 1 10/100M WAN / LAN, 1 USB 2.0 port, 3 internal antennas

Speed	Code
AC750	TL-WR902AC

□ 4G & DSL Hybrid Modem Routers

HYBRID DSL / 4G LTE GATEWAY WITH VoIP

NETCOMM WIRELESS & WAN MODEM

The NetComm NL1901ACV Hybrid LTE/DSL wireless gateway is designed to provide access to ADSL networks, VDSL, NBN and UFB fibre network or the 4G LTE wireless network. You can configure 4G LTE as a backup connection in case the fixed line service is disrupted for reliable always on connectivity (Failover). It also features the newest generation of dual-band high-speed WiFi (802.11 ac) AC1600, 4x 1000M LAN ports, 2x VoIP phone ports and 1x USB port for media sharing. Detachable 4G antennas inc.

Speed	Code
AC1600	NL1901ACV

□ 4G Modem Router

4G LTE MODEM ROUTER D-LINK DWR921

- Share your 3G/4G LTE internet connection with up to 32 devices
- Two detachable 3G/4G antennas
- Requires 3G/4G SIM/UICC card
- Four 10/100 Ethernet LAN ports
- WAN port for optional external DSL modem (with failover)
- 802.11n/g/b wireless 300mbps
- Quality of Service (QoS) feature to optimise your network

WiFi	Code
300Mbps	DWR921

4G LTE MODEM ROUTER D-LINK DSL-2888A

VDSL2/ADSL2+ MODEM ROUTER AC1600 WIFI D-LINK

Integrated ADSL2+/VDSL2 Modem, share through AC1600 Wi-Fi or 4x 1000M LAN ports. Fully NBN compliant. VDSL modem. Plug in a USB storage drive.

WiFi	Code
AC1600	DSL-2888A

4G LTE MOBILE WIFI ROUTER TP-LINK

WITH BUILT-IN 8HR BATTERY, REQUIRES SIM CARD

150Mbps 4G LTE Mobile Wi-Fi, Qualcomm, LTE-FDD/LTE-TDD/DC-HSPA+/HSPA/UMTS, N300 Wi-Fi, internal 4G Modem, Standard SIM card slot, 2000mAh rechargeable battery, tpMiFi App

Speed	Code
150Mbps	TL-M7200

4G LTE-ADVANCED MOBILE WIFI - TP-LINK

WITH BUILT-IN 8HR BATTERY, REQUIRES SIM CARD

4G LTE Advanced Mobile Wi-Fi, internal 4G Modem, SIM card slot, 1.4 inch TFT screen display, 2550mAH rechargeable battery, micro SD card slot, LTE-FDD/DC-HSPA+/HSPA/UMTS/EDGE/GPRS/GSM, 300Mbps 2.4GHz/5GHz selectable Dual Band Wi-Fi

Speed	Code
300Mbps	M7350

4G MODEM WIFI ROUTER 300M - TP-LINK

WITH BUILT-IN 4G LTE MODEM

300Mbps Wireless N 4G LTE Router, build-in 4G LTE modem, support LTE (FDD/TDD)/DC-HSPA+/HSPA+/HSPA/UMTS/EDGE/GPRS/GSM, with 3x10/100Mbps LAN ports and 1x10/100Mbps LAN/WAN port, 300Mbps at 2.4GHz, 802.11b/g/n, 2 internal Wi-Fi antennas, 2 detachable LTE antennas.

Speed	Code
300Mbps	TL-MR6400

4G MODEM WIFI ROUTER AC750 TP-LINK

BUILT-IN 4G LTE MODEM

Dual Band 4G LTE Router, build-in 4G LTE modem, support LTE (FDD/TDD)/DC-HSPA+/HSPA+/HSPA/UMTS/EDGE/GPRS/GSM, with 3x 100Mbps LAN ports and 100Mbps LAN/WAN port, 300Mbps at 2.4GHz, 433Mbps at 5GHz, internal Wi-Fi antennas, 2 detachable LTE antennas.

Speed	Code
AC750	ARCHERMR200

4G MODEM WIFI ROUTER AC1200 - TP-LINK

WITH BUILT-IN 4G LTE MODEM

AC1200 Wireless Dual Band 4G LTE Router, build-in 4G LTE modem, support LTE-FDD/LTE-TDD/DC-HSPA+/HSPA+/HSPA/UMTS/EDGE/GPRS/GSM, with 3x 100Mbps LAN, 100Mbps LAN/WAN port, 2.4GHz, 5GHz, 802.11b/g/n/ac, 3 internal Wi-Fi antennas, 2 detachable LTE antennas,Tether App, Cloud support

Speed	Code
AC1200	ARCHERMR400

4G MODEM WIFI ROUTER AC1200 - TP-LINK

DUAL BAND 2GHz/5GHz WiFi

Supports 4G+ Cat6 to boost the data speeds of up to 300 Mbps* Full Gigabit Ports. Plug in a SIM card and play. Wi-Fi router mode with VLAN TAGGING supported. OneMesh compatible. 4G: FDD-LTE B5 (850MHz) / B28 (700MHz); 3G: B5 (850MHz)

Speed	Code
AC1200	TL-ARCHERMR600

CASIO ULTRA SHORT THROW PROJECTOR - LAMPFREE

INCLUDES WALL MOUNT BRACKET

Casio's Ultra Short Throw LampFree® projectors incorporate Laser & LED Technology to produce images of impressive brightness of 3500 lumens and contrast ratio of 20000:1, which enables it to project vivid and clear images even in a fully lighted room. Long lasting lifespan of up to 20,000 hours with reduced electricity consumption and no lamps or filters to replace. Ultra-Short Throw lens can project an image from just 50cm away. Includes a RJ45 networking port to connect to your LAN, An optional wireless adaptor (YW-40) is required to connect to a WiFi network.

LampFree DLP MADE IN JAPAN
GO LAMP FREE AND SAVE TEXAS INSTRUMENTS

• Short focus lens is capable of projecting a 60-inch screen image from a distance of just 13cm.
• The long life light source provides approximately 20000 hours of illumination.
• The dustproof design reduces degradation of luminance associated with accumulated dust.
• Adoption of the Laser & LED light source has decreased power consumption drastically compared to high pressure mercury lamps.

USB TYPE-C CHARGE CABLES - MAGNETIC TIP 3A

This 1 metre USB to facilitate data and charging. Cable features a unique removable connector tip which is designed to stay securely
housed within the charging port of your smartphone or tablet. And when charging, the magnets on the cable and the tip offer firm hold
to keep the cable and tip connected. This will protect your phone from the wear and tear of inserting and removing your charging cable.
This cable also features a LED power indicator. It supports up to 5V 3A of power for super fast charging experience.

• Data sync & charge cable 15W
• Quick attach magnetic tip
• Protect your phone from the wear and tear of every
  day inserting and removing your charging cable.
• 5V 3.0A fast charging
• 1.0M Nylon braided lead

PATA TO SATA

PATA-IDE MAINBOARD

Adapts an older PC Main-Board
with IDE To the new Serial ATA
Compact direct plug. Or inline
adaptor. Note. Only one device
per adaptor accepted.

Code
SATA134

CERAMICA - GENERAL PURPOSE FANS

Ball Raced Fans are Daichi, and Ceramic Bearing Fans are Ceramica.

• Ceramic bearings run more smoothly, are quieter than their metal ball raced equivalents and their life expectancy is increased by a factor of six!
• While the average life span of a ball bearing fan is 50,000 Hr a ceramic equivalent model has a 300,000 Hr life expectancy.
• Zirconia (or ceramic steel) offers the traditional ceramic benefits of hardness, wear resistance and corrosion resistance, without the typical characteristic ceramic property of absolute brittleness.
• An ideal solution has been formulated using Zirconia powder that can be injection molded for an economical manufacturing process.

Ceramic materials have come a long way since their discovery last century and the development costs have fallen dramatically due to special low cost techniques. New production developments have allowed Ceramica to develop a process of injection molding of ceramic sleeves using zirconia powder together with an adhesive to produce a very strong, flexible and durable ceramic sleeve that replaces the common plastic sleeve and/or metal bearing.
These new, cost effective ceramic bearings are claimed to be far superior to the conventional ball bearing and economical sleeve bearing types of fans, offering greater performance with less noise and a longer service life. So you can save money with confidence of a reliable product.

□ KVM Extender CAT5

KVM EXTENDER OVER CAT5 [150M]

REMOTE CONSOLE

ATEN CE700A is a USB & VGA KVM Extender with superior video quality that allows access to a computer system up to 150 metres away from a remote USB console (USB keyboard and USB mouse plus VGA Monitor) using a dedicated CAT5 cable (Not IP compatible).
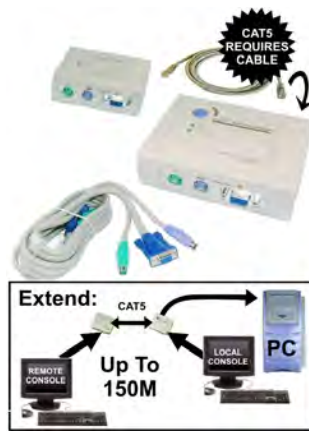

Code
KVM103

KVM EXTENDER CAT5 [150M]

CONNECT A REMOTE CONSOLE UP TO 150M AWAY VIA CAT5

Kit includes a Remote and a Local Unit, with leads. Local box also accepts a 2nd PS2 Mouse & keyboard and a VGA Monitor. Or, with the press of a button, you can use the remote monitor, mouse and keyboard to control the same computer. Easy wiring solution for protecting PCs from harsh environments, etc. Powerpacks & Leads Inc. Requires CAT5 cable to length.

Code
CE220

VGA/USB EXTENDER OVER CAT5 [180M]

- Extends up to 180M VGA and 2x USB.
- Supports USB1.0/1.1 keyboards & mouse.
- Supports USB boot protocol & hub.
- VGA resolution up to 1600x1200.
- Auto/Manual video quality adjustment.
- Support 3 hot key to combine other equipment.
- Kit supplied with Transmitter and receiver units
- Includes 2 sets of KVM Leads
- Includes 2x Power packs
- Requires CAT5 Cable

Code
KVM104

KVM EXTENDER USB OVER CAT5

SENDER & RECEIVER UNITS - VGA & USB UPTO 150M

- A single Cat.5 or above UTP cable replaces bulky KVM cables
- Locate Cat.5 console up to 150m away from the KVM switch with superior auto-adjust RGB signals capability
- Switch local PC or remote PC by push button or hotkey commands
- LED indicators for computer status or data transmission
- Work with PS/2 or USB computer
- Easy to install and use with plug-and play functionality
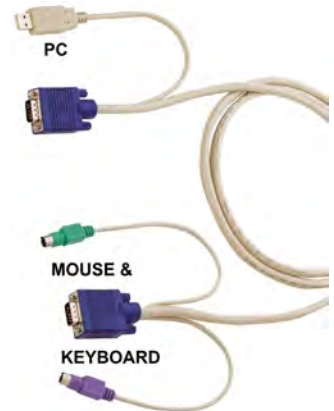

Code
KVM-9006

□ DVI Booster Repeaters

DVI REPEATER

EXTENSION BOOSTER w/ EQ.

HDCP

8dB Equalisation for compensating cable loss over extended runs up to around 20 Metres long. If put mid-way, you can achieve lengths of 40M. Not cascadeable due to eq. Reduce noise and Sparkles from HDTV picture quality UXGA 1080p max resolution. DDC & HDCP Pass-Thru. Includes 5V power pack or powered from cable. All DVI Female Sockets.

Code
CP269D

DVI 100M EXTENDER OVER TWIN CAT5

+AUDIO DIGITAL COAX & ANALOGUE STEREO 3.5mm

Transmitter and receiver sold separate. Premium Taiwanese quality. DVI over CAT5 extends signals up to 100. Transfer Full-HD image quality but also analog/digital audio signal with coaxial and 3.5mm. DDC return cable the device can also support HDCP and CEC.

Interface	Input	Output	Max Res.	Max.	Code
Transmitter	DVI	2x CAT5	1080P/UXGA	-	CA-DVIAT
Receiver	2x CAT5	DVI	1080P/UXGA	100M	CA-DVI100R

DVI OVER HDBaseT EXTENDER 1080P - CYPRESS

EXTEND DVI UP TO 60M - SENDER RECEIVER SOLD SEPARATE

Designed with HDBaseT technology for greater flexibility in custom installations with full DVI signal transfer over CAT5 cable up to 60M.

Type	Input	Output	Max Res.	Code
Transmitter	1x DVI	1x CAT5e/6/7	1080p	CDVI-513TXL
Receiver	1x CAT5e/6/7	1x DVI	1080p	CDVI-513RXL

DVI OVER HDBaseT EXTENDER 4K30 - CYPRESS

UP TO 100M WITH 2xLAN / IR / RS-232 / ANALOGUE AUDIO

The HDBaseT™ DVI over CAT5 up to 4K @ 30Hz with ethernet, IR and RS-232 up to 100 metres. Single power supply can power both units.

Type	Code
Transmitter	CDVI-1109TXC
Receiver	CDVI-1109RXC

□ DVI Splitters

DVI SPLITTERS FULL HD 165MHZ - CYPRESS

CYPRESS DVI-D DISTRIBUTION

It accepts DVI signal from a computer or video equipment and splits up to two, identical and buffered outputs. Each of the output can run up to 15 metres using standard DVI cable. It also supports a wide range of input resolution (25~165MHz) from VGA to UXGA. Can be cascaded up to 3 tiers.

Type	Code
2 Way	CDVI-2S
4 Way	CDVI4S
8 Way	CDVI-8S

DUAL-LINK DVI SPLITTERS 250MHZ - CYPRESS

The Dual-Link DVI splitter allows a single DVI-D signal to be split into multiple DVI outputs. Supports video resolutions up to WQXGA with Dual-Link DVI or WUXGA with Single-Link DVI. Built-in adaptive equalizer provides long cable support. Intelligent individual control of hot plug detection.

- Supports video resolutions up to WQXGA with Dual-Link DVI or WUXGA with Single-Link DVI
- Built-in adaptive equalizer provides long cable support
- Support EDID function
- Individual control of hot plug detect
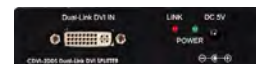

| Output	Code

□ HDMI Booster Repeater

HDMI REPEATER 50M

EXTENSION BOOSTER THROUGH

8dB Equalisation for compensating cable loss over extended runs up to 40 Metres, If put mid-way, you can achieve lengths of 50 Metres. Not cascadeable due to eq. Reduce noise and Sparkles from HDTV picture quality UXGA 1080p max resolution. DDC & HDCP Pass-Through. V1.2 Includes 5V power pack or powered from cable. HDMI Female Sockets.

Code
CP-1269HM

HDMI REPEATER 4K30 HDCP - CYPRESS

Amplifies and equalises the HDMI signal to provide high quality audio and video allowing you to extend the HDMI cable distance a further 15 metres each at 1080p/8-bit resolution or 10 metres each at 1080p/12-bit or 4K×2K resolution.

Max Res.	Code
4K @ 30Hz	CPRO-11SR

HDMI BOOSTER EXTENDER

HDMI V1.3 over 20 metres.

Description	HDMI Enhancer
Max.	6M/15M
Type	V1.3
Code	CS-HH

HDMI 4K UHD ENHANCER

This HDMI UHD Enhancer amplifies and equalizes the signal, providing high quality audio and video through an HDMI cable for distances up to 15 metres at Ultra HD resolution (4K2K@60Hz/YUV420). It can be cascaded up to 5 times (with additional power supply) and is capable of receiving and transmitting up to 9Gbps bandwidth rate with CDR (Clock Data Recovery), ensuring no loss of data. Powered by the HDMI output of suitability equipped source equipment or a HDMI Power Inserter can be used.

Code
CPRO-UHH

HDMI BOOSTERS BUILT-IN TO THE CABLE

SEE SECTION 01 AV TV SAT INSTALL

Now very popular with installers, a solution is to put the booster into the cable itself! ULTRA-HD 4K60Hz resolutions up to 30M NEW! Active Optical cables for up to 100M !

□ Serial RS 232

RS232 EXTENDER CAT5 - SMARTVIEW

UP TO 1KM

Full-Duplex data comm. Compatible with all RS232 protocols in either direction 230kbps data rate Up to 1000M (1Km!) Suit dumb-terminals, mouse, peripherals. Supplied with booster power packs and one 20cm Null-Modem lead.

Code
SMV301

UP TO 1000 M
CABLE NOT INCLUDED

RS232 OVER CAT5 - CYPRESS

UP TO 250 METRES

- Extends any compatible RS232 device up to 250 metres from the source to the display.
- Only one CAT5 cable.
- Perfect for digital signage.
- Simple and easy installation.
- Has a Baud Rate of: 110~921600.
- Data bit: 8 bit.

☐ Mobile Phone Cellular Reception Repeaters

CEL-FI GO - FULLY APPROVED CELLULAR PHONE SIGNAL REPEATERS FOR VEHICLES & BUILDINGS

SEE SECTION 06

XI GO
CEL-FI by NEXTIVITY™
Smart Signal Booster™

Nextivity's third generation Cel-Fi Repeater is a cost-effective and intelligent indoor or in-vehicle coverage solution for Telstra, Optus and Vodaphone networks operating on 3G and 4G bands. It is designed to dramatically boost indoor voice quality and increase data speeds for HSPA or LTE consumers.

The Cel-fi Repeater differs greatly from the standard indoor repeater due to its ability to not interfere with the mobile network or other users. Often referred to as a Smart Repeater, the Cel-Fi has the ability to provide maximum coverage, be network friendly and can be easily installed by the end user.

The Cel-Fi Repeater has been tested, authorised and approved by the network providers

ALDI | Telstra | boost mobile

OPTUS yes

vodafone

ALDI | boostmobile | iinet | Virgin Mobile
Other Providers
amaysim | iPRIMUS | dodo

Instant Mobile Coverage

Use your mobile when you need it. Clear and reliable 3G and 4G voice and internet. Mobile Signal boosted!

Large Coverage Area

Ideal for an office or average size home, Cel-Fi phone booster has one of the largest coverage areas of any consumer repeater.

Multiple Users

High capacity signal booster with more than enough coverage for an average size home or office.

Telstra, Optus, Vodafone Approved

Tested and approved for use on the Telstra, Optus & Vodafone Mobile Networks.

App Control

Wireless Bluetooth® enabled for PC, Android and iOS WAVE App control of various Cel-Fi settings & status.

Easy Setup

Cel-Fi signal booster automatically configures itself according to your environment making for a quick and easy setup.

Save Phone Battery

Make your mobile's battery last longer. The less your phone has to work to get signal, the less you need to charge..

Need Only 1 Bar

1 bar of 3G mobile signal at a window is all you need! Cel-Fi will do the rest and boost up your mobile signal.
