

HARMAN KARDON® SOUNDSTICKS® WIRELESS SPEAKER SYSTEM

Introducing the evolved, wireless offspring of the illustrious SoundSticks II speaker system, which is part of the permanent collection at NYC's Museum of Modern Art (MoMA).

Our stunning work of art is now wireless.

The Harman Kardon® SoundSticks® Wireless speaker system evolved from the SoundSticks II that now resides in the permanent collection of NYC's MoMA. Taking the inspired design of its elder, Harman Kardon engineers improved the aesthetic with slight visual enhancements, and added *Bluetooth*® technology for a more seamless listening experience. Featuring a six-inch subwoofer, eight full-range drivers and 40 watts of amplification, the SoundSticks Wireless delivers the same beautiful sound and pop-culture appeal as its predecessor, only now you can seamlessly stream audio from any of your favorite *Bluetooth*-enabled devices – be it your iPhone, iPad, laptop, tablet or MP3 player.
